#### FORWARD-LOOKING STATEMENTS

This Annual Report should be read in conjunction with the consolidated financial statements and accompanying notes included in this report.

Navios Maritime Holdings Inc. desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. This document and any other written or oral statements made by us or on our behalf may include forward-looking statements, which reflect our current views with respect to future events and financial performance. The words "may," "could," "should," "would," "expect," "plan," "anticipate," "intend," "forecast," "believe," "estimate," "predict," "propose," "potential," "continue" and similar expressions identify forward-looking statements.

Please note in this Annual Report, "we", "us", "our", the "Company" and "Navios Holdings" all refer to Navios Maritime Holdings Inc. and its subsidiaries.

The forward-looking statements in this document are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records, and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors and matters discussed elsewhere herein, important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies, fluctuations in currencies and interest rates, general market conditions, including fluctuations in charter hire rates and vessel values, changes in demand in the drybulk shipping industry, changes in the Company's operating expenses, including bunker prices, drydocking and insurance costs, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, and other important factors described from time to time in the reports filed by the Company with the Securities and Exchange Commission, or the SEC.

We undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events, except as required by law. New factors emerge from time to time, and it is not possible for us to predict all of these factors. Further, we cannot assess the impact of each such factor on our business or the extent to which any factor, or combination of factors, may cause actual results to be materially different from those contained in any forward-looking statement.

### Item 2. Offer Statistics and Expected Timetable

Not Applicable.

#### Item 3. Key Information

#### A. Selected Financial Data

Navios Holdings' selected historical financial information and operating results for the years ended December 31, 2013, 2012, 2011, 2010 and 2009 are derived from the consolidated financial statements of Navios Holdings. The consolidated statement of operations data for the years ended December 31, 2013, 2012 and 2011 and the consolidated balance sheet data as of December 31, 2013 and 2012 have been derived from our audited consolidated financial statements included elsewhere in this Annual Report. The consolidated statement of operations data for the years ended December 31, 2010 and 2009, and the balance sheet data as of December 31, 2011, 2010 and 2009, have been derived from our financial statements, which are not included in this document and are available at www.sec.gov. The selected consolidated financial data should be read in conjunction with "Item 5. Operating and Financial Review and Prospects", the consolidated financial statements, related notes and other financial information included elsewhere in this Annual Report. For revisions in selected historical financial information refer to footnote 2 of the consolidated financial statements, "Basis of Presentation."

4

(1) EBITDA represents net income plus interest and finance costs plus depreciation and amortization and income taxes. Adjusted EBITDA in this document represents EBITDA before stock based compensation. Navios Holdings believes that Adjusted EBITDA is a basis upon which liquidity can be assessed and represents useful information to investors regarding Navios Holdings' ability to service and/or incur indebtedness, pay capital expenditures, meet working capital requirements and pay dividends. Navios Holdings also believes that Adjusted EBITDA is used (i) by prospective and current lessors as well as potential lenders to evaluate potential transactions; and (ii) to evaluate and price potential acquisition candidates.

Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation or as a substitute for the analysis of Navios Holdings' results as reported under U.S. GAAP. Some of these limitations are: (i) Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital needs; and (ii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future. Adjusted EBITDA does not reflect any cash requirements for such capital expenditures. Because of these limitations, Adjusted EBITDA should not be considered as a principal indicator of Navios Holdings' performance. Furthermore, our calculation of Adjusted EBITDA may not be comparable to that reported by other companies due to differences in methods of calculation.

The following table reconciles net cash provided by operating activities, as reflected in the consolidated statements of cash flows, to Adjusted EBITDA:

#### Adjusted EBITDA Reconciliation from Cash from Operations

#### **B.** Capitalization and Indebtedness

Not applicable.

#### C. Reasons for the Offer and Use of Proceeds

Not applicable.

#### D. Risk Factors

Some of the following risks relate principally to the industry in which we operate and our business in general. Other risks relate principally to the securities market and ownership of our common stock. You should carefully consider each of the following risks together with the other information incorporated into this Annual Report when evaluating the Company's business and its prospect. The risks and uncertainties described below are not the only ones the Company faces. Additional risks and uncertainties not presently known to the Company or that the Company currently considers immaterial may also impair the Company's business operations. If any of the following risks relating to our business and operations actually occur, our business, financial condition and results of operations could be materially and adversely affected and in that case, the trading price of our common stock could decline, and you could lose all or part of your investment.

#### Risks Associated with the Shipping Industry and Our Container and Drybulk Operations

The cyclical nature of the international container and drybulk shipping industry may lead to decreases in charter rates and lower vessel values, which could adversely affect our results of operations and financial condition.

The shipping business, including the dry cargo market, is cyclical in varying degrees, experiencing severe fluctuations in charter rates, profitability and, consequently, vessel values. For example, during the period from January 1, 2012 to December 31, 2013, the Baltic Exchange's Panamax time charter average daily rates experienced a low of \$3,336 and a high of \$16,728. Additionally, during the period from January 1, 2012 to December 31, 2013, the Baltic Exchange's Capesize time charter average daily rates experienced a low of \$2,644 and a high of \$42,211 and the Baltic Exchange Dry Index experienced a low of 647 points and a high of 2,337 points. Navios Holdings anticipates that the future demand for its drybulk carriers and drybulk charter rates will be dependent upon demand for imported commodities, economic growth in the emerging markets, including the Asia Pacific region, India, Brazil and Russia, and in the rest of the world, seasonal and regional changes in demand and changes to the capacity of the world fleet. Recent adverse economic, political, social or other developments can decrease demand and prospects for growth in

the shipping industry and thereby could reduce revenue significantly. The market supply of drybulk carriers has been increasing, as the number of drybulk carriers on order was recently near historic highs. These newbuildings were delivered in significant numbers starting at the beginning of 2006 and continued to be delivered in significant numbers through 2012. Newbuilding deliveries slowed throughout 2013. While vessel supply will continue to be affected by the delivery of new vessels and the removal of vessels from the global fleet, either through scrapping or accidental losses, an over-supply of drybulk carrier capacity could exacerbate the recent decrease in charter rates or prolong the period during which low charter rates prevail. Continuous declines in demand for commodities transported in drybulk carriers or an increase in supply of drybulk vessels could cause a further decline in charter rates, which could materially adversely affect our results of operations and financial condition. If we sell a vessel at a time when the market value of our vessels has fallen, the sale may be at less than the vessel's carrying amount, resulting in a loss.

Demand for container shipments declined significantly from 2008 to 2009 in the aftermath of the global financial crisis but has increased each year from 2010 to 2013. From 2009 to 2010, there was improvement on the Far East-to-Europe and Trans-Pacific Eastbound container trade lanes, alongside improvements on other, non-main lane, trade routes including certain intra-Asia and North-South trade routes. However, Trans-Pacific Eastbound trade lane growth was less than 1% per year in 2010 and 2011, while the Far East-to-Europe trade was positive in 2011 but turned negative in 2012 due to the impact of the continuing European sovereign debt crisis and global economic slowdown, as well as uncertainty regarding the resolution of the budget ceiling and budgetary cuts in the United States. In 2013, worldwide trade volumes increased, but containership supply continued to exceed demand during the year as more large vessels were delivered. The oversupply in our market negatively affected time charter rates for both short- and long-term periods. Additional orders for large and very large containerships were placed during 2013, both increasing the expected future supply of larger vessels and having a spillover effect on the market segment for smaller vessels.

The continuation of such containership oversupply or any declines in container freight rates could negatively affect the liner companies to which we seek to charter our containerships.

The demand for dry cargo vessels has generally been influenced by, among other factors:

- · global and regional economic conditions;
- developments in international trade;
- changes in seaborne and other transportation patterns, such as port congestion and canal closures or expansions;
- · supply and demand for energy resources, commodities, semi-finished and finished consumer and industrial products;
- changes in the exploration or production of energy resources, commodities, semi-finished and finished consumer and industrial products;
- supply and demand for products shipped in containers;
- changes in global production of raw materials or products transported by containerships;
- the distance drybulk cargo or containers are to be moved by sea;
- carrier alliances, vessel sharing or container slot sharing that seek to allocate container ship capacity on routes;
- weather and crop yields;
- armed conflicts and terrorist activities, including piracy;
- political, environmental and other regulatory developments;
- · embargoes and strikes; and
- technical advances in ship design and construction.

The supply of vessel capacity has generally been influenced by, among other factors:

- the number of vessels that are in or out of service;
- the scrapping rate of older vessels;
- port and canal traffic and congestion;
- the number of newbuilding deliveries;
- vessel casualties;
- the availability of shipyard capacity; and
- the economics of slow steaming.

Disruptions in world financial markets and the resulting governmental action in Europe, the United States and other parts of the world could have a material adverse impact on our ability to obtain financing required to acquire vessels or new businesses. Furthermore, such a disruption would adversely affect our results of operations, financial condition and cash flows and could cause the market price of our shares to decline.

Global financial markets and economic conditions have been severely disrupted and volatile in recent years and remain subject to significant vulnerabilities, such as the deterioration of fiscal balances, the rapid accumulation of public debt, continued deleveraging in the banking sector and a limited

supply of credit. The renewed crisis in Argentina, civil unrest in Ukraine and other parts of the world, and continuing concerns relating to the European sovereign debt crisis have led to increased volatility in global credit and equity markets. Several European countries including Greece, Portugal and Cyprus have been affected by increasing public debt burdens and weakening economic growth prospects. In recent years, Standard and Poor's Rating Services ("Standard and Poor's") and Moody's Investors Service ("Moody's") downgraded the long-term ratings of most European countries' sovereign debt and issued negative outlooks. Such downgrades could negatively affect those countries' ability to access the public debt markets at reasonable rates or at all, materially affecting the financial conditions of banks in those countries, including those with which we maintain cash deposits and equivalents, or on which we rely on to finance our vessel and new business acquisitions. Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. We maintain cash deposits and equivalents in excess of government-provided insurance limits at banks in Greece and other European countries, which may expose us to a loss of cash deposits or cash equivalents.

Furthermore, the United States and other parts of the world are exhibiting volatile economic trends and were recently in a recession. Despite signs of recovery, the outlook for the world economy remains uncertain. For example, the credit markets worldwide and in the U.S. have experienced significant contraction, de-leveraging and reduced liquidity, and the U.S. federal government, state governments and foreign governments have implemented and are considering a broad variety of governmental action and/or new regulation of the financial markets. Securities and futures markets and the credit markets are subject to comprehensive statutes, regulations and other requirements. The SEC, other regulators, self-regulatory organizations and exchanges are authorized to take extraordinary actions in the event of market emergencies, and may effect changes in law or interpretations of existing laws. Recently, a number of financial institutions have experienced serious financial difficulties and, in some cases, have entered bankruptcy proceedings or are in regulatory enforcement actions. These issues, along with the repricing of credit risk and the difficulties currently experienced by financial institutions have made, and will likely continue to make, it difficult to obtain financing. As a result of the disruptions in the credit markets, many lenders have increased margins on lending rates, enacted tighter lending standards, required more restrictive terms (including higher collateral ratios for advances, shorter maturities and smaller loan amounts), or have refused to refinance existing debt at all. Additionally, certain banks that have historically been significant lenders to the shipping industry have reduced or ceased lending activities in the shipping industry. New banking regulations, including larger capital requirements and the resulting policies adopted by lenders, could reduce lending activities. We may experience difficulties obtaining financing commitments, including commitments to refinance our existing debt as payments come due under our credit facilities, in the future if lenders are unwilling to extend financing to us or unable to meet their funding obligations due to their own liquidity, capital or solvency issues. Due to the fact that we would possibly cover all or a portion of the cost of any new acquisition with debt financing, such uncertainty, combined with restrictions imposed by our current debt, could hamper our ability to finance vessels or other assets or new business acquisitions.

In addition, the economic uncertainty worldwide has markedly reduced demand for shipping services and has decreased charter rates, which may adversely affect our results of operations and financial condition. Currently, the economies of China, Japan, other Asian Pacific countries and India are the main driving force behind the development in seaborne transportation. Reduced demand from such economies has driven decreased rates and vessel values.

We could face risks attendant to changes in economic environments, changes in interest rates and instability in certain securities markets, among other factors. Major market disruptions and the uncertainty in market conditions and the regulatory climate in the U.S., Europe and worldwide could adversely affect our business or impair our ability to borrow amounts under any future financial arrangements. The current market conditions may last longer than we anticipate. These recent and developing economic and governmental factors could have a material adverse effect on our results of operations, financial condition or cash flows.

### Our growth depends on continued growth in demand for drybulk commodities and the shipping of drybulk cargoes.

Our growth strategy focuses on expansion in the drybulk shipping sector. Accordingly, our growth depends on continued growth in worldwide and regional demand for drybulk commodities and the shipping of drybulk cargoes, which could be negatively affected by a number of factors, such as declines in prices for drybulk commodities, or general political and economic conditions.

Reduced demand for drybulk commodities and the shipping of drybulk cargoes would have a material adverse effect on our future growth and could harm our business, results of operations and financial condition. In particular, Asian Pacific economies and India have been the main driving force behind the current increase in seaborne drybulk trade and the demand for drybulk carriers. A negative change in economic conditions in any Asian Pacific country, but particularly in China, Japan or India, may have a material adverse effect on our business, financial condition and results of operations, as well as our future prospects, by reducing demand and resultant charter rates.

### When our contracts expire, we may not be able to successfully replace them.

The process for concluding contracts and longer term time charters generally involves a lengthy and intensive screening and vetting process and the submission of competitive bids. In addition to the quality and suitability of the vessel, medium and longer term shipping contracts tend to be awarded based upon a variety of other factors relating to the vessel operator, including:

- environmental, health and safety record;
- compliance with regulatory industry standards;
- reputation for customer service, technical and operating expertise;
- shipping experience and quality of ship operations, including cost-effectiveness;
- quality, experience and technical capability of crews;
- the ability to finance vessels at competitive rates and overall financial stability;
- relationships with shipyards and the ability to obtain suitable berths;
- construction management experience, including the ability to procure on-time delivery of new vessels according to customer specifications;
- · willingness to accept operational risks pursuant to the charter, such as allowing termination of the charter for force majeure events; and
- competitiveness of the bid in terms of overall price.

As a result of these factors, when our contracts including our long-term charters expire, we cannot assure you that we will be able to replace them promptly or at all or at rates sufficient to allow us to operate our business profitably, to meet our obligations, including payment of debt service to our lenders, or to pay dividends. Our ability to renew the charter contracts on our vessels on the expiration or termination of our current charters, or, on vessels that we

may acquire in the future, the charter rates payable under any replacement charter contracts, will depend upon, among other things, economic conditions in the sectors in which our vessels operate at that time and the financial sector, changes in the supply and demand for vessel capacity and changes in the supply and demand for the transportation of commodities as described above.

However, if we are successful in employing our vessels under longer-term time charters, our vessels will not be available for trading in the spot market during an upturn in the market cycle, when spot trading may be more profitable. If we cannot successfully employ our vessels in profitable charter contracts, our results of operations and operating cash flow could be materially adversely affected.

#### We may employ vessels on the spot market and thus expose ourselves to risk of losses based on short-term decreases in shipping rates.

We periodically employ some of our vessels on a spot basis. The spot charter market is highly competitive and freight rates within this market are highly volatile, while longer-term charter contracts provide income at pre-determined rates over more extended periods of time. We cannot assure you that we will be successful in keeping our vessels fully employed in these short-term markets, or that future spot rates will be sufficient to enable such vessels to be operated profitably. A significant decrease in spot market rates or our inability to fully employ our vessels by taking advantage of the spot market would result in a reduction of the incremental revenue received from spot chartering and adversely affect our results of operations, including our profitability and cash flows, with the result that our ability to pay debt service and dividends could be impaired.

Additionally, if the spot market rates or short-term time charter rates become significantly lower than the time charter equivalent rates that some of our charterers are obligated to pay us under our existing charters, the charterers may have incentive to default under that charter or attempt to renegotiate the charter. If our charterers fail to pay their obligations, we would have to attempt to re-charter our vessels at lower charter rates, which would affect our ability to comply with our loan covenants and operate our vessels profitably. If we are not able to comply with our loan covenants and our lenders choose to accelerate our indebtedness and foreclose their liens, we could be required to sell vessels in our fleet and our ability to continue to conduct our business would be impaired.

We depend upon significant customers for part of our revenues. The loss of one or more of these customers or a decline in the financial capability of our customers could materially adversely affect our financial performance.

We have derived a significant part of our revenue from a small number of charterers. During the fiscal years ended December 31, 2013, 2012 and 2011, we derived approximately 22.9%, 24.6% and 20.2%, respectively, of our gross revenues from four customers.

If one or more of our charterers is unable to perform under one or more charters with us and we are not able to find a replacement charter, or if a charterer exercises certain rights to terminate the charter, or if a charterer is unable to make its charter payments in whole or in part, we could suffer a loss of revenues that could materially adversely affect our business, financial condition and results of operations. For the years ended December 31, 2013, 2012 and 2011, none of our customers accounted for more than 10% of the Company's revenue.

We could lose a customer or the benefits of a time charter if, among other things:

- the customer fails to make charter payments because of its financial inability, disagreements with us or otherwise, which risk is
  increasing due to the current economic environment;
- the customer terminates the charter because we fail to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, there are serious deficiencies in the vessel or prolonged periods of off-hire, default under the charter; or
- the customer terminates the charter because the vessel has been subject to seizure for more than a specified number of days.

Furthermore, a number of our charters are at above-market rates, such that any loss of such charter may require us to recharter the vessel at significantly lower rates. Additionally, our charterers from time to time have sought to renegotiate their charter rates with us.

We are subject to certain credit risks with respect to our counterparties on contracts, and the failure of such counterparties to meet their obligations could cause us to suffer losses on such contracts and thereby decrease revenues.

We charter-out our vessels to other parties who pay us a daily rate of hire. We also enter into contracts of affreightment ("COAs") pursuant to which we agree to carry cargoes, typically for industrial customers, who export or import drybulk cargoes. Additionally, we may enter into Forward Freight Agreements ("FFAs"), parts of which are traded over-the-counter. We also enter into spot market voyage contracts, where we are paid a rate per ton to carry a specified cargo on a specified route. The FFAs and these contracts and arrangements subject us to counterparty credit risks at various levels. If the counterparties fail to meet their obligations, we could suffer losses on such contracts which could materially adversely affect our financial condition and results of operations. In addition, if a charterer defaults on a time charter, we may only be able to enter into new contracts at lower rates. It is also possible that we would be unable to secure a charter at all. If we re-charter the vessel at lower rates or not at all, our financial condition and results of operations could be materially adversely affected.

Trading and complementary hedging activities in freight, tonnage and FFAs subject us to trading risks, and we may suffer trading losses which could adversely affect our financial condition and results of operations.

Due to drybulk shipping market volatility, success in this shipping industry requires constant adjustment of the balance between chartering-out vessels for long periods of time and trading them on a spot basis. A long-term contract to charter a vessel might lock us into a profitable or unprofitable situation depending on the direction of freight rates over the term of the contract. We may seek to manage and mitigate that risk through trading and complementary hedging activities in freight, tonnage and FFAs. We may be exposed to market risk in relation to our FFAs and could suffer substantial losses from these activities in the event that our expectations are incorrect. We may trade FFAs with an objective of both economically hedging the risk on the fleet, specific vessels or freight commitments and taking advantage of short-term fluctuations in market prices. There can be no assurance that we will be able at all times to successfully protect ourselves from volatility in the shipping market. We may not successfully mitigate our risks, leaving us exposed to unprofitable contracts, and may suffer trading losses resulting from these hedging activities.

In our hedging and trading activities, we focus on short-term trading opportunities in which there are adequate liquidity in order to limit the risk we are taking. There can be no assurance we will be successful in limiting our risk, that significant price spikes will not result in significant losses,

even on short term trades, that liquidity will be available for our positions, or that all trades will be done within our risk management policies. Any such risk could be significant. In addition, the performance of our trading activities can significantly increase the variability of our operating performance in any given period and could materially adversely affect our financial condition. The FFA market has experienced significant volatility in the past few years and, accordingly, recognition of the changes in the fair value of FFAs could in the future cause significant volatility in earnings.

We are subject to certain operating risks, including vessel breakdowns or accidents, that could result in a loss of revenue from the chartered-in vessels and which in turn could have an adverse effect on our results of operations or financial condition.

Our exposure to operating risks of vessel breakdown and accidents mainly arises in the context of our owned vessels. The rest of our core fleet is chartered-in under time charters and, as a result, most operating risks relating to these time chartered vessels remain with their owners. If we pay hire on a chartered-in vessel at a lower rate than the rate of hire it receives from a sub-charterer to whom we have chartered out the vessel, a breakdown or loss of the vessel due to an operating risk suffered by the owner will, in all likelihood, result in our loss of the positive spread between the two rates of hire. Although we maintain insurance policies (subject to deductibles and exclusions) to cover us against the loss of such spread through the sinking or other loss of a chartered-in vessel, we cannot assure you that we will be covered under all

circumstances or that such policies will be available in the future on commercially reasonable terms. Breakdowns or accidents involving our vessels and losses relating to chartered vessels which are not covered by insurance would result in a loss of revenue from the affected vessels adversely affecting our financial condition and results of operations.

The operation of ocean-going vessels entails the possibility of marine disasters including damage or destruction of the vessel due to accident, the loss of a vessel due to piracy or terrorism, damage or destruction of cargo and similar events that may cause a loss of revenue from affected vessels and damage our business reputation, which may in turn lead to loss of business.

The operation of ocean-going vessels entails certain inherent risks that may materially adversely affect our business and reputation, including:

- the damage or destruction of vessels due to marine disaster such as a collision;
- the loss of a vessel due to piracy and terrorism;
- cargo and property losses or damage as a result of the foregoing or drastic causes such as human error, mechanical failure and bad weather;
- environmental accidents as a result of the foregoing; and
- business interruptions and delivery delays caused by mechanical failure, human error, war, terrorism, political action in various countries, labor strikes or adverse weather conditions.

Any of these circumstances or events could substantially increase our costs. For example, the costs of replacing a vessel or cleaning up environmental damage could substantially lower our revenues by taking vessels out of operation permanently or for periods of time. Furthermore, the involvement of our vessels in a disaster or delays in delivery, damage or the loss of cargo may harm our reputation as a safe and reliable vessel operator and cause us to lose business.

The operation of vessels, such as dry bulk carriers, has certain unique risks. With a dry bulk carrier, the cargo itself and its interaction with the vessel can be an operational risk. By their nature, dry bulk cargoes are often heavy, dense, easily shift, and react badly to water exposure. In addition, dry bulk carriers are often subjected to battering treatment during unloading operations with grabs, jackhammers (to pry encrusted cargoes out of the hold) and small bulldozers. This treatment may cause damage to the vessel. Vessels damaged due to treatment during unloading procedures may be more susceptible to breach at sea. Hull breaches in dry bulk carriers may lead to the flooding of the vessels' holds. If a dry bulk carrier suffers flooding in its forward holds, the bulk cargo may become so dense and waterlogged that its pressure may buckle the vessel's bulkheads leading to the loss of a vessel.

The total loss or damage of any of our vessels or cargoes could harm our reputation as a safe and reliable vessel owner and operator. If we are unable to adequately maintain or safeguard our vessels, we may be unable to prevent any such damage, costs, or loss that could negatively impact our business, financial condition, results of operations, cash flows and ability to pay dividends.

Some of these inherent risks could result in significant damage, such as marine disaster or environmental incidents, and any resulting legal proceedings may be complex, lengthy, costly and, if decided against us, any of these proceedings or other proceedings involving similar claims or claims for substantial damages may harm our reputation and have a material adverse effect on our business, results of operations, cash flow and financial position. In addition, the legal systems and law enforcement mechanisms in certain countries in which we operate may expose us to risk and uncertainty. Further, we may be required to devote substantial time and cost defending these proceedings, which could divert the attention of management from our business.

Any of these factors may have a material adverse effect on our business, financial conditions and results of operations.

We are subject to various laws, regulations and conventions, including environmental and safety laws that could require significant expenditures both to maintain compliance with such laws and to pay for any uninsured environmental liabilities including any resulting from a spill or other environmental incident.

The shipping business and vessel operation are materially affected by government regulation in the form of international conventions, national, state and local laws, and regulations in force in the jurisdictions in which vessels operate, as well as in the country or countries of their registration. Governmental regulations, safety or other equipment standards, as well as compliance with standards imposed by maritime self-regulatory organizations and customer requirements or competition, may require us to make capital and other expenditures. Because such conventions, laws and regulations are often revised, we cannot predict the ultimate cost of complying with such conventions, laws and regulations, or the impact thereof on the fair market price or useful life of our vessels. In order to satisfy any such requirements, we may be required to take any of our vessels out of service for extended periods of time, with corresponding losses of revenues. In the future, market conditions may not justify these expenditures or enable us to operate our vessels, particularly older vessels, profitably during the remainder of their economic lives. This could lead to significant asset write downs. In addition, violations of environmental and safety regulations can result in substantial penalties and, in certain instances, seizure or detention of our vessels.

Additional conventions, laws and regulations may be adopted that could limit our ability to do business, require capital expenditures or otherwise increase our cost of doing business, which may materially adversely affect our operations, as well as the shipping industry generally. In various jurisdictions legislation has been enacted, or is under consideration, that would impose more stringent requirements on air pollution and water discharges from our vessels. For example, the International Maritime Organization ("IMO") periodically proposes and adopts amendments to revise the International Convention for the Prevention of Pollution from Ships ("MARPOL"), such as the revision to Annex VI which came into force on July 1, 2010. The revised Annex VI implements a phased reduction of the sulfur content of fuel and allows for stricter sulfur limits in designated emission control areas ("ECAs"). Thus far, ECAs have been formally adopted for the Baltic Sea area (limits SOx emissions only), the North Sea area, including the English Channel (limiting SOx

emissions only) and the North American ECA (which came into effect from August 1, 2012 limiting SOx, NOx and particulate matter emissions). The United States Caribbean Sea ECA came into effect on January 1, 2013 and has been effective since January 1, 2014, and limits SOx, NOx and particulate matter emissions. California has also adopted more stringent low sulfur fuel requirements within California-regulated waters. In addition, the IMO, the U.S. and states within the U.S. have proposed or implemented requirements relating to the management of ballast water to prevent the harmful effects of foreign invasive species.

The operation of vessels is also affected by the requirements set forth in the International Safety Management ("ISM") Code. The ISM Code requires shipowners and bareboat charterers to develop and maintain an extensive "Safety Management System" that includes the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe vessel operation and describing procedures for dealing with emergencies. Further to this, the IMO has introduced the first ever mandatory measures for an international greenhouse gas reduction regime for a global industry sector. These energy efficiency measures took effect on January 1, 2013 and apply to all ships of 400 gross tonnage and above. They include the development of a ship energy efficiency management plan ("SEEMP") which is akin to a safety management plan, which the industry will have to comply with. The failure of a ship owner or bareboat charterer to comply with the ISM Code and IMO measures may subject such party to increased liability, may decrease available insurance coverage for the affected vessels, and may result in a denial of access to, or detention in, certain ports.

For our vessels, including those operated under our fleet, at present, international liability for oil pollution is governed by the International Convention on Civil Liability for Bunker Oil Pollution Damage (the "Bunker Convention"). In 2001, the IMO adopted the Bunker Convention, which imposes strict liability on shipowners for pollution damage and response costs incurred in contracting states caused by discharges, or threatened discharges, of bunker oil from all classes of ships. The Bunker Convention also requires registered owners of ships over a certain size to maintain insurance to cover their liability for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime, including liability limits calculated in accordance with the Convention on Limitation of Liability for Maritime Claims 1976, as amended (the "1976 Convention"), discussed in more detail in the following paragraph. The Bunker Convention became effective in contracting states on November 21, 2008 and as of February 10, 2014 had 74 contracting states comprising approximately 90.72% of the gross tonnage of the world's merchant fleet. In non-contracting states, liability for such bunker oil pollution typically is determined by the national or other domestic laws in the jurisdiction where the spillage occurs.

The right of vessel owners to limit liability incurred under the Bunker Convention depends on the applicable national or international regime. The 1976 Convention is the most widely applicable international regime limiting maritime pollution liability. Rights to limit liability under the 1976 Convention are forfeited where a spill is caused by a shipowner's intentional or reckless conduct. Certain jurisdictions have ratified the IMO's Protocol of 1996 to the 1976 Convention, referred to herein as the "Protocol of 1996." The Protocol of 1996 provides for substantially higher liability limits in those jurisdictions than the limits set forth in the 1976 Convention. Finally, some jurisdictions, such as the United States, are not a party to either the 1976 Convention or the Protocol of 1996, and, therefore, a shipowner's rights to limit liability for maritime pollution in such jurisdictions may be uncertain.

Environmental legislation in the United States merits particular mention as it is in many respects more onerous than international laws, representing a high-water mark of regulation with which ship owners and operators must comply, and of liability likely to be incurred in the event of non-compliance or an incident causing pollution. Such regulation may become even stricter if laws are changed as a result of the April 2010 Deepwater Horizon oil spill in the Gulf of Mexico. In the United States, the Oil Pollution Act ("OPA") establishes an extensive regulatory and liability regime for the protection and cleanup of the environment from cargo and bunker oil spills from vessels, including tankers. The OPA covers all owners and operators whose vessels trade in the United States, its territories and possessions or whose vessels operate in United States waters, which includes the United States' territorial sea and its 200 nautical mile exclusive economic zone. Under the OPA, vessel owners, operators and bareboat charterers are "responsible parties" and are jointly, severally and strictly liable (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or substantial threats of discharges, of oil from their vessels. In response to the 2010 Deepwater Horizon oil incident in the Gulf of Mexico, the U.S. House of Representatives passed and the U.S. Senate considered but did not pass a bill to strengthen certain requirements of the OPA; similar legislation may be introduced in the 113th Congress. On February 24, 2014, the Bureau of Ocean Energy Management (BOEM), which regulates offshore drilling, published a proposed change to its regulations that will allow for the agency to implement adjustments to the limitation amounts to account for inflation. With respect to offshore facilities, the \$75 million limit has never been raised since OPA was enacted in 1990. Thus, if approved, the new regulati

In addition to potential liability under the OPA, vessel owners may in some instances incur liability on an even more stringent basis under state law in the particular state where the spillage occurred. For example, California regulations prohibit the discharge of oil, require an oil contingency plan be filed with the state, require that the ship owner contract with an oil response organization and require a valid certificate of financial responsibility, all prior to the vessel entering state waters.

In the last decade, the EU has become increasingly active in the field of regulation of maritime safety and protection of the environment. In some areas of regulation the EU has introduced new laws without attempting to procure a corresponding amendment to international law. Notably, the EU adopted in 2005 a directive, as amended in 2009, on ship-source pollution, imposing criminal sanctions for pollution not only where pollution is caused by intent or recklessness (which would be an offense under MARPOL), but also where it is caused by "serious negligence." The concept of "serious negligence" may be interpreted in practice to be little more than ordinary negligence. The directive could therefore result in criminal liability being incurred in circumstances where it would not be incurred under international law. Criminal liability for a pollution incident could not only result in us incurring substantial penalties or fines, but may also, in some jurisdictions, facilitate civil liability claims for greater compensation than would otherwise have been payable.

We maintain insurance coverage for each owned vessel in our fleet against pollution liability risks in the amount of \$1.0 billion in the aggregate for any one event. The insured risks include penalties and fines as well as civil liabilities and expenses resulting from accidental pollution. However, this insurance coverage is subject to exclusions, deductibles and other terms and conditions. If any liabilities or expenses fall within an exclusion from coverage, or if damages from a catastrophic incident exceed the aggregate liability of \$1.0 billion for any one event, our cash flow, profitability and financial position would be adversely impacted.

#### Climate change and government laws and regulations related to climate change could negatively impact our financial condition.

Regarding climate change in particular, we are and will be, directly and indirectly, subject to the effects of climate change and may, directly or indirectly, be affected by government laws and regulations related to climate change. A number of countries have adopted or are considering the adoption of, regulatory frameworks to reduce greenhouse gas emissions. In the U.S., the United States Environmental Protection Agency ("U.S. EPA") has declared greenhouse gases to be dangerous pollutants and has issued greenhouse gas reporting requirements for emissions sources in certain industries (which do not include the shipping industry). The U.S. EPA is also considering petitions to regulate greenhouse gas emissions from marine vessels.

In addition, while the emissions of greenhouse gases from international shipping are not subject to the Kyoto Protocol to the United Nations Framework Convention on Climate Change ("UNFCCC"), which requires adopting countries to implement national programs to reduce greenhouse gas emissions, the IMO intends to develop limits on greenhouse gases from international shipping. It has responded to the global focus on climate change and greenhouse gas emissions by developing specific technical and operational efficiency measures and a work plan for market-based mechanisms in 2011. These include the mandatory measures of the ship energy efficiency management plan ("SEEMP"), outlined above, and an energy efficiency design index ("EEDI") for new

ships. The IMO is also considering its position on market-based measures through an expert working group, which was expected to report back to its Marine Environment Protection Committee ("MEPC") in late 2012. Among the numerous proposals being considered by the working group are the following: a port state levy based on the amount of fuel consumed by the vessel on its voyage to the port in question; a global emissions trading scheme which would allocate emissions allowances and set an emissions cap; and an international fund establishing a global reduction target for emissions for international shipping, to be set either by the UNFCCC or the IMO. At its 64 th session on October 1 to 5, 2012, the MEPC indicated that 2015 was the target year for Member States to identify market-based measures for international shipping. At its 65th session, on May 13-17, 2013, the MEPC continued its work on developing technical and operational measures relating to energy efficiency measures for ships, following the January 1, 2013 entry into force, of the mandatory efficiency measures. Further measures were considered, including the use of a phased approach to implementation, and the MEPC is focusing its efforts on technical cooperation and capacity-building to ensure effective implementation and enforcement of the new regulations worldwide. Following an expert workshop, endorsed by the MEPC at its 64th session, MEPC 65 agreed to initiate a study regarding an updated greenhouse gas emissions estimate for international shipping, the outcome of which is due to be presented to the MEPC at its 66th session in March 2014. Although submissions were made regarding the market-based measures referred to above, discussions on that topic were suspended for a future session.

In December 2011, UN climate change talks took place in Durban and concluded with an agreement referred to as the Durban Platform for Enhanced Action. The Durban Conference did not result in any proposals specifically addressing the shipping industry's role in climate change but the progress that has been made by the IMO in this area was widely acknowledged throughout the negotiating bodies of the UNFCCC process.

The European Union announced in April 2007 that it planned to expand the European Union emissions trading scheme by adding vessels, and a proposal from the European Commission was expected if no global regime for reduction of seaborne emissions had been agreed to by the end of 2011. As of January 31, 2013 the European Commission had stopped short of proposing that emissions from ships be included in the EU's emissions-trading scheme (ETS). However on October 1, 2012 it announced that it would propose measures to monitor verify and report on greenhouse-gas (GHG) emissions from the shipping sector in early 2013. On June 28, 2013, the European Commission adopted a communication setting out a strategy for progressively including greenhouse gas emissions from maritime transport in the EU's policy for reducing its overall GHG emissions. The first step proposed by the Commission is an EU regulation which would establish an EU-wide system for the monitoring, reporting and verification (MRV) of carbon dioxide (CO2) emissions from large ships starting in 2018. The draft regulation is currently working its way through the various stages of the EU legislative process and will require approval from both the European Council and European Parliament before entering into force. This regulation may be seen as indicative of an intention to maintain pressure on the international negotiating process.

We cannot predict with any degree of certainty what effect, if any possible climate change and government laws and regulations related to climate change will have on our operations, whether directly or indirectly. While we believe that it is difficult to assess the timing and effect of climate change and pending legislation and regulation related to climate change on our business, we believe that climate change, including the possible increase in severe weather events resulting from climate change, and government laws and regulations related to climate change may affect, directly or indirectly, (i) the cost of the vessels we may acquire in the future, (ii) our ability to continue to operate as we have in the past, (iii) the cost of operating our vessels, and (iv) insurance premiums, deductibles and the availability of coverage. As a result, our financial condition could be negatively impacted by significant climate change and related governmental regulation, and that impact could be material.

We are subject to vessel security regulations and will incur costs to comply with recently adopted regulations and may be subject to costs to comply with similar regulations which may be adopted in the future in response to terrorism.

Since the terrorist attacks of September 11, 2001, there have been a variety of initiatives intended to enhance vessel security. On November 25, 2002, the Maritime Transportation Security Act of 2002 ("MTSA") came into effect. To implement certain portions of the MTSA, in July 2003, the U.S. Coast Guard issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States. Similarly, in December 2002, amendments to the International Convention for the Safety of Life at Sea ("SOLAS") created a new chapter of the convention dealing specifically with maritime security. The new chapter went into effect in July 2004, and imposes various detailed security obligations on vessels and port authorities, most of which are contained in the newly created International Ship and Port Facilities Security Code ("ISPS Code"). Among the various requirements are:

- on-board installation of automatic information systems ("AIS") to enhance vessel-to-vessel and vessel-to-shore communications;
- on-board installation of ship security alert systems;
- · the development of vessel security plans; and
- compliance with flag state security certification requirements.

Furthermore, additional security measures could be required in the future which could have a significant financial impact on us.

The U.S. Coast Guard regulations, intended to be aligned with international maritime security standards, exempt non-U.S. vessels from MTSA vessel security measures, provided such vessels have on board a valid International Ship Security Certificate ("ISSC") that attests to the vessel's compliance with SOLAS security requirements and the ISPS Code. We have implemented and will continue to implement the various security measures addressed by the MTSA, SOLAS and the ISPS Code and take measures for the vessels to attain compliance with all applicable security requirements within the prescribed time periods. Although management does not believe these additional requirements will have a material financial impact on our operations, there can be no assurance that there will not be an interruption in operations to bring vessels into compliance with the applicable requirements and any such interruption could cause a decrease in charter revenues.

The cost of vessel security measures has also been affected by the escalation in recent years in the frequency and seriousness of acts of piracy against ships, notably off the coast of Somalia, including the Gulf of Aden and Arabian Sea area. Attacks of this kind have commonly resulted in vessels and their crews being detained for several months, and being released only on payment of large ransoms. Substantial loss of revenue and other costs may be incurred as a result of such detention. Although we insure against these losses to the extent practicable, the risk remains of uninsured losses which could significantly affect our business. Costs are incurred in taking additional security measures in accordance with Best Management Practices to Deter Piracy, notably those contained in the BMP3 industry standard. A number of flag states have signed the 2009 New York Declaration, which expresses commitment to Best Management Practices in relation to piracy and calls for compliance with them as an essential part of compliance with the ISPS Code.

#### Acts of piracy on ocean-going vessels have increased in frequency and magnitude, which could adversely affect our business.

The shipping industry has historically been affected by acts of piracy in regions such as the South China Sea and the Gulf of Aden. Although the frequency of sea piracy worldwide decreased during 2013 to its lowest level since its increase in 2009, sea piracy incidents continue to occur, particularly in the Gulf of Aden off the coast of Somalia and increasingly in the Gulf of Guinea. A significant example of the heightened level of piracy came in February 2011 when the M/V Irene SL, a crude oil tanker in the Arabian Sea which was not affiliated with us, was captured by pirates in the Arabian Sea while carrying crude oil estimated to be worth approximately \$200 million. In December 2009, the Navios Apollon, a vessel owned by our affiliate, Navios Maritime Partners L.P. ("Navios Partners"), was seized by pirates 800 miles off the coast of Somalia while transporting fertilizer from Tampa, Florida to Rozi, India and was released on February 27, 2010. In January 2014, a vessel owned by our affiliate, Navios Maritime Acquisition Corporation, the Nave Atropos, was attacked by a pirate action group in international waters off the coast of Yemen. The crew and the on-board security team successfully implemented a counter piracy action plan and standard operating procedures and deterred the attack with no consequences to the vessel or the crew. If these piracy attacks result in

regions (in which our vessels are deployed) being characterized by insurers as "war risk" zones or Joint War Committee (JWC) "war and strikes" listed areas, premiums payable for such insurance coverage could increase significantly and such insurance coverage may be more difficult to obtain. Crew costs, including those due to employing onboard security guards, could increase in such circumstances. In addition, while we believe the charterer remains liable for charter payments when a vessel is seized by pirates, the charterer may dispute this and withhold charter hire until the vessel is released. A charterer may also

claim that a vessel seized by pirates was not "on-hire" for a certain number of days and it is therefore entitled to cancel the charter party, a claim that we would dispute. We may not be adequately insured to cover losses from these incidents, which could have a material adverse effect on us. In addition, detention hijacking as a result of an act of piracy against our vessels, or an increase in cost, or unavailability of insurance for our vessels, could have a material adverse impact on our business, financial condition, results of operations and cash flows. Acts of piracy on ocean-going vessels could adversely affect our business and operations.

Our operations expose us to global political risks, such as wars and political instability that may interfere with the operation of our vessels causing a decrease in revenues from such vessels.

We are an international company and conduct our operations primarily outside the United States. Changing economic, political and governmental conditions in the countries where we are engaged in business or where our vessels are registered will affect us. In the past, political conflicts, particularly in the Persian Gulf, resulted in attacks on vessels, mining of waterways and other efforts to disrupt shipping in the area. For example, in October 2002, the vessel Limburg, which was not affiliated with us, was attacked by terrorists in Yemen. Acts of terrorism and piracy have also affected vessels trading in regions such as the South China Sea. Following the terrorist attack in New York City on September 11, 2001, and the military response of the United States, the likelihood of future acts of terrorism may increase, and our vessels may face higher risks of being attacked in the Middle East region and interruption of operations causing a decrease in revenues. In addition, continuing conflicts and recent developments in North Africa and the Middle East and future hostilities or other political instability in regions where our vessels trade could affect our trade patterns and adversely affect our operations by causing delays in shipping on certain routes or making shipping impossible on such routes, thereby causing a decrease in revenues.

In addition, a government could requisition title or seize our vessels during a war or national emergency. Requisition of title occurs when a government takes a vessel and becomes the owner. A government could also requisition our vessels for hire, which would result in the government's taking control of a vessel and effectively becoming the charterer at a dictated charter rate. Requisition of one or more of our vessels would have a substantial negative effect on us as we would potentially lose all revenues and earnings from the requisitioned vessels and permanently lose the vessels. Such losses might be partially offset if the requisitioning government compensated us for the requisition.

A failure to pass inspection by classification societies could result in one or more vessels being unemployable unless and until they pass inspection, resulting in a loss of revenues from such vessels for that period and a corresponding decrease in operating cash flows.

The hull and machinery of every commercial vessel must be classed by a classification society authorized by its country of registry. The classification society certifies that a vessel is safe and seaworthy in accordance with the applicable rules and regulations of the country of registry of the vessel and with SOLAS. Our owned fleet is currently enrolled with Nippon Kaiji Kiokai, Bureau Veritas, Lloyd's Register and American Bureau of Shipping.

A vessel must undergo an annual survey, an intermediate survey and a special survey. In lieu of a special survey, a vessel's machinery may be on a continuous survey cycle, under which the machinery would be surveyed periodically over a five-year period. Our vessels are on special survey cycles for hull inspection and continuous survey cycles for machinery inspection. Every vessel is also required to be drydocked every two to three years for inspection of the underwater parts of such vessel.

If any vessel fails any annual survey, intermediate survey or special survey, the vessel may be unable to trade between ports and, therefore, would be unemployable, potentially causing a negative impact on our revenues due to the loss of revenues from such vessel until she is able to trade again.

### Rising crew costs may adversely affect our profits.

Crew costs are a significant expense for us. Recently, the limited supply of and increased demand for well-qualified crew, due to the increase in the size of the global shipping fleet, has created upward pressure on crewing costs, which we generally bear under our period, time and spot charters. Increases in crew costs may adversely affect our profitability.

### The shipping industry has inherent operational risks that may not be adequately covered by our insurance.

The operation of ocean-going vessels in international trade is inherently risky. Although we carry insurance for our fleet covering risks commonly insured against by vessel owners and operators, such as hull and machinery insurance, war risks insurance and protection and indemnity insurance (which include environmental damage and pollution insurance), all risks may not be adequately insured against, and any particular claim may not be paid. We do not currently maintain off-hire insurance, which would cover the loss of revenue during extended vessel off-hire periods, such as those that occur during an unscheduled drydocking due to damage to the vessel from accidents. Accordingly, any extended vessel off-hire, due to an accident or otherwise, could have a material adverse effect on our business. Any claims covered by insurance would be subject to deductibles, and since it is possible that a large number of claims may be brought, the aggregate amount of these deductibles could be material.

We may be unable to procure adequate insurance coverage at commercially reasonable rates in the future. For example, more stringent environmental regulations have led in the past to increased costs for, and in the future may result in the lack of availability of, insurance against risks of environmental damage or pollution. A catastrophic oil spill or marine disaster could exceed our insurance coverage, which could harm our business, financial condition and operating results. Changes in the insurance markets attributable to terrorist attacks may also make certain types of insurance more difficult for us to obtain. In addition, the insurance that may be available to us in the future may be significantly more expensive than our existing coverage.

Even if our insurance coverage is adequate to cover our losses, we may not be able to timely obtain a replacement vessel in the event of a loss. Furthermore, in the future, we may not be able to obtain adequate insurance coverage at reasonable rates for our fleet. Our insurance policies also contain deductibles, limitations and exclusions which can result in significant increased overall costs to us.

Because we obtain some of our insurance through protection and indemnity associations, we may also be subject to calls, or premiums, in amounts based not only on our own claim records, but also on the claim records of all other members of the protection and indemnity associations.

We may be subject to calls, or premiums, in amounts based not only on our claim records but also on the claim records of all other members of the protection and indemnity associations through which we receive insurance coverage for tort liability, including pollution-related liability. Our payment of these calls could result in significant expenses to us, which could have a material adverse effect on our business, results of operations and financial condition.

#### Maritime claimants could arrest our vessels, which could interrupt our cash flow.

Crew members, suppliers of goods and services to a vessel, shippers of cargo, and other parties may be entitled to a maritime lien against a vessel for unsatisfied debts, claims or damages against such vessel. In many jurisdictions, a maritime lien holder may enforce its lien by arresting a vessel through foreclosure proceedings. The arrest or attachment of one or more of our vessels could interrupt our cash flow and require us to pay large sums of funds to have the arrest lifted. We are not currently aware of the existence of any such maritime lien on our vessels.

In addition, in some jurisdictions, such as South Africa, under the "sister ship" theory of liability, a claimant may arrest both the vessel which is subject to the claimant's maritime lien and any "associated" vessel, which is any vessel owned or controlled by the same owner. Claimants could try to assert "sister ship" liability against one vessel in our fleet for claims relating to another ship in the fleet.

#### The risks and costs associated with vessels increase as the vessels age.

The costs to operate and maintain a vessel in operation increase with the age of the vessel. The average age of the vessels in our fleet is 7.1 years, and most drybulk vessels have an expected life of approximately 25 years. In some instances, charterers prefer newer vessels that are more fuel efficient than older vessels. Cargo insurance rates also increase with the age of a vessel, making older vessels less desirable to charterers as well. Governmental regulations, safety or other equipment standards related to the age of the vessels may require expenditures for alterations or the addition of new equipment to our vessels and may restrict the type of activities in which these vessels may engage. We cannot assure you that, as our vessels age, market conditions will justify those expenditures or enable us to operate our vessels profitably during the remainder of their useful lives. If we sell vessels, we may have to sell them at a loss, and if charterers no longer charter-out vessels due to their age, our earnings could be materially adversely affected.

# If we fail to manage our planned growth properly, we may not be able to expand our fleet successfully, which may adversely affect our overall financial position.

We have grown our fleet and business significantly. We intend to continue to expand our fleet in the future. Our growth will depend on:

- locating and acquiring suitable vessels;
- · identifying reputable shipyards with available capacity and contracting with them for the construction of new vessels;
- integrating any acquired vessels successfully with our existing operations;
- enhancing our customer base;
- managing our expansion; and
- obtaining required financing, which could include debt, equity or combinations thereof.

Additionally, the marine transportation and logistics industries are capital intensive, traditionally using substantial amounts of indebtedness to finance vessel acquisitions, capital expenditures and working capital needs. If we finance the purchase of our vessels through the issuance of debt securities, it could result in:

- default and foreclosure on our assets if our operating cash flow after a business combination or asset acquisition were insufficient to pay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we have made all principal and interest payments when due if the debt security contained covenants that required the maintenance of certain financial ratios or reserves and any such covenant was breached without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security was payable on demand; and
- our inability to obtain additional financing, if necessary, if the debt security contained covenants restricting our ability to obtain additional financing while such security was outstanding.

In addition, our business plan and strategy is predicated on buying vessels in a distressed market at what we believe is near the low end of the cycle in what has typically been a cyclical industry. However, there is no assurance that shipping rates and vessels asset values will not sink lower, or that there will be an upswing in shipping costs or vessel asset values in the near-term or at all, in which case our business plan and strategy may not succeed in the near-term or at all. Growing any business by acquisition presents numerous risks such as undisclosed liabilities and obligations, difficulty experienced in obtaining additional qualified personnel and managing relationships with customers and suppliers and integrating newly acquired operations into existing infrastructures. We may not be successful in growing and may incur significant expenses and losses.

# If we purchase any newbuilding vessels, delays, cancellations or non-completion of deliveries of newbuilding vessels could harm our operating results.

If we purchase any newbuilding vessels, the shipbuilder could fail to deliver the newbuilding vessel as agreed or their counterparty could cancel the purchase contract if the shipbuilder fails to meet its obligations. In addition, under charters we may enter into that are related to a newbuilding, if our delivery of the newbuilding to our customer is delayed, we may be required to pay liquidated damages during such delay. For prolonged delays, the customer may terminate the charter and, in addition to the resulting loss of revenues, we may be responsible for additional, substantial liquidated damages.

The completion and delivery of newbuildings could be delayed, cancelled or otherwise not completed because of:

- quality or engineering problems;
- changes in governmental regulations or maritime self-regulatory organization standards;
- work stoppages or other labor disturbances at the shipyard;
- bankruptcy or other financial crisis of the shipbuilder;

- a backlog of orders at the shipyard;
- political or economic disturbances;
- weather interference or catastrophic event, such as a major earthquake or fire;
- requests for changes to the original vessel specifications;
- shortages of or delays in the receipt of necessary construction materials, such as steel;
- inability to finance the construction or conversion of the vessels; or
- inability to obtain requisite permits or approvals.

If delivery of a vessel is materially delayed, it could materially adversely affect our results of operations and financial condition and our ability to make cash distributions.

Although we have long-standing relationships with certain Japanese shipowners that provide us access to competitive contracts, we cannot assure you that we will always be able to maintain such relationships or that such contracts will continue to be available in the future.

We have long-standing relationships with certain Japanese shipowners that give us access to time charters at favorable rates and that, in some cases, include options to purchase the vessels at favorable prices relative to the current market. We cannot assure you that we will have such relationships indefinitely. In addition, there is no assurance that Japanese shipowners will generally make contracts available on the same or substantially similar terms in the future.

#### The smuggling of drugs or other contraband onto our vessels may lead to governmental claims against us.

We expect that our vessels will call in ports in South America and other areas where smugglers attempt to hide drugs and other contraband on vessels, with or without the knowledge of crew members. To the extent our vessels are found with contraband, whether inside or attached to the hull of our vessel and whether with or without the knowledge of any of our crew, we may face governmental or other regulatory claims which could have an adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

Our vessels may be subject to unbudgeted periods of off-hire, which could materially adversely affect our business, financial condition and results of operations.

Under the terms of the charter agreements under which our vessels operate, or are expected to operate in the case of a newbuilding, when a vessel is "off-hire," or not available for service or otherwise deficient in its condition or performance, the charterer generally is not required to pay the hire rate, and we will be responsible for all costs (including the cost of bunker fuel) unless the charterer is responsible for the circumstances giving rise to the lack of availability. A vessel generally will be deemed to be off-hire if there is an occurrence preventing the full working of the vessel due to, among other things:

- operational deficiencies;
- the removal of a vessel from the water for repairs, maintenance or inspection, which is referred to as drydocking;
- · equipment breakdowns;
- delays due to accidents or deviations from course;
- occurrence of hostilities in the vessel's flag state or in the event of piracy;
- crewing strikes, labor boycotts, certain vessel detentions or similar problems; or
- our failure to maintain the vessel in compliance with its specifications, contractual standards and applicable country of registry and international regulations or to provide the required crew.

Our international activities increase the compliance risks associated with economic and trade sanctions and anti-corruption laws imposed by the United States, the European Union and other jurisdictions.

Our international operations could expose us to trade and economic sanctions or other restrictions imposed by the United States or other governments or organizations, including the United Nations, the European Union and its member countries. Under economic and trading sanctions laws, governments may seek to impose modifications to business practices, and modifications to compliance programs, which may increase compliance costs, and may subject us to fines, penalties and other sanctions.

Recently, the scope of sanctions imposed against the government of Iran and persons engaging in certain activities or doing certain business with and relating to Iran has been expanded by a number of jurisdictions, including the United States, the European Union and Canada. Not only has the United States enacted new legislation which imposed new sanctions that specifically restrict shipping refined petroleum into Iran, but also the European Union has implemented new restrictive measures which prohibit the purchase, transport or insurance of Iranian oil or petroleum products (the tankers of our affiliate, Navios Maritime Acquisition Corporation have in the past, but do not currently, call on ports in Iran). There has also been an increased focus on economic and trade sanctions enforcement that has led recently to a significant number of penalties being imposed against shipping companies.

We are monitoring developments in the United States, the European Union and other jurisdictions that maintain sanctions programs, including developments in implementation and enforcement of such sanctions programs. Expansion of sanctions programs, embargoes and other restrictions in the future (including additional designations of countries subject to sanctions), or modifications in how existing sanctions are interpreted or enforced, could prevent the tankers of our affiliate from calling on ports in sanctioned countries or could limit their cargoes. If any of the risks described above materialize, it could have a material adverse impact on our business and results of operations.

We could be adversely affected by violations of the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, and anti-corruption laws in other applicable jurisdictions.

As an international shipping company, we may operate in countries known to have a reputation for corruption. The U.S. Foreign Corrupt Practices Act of 1977 (the "FCPA") and other anti-corruption laws and regulations in applicable jurisdictions generally prohibit companies registered with the SEC and their intermediaries from making improper payments to government officials for the purpose of obtaining or retaining business. Under the FCPA,

U.S. companies may be held liable for some actions taken by strategic or local partners or representatives. Legislation in other countries includes the U.K. Bribery Act which is broader in scope than the FCPA because it does not contain an exception for facilitating payments. We and our customers may be subject to these and similar anti-corruption laws in other applicable jurisdictions. Failure to comply with such legal requirements could expose us to civil and/or criminal penalties, including fines, prosecution and significant reputational damage, all of which could materially and adversely affect our business and results of operations, including our relationships with our customers, and our financial results. Compliance with the FCPA, the U.K. Bribery Act and other applicable anti-corruption laws and related regulations and policies imposes potentially significant costs and operational burdens. Moreover, the compliance and monitoring mechanisms that we have in place including our Code of Ethics, which incorporates our anti-bribery and corruption policy may not adequately prevent or detect possible violations under applicable anti-corruption legislation.

Our Chairman and Chief Executive Officer holds approximately 26% of our common stock and will be able to exert considerable influence over our actions; her failure to own a significant amount of our common stock or to be our Chief Executive Officer would constitute a default under our secured credit facilities.

Ms. Angeliki Frangou owns approximately 26% of the outstanding shares of our common stock, and has filed a Schedule 13D indicating that she intends, subject to market conditions, to purchase in total \$20.0 million of our common stock (as of April 28, 2014, she had purchased approximately \$10.0 million of the total \$20.0 million in value of our common stock). As the Chairman, Chief Executive Officer and a significant stockholder, she has the power to exert considerable influence over our actions and the outcome of matters on which our stockholders are entitled to vote including the election of directors and other significant corporate actions. The interests of Ms. Frangou may be different from your interests. Furthermore, if Ms. Frangou ceases to hold a minimum of 20% of our common stock, does not remain actively involved in the business, or ceases to be our Chief Executive Officer, then we will be in default under our secured credit facilities.

#### The loss of key members of our senior management team could disrupt the management of our business.

We believe that our success depends on the continued contributions of the members of our senior management team, including Ms. Angeliki Frangou, our Chairman, Chief Executive Officer and principal stockholder. The loss of the services of Ms. Frangou or one of our other executive officers or senior management members could impair our ability to identify and secure new charter contracts, to maintain good customer relations and to otherwise manage our business, which could have a material adverse effect on our financial performance and our ability to compete.

Certain of our directors, officers, and principal stockholders are affiliated with entities engaged in business activities similar to those conducted by us which may compete directly with us, causing such persons to have conflicts of interest.

Some of our directors, officers and principal stockholders have affiliations with entities that have similar business activities to those conducted by us. Certain of our directors are also directors of other shipping companies and they may enter similar businesses in the future. These other affiliations and business activities may give rise to certain conflicts of interest in the course of such individuals' affiliation with us. Although we do not prevent our directors, officers and principal stockholders from having such affiliations, we use our best efforts to cause such individuals to comply with all applicable laws and regulations in addressing such conflicts of interest. Our officers and employee directors devote their full time and attention to our ongoing operations, and our non-employee directors devote such time as is necessary and required to satisfy their duties as directors of a public company.

Because we generate all of our revenues in U.S. dollars but incur a portion of our expenses in other currencies, exchange rate fluctuations could cause us to suffer exchange rate losses, thereby increasing expenses and reducing income.

We engage in worldwide commerce with a variety of entities. Although our operations may expose us to certain levels of foreign currency risk, our transactions are predominantly U.S. dollar-denominated at the present. Additionally, our South American subsidiaries transact a nominal amount of their operations in Uruguayan pesos, Paraguayan Guaranies, Argentinean pesos and Brazilian Reales, whereas our wholly-owned vessel subsidiaries and the vessel management subsidiaries transact a nominal amount of their operations in Euros; however, all of the subsidiaries' primary cash flows are U.S. dollar-denominated. In 2013, approximately 34.7% of our expenses were incurred in currencies other than U.S. dollars. Transactions in currencies other than the functional currency are translated at the exchange rate in effect at the date of each transaction. Expenses incurred in foreign currencies against which the U.S. dollar falls in value can increase, thereby decreasing our income. A change in exchange rates between the U.S. dollar and each of the foreign currencies listed above of 1.00% would change our net income for the year ended December 31, 2013 by \$1.4 million.

For example, as of December 31, 2013, the value of the U.S. dollar as compared to the Euro decreased by approximately 4.0% compared with the respective value as of December 31, 2012. A greater percentage of our transactions and expenses in the future may be denominated in currencies other than U.S. dollar. As part of our overall risk management policy, we attempt to hedge these risks in exchange rate fluctuations from time to time. We may not always be successful in such hedging activities and, as a result, our operating results could suffer as a result of non-hedged losses incurred as a result of exchange rate fluctuations.

#### We are incorporated in the Republic of the Marshall Islands, which does not have a well-developed body of corporate law.

Our corporate affairs are governed by our amended and restated articles of incorporation and by-laws and by the Marshall Islands Business Corporations Act ("BCA"). The provisions of the BCA are intended to resemble provisions of the corporation laws of a number of states in the United States. However, there have been few judicial cases in the Republic of the Marshall Islands interpreting the BCA. The rights and fiduciary responsibilities of directors under the law of the Republic of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in certain U.S. jurisdictions. Stockholder rights may differ as well. The BCA does specifically incorporate the non-statutory law, or judicial case law, of the State of Delaware and other states with substantially similar legislative provisions. Accordingly, you may have more difficulty protecting your interests in the face of actions by management, directors or controlling stockholders than you would in the case of a corporation incorporated in the State of Delaware or other U.S. jurisdictions.

Because the Public Company Accounting Oversight Board is not currently permitted to inspect registered public accounting firms in Greece, including our independent registered public accounting firm, you may not benefit from such inspections.

Auditors of U.S. public companies, including our independent registered public accounting firm, are required by the laws of the United States to undergo periodic Public Company Accounting Oversight Board ("PCAOB") inspections to assess their compliance with U.S. law and professional standards in connection with performance of audits of financial statements filed with the SEC. The laws of certain European Union countries, including Greece, do not currently permit the PCAOB to conduct inspections of accounting firms established and operating in such European Union countries.

Accordingly, the PCAOB is currently prevented from fully evaluating the effectiveness of our independent registered public accounting firm's audit procedures or quality control procedures. Unlike shareholders or potential shareholders of most U.S. public companies, our shareholders would be deprived of the possible benefits of such PCAOB inspections.

We, and certain of our officers and directors, may be difficult to serve with process as we are incorporated in the Republic of the Marshall Islands and such persons may reside outside of the United States.

We are a corporation organized under the laws of the Republic of the Marshall Islands. Several of our directors and officers are residents of Greece or other non-U.S. jurisdictions. Substantial portions of the assets of these persons are located in Greece or other non-U.S. jurisdictions. Thus, it may not be possible for investors to affect service of process upon us, or our non-U.S. directors or officers, or to enforce any judgment obtained against these persons in U.S. courts. Also, it may not be possible to enforce U.S. securities laws or judgments obtained in U.S. courts against these persons in a non-U.S. jurisdiction.

#### Being a foreign private issuer exempts us from certain SEC requirements.

We are a foreign private issuer within the meaning of rules promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). As such, we are exempt from certain provisions applicable to United States public companies including:

• the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q or current reports on Form 8-K;

- the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act;
- the provisions of Regulation FD aimed at preventing issuers from making selective disclosures of material information; and
- the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and establishing insider liability for profits realized from any "short-swing" trading transaction (i.e., a purchase and sale, or sale and purchase, of the issuer's equity securities within less than six months).

Because of these exemptions, investors are not afforded the same protections or information generally available to investors holding shares in public companies organized in the United States.

#### **Risks Relating to Our Common Stock**

Our stock price may be volatile, and investors in our common stock could lose all or part of their investment.

The following factors could cause the price of our common stock in the public market to fluctuate significantly:

- variations in our quarterly operating results;
- changes in market valuations of companies in our industry;
- fluctuations in stock market prices and volumes;
- issuance of common stock or other securities in the future;
- the addition or departure of key personnel;
- · announcements by us or our competitors of new business or trade routes, acquisitions or joint ventures; and
- the other factors discussed elsewhere in this Report.

Volatility in the market price of our common stock may prevent investors from being able to sell their common stock at or above the price an investor pays for our common stock in an offering. In the past, class action litigation has often been brought against companies following periods of volatility in the market price of those companies' common stock. We may become involved in this type of litigation in the future. Litigation is often expensive and diverts management's attention and company resources and could have a material effect on our business, financial condition and operating results.

#### Risks Relating to Our Series G Preferred Stock and the Depositary Shares

Our Series G Preferred Stock is subordinated to our debt obligations, and a holder's interests could be diluted by the issuance of additional shares, including additional Series G Preferred Stock and by other transactions.

Our 8.75% Series G Cumulative Redeemable Perpetual Preferred Stock, with a liquidation preference of \$2,500.00 per share (the "Series G Preferred Stock"), and represented by American Depositary Shares (the "Depositary Shares"), is subordinated to all of our existing and future indebtedness. As of December 31, 2013, our total debt was \$1,511.2 million. We may incur additional debt under these or future credit facilities. The payment of principal and interest on our debt reduces cash available for distribution to us and on our shares, including the Series G Preferred Stock and the Depositary Shares.

The issuance of additional preferred stock on a parity with or senior to our Series G Preferred Stock would dilute the interests of the holders of our Series G Preferred Stock, and any issuance of any preferred stock senior to or on parity with our Series G Preferred Stock or additional indebtedness could affect our ability to pay dividends on, redeem or pay the liquidation preference on our Series G Preferred Stock. No provisions relating to our Series G Preferred Stock protect the holders of our Series G Preferred Stock in the event of a highly leveraged or other transaction, including a merger or the sale, lease or conveyance of all or substantially all our assets or business, which might adversely affect the holders of our Series G Preferred Stock.

Our Series G Preferred Stock will rank *pari passu* with any other class or series of our capital stock established after the original issue date of the Series G Preferred Stock that is not expressly subordinated or senior to the Series G Preferred Stock ("Parity Securities") as to the payment of dividends and amounts payable upon liquidation or reorganization. If less than all dividends payable with respect to the Series G Preferred Stock and any Parity Securities are paid, any partial payment shall be made pro rata with respect to shares of Series G Preferred Stock and any Parity Securities entitled to a dividend payment at such time in proportion to the aggregate amounts remaining due in respect of such shares at such time.

We may not have sufficient cash from our operations to enable us to pay dividends on or to redeem our Series G Preferred Stock, and accordingly the Depositary Shares, as the case may be, following the payment of expenses and the establishment of any reserves.

We will pay quarterly dividends on the Series G Preferred Stock, and accordingly the Depositary Shares, only from funds legally available for such purpose when, as and if declared by our board of directors. We may not have sufficient cash available each quarter to pay dividends. In addition, we may have insufficient cash available to redeem the Series G Preferred Stock, and accordingly the Depositary Shares. The amount of cash we can use to pay dividends or redeem our Series G Preferred Stock and the Depositary Shares depends upon the amount of cash we generate from our operations, which may fluctuate significantly, and other factors, including the following:

- · changes in our operating cash flow, capital expenditure requirements, working capital requirements and other cash needs;
- the amount of any cash reserves established by our board of directors;
- restrictions under our credit facilities and other instruments and agreements governing our existing and future debt, including restrictions under our existing credit facilities and indentures governing our debt securities on our ability to pay dividends if an event of default has occurred and is continuing, or if the payment of the dividend would result in an event of default, and on our ability to redeem equity securities:
- restrictions under Marshall Islands law as described below; and
- our overall financial and operating performance, which, in turn, is subject to prevailing economic and competitive conditions and to the
  risks associated with the shipping industry, our drybulk operations and the other factors described herein, many of which are beyond our
  control

The amount of cash we generate from our operations may differ materially from our net income or loss for the period, which will be affected by noncash items, and our board of directors in its discretion may elect not to declare any dividends. We may incur other expenses or liabilities that could reduce or eliminate the cash available for distribution as dividends. As a result of these and the other factors mentioned above, we may pay dividends during periods when we record losses and may not pay dividends during periods when we record net income.

Our ability to pay dividends on and to redeem our Series G Preferred Stock, and therefore holders' ability to receive payments on the Depositary Shares, is limited by the requirements of Marshall Islands law.

Marshall Islands law provides that we may pay dividends on and redeem the Series G Preferred Stock only to the extent that assets are legally available for such purposes. Legally available assets generally are limited to our surplus, which essentially represents our retained earnings and the excess of consideration received by us for the sale of shares above the par value of the shares. In addition, under Marshall Islands law we may not pay dividends on or redeem Series G Preferred Stock if we are insolvent or would be rendered insolvent by the payment of such a dividend or the making of such redemption.

#### The Series G Preferred Stock represent perpetual equity interests.

The Series G Preferred Stock represent perpetual equity interests in us and, unlike our indebtedness, will not give rise to a claim for payment of a principal amount at a particular date. As a result, holders of the Series G Preferred Stock (and accordingly the Depositary Shares) may be required to bear the financial risks of an investment in the Series G Preferred Stock (and accordingly the Depositary Shares) for an indefinite period of time. In addition, the Series G Preferred Stock will rank junior to all our indebtedness and other liabilities, and any other senior securities we may issue in the future with respect to assets available to satisfy claims against us.

Holders of Depositary Shares have extremely limited voting rights, will have even more limited rights than holders of the Series G Preferred Stock and may encounter difficulties in exercising some of such rights.

Voting rights of holders of Depositary Shares will be extremely limited. Our common stock is the only class of stock carrying full voting rights. Holders of the Series G Preferred Stock, and accordingly holders of the Depositary Shares, generally have no voting rights. However, (i) in the event that one quarterly dividend payable on the Series G Preferred Stock is in arrears (whether or not such dividend shall have been declared and whether or not there are profits, surplus, or other funds legally available for the payment of dividends), we will use commercially reasonable efforts to obtain an amendment to our articles of incorporation to effectuate any and all such changes thereto as may be necessary to permit the Series G Preferred Shareholders to exercise the voting rights described in the following clause (ii)(x), and (ii) if and when dividends payable on the Series G Preferred Stock are in arrears

for six or more quarterly periods, whether or not consecutive (and whether or not such dividends shall have been declared and whether or not there are profits, surplus, or other funds legally available for the payment of dividends), then (x) if our articles of incorporation have been amended as described in the preceding clause (i), the holders of Series G Preferred Stock will have the right (voting together as a class with all other classes or series of parity securities upon which like voting rights have been conferred and are exercisable), to elect one additional director to serve on our board of directors, and the size of our board of directors will be increased as needed to accommodate such change (unless the size of our board of directors already has been increased by reason of the election of a director by holders of securities on parity with the Series G Preferred Stock upon which like voting rights have been conferred and with which the Series G Preferred Stock voted as a class for the election of such director), and (y) if our articles of incorporation have not been amended as described in the preceding clause (i), then, until such amendment is fully approved and effective, the dividend rate on the Series G Preferred Stock shall increase by 25 basis points. There can be no assurance that any such amendment to our articles of incorporation will be approved by our common stockholders. Any such amendment to our articles of incorporation, if obtained, shall also provide that the right of such holders of Series G Preferred Stock to elect members of our board of directors will continue until such time as all accumulated and unpaid dividends on the Series G Preferred Stock have been paid in full or sufficient funds for such payment have been declared and set apart for such purpose.

Furthermore, holders of the Depositary Shares may encounter difficulties in exercising any voting rights acquired by the Series G Preferred Stock for as long as they hold the Depositary Shares rather than the Series G Preferred Stock. For example, holders of the Depositary Shares will not be entitled to vote at meetings of holders of Series G Preferred Stock, and they will only be able to exercise their limited voting rights by giving timely instructions to The Bank of New York Mellon (the "Depositary") in advance of any meeting of holders of Series G Preferred Stock. The Depositary will be the holder of the Series G Preferred Stock underlying the Depositary Shares and holders may exercise voting rights with respect to the Series G Preferred Stock represented by the Depositary Shares only in accordance with the deposit agreement (the "Deposit Agreement") relating to the Depositary Shares. To the limited extent permitted by the Deposit Agreement, the holders of the Depositary Shares should be able to direct the Depositary to vote the underlying Series G Preferred Stock in accordance with their individual instructions. Nevertheless, holders of Depositary Shares may not receive voting materials in time to instruct the Depositary to vote the Series G Preferred Stock underlying their Depositary Shares. Also, the Depositary and its agents are not responsible for failing to carry out voting instructions of the holders of Depositary Shares or for the manner of carrying out such instructions. Accordingly, holders of Depositary Shares may not be able to exercise voting rights, and they will have little, if any, recourse if the underlying Series G Preferred Stock is not voted as requested.

The Depositary Shares and the Series G Preferred Stock are relatively new issues of securities with no established trading markets. Various factors may adversely affect the price of the Depositary Shares.

The Depositary Shares and the Series G Preferred Stock are relatively new issues of securities with no established trading markets. Even though the Depositary Shares are listed on the New York Stock Exchange (the "NYSE"), there may be little or no secondary market for the Depositary Shares, in which case the trading price of the Depositary Shares could be adversely affected and a holder's ability to transfer its securities will be limited. If an active trading market does develop on the NYSE, the Depositary Shares may trade at prices lower than the offering price and the secondary market may not provide sufficient liquidity. In addition, since the Series G Preferred Stock does not have a stated maturity date, investors seeking liquidity in the Depositary Shares will be limited to selling their Depositary Shares in the secondary market absent redemption by us. We do not expect that there will be any other trading market for the Series G Preferred Stock except as represented by the Depositary Shares.

One of the factors that will influence the price of the Depositary Shares will be the dividend yield on the Depositary Shares (as a percentage of the price of the Depositary Shares) relative to market interest rates. An increase in market interest rates, which are currently at low levels relative to historical rates, may lead prospective purchasers of the Depositary Shares to expect a higher dividend yield, and higher interest rates would likely increase our borrowing costs and potentially decrease funds available for distribution. Accordingly, higher market interest rates could cause the market price of the Depositary Shares to decrease.

Other factors, some of which are beyond our control, will also influence the market prices of the Depositary Shares. Factors that might influence the market prices of the Depositary Shares include:

- whether we declare or fail to declare dividends on the Series G Preferred Stock from time to time;
- the market for similar securities;
- our issuance of debt or preferred equity securities;
- our creditworthiness;
- our financial condition, results of operations and prospects; and
- economic, financial, geopolitical, regulatory or judicial events that affect us or the financial markets generally.

Accordingly, the Depositary Shares that an investor purchases may trade at a discount to their purchase price.

# The Series G Preferred Stock represented by the Depositary Shares has not been rated, and ratings of any other of our securities may affect the trading price of the Depositary Shares.

We have not sought to obtain a rating for the Series G Preferred Stock, and the stock may never be rated. It is possible, however, that one or more rating agencies might independently determine to assign a rating to the Series G Preferred Stock or that we may elect to obtain a rating of our Series G Preferred Stock in the future. In addition, we have issued securities that are rated and may elect to issue other securities for which we may seek to obtain a rating. Any ratings that are assigned to the Series G Preferred Stock in the future, that have been issued on our outstanding securities or that may be issued on our other securities, if they are lower than market expectations or are subsequently lowered or withdrawn, could imply a lower relative value for the Series G Preferred Stock and could adversely affect the market for or the market value of the Depositary Shares. Ratings only reflect the views of the issuing rating agency or agencies and such ratings could at any time be revised downward or withdrawn entirely at the discretion of the issuing rating agency. A rating is not a recommendation to purchase, sell or hold any particular security, including the Series G Preferred Stock and the Depositary Shares. Ratings do not reflect market prices or suitability of a security for a particular investor and any future rating of the Series G Preferred Stock and the Depositary Shares may not reflect all risks related to us and our business, or the structure or market value of the Series G Preferred Stock and the Depositary Shares.

# The amount of the liquidation preference of our Series G Preferred Stock is fixed and holders will have no right to receive any greater payment regardless of the circumstances.

The payment due upon liquidation is fixed at the liquidation preference of \$2,500.00 per share (equivalent to \$25.00 per Depositary Share) plus accumulated and unpaid dividends to the date of liquidation (whether or not declared). If in the case of our liquidation, there are remaining assets to be distributed after payment of this amount, holders will have no right to receive or to participate in these amounts. Furthermore, if the market price for the Series G Preferred Stock is greater than the liquidation preference, holders will have no right to receive the market price from us upon our liquidation.

# The Series G Preferred Stock is only redeemable at our option and investors should not expect us to redeem the Series G Preferred Stock on the date it becomes redeemable or on any particular date afterwards.

We may redeem, at our option, all or from time to time part of the Series G Preferred Stock on or after January 28, 2019. If we redeem the Series G Preferred Stock, holders of the Series G Preferred Stock will be entitled to receive a redemption price equal to \$2,500.00 per share (equivalent to \$25.00 per Depositary Share) plus accumulated and unpaid dividends to the date of redemption (whether or not declared). Any decision we may make at any time to propose a redemption of the Series G Preferred Stock will depend upon, among other things, our evaluation of our capital position, the composition of our shareholders' equity and general market conditions at that time. In addition, investors might not be able to reinvest the money they receive upon redemption of the Series G Preferred Stock in a similar security or at similar rates. We may elect to exercise our partial redemption right on multiple occasions.

# Holders of Depositary Shares may be subject to additional risks related to holding Depositary Shares rather than shares.

Because holders of Depositary Shares do not hold their shares directly, they are subject to the following additional risks, among others:

- a holder of Depositary Shares will not be treated as one of our direct shareholders and may not be able to exercise shareholder rights;
- distributions on the Series G Preferred Stock represented by the Depositary Shares will be paid to the Depositary, and before the
  Depositary makes a distribution to holder on behalf of the Depositary Shares, withholding taxes or other governmental charges, if any,
  that must be paid will be deducted;
- we and the Depositary may amend or terminate the Deposit Agreement without the consent of holders of the Depositary Shares in a manner that could prejudice holders of Depositary Shares or that could affect their ability to transfer Depositary Shares, among others; and
- the Depositary may take other actions inconsistent with the best interests of holders of Depositary Shares.

#### Risks Relating to Our Debt

We have substantial debt and may incur substantial additional debt, including secured debt, which could adversely affect our financial health and our ability to obtain financing in the future, react to changes in our business and make payments under the notes.

As of December 31, 2013, we had \$1,511.2 million in aggregate principal amount of debt outstanding of which \$640.0 million was unsecured.

Our substantial debt could have important consequences to holders of our common stock. Because of our substantial debt:

- our ability to obtain additional financing for working capital, capital expenditures, debt service requirements, vessel or other acquisitions or general corporate purposes and our ability to satisfy our obligations with respect to our debt may be impaired in the future;
- a substantial portion of our cash flow from operations must be dedicated to the payment of principal and interest on our indebtedness, thereby reducing the funds available to us for other purposes;
- we will be exposed to the risk of increased interest rates because our borrowings under our senior secured credit facilities will be at variable rates of interest:
- it may be more difficult for us to satisfy our obligations to our lenders, resulting in possible defaults on and acceleration of such indebtedness;
- we may be more vulnerable to general adverse economic and industry conditions;
- we may be at a competitive disadvantage compared to our competitors with less debt or comparable debt at more favorable interest rates and, as a result, we may not be better positioned to withstand economic downturns;
- · our ability to refinance indebtedness may be limited or the associated costs may increase; and
- our flexibility to adjust to changing market conditions and ability to withstand competitive pressures could be limited, or we may be
  prevented from carrying out capital expenditures that are necessary or important to our growth strategy and efforts to improve operating
  margins or our business.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future as the terms of the indenture governing our 8.125% Senior Notes due 2019 (the "2019 Notes") and the indenture governing our 7.375% First Priority Ship Mortgage Notes issued on November 29, 2013 (the "2022 Notes") do not fully prohibit us or our subsidiaries from doing so. The terms of the indentures governing 9 1/4% Senior Notes due 2019 ("the "Logistics Senior Notes") of Navios South American Logistics ("Navios Logistics") and the agreements governing the terms of the other indebtedness of Navios Logistics also permit Navios Logistics to incur substantial additional indebtedness in accordance with the terms of such agreements. If new debt is added to our current debt levels, the related risks that we now face would increase and we may not be able to meet all of our debt obligations.

The agreements and instruments governing our debt contain restrictions and limitations that could significantly impact our ability to operate our business.

Our secured credit facilities and our indentures impose certain operating and financial restrictions on us. These restrictions limit our ability to:

- incur or guarantee additional indebtedness;
- create liens on our assets;
- make new investments;
- engage in mergers and acquisitions;
- · pay dividends or redeem capital stock;
- make capital expenditures;
- engage in certain FFA trading activities;
- change the flag, class or commercial and technical management of our vessels;
- enter into long-term charter arrangements without the consent of the lender; and
- sell any of our vessels.

The agreements governing the terms of Navios Logistics' indebtedness impose similar restrictions upon Navios Logistics.

Therefore, we and Navios Logistics will need to seek permission from our respective lenders in order to engage in some corporate and commercial actions that believe would be in the best interest of our respective business, and a denial of permission may make it difficult for us or Navios Logistics to successfully execute our business strategy or effectively compete with companies that are not similarly restricted. The interests of our and Navios Logistics' lenders may be different from our respective interests or those of our holders of common stock, and we cannot guarantee that we or Navios Logistics will be able to obtain the permission of lenders when needed. This may prevent us or Navios Logistics from taking actions that are in best interests of us, Navios Logistics or our stockholders. Any future debt agreements may include similar or more restrictive restrictions.

Our ability to generate the significant amount of cash needed to pay interest and principal and otherwise service our debt and our ability to refinance all or a portion of our indebtedness or obtain additional financing depend on multiple factors, many of which may be beyond our control.

The ability of us and Navios Logistics to make scheduled payments on or to refinance our respective debt obligations will depend on our respective financial and operating performance, which, in turn, will be subject to prevailing economic and competitive conditions and to the financial and business factors, many of which may be beyond the control of us and Navios Logistics.

The principal and interest on such debt will be paid in cash. The payments under our and Navios Logistics' debt will limit funds otherwise available for our respective working capital, capital expenditures, vessel acquisitions and other purposes. As a result of these obligations, the current liabilities us or Navios Logistics may exceed our respective current assets. We or Navios Logistics may need to take on additional debt as we expand our respective fleets or other operations, which could increase our respective ratio of debt to equity. The need to service our respective debt may limit funds available for other purposes, and our or Navios Logistics' inability to service debt in the future could lead to acceleration of such debt, the foreclosure on assets such as owned vessels or otherwise negatively affect us.

We may be unable to raise funds necessary to finance the change of control repurchase offer required by the indentures governing our outstanding notes and our secured credit facilities.

The indenture governing the 2019 Notes, the indenture governing the 2022 Notes, the indentures governing the Logistics Senior Notes and our and Navios Logistics' secured credit facilities contain certain change of control provisions. If we or Navios Logistics experience specified changes of control under our respective notes, we or Navios Logistics, as the case may be, will be required to make an offer to repurchase all of our respective outstanding notes (unless otherwise redeemed) at a price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the repurchase date. The occurrence of specified events that would constitute a change of control may constitute a default under our and Navios Logistics' secured credit facilities. In the event of a change of control under these debt agreements, we cannot assure you that we would have sufficient assets to satisfy all of our obligations under these debt agreements, including but not limited to, repaying all indebtedness outstanding under the applicable secured credit facilities or repurchasing the applicable notes.

If the recent volatility in the London InterBank Offered Rate, or LIBOR, continues, it could affect our profitability, earnings and cash flow.

LIBOR has recently been volatile, with the spread between LIBOR and the prime lending rate widening significantly at times. These conditions are the result of the recent disruptions in the international credit markets. Because the interest rates borne by our outstanding indebtedness fluctuate with changes in LIBOR, if this volatility were to continue, it would affect the amount of interest payable on our debt, which in turn, could have an adverse effect on our profitability, earnings and cash flow. See also "Item 11 Qualitative and Quantitative Disclosures about Market Risk."

Furthermore, interest in most loan agreements in our industry has been based on published LIBOR rates. Recently, however, lenders have insisted on provisions that entitle the lenders, in their discretion, to replace published LIBOR as the base for the interest calculation with their cost-of-funds rate. Such provisions could significantly increase our lending costs, which would have an adverse effect on our profitability, earnings and cash flow.

The market values of our vessels, which have declined from historically high levels, may fluctuate significantly, which could cause us to breach covenants in our credit facilities and result in the foreclosure of our mortgaged vessels.

Factors that influence vessel values include:

- number of newbuilding deliveries;
- number of vessels scrapped or otherwise removed from the total fleet;
- changes in environmental and other regulations that may limit the useful life of vessels;
- changes in global drybulk commodity supply;
- types and sizes of vessels;
- development of and increase in use of other modes of transportation;
- cost of vessel acquisitions;
- cost of newbuilding vessels;
- governmental or other regulations;
- prevailing level of charter rates;

- general economic and market conditions affecting the shipping industry; and
- the cost of retrofitting or modifying existing ships to respond to technological advances in vessel design or equipment, changes in applicable environmental or other regulations or standards, or otherwise.

If the market values of our owned vessels decrease, we may breach covenants contained in our secured credit facilities. If we breach such covenants and are unable to remedy any relevant breach, our lenders could accelerate our debt and foreclose on the collateral, including our vessels. Any loss of vessels would significantly decrease our ability to generate positive cash flow from operations and, therefore, service our debt. In addition, if the book value of a vessel is impaired due to unfavorable market conditions, or a vessel is sold at a price below its book value, we would incur a loss. Navios Logistics may be subject to similar ramifications under its credit facilities if the market values of its owned vessels decrease.

In addition, as vessels grow older, they generally decline in value. We will review our vessels for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. We review certain indicators of potential impairment, such as undiscounted projected operating cash flows expected from the future operation of the vessels, which can be volatile for vessels employed on short-term charters or in the spot market. Any impairment charges incurred as a result of declines in charter rates would negatively affect our financial condition and results of operations. In addition, if we sell any vessel at a time when vessel prices have fallen and before we have recorded an impairment adjustment to our financial statements, the sale may be at less than the vessel's carrying amount on our financial statements, resulting in a loss and a reduction in earnings.

We may require additional financing to acquire vessels or business or to exercise vessel purchase options, and such financing may not be available.

In the future, we may be required to make substantial cash outlays to exercise options or to acquire vessels or business and will need additional financing to cover all or a portion of the purchase prices. We intend to cover the cost of such items with new debt collateralized by the vessels to be acquired, if applicable, but there can be no assurance that we will generate sufficient cash or that debt financing will be available. Moreover, the covenants in our senior secured credit facility, the indentures or other debt, may make it more difficult to obtain such financing by imposing restrictions on what we can offer as collateral.

We have substantial equity investments in five companies, three of which are not consolidated in our financial results, and our investment in such companies is subject to the risks related to their respective businesses.

As of December 31, 2013, we had a 63.8% ownership interest in Navios Logistics, and, as a result, Navios Logistics is a consolidated subsidiary. As such, the income and losses relating to Navios Logistics and the indebtedness and other liabilities of Navios Logistics are shown in our consolidated financial statements.

We also have substantial equity investments in two public companies that are accounted for under the equity method — Navios Maritime Acquisition Corporation ("Navios Acquisition") and Navios Partners. As of December 31, 2013, we held 47.8% of the voting stock and 50.5% of the economic interest of Navios Acquisition and 21.6% of the equity interest in Navios Partners (including a 2.0% interest in the general partner of Navios Partners). As of such date, our investments in these two affiliated companies amounted to \$330.2 million. Following the Navios Partners and Navios Acquisition public offerings in February 2014, Navios Holdings' interest in Navios Partners was 20.0% (which includes a 2.0% general partner interest), and in Navios Acquisition was a 43.1% voting interest and a 45.8% economic interest.

In addition to the value of our investment, we receive dividend payments relating to our investments. As a result of our investment, in fiscal year 2013, we received \$10.1 million and \$29.5 million in dividends from Navios Acquisition and Navios Partners, respectively. Furthermore, we receive management and general and administrative fees from Navios Acquisition and Navios Partners, which amounted to \$107.6 million and \$7.8 million, respectively, in fiscal year 2013.

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe Inc. ("Navios Europe") and have ownership interests of 47.5%, 47.5% and 5.0%, respectively. On December 13, 2013, Navios Holdings, through its sub-holding company Navios Holdings Europe Finance Inc., has entered into a loan agreement with Navios Acquisition Europe Finance Inc., Navios Partners Europe Finance Inc. and Navios Europe in an amount of up to \$10.0 million to finance the acquisition of ten vessels. As of December 31, 2013, the outstanding amount relating to Navios Holdings portion of the investment in Navios Europe (47.5% of the \$10.0 million) was \$4.8 million and the receivable amount relating to working capital was \$2.7 million.

During the year ended December 31, 2013, the Company received shares in relation to defaulted charter contracts of Korea Line Corporation ("KLC"), which were valued at fair value upon the day of issuance. As of December 31, 2013, the Company retained a total of 314,077 KLC shares, and their carrying amount was \$7.7 million.

Our ownership interest in Navios Logistics, Navios Acquisition, Navios Partners, Navios Europe and KLC, the reflection of such companies (or the investment relating thereto) on our balance sheets and any income generated from or related to such companies are subject to a variety of risks, including risks relating to the respective business of Navios Logistics, Navios Acquisition, Navios Partners and Navios Europe as disclosed in their respective public filings with the SEC or management reports. The occurrence of any such risks may negatively affect our financial condition.

We evaluate our investments in Navios Acquisition, Navios Partners, Navios Europe and KLC for other-than-temporary impairment ("OTTI") on a quarterly basis. Consideration is given to (1) the length of time and the extent to which the fair value has been less than the carrying value, (2) their financial condition and near term prospects, and (3) our intent and our ability to retain our investment in these companies, for a period of time sufficient to allow for any anticipated recovery in fair value. During the year ended December 31, 2013, we did not recognize any impairment loss in earnings.

If the fair value of these investments declines below their carrying value and our OTTI analysis indicates such write down to be necessary, the potential future impairment charges may have a material adverse impact on our results of operations in the period recognized.

#### **Risks Relating to Navios Logistics**

Navios Logistics' dry port business has seasonal components linked to the grain harvests in the region. At times throughout the year, the capacity of its dry port, including the loading and unloading operations, as well as the space in silos is exceeded, which could materially adversely affect its operations and revenues.

A significant portion of Navios Logistics' dry port business is derived from handling and storage of soybeans and other agricultural products produced in the Hidrovia, mainly during the season between April and September. This seasonal effect could, in turn, increase the inflow and outflow of barges and vessels in its dry port and cause the space in its silos to be exceeded, which in turn would affect its timely operations or its ability to satisfy the increased demand. Inability to provide services in a timely manner may have a negative impact on its clients' satisfaction and result in loss of existing contracts or inability to obtain new contracts.

Navios Logistics depends on a few significant customers for a large part of its revenues and the loss of one or more of these customers could materially and adversely affect its revenues.

In each of Navios Logistics' businesses, a significant part of its revenues is derived from a small number of customers. For the year ended December 31, 2013, Navios Logistics' two largest customers, Vale and Petropar, accounted for 18.5% and 10.7% of its revenues, respectively and Navios Logistics' five largest customers accounted for approximately 56.4% of revenues. For the year ended December 31, 2012, Navios Logistics' three largest customers, Vale, YPF and Axion Energy (formerly known as Esso), accounted for 18.5%, 11.5% and 11.5% of its revenues, respectively and Navios Logistics' five largest customers accounted for approximately 56.4% of its revenues. For the year ended December 31, 2011, Navios Logistics' three largest customers, Petropar and Axion Energy, accounted for 18.1%, 10.2% and 10.0% of its revenues, respectively, and Navios Logistics' five largest customers accounted for approximately 55.1% of its revenues. In addition, some of Navios Logistics' customers, including many of its most significant customers, operate their own vessels and/or barges. These customers may decide to cease or reduce the use of its services for various reasons, including employment of their own vessels. The loss of any of its significant customers could materially adversely affect its results of operations.

If one or more of Navios Logistics' customers does not perform under one or more contracts with it and Navios Logistics is not able to find a replacement contract, or if a customer exercises certain rights to terminate the contract, Navios Logistics could suffer a loss of revenues that could materially adversely affect its business, financial condition and results of operations.

Navios Logistics could lose a customer or the benefits of a contract if, among other things:

- the customer fails to make payments because of its financial inability, disagreements with Navios Logistics or otherwise;
- the customer terminates the contract because Navios Logistics fails to meet their contracted storage needs;
- the customer terminates the contract because Navios Logistics fails to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, there are serious deficiencies in the vessel or prolonged off-hire, or a default occurs under the contract; or
- the customer terminates the contract because the vessel has been subject to seizure for more than a specified number of days.

Navios Logistics' business can be affected by adverse weather conditions, effects of climate change and other factors beyond its control, that can affect production of the goods it transports and stores as well as the navigability of the river system on which it operates.

A significant portion of Navios Logistics' business is derived from the transportation, handling and storage of soybeans and other agricultural products produced in the Hidrovia region. Any drought or other adverse weather conditions, such as floods, could result in a decline in production of these products, which would likely result in a reduction in demand for its services. This would, in turn, negatively impact its results of operations and financial condition. Furthermore, Navios Logistics' fleet operates in the Parana and Paraguay Rivers, and any changes adversely affecting navigability of either of these rivers, such as changes in the depth of the water or the width of the navigable channel, could, in the short-term, reduce or limit its ability to effectively transport cargo on the rivers. For example, Navios Logistics was adversely affected by the decline in soybean production associated with the drought experienced mainly in the first quarter of 2011 throughout the main soybean growing areas of the Hidrovia. Low water levels, which began during the fourth quarter of 2011 and extended into 2012, also affected the volume carried. The possible effects of climate change, such as floods, droughts or increased storm activity, could similarly affect the demand for its services or its operations.

A prolonged drought, the possible effects of climate change, or other turn of events that is perceived by the market to have an impact on the region, the navigability of the Parana or Paraguay Rivers or Navios Logistics' business in general may, in the short-term, result in a reduction in the market value of its ports, barges and pushboats that operate in the region. These barges and pushboats are designed to operate in wide and relatively calm rivers, of which there are only a few in the world. If it becomes difficult or impossible to operate profitably Navios Logistics' barges and pushboats in the Hidrovia and Navios Logistics is forced to sell them to a third party located outside of the region, there is a limited market in which it would be able to sell these vessels, and accordingly it may be forced to sell them at a substantial loss.

Navios Logistics may be unable to obtain financing for its growth or to fund its future capital expenditures, which could materially adversely affect its results of operations and financial condition.

Navios Logistics' capital expenditures during 2011, 2012 and 2013 were \$70.6 million, \$17.6 million and \$61.5 million, respectively, used to acquire and/or pay installments for among others one product tanker, six pushboats, 142 barges and to expand Navios Logistics' port terminal operations through the construction of one drying and conditioning facility, a new conveyor belt, new tanks and a silo. In order to follow its current strategy for growth, Navios Logistics will need to fund future asset or business acquisitions, increase working capital levels and increase capital expenditures.

In the future, Navios Logistics will also need to make capital expenditures required to maintain its current ports, fleet and infrastructure. Cash generated from its earnings may not be sufficient to fund all of these measures. Accordingly, Navios Logistics may need to raise capital through borrowings or the sale of debt or equity securities. Navios Logistics' ability to obtain bank financing or to access the capital markets for future offerings may be limited by its financial condition at the time of any such financing or offering, as well as by adverse market conditions resulting from, among other things, general economic conditions and contingencies and uncertainties that are beyond its control. If Navios Logistics fails to obtain the funds necessary for capital expenditures required to maintain its ports, fleet and/or infrastructure, Navios Logistics may be forced to take vessels out of service or curtail operations, which could materially harm its revenues and profitability. If Navios Logistics fails to obtain the funds that might be necessary to acquire new vessels, or increase its working capital or capital expenditures, it might not be able to grow its business and its earnings could suffer. Furthermore, despite covenants under the indentures governing the Logistics Senior Notes and the agreements governing its other indebtedness, Navios Logistics will be permitted to incur additional indebtedness which would limit cash available for working capital and to service its indebtedness.

## The failure of Petrobras to successfully implement its business plan for 2014-2018 could adversely affect our business.

During 2013, Petrobras announced its business plan for 2014-2018, which includes a projected capital expenditure budget of \$220.6 billion between 2014 and 2018 and provides for an increase in drilling rigs, refining capacity and resultant fleet expenditures. In addition, in October 2013, the consortium under which Petrobas is the operator with a 40% ownership stake, was awarded a production sharing contract to explore and exploit oil and gas in Libra block, located in the Brazilian pre-salt areas (areas of rock accumulations which are found under the salt layer of the Brazilian coastline and have the potential for the generation of oil), which will require additional capital expenditures by Petrobras to explore and develop the areas covered by the production sharing contract. The production sharing contract as well as other agreements and Brazilian regulations require that Petrobras acquire a minimum level of goods and services from Brazilian providers. In addition, Brazilian law provides a preference for the utilization of Brazilian-flagged vessels in its cabotage trade. In May 2011, Navios Logistics also signed 15-year charter contracts with Petrobras for six Panamax vessels, which are subject to Navios Logistics' option to cancel the contracts if Navios Logistics is unable to secure acceptable financing for the construction of the vessels (to be completed by 2018). Any failure to capitalize on Navios Logistics' relationship with Petrobras could have a material adverse effect on its results of operations.

Spare parts or other key equipment needed for the operation of Navios Logistics' ports and fleet may not be available off-the-shelf and, as a result, it may face substantial delays, which could result in loss of revenues while waiting for those spare parts to be produced and delivered to Navios Logistics.

Navios Logistics' ports and its fleet may need spare parts in order to replace old or damaged parts in the normal course of its operations. Given the increased activity in the maritime industry and the industry that supplies it, the manufacturers of key equipment for Navios Logistics' vessels and its ports (such as engine makers, propulsion systems makers, control system makers and others) may not have the spare parts needed available immediately and may have to produce them when required. If this was the case, Navios Logistics vessels and ports may be unable to operate while waiting for such spare parts to be produced, delivered, installed and tested, resulting in a substantial loss of revenues for Navios Logistics.

Navios Logistics owns and operates an up-river port terminal in San Antonio, Paraguay that it believes is well-positioned to become a hub for industrial development based upon the depth of the river in the area and the convergence between land and river transportation. If the port does not become a hub for industrial development, its future prospects could be materially and adversely affected.

Navios Logistics owns and operates an up-river port terminal with tank storage for refined petroleum products, oil and gas in San Antonio, Paraguay. Navios Logistics believes that the port's location south of the city of Asuncion, the depth of the river in the area and the convergence between land and river transportation make this port well-positioned to become a hub for industrial development. However, if the location is not deemed to be advantageous, or the use of the river or its convergence with the land is not fully utilized for transportation, then the port would not become a hub for industrial development, and its future prospects could be materially and adversely affected.

### The risks and costs associated with ports as well as vessels increase as the operational port equipment and vessels age.

The costs to operate and maintain a port or a vessel increase with the age of the port equipment or vessel. Governmental regulations, safety or other equipment standards related to the age of the operational port equipment or vessels may require expenditures for alterations or the addition of new equipment to Navios Logistics' port equipment or vessels and may restrict the type of activities in which these ports or vessels may engage. Given the increased activity in the maritime industry and the industry that supplies it, the manufacturers of key equipment for its vessels and ports (such as engine makers, propulsion systems makers, control systems makers and others) may not have the spare parts needed available immediately (or off-the-shelf) and may have to produce them when required. If this was the case, Navios Logistics' vessels and ports may be unable to operate while waiting for such spare parts to be produced, delivered, installed and tested, resulting in substantial loss of revenues for Navios Logistics. The average age of Navios Logistics' six product tanker vessels is five years. In some cases, charterers prefer newer vessels that are more fuel efficient than older vessels. Cargo insurance rates also increase with the age of a vessel, making older vessels less desirable to charterers as well. Navios Logistics cannot assure you that, as its operational port equipment and vessels age, market conditions will justify those expenditures or enable Navios Logistics to operate its ports and vessels profitably during the remainder of their useful lives. If Navios Logistics sells such assets, it may have to sell them at a loss, and if clients no longer use its ports or charter-out its vessels due to their age, its results of operations could be materially adversely affected.

As Navios Logistics expands its business, it may have difficulty managing its growth, including the need to improve its operations and financial systems, staff and crew or to receive required approvals to implement its expansion projects. If Navios Logistics cannot improve these systems, recruit suitable employees or obtain required approvals, it may not be able to effectively control its operations.

Navios Logistics intends to grow its port terminal, barge and cabotage businesses, either through land acquisition and expansion of its port facilities, through purchases of additional vessels, through chartered-in vessels or acquisitions of other logistics and related or complementary businesses. The expansion and acquisition of new land or addition of vessels to its fleet will impose significant additional responsibilities on its management and staff, and may require Navios Logistics to increase the number of its personnel. Navios Logistics will also have to increase its customer base to provide continued activity for the new businesses.

In addition, approval of governmental, regulatory and other authorities may be needed to implement any acquisitions or expansions. For example, Navios Logistics has available within the Nueva Palmira Free Zone in Uruguay as well as near the Free Zone where Navios Logistics plans to expand its port facility and construct a port terminal for minerals and liquid cargo. In order to complete these projects, however, Navios Logistics needs to receive required authorization from several authorities. If these authorities deny Navios Logistics request for authorization, it will not be able to proceed with this project.

Growing any business by acquisition presents numerous risks. Acquisitions expose Navios Logistics to the risk of successor liability relating to actions involving an acquired company, its management or contingent liabilities incurred before the acquisition. The due diligence Navios Logistics conducts in connection with an acquisition, and any contractual guarantees or indemnities that it receives from the sellers of acquired companies or assets may not be sufficient to protect it from, or compensate it for, actual liabilities. Any material liability associated with an acquisition could adversely affect its reputation and results of operations and reduce the benefits of the acquisition. Other risks presented include difficulty in obtaining additional qualified personnel, managing relationships with customers and suppliers and integrating newly acquired assets or operations into existing infrastructures.

Management is unable to predict whether or when any prospective acquisition will occur, or the likelihood of a certain transaction being completed on favorable terms and conditions. Navios Logistics' ability to expand its business through acquisitions depends on many factors, including its ability to identify acquisitions or access capital markets at an acceptable cost and negotiate favorable transaction terms. Navios Logistics cannot give any assurance that it will be successful in executing its growth plans or that it will not incur significant expenses and losses in connection therewith or that its acquisitions will perform as expected, which could materially adversely affect its results of operations and financial condition. Furthermore, because the volume of cargo Navios Logistics ships is at or near the capacity of its existing barges during the typical peak harvest season, its ability to increase volumes shipped is limited by its ability to acquire or charter-in additional barges.

With respect to Navios Logistics' existing infrastructure, its initial operating and financial systems may not be adequate as Navios Logistics implements its plan to expand, and its attempts to improve these systems may be ineffective. If Navios Logistics is unable to operate its financial and operations systems effectively or to recruit suitable employees as it expands its operations, it may be unable to effectively control and manage the substantially larger operation. Although it is impossible to predict what errors might occur as the result of inadequate controls, it is generally harder to manage a larger operation than a smaller one and, accordingly, more likely that errors will occur as operations grow. Additional management infrastructure and systems will be required in connection with such growth to attempt to avoid such errors.

## Rising crew costs, fuel prices and other cost increases may adversely affect Navios Logistics' profits.

At December 31, 2013, Navios Logistics employed 368 land-based employees and approximately 613 seafarers as crew on its vessels. Crew costs are a significant expense for Navios Logistics. Recently, the limited supply of and increased demand for well-qualified crew, due to the increase in the size of the global shipping fleet, has created upward pressure on crewing costs, which Navios Logistics generally bears under its time and spot contracts. Additionally, labor union activity in the Hidrovia may create pressure for Navios Logistics to pay higher crew salaries and wages. In addition, fuel is one of the largest operating expenses in its barge and cabotage businesses, where the revenue is contracted mainly by ton per cargo shipped. The prices for and availability of fuel may be subject to rapid change or curtailment, respectively, due to, among other things, new laws or regulations, interruptions in production by suppliers, imposition of restrictions on energy supply by government, worldwide price levels and market conditions. Currently, most of Navios Logistics' contracts provide for the adjustment of freight rates based on changes in the fuel prices and crew costs. Navios Logistics may be unable to include similar provisions in these contracts when they are renewed or in future contracts with new customers. To the extent its contracts do not pass-through changes in fuel prices to its clients, Navios Logistics will be forced to bear the cost of fuel price increases. Navios Logistics may hedge in the futures market all or part of its exposure to fuel price variations. Navios Logistics cannot assure you that it will be successful in hedging its exposure. In the event of a default

by its contractual counterparties or other circumstance affecting their performance under a contract, Navios Logistics may be subject to exposure under, and may incur losses in connection with, its hedging instruments, if any. In certain jurisdictions, the price of fuel is affected by high local taxes and may become more expensive than prevailing international prices. Navios Logistics may not be able to pass onto its customers the additional cost of such taxes and may suffer losses as a consequence of such inability. Such increases in crew and fuel costs may materially adversely affect Navios Logistics' results of operations.

Navios Logistics' industry is highly competitive, and it may not be able to compete successfully for services with new companies with greater resources.

Navios Logistics provides services through its ports and employs its fleet in highly competitive markets. The river and sea coastal logistics market is international in scope and Navios Logistics competes with many different companies, including other port or vessel owners and major oil companies.

With respect to loading, storage and ancillary services, the market is divided between transits and exports, depending on the cargo origin. In the case of transits, there are other companies operating in the river system that are able to offer services similar to Navios Logistics. With respect to exports, its competitors are Montevideo Port in Montevideo and Ontur and TGU in Nueva Palmira. The main competitor of its liquid port terminal in Paraguay is Petropar, a Paraguayan state-owned entity. Other competitors include Copetrol and Petrobras, which are also customers of Navios Logistics' port.

Navios Logistics faces competition in its barge and cabotage businesses with transportation of oil and refined petroleum products from other independent ship owners and from vessel operators. The charter markets in which its vessels compete are highly competitive. Key competitors include Ultrapetrol Bahamas Ltd. and Fluviomar. In addition, some of its customers, including ADM, Cargill, Louis Dreyfus and Vale, have some of their own dedicated barge capacity, which they can use to transport cargo in lieu of hiring a third party. Navios Logistics also competes indirectly with other forms of land-based transportation such as truck and rail. These companies and other smaller entities are regular competitors of Navios Logistics in its primary tanker trading areas. Competition is primarily based on prevailing market contract rates, vessel location and vessel manager know-how, reputation and credibility.

Navios Logistics' competitors may be able to offer their customers lower prices, higher quality service and greater name recognition than it does. Accordingly, it may be unable to retain its current customers or to attract new customers.

If Navios Logistics fails to fulfill the oil majors' vetting processes, it could materially adversely affect the employment of its tanker vessels in the spot and period markets, and consequently its results of operations.

While numerous factors are considered and evaluated prior to a commercial decision, the oil majors, through their association, OCIMF, have developed and are implementing two basic tools: (a) the Ship Inspection Report Program ("SIRE") and (b) the Tanker Management and Self-Assessment ("TMSA") program. The former is a ship inspection based upon a thorough Vessel Inspection Questionnaire and performed by OCIMF-accredited inspectors, resulting in a report being logged on SIRE. The report is an important element of the ship evaluation undertaken by any oil major when a commercial need exists.

Based upon commercial needs, there are three levels of assessment used by the oil majors: (a) terminal use, which will clear a vessel to call at one of the oil major's terminals, (b) voyage charter, which will clear the vessel for a single voyage and (c) term charter, which will clear the vessel for use for an extended period of time. While for terminal use and voyage charter relationships, a ship inspection and the operator's TMSA will be sufficient for the evaluation to be undertaken, a term charter relationship also requires a thorough office audit. An operator's request for such an audit is by no means a guarantee one will be performed; it will take a long record of proven excellent safety and environmental protection on the operator's part as well as high commercial interest on the part of the oil major to have an office audit performed. If Navios Logistics fails to clear the vetting processes of the oil majors, it could have a material adverse effect on the employment of its vessels, and, consequently, on its results of operations.

Navios Logistics may employ its fleet on the spot market and thus expose itself to risk of losses based on short-term decreases in shipping rates.

Navios Logistics periodically employs some of its fleet on a spot basis. As of December 31, 2013, 66% of its cabotage fleet and 69% of its barge fleet on a dwt tons basis was employed under time charter or COA contracts. The remaining percentage of its barge and cabotage fleet was employed in the spot market. The spot charter market can be competitive and freight rates within this market may be volatile with the timing and amount of fluctuations in spot rates being difficult to determine. Longer-term contracts provide income at pre-determined rates over more extended periods of time. The cycles in its target markets have not yet been clearly determined but Navios Logistics expects them to exhibit significant volatility as the South American markets mature. Navios Logistics cannot assure you that it will be successful in keeping its fleet fully employed in these short-term markets, or that future spot rates will be sufficient to enable such fleet to be operated profitably. A significant decrease in spot market rates or its inability to fully employ its fleet by taking advantage of the spot market would result in a reduction of the incremental revenue received from spot chartering and could materially adversely affect its results of operations, and operating cash flow.

Navios Logistics does not carry any strike insurance. As a result, if Navios Logistics were to become subject to a labor strike, it may incur uninsured losses, which could have a material adverse effect on its results of operations.

Navios Logistics does not currently maintain any strike insurance. As a result, if the crew of its vessels were to initiate a labor strike, Navios Logistics could incur uninsured liabilities and losses as a result. There can be no guarantee that Navios Logistics will be able to obtain additional insurance coverage in the future, and even if Navios Logistics is able to obtain additional coverage, it may not carry sufficient insurance coverage to satisfy potential claims. Should uninsured losses occur, it could have a material adverse effect on its results of operations.

Certain of Navios Logistics' directors, officers, and principal stockholders are affiliated with entities engaged in business activities similar to those conducted by Navios Logistics which may compete directly with it, causing such persons to have conflicts of interest.

Some of Navios Logistics' directors, officers and principal stockholders have affiliations with entities that have similar business activities to those conducted by Navios Logistics. Navios Logistics' controlling stockholder, Navios Holdings, is a global, vertically integrated seaborne shipping and logistics company which operates numerous businesses focused on the transport and transshipment of drybulk commodities including iron ore, coal and grain. In addition, certain of Navios Logistics' directors are also directors of shipping companies and they may enter similar businesses in the future. These other affiliations and business activities may give rise to certain conflicts of interest in the course of such individuals' affiliation with Navios Logistics. Although Navios Logistics does not prevent its directors, officers and principal stockholders from having such affiliations, Navios Logistics uses its best efforts to cause such individuals to comply with all applicable laws and regulations in addressing such conflicts of interest. Navios Logistics' officers and employee directors devote their full time and attention to its ongoing operations, and its non-employee directors devote such time as is necessary and required to satisfy their duties as directors of a company.

Navios Logistics' success depends upon its management team and other employees, and if it is unable to attract and retain key management personnel and other employees, its results of operations may be negatively impacted.

Navios Logistics' success depends to a significant extent upon the abilities and efforts of its management team and its ability to retain them. In particular, many members of its senior management team, including its Chairman, its Chief Executive Officer, its Chief Financial Officer, its Chief

Operating Officers and its Chief Commercial Officer, have extensive experience in the logistics and shipping industries. If Navios Logistics was to lose its services for any reason, it is not clear whether any available replacements would be able to manage its operations as effectively. The loss of any of the members of its management team could impair Navios Logistics' ability to identify and secure vessel contracts, to maintain good customer relations and to otherwise manage its business, which could have a material adverse effect on its financial performance and its ability to compete. Navios Logistics does not maintain key man insurance on any of its officers. Further, the efficient and safe operation of its fleet and ports requires skilled and experienced crew members and employees. Difficulty in hiring and retaining such crew members and employees could adversely affect its results of operations.

## Risks Relating to Argentina

Argentine government actions concerning the economy, including decisions with respect to inflation, interest rates, price controls, foreign exchange controls, wages and taxes, restrictions on production, imports and exports, have had and could continue to have a material adverse effect on Navios Logistics. Navios Logistics cannot provide any assurance that future economic, social and political developments in Argentina, over which it has no control, will not impair its business, financial condition or results of operations, the guarantors or the market price of the senior notes.

The continuing rise in inflation and the Argentine government's limited access to foreign financing may have material adverse effects on the Argentine economy.

In the past, Argentina has experienced periods of high inflation. Inflation has increased since 2005 and remained relatively high ever since. According to data published by the Instituto Nacional de Estadísticas y Censos, or INDEC, the year-on-year inflation rate (as measured by changes in the consumer price index, or CPI), was 7.7%, 10.9%, 9.5%, 10.8% and 10.5% for 2009, 2010, 2011, 2012 and 2013, respectively. The reliability of INDEC's statistics has been widely questioned due to the substantial disparity between its inflation rate and the higher rates calculated by independent economists. In February 2013, the IMF censured Argentina for its inaccurate financial statistics. In response, INDEC adopted an improved methodology for calculating the CPI in 2014. The CPI increase for January 2014 was calculated under the new methodology to be 3.7% — an annualized inflation rate of 44.4%.

A high inflation economy could undermine Argentina's cost competitiveness abroad if not offset by a devaluation of the Argentine peso, which could also negatively effect economic activity and employment levels. Since year-end 2013, the peso has fallen approximately 21% against the U.S. dollar according to the exchange rate published by the Banco de la Nación Argentina. While most of the client contracts of Navios Logistics' Argentine subsidiaries are denominated in U.S. dollars, freight under those contracts is collected in Argentine pesos at the prevailing exchange rate. These contracts also include crew cost adjustment terms. Uncertainty about future inflation may contribute to slowdown or contraction in economic growth. Argentine inflation rate volatility makes it impossible to estimate with reasonable certainty the extent to which activity levels and results of operations of Navios Logistics' Argentine subsidiaries could be affected by inflation and exchange rate volatility in the future.

Additionally, Argentina has very limited access to foreign financing resulting from a default, several restructurings, and a series of payment suspensions over the past decade. Due to the lack of access to the international capital markets, the Argentine government continues to use the Argentine Central Bank's foreign currency reserves for the payment of Argentina's current debt, the reduction of which may weaken Argentina's ability to overcome economic deterioration in the future. Argentina's foreign currency reserves have declined significantly since the end of 2012. Without access to international private financing, Argentina may not be able to finance its obligations, and financing from multilateral financial institutions may be limited or not available. This could also inhibit the ability of the Argentine Central Bank to adopt measures to curb inflation and could materially adversely affect Argentina's economic growth and public finances.

The Argentine Central Bank has imposed restrictions on the transfer of funds outside of Argentina and other exchange controls in the past and may do so in the future, which could prevent Navios Logistics Argentine subsidiaries from transferring funds for the payment of the senior notes or the related guarantees.

In 2001 and during the first half of 2002, Argentina experienced a massive withdrawal of deposits from the Argentine financial system in a short period of time, as depositors lost confidence in the Argentine government's ability to repay its foreign debt, its domestic debt and to maintain the convertibility regime. This precipitated a liquidity crisis within the Argentine financial system, which prompted the Argentine government to impose exchange controls and restrictions on the ability of depositors to withdraw their deposits.

Furthermore, in 2001 and 2002 and until February 7, 2003, the Argentine Central Bank restricted Argentine individuals and corporations from transferring U.S. dollars abroad without its prior approval. In 2003 and 2004, the government reduced some of these restrictions, including those requiring the Argentine Central Bank's prior authorization for the transfer of funds abroad in order to pay principal and interest on debt obligations. Nevertheless, significant government controls and restrictions remain in place. Increasingly during 2008 and into 2009, the Argentine government has been imposing new restrictions on foreign exchange outflows, including through certain transactions on securities traded locally. Additionally, the Argentine federal tax authority has recently imposed new restrictions and limitations on the purchase of foreign currency. The existing controls and restrictions, and any additional restrictions of this kind that may be imposed in the future, could impair Navios Logistics' ability to transfer funds generated by its Argentine operations in U.S. dollars outside Argentina to Navios Logistics for the payment of Navios Logistics' indebtedness. In addition, the above restrictions and requirements, and any other restrictions or requirements that may be imposed in the future, expose Navios Logistics to the risk of losses arising from fluctuations in the exchange rate of the Argentine peso.

The Argentine government has made certain changes to its tax rules that affect Navios Logistics' operations in Argentina and could further increase the fiscal burden on its operations in Argentina in the future.

Since 1992, the Argentine government has not permitted the application of an inflation adjustment on the value of fixed assets for tax purposes. Since the substantial devaluation of the Argentine peso in 2002, the amounts that the Argentine tax authorities permit Navios Logistics to deduct as depreciation for its past investments in plant, property and equipment have been substantially reduced, resulting in a higher effective income tax charge. If the Argentine government continues to increase the tax burden on Navios Logistics' operations in Argentina, its results of operations and financial condition could be materially and adversely affected.

Future policies of the Argentine government may affect the economy as well as Navios Logistics' operations.

In recent years the Argentine government has taken several actions to re-nationalize concessions and public services companies that were privatized in the 1990's, such as Aguas Argentinas S.A. and Aerolíneas Argentinas S.A. On May 3, 2012, expropriation law 26,741 was passed by the Argentine Congress, providing for the expropriation of 51% of the share capital of YPF S.A., represented by an identical stake of Class D shares owned, directly or indirectly, by YPF and its controlled or controlling entities, which have been declared of public interest. Recently, the Argentine Government made an offer to compensate Repsol YPF for approximately US\$5 billion, which was accepted by the Board of Directors of Repsol YPF on February 25th, 2014, but which still has to be confirmed by the shareholders and by the Argentine Congress. It is unclear whether such expropriation policies will continue and to what extent they will affect the Argentine economy, and, as a result, Navios Logistics' business, results of operations and financial condition.

## Risks Relating to Uruguayan Free Zone Regulation

Certain of Navios Logistics' subsidiaries in Uruguay are operating as direct free trade zone users under an agreement with the Free Zone Division of the Uruguayan General Directorate of Commerce allowing them to operate in isolated public and private areas within national borders and to enjoy tax exemptions and other benefits, such as a generic exemption on present and future national taxes including the Corporate Income Tax, Value-Added Tax and Wealth Tax. Other benefits that Navios Logistics' subsidiaries enjoy are simplified corporate law provisions, the ability to negotiate preferential public utility rates with government agencies and government guarantees of maintenance of such benefits and tax exemptions. Free trade zone users do not need to pay import and export tariffs to introduce goods from abroad to the free trade zone, to transfer or send such goods to other free trade zones in Uruguay or send them abroad. However, Navios Logistics' subsidiaries may lose all the tax benefits granted to them if they breach or fail to comply with the free trade zone contracts or framework, including exceeding the 25% limit on non-Uruguayan employees or engaging in industrial, commercial or service activities outside of a free trade zone in Uruguay. In this case, Navios Logistics' subsidiaries may continue with their operations from the free zone, but under a different tax regime.

### Other Risks Relating to the Countries in which Navios Logistics' Operates

Navios Logistics is an international company that is exposed to the risks of doing business in many different, and often less developed and emerging market countries.

Navios Logistics is an international company and conducts all of its operations outside of the United States, and expects to continue doing so for the foreseeable future. These operations are performed in countries that are historically less developed and stable than the United States, such as Argentina, Brazil, Bolivia, Paraguay and Uruguay.

Some of the other risks Navios Logistics is generally exposed to through its operations in emerging markets include among others:

- political and economic instability, changing economic policies and conditions, and war and civil disturbances;
- recessions in economies of countries in which Navios Logistics has business operations;
- frequent government interventions into the country's economy, including changes to monetary, fiscal and credit policy;
- the imposition of additional withholding, income or other taxes, or tariffs or other restrictions on foreign trade or investment, including currency exchange controls and currency repatriation limitations;
- the modification of its status or the rules and regulations relating to the international tax-free trade zone in which Navios Logistics operates its dry port;
- the imposition of executive and judicial decisions upon Navios Logistics' vessels by the different governmental authorities associated with some of these countries;
- the imposition of or unexpected adverse changes in foreign laws or regulatory requirements;
- longer payment cycles in foreign countries and difficulties in collecting accounts receivable;
- difficulties and costs of staffing and managing its foreign operations;
- · compliance with anti-bribery laws; and
- acts of terrorism.

These risks may result in unforeseen harm to Navios Logistics' business and financial condition. Also, some of its customers are headquartered in South America, and a general decline in the economies of South America, or the instability of certain South American countries and economies, could materially adversely affect Navios Logistics.

For example the Brazilian economy has experienced significant volatility in recent decades, characterized by periods of low or negative growth, high and variable levels of inflation and currency devaluation. Historically, Brazil's political situation has influenced the performance of the Brazilian economy, and political crises have affected the confidence of investors and the general public. Future developments in policies of the Brazilian government and/or the uncertainty of whether and when such policies and regulations may be implemented, all of which are beyond our control, could have a material adverse effect on Navios Logistics. Additionally, the Brazilian government frequently implements changes to the Brazilian tax regime, including changes in prevailing tax rates and the imposition of temporary taxes, which may affect Navios Logistics.

Navios Logistics' business in emerging markets requires it to respond to rapid changes in market conditions in these countries. Navios Logistics' overall success in international markets depends, in part, upon its ability to succeed in different legal, regulatory, economic, social and political conditions. Navios Logistics may not continue to succeed in developing and implementing policies and strategies that will be effective in each location where it does business. Furthermore, the occurrence of any of the foregoing factors may have a material adverse effect on its business and results of operations.

The governments of Argentina, Bolivia, Brazil, Paraguay and Uruguay have entered into a treaty that commits each of them to participate in a regional initiative to integrate the region's economies. There is no guarantee that such an initiative will be successful or that each of the governments involved in the initiative will follow through on its intentions to participate and if such regional initiative is unsuccessful, it could have a material adverse impact on Navios Logistics' results of operations.

The governments of Argentina, Bolivia, Brazil, Paraguay and Uruguay have entered into a treaty that commits each of them to participate in a regional initiative to integrate the region's economies, a central component of which is water transportation in the Hidrovia. Although Navios Logistics believes that this regional initiative of expanding navigation on the Hidrovia river system will result in significant economic benefits, there is no guarantee that such an initiative will ultimately be successful, that each country will follow through on its intention to participate, or that the benefits of this initiative will match its expectations of continuing growth in the Hidrovia or reducing transportation costs. If the regional initiative is unsuccessful, its results of operations could be materially and adversely affected.

Changes in rules and regulations with respect to cabotage or their interpretation in the markets in which Navios Logistics operates could have a material adverse effect on its results of operations.

In the markets in which Navios Logistics currently operates, in cabotage or regional trades, it is subject to restrictive rules and regulations on a region basis. Navios Logistics' operations currently benefit from these rules and regulations or their interpretation. For instance, preferential treatment is extended in Argentine cabotage for Argentine flagged vessels or foreign flagged vessels operated by local established operators with sufficient Argentine tonnage under one to three years' licenses, including Navios Logistics' Argentine cabotage vessels. Changes in cabotage rules and regulations or in their interpretation may have an adverse effect on Navios Logistics' current or future cabotage operations, either by becoming more restrictive (which could result in limitations to the utilization of some of its vessels in those trades) or less restrictive (which could result in increased competition in these markets).

Because Navios Logistics generates the majority of its revenues in U.S. dollars but incurs a significant portion of its expenses in other currencies, exchange rate fluctuations could cause Navios Logistics to suffer exchange rate losses, thereby increasing expenses and reducing income.

foreign currency risk, its revenues are predominantly U.S. dollar-denominated at the present. Additionally, Navios Logistics' South American subsidiaries transact certain operations in Uruguayan pesos, Paraguayan guarannies, Argentinean pesos and Brazilian reals; however, all of the subsidiaries' primary cash flows are U.S. dollar-denominated. Currencies in Argentina and Brazil have fluctuated significantly against the U.S. dollar in the past. As of December 31, 2013, 2012 and 2011, approximately 55.9%, 50.4% and 48.5%, respectively, of Navios Logistics' expenses were incurred in currencies other than the U.S. dollar. Transactions in currencies other than the functional currency are translated at the exchange rate in effect at the date of each transaction. Expenses incurred in foreign currencies against which the U.S. dollar falls in value can increase, thereby decreasing Navios Logistics' income. A greater percentage of its transactions and expenses in the future may be denominated in currencies other than the U.S. dollar. As part of its overall risk management policy, Navios Logistics may attempt to hedge these risks in exchange rate fluctuations from time to time but cannot guarantee it will be successful in these hedging activities. Future fluctuations in the value of local currencies relative to the U.S. dollar in the countries in which Navios Logistics operates may occur, and if such fluctuations were to occur in one or a combination of the countries in which Navios Logistics operates, its results of operations or financial condition could be materially adversely affected.

### Tax Risks

We may earn United States source income that is subject to tax, thereby adversely affecting our results of operations and cash flows.

Under the Internal Revenue Code, or the Code, 50.0% of the gross shipping income of a vessel owning or chartering corporation that is attributable to transportation that either begins or ends, but that does not both begin and end, in the United States is characterized as U.S.-source shipping income. U.S.-source shipping income generally is subject to a 4.0% U.S. federal income tax without allowance for deduction or, if such U.S.-source shipping income is effectively connected with the conduct of a trade or business in the United States, U.S. federal corporate income tax (the highest statutory rate presently is 35.0%) as well as a branch profits tax (presently imposed at a 30.0% rate on effectively connected earnings), unless that corporation qualifies for exemption from tax under Section 883 of the Code. Based on our current plans, we expect that our income from sources within the United States will be international shipping income that qualifies for exemption from United States federal income taxation under section 883 of the Code, and that we will have no other income that will be taxed in the United States. Our ability to qualify for the exemption at any given time will depend upon circumstances related to the ownership of our common stock at such time and thus are beyond our control. Furthermore, our board of directors could determine that it is in our best interests to take an action that would result in this tax exemption not applying to us in the future. Accordingly, we can give no assurance that we would qualify for the exemption under Section 883 with respect to any such income we earn. If we were not entitled to the Section 883 exemption for any taxable year, we generally would be subject to a 4.0% U.S. federal gross income tax with respect to our U.S.-source shipping income or, if such U.S. source shipping income were effectively connected with the conduct of a trade or business in the United States, U.S. federal corporate income tax as well as a branch profits tax for those years. As a result, depen

#### We may be taxed as a United States corporation.

The purchase by International Shipping Enterprises Inc. ("ISE"), our predecessor, of all of the outstanding shares of common stock of Navios Holdings, and the subsequent downstream merger of ISE with and into Navios Holdings took place on August 25, 2005. Navios Holdings is incorporated under the laws of the Republic of the Marshall Islands. ISE received an opinion from its counsel for the merger transaction that, while there is no direct authority that governs the tax treatment of the transaction, it was more likely than not that Navios Holdings would be taxed by the United States as a foreign corporation. Accordingly, we take the position that we will be taxed as a foreign corporation by the United States. If Navios Holdings is taxed as a U.S. corporation in the future, its taxes will be significantly higher than they are currently.

A change in tax laws, treaties or regulations, or their interpretation, of any country in which we operate our business could result in a high tax rate on our worldwide earnings, which could result in a significant negative impact on our earnings and cash flows from operations.

We are an international company that conducts business throughout the world. Tax laws and regulations are highly complex and subject to interpretation. Consequently, we are subject to changing tax laws, treaties and regulations in and between countries in which we operate. Our income tax expense is based upon our interpretation of tax laws in effect in various countries at the time that the expense was incurred. A change in these tax laws, treaties or regulations, or in the interpretation thereof, or in the valuation of our deferred tax assets, could result in a materially higher tax expense or a higher effective tax rate on our worldwide earnings, and such change could be significant to our financial results. If any tax authority successfully challenges our operational structure, intercompany pricing policies or the taxable presence of our key subsidiaries in certain countries, or if the terms of certain income tax treaties are interpreted in a manner that is adverse to our structure, or if we lose a material tax dispute in any country, our effective tax rate on our worldwide earnings from our operations could increase substantially and our earnings and cash flows from these operations could be materially adversely affected. In accordance with the currently applicable Greek law, foreign flagged vessels that are managed by Greek or foreign ship management companies having established an office in Greece are subject to duties towards the Greek state which are calculated on the basis of the relevant vessel's tonnage. The payment of said duties exhausts the tax liability of the foreign ship owning company and the relevant manager against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

We and our subsidiaries may be subject to taxation in the jurisdictions in which we and our subsidiaries conduct business. Such taxation would result in decreased earnings available to our stockholders.

Investors are encouraged to consult their own tax advisors concerning the overall tax consequences of the ownership of our common stock arising in an investor's particular situation under U.S. federal, state, local and foreign law.

U.S. tax authorities could treat us as a "passive foreign investment company," which could have adverse U.S. federal income tax consequences to U.S. holders.

A foreign corporation will be treated as a "passive foreign investment company," or PFIC, for U.S. federal income tax purposes if either (1) at least 75% of its gross income for any taxable year consists of certain types of "passive income" or (2) at least 50% of the average value of the corporation's assets produce or are held for the production of those types of "passive income." For purposes of these tests, "passive income" includes dividends, interest, and gains from the sale or exchange of investment property and rents and royalties other than rents and royalties which are received from unrelated parties in connection with the active conduct of a trade or business. For purposes of these tests, income derived from the performance of services does not constitute "passive income." U.S. stockholders of a PFIC are subject to a disadvantageous U.S. federal income tax regime with respect to the income derived by the PFIC, the distributions they receive from the PFIC and the gain, if any, they derive from the sale or other disposition of their shares in the PFIC.

We should not be a PFIC with respect to any taxable year. Based upon our operations as described herein, our income from time charters should not be treated as passive income for purposes of determining whether we are a PFIC. Accordingly, our income from our time chartering activities should not constitute "passive income," and the assets that we own and operate in connection with the production of that income should not constitute passive assets.

There is substantial legal authority supporting this position consisting of case law and U.S. Internal Revenue Service, or IRS, pronouncements concerning the characterization of income derived from time charters and voyage charters as services income for other tax purposes. However, it should be noted that there is also authority which characterizes time charter income as rental income rather than services income for other tax purposes. Accordingly, no assurance can be given that the IRS or a court of law will accept this position, and there is a risk that the IRS or a court of law could determine that we are a PFIC. Moreover, no assurance can be given that we would not constitute a PFIC for any future taxable year if the nature and extent of our operations changed.

If the IRS were to find that we are or have been a PFIC for any taxable year, our U.S. stockholders would face adverse U.S. federal income tax consequences and certain information reporting requirements. Under the PFIC rules, unless those stockholders make an election available under the Code (which election could itself have adverse consequences for such stockholders), such stockholders would be liable to pay U.S. federal income tax at the then prevailing income tax rates on ordinary income plus interest upon excess distributions and upon any gain from the disposition of their shares of common stock, as if the excess distribution or gain had been recognized ratably over the stockholder's holding period of the common stock. See "Federal Income Tax Consequences — United States Federal Income Tax Considerations — United States Federal Income Taxation of U.S. Holders — Tax Treatment of Common Stock" for a more comprehensive discussion of the U.S. federal income tax consequences to U.S. stockholders if we are treated as a PFIC.

### Item 4. Information on the Company

## A. History and Development of the Company

The legal and commercial name of the Company is Navios Maritime Holdings Inc. The Company's office and principal place of business is located at 7 Avenue de Grande Bretagne, Office 11B2, Monte Carlo, MC 98000 Monaco, and its telephone number is (011) + (377) 9798-2140. The Company is a corporation incorporated under the Marshall Islands Business Corporations Act ("BCA") and the laws of the Republic of the Marshall Islands. Trust Company of the Marshall Islands, Inc. serves as the Company's agent for service of process, and the Company's registered address, as well as address of its agent for service of process, is Trust Company Complex, Ajeltake Island P.O. Box 1405, Majuro, Marshall Islands MH96960.

On August 25, 2005, pursuant to a Stock Purchase Agreement dated February 28, 2005, as amended, by and among International Shipping Enterprises Inc. ("ISE"), Navios Holdings, and all the shareholders of Navios Holdings, ISE acquired Navios Holdings through the purchase of all of the outstanding shares of common stock of Navios Holdings. As a result of this acquisition, Navios Holdings became a wholly-owned subsidiary of ISE. In addition, on August 25, 2005, simultaneously with the acquisition of Navios Holdings, ISE effected a reincorporation from the State of Delaware to the Republic of the Marshall Islands through a downstream merger with and into its newly acquired wholly-owned subsidiary, whose name was and continued to be Navios Maritime Holdings Inc.

The Company operates a fleet of owned Capesize, Panamax, Ultra Handymax and Handysize vessels and a fleet of time chartered Capesize, Panamax, Ultra Handymax and Handysize vessels that are employed to provide worldwide transportation of bulk commodities. Navios Holdings is a global, vertically integrated seaborne shipping and logistics company focused on the transport and transshipment of drybulk commodities including iron ore, coal and grain. For over 50 years, Navios Holdings has had in-house technical ship management expertise that has worked with producers of raw materials, agricultural traders and exporters, industrial end-users, ship owners and charterers.

## **Navios Logistics**

Navios Logistics is one of the largest logistics companies in the Hidrovia region of South America, serving the storage and marine transportation needs of its customers through two port storage and transfer facilities, one for grain commodities and the other for refined petroleum products, and a diverse fleet consisting of vessels, barges and pushboats.

On January 1, 2008, pursuant to a share purchase agreement, Navios Holdings contributed: (a) \$112.2 million in cash; and (b) the authorized capital stock of its wholly-owned subsidiary Corporacion Navios Sociedad Anonima ("CNSA") in exchange for the issuance and delivery of 12,765 shares of Navios Logistics, representing 63.8% of its outstanding stock. Navios Logistics acquired all ownership interests in the Horamar Group ("Horamar") in exchange for: (a) \$112.2 million in cash, and (b) the issuance of 7,235 shares of Navios Logistics representing 36.2% of Navios Logistics' outstanding stock. As of December 31, 2012 Navios Holdings owns 63.8% of Navios Logistics.

## Navios Asia

In May 2013, Navios Holdings formed Navios Asia LLC ("Navios Asia") in partnership with a third party. Navios Holdings owns 51% and the third party owns 49% of Navios Asia.

## Affiliates (not consolidated under Navios Holdings)

## Navios Partners

Navios Partners is an international owner and operator of dry cargo vessels and engaged in the seaborne transportation services of a wide range of drybulk commodities including iron ore, coal, grain and fertilizer, chartering its vessels under medium to long-term charters.

On August 7, 2007, Navios Holdings formed Navios Partners under the laws of Marshall Islands. Navios GP L.L.C., or the general partner, a wholly-owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received a 2.0% general partner interest in Navios Partners.

On or prior to the closing of Navios Partners, initial public offerings, or IPO, in November 2007, Navios Holdings entered into certain agreements with Navios Partners: (a) a management agreement with Navios Partners pursuant to which Navios ShipManagement Inc., or the Manager, a wholly-owned subsidiary of Navios Holdings, provides Navios Partners with commercial and technical management services; (b) an administrative services agreement with the Manager pursuant to which the Manager provides Navios Partners administrative services; and (c) an omnibus agreement with Navios Partners, governing, among other things, when Navios Partners and Navios Holdings may compete against each other as well as rights of first offer on certain drybulk carriers.

Since the formation of Navios Partners, Navios Holdings sold in total ten vessels to Navios Partners (the Navios Hope, the Navios Apollon, the Navios Hyperion, the Navios Aurora II, the Navios Fulvia, the Navios Melodia, the Navios Pollux, the Navios Luz, the Navios Orbiter and the Navios Buena Ventura) and also sold the rights of Navios Sagittarius to Navios Partners. All vessels were sold in exchange of cash and 5,601,920 common units of Navios Partners in total. As of December 31, 2013, Navios Holdings' interest in Navios Partners was 21.6% (including 2.0% general partner interest). Following Navios Partners' offering in February 2014. Navios Holdings' interest in Navios Partners decreased to 20.0% (which includes a 2.0% general partner interest).

Navios Acquisition's (NYSE:NNA) is an owner and operator of a large fleet of modern crude oil, refined petroleum product and chemical tankers providing world-wide marine transportation services.

Navios Acquisition strategy is to charter its vessels to international oil companies, refiners and large vessel operators under long, medium and short-term charters. Navios Acquisition is committed to providing quality transportation services and developing and maintaining long-term relationships with its customers.

On July 1, 2008, Navios Acquisition completed its IPO. On May 28, 2010, Navios Acquisition consummated the vessel acquisition which constituted its initial business combination. Following such transaction, Navios Acquisition commenced its operations as an operating company. On that date, Navios Holdings acquired control over Navios Acquisition, and consequently concluded a business combination had occurred and consolidated the results of Navios Acquisition from that date until March 30, 2011.

On May 28, 2010, we entered into (a) a management agreement with Navios Acquisition pursuant to which Navios Tankers Management Inc. (the "Tankers Manager") provides Navios Acquisition commercial and technical management services; (b) an administrative services agreement with the Tankers Manager pursuant to which the Tankers Manager provides Navios Acquisition administrative services and is in turn reimbursed for reasonable costs and expenses; and (c) an omnibus agreement with Navios Acquisition and Navios Partners (the "Acquisition Omnibus Agreement") in connection with the closing of Navios Acquisition's vessel acquisition, governing, among other things, competition and rights of first offer on certain types of vessels and businesses.

On March 30, 2011, Navios Holdings exchanged 7,676,000 shares of Navios Acquisition common stock it held for 1,000 shares of non-voting Series C preferred stock of Navios Acquisition pursuant to an Exchange Agreement between Navios Acquisition and Navios Holdings ("Navios Acquisition Share Exchange"). The fair value of the exchange was \$30.5 million. Immediately after the Navios Acquisition Share Exchange, Navios Holdings had 45% of the voting power and 53.7% of the economic interest in Navios Acquisition, since the preferred stock is considered, in substance, common stock for accounting purposes. From March 30, 2011, Navios Acquisition has been considered as an affiliate entity of Navios Holdings and not as a controlled subsidiary of the Company.

In February, May and September 2013, Navios Acquisition completed multiple offerings, including registered direct offerings and private placements to Navios Holdings and certain members of the management of Navios Acquisition, Navios Partners and Navios Holdings. A total of 94,097,529 shares were issued. As part of these offerings, Navios Holdings purchased in private placements an aggregate of 46,969,669 shares of Navios Acquisition common stock for \$160.0 million. Following these offerings, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition increased and its economic interest in Navios Acquisition decreased.

As of December 31, 2013, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition was 47.8% and its economic interest in Navios Acquisition was 50.5%.

Following Navios Acquisition's offering in February 2014, Navios Holdings' has a 43.1% voting and a 45.8% economic interest.

#### Navios Europe

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe and have ownership interests of 47.5%, 47.5% and 5.0%, respectively. On December 18, 2013, Navios Europe acquired ten vessels for aggregate consideration consisting of (i) cash consideration of \$127.8 million (which was funded with the proceeds of a \$117.8 million senior loan facility (the "Senior Loan") and loans aggregating \$10.0 million from Navios Holdings, Navios Acquisition and Navios Partners (in each case, in proportion to their ownership interests in Navios Europe) (collectively, the "Navios Term Loans") and (ii) the assumption of a junior participating loan facility (the "Junior Loan") with a face amount of \$173,367 and fair value of \$71.9 million as of December 31, 2013. In addition to the Navios Term Loans, Navios Holdings, Navios Acquisition and Navios Partners will also make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans of up to \$24.1 million to fund working capital requirements (collectively, the "Navios Revolving Loans"). See Note 9 to the Consolidated Financial Statements included elsewhere in this Annual Report.

## **B.** Business overview

### Introduction

Navios Holdings is a global, vertically integrated seaborne shipping and logistics company focused on the transport and transhipment of drybulk commodities including iron ore, coal and grain. For over 50 years, Navios Holdings has had an in-house ship management expertise that has worked with producers of raw materials, agricultural traders and exporters, industrial end-users, ship owners, and charterers. Navios Holdings' current core fleet (excluding the Navios Logistics fleet), the average age of which is approximately 7.2 years, consists of a total of 66 vessels, aggregating approximately 6.3 million dwt. Navios Holdings owns 11 Capesize vessels (169,000-181,000 dwt), 14 modern Ultra Handymax vessels (50,000-61,000 dwt), 16 Panamax vessels (70,000-84,000 dwt) and one Handysize vessel. It also time charters-in and operates a fleet of six Ultra Handymax, one Handysize, 11 Panamax, and six Capesize vessels under long-term time charters, 17 of which are currently in operation, with the remaining seven newbuilding charter-in vessels scheduled for delivery on various dates through 2016. Navios Holdings has options to acquire 16 of the 24 time chartered-in vessels (on one of which Navios Holdings holds an initial 50% purchase option).

Navios Holdings also offers commercial and technical management services to Navios Partners' and Navios Acquisition's fleets. Navios Partners' fleet is comprised of 14 Panamax vessels, eight Capesize vessels, three Ultra-Handymax vessels and five Container vessels. In October 2013, the Company amended its existing management agreement with Navios Partners to fix the fees for ship management services of its owned fleet at: (i) \$4,000 daily rate per Ultra-Handymax vessel; (ii) \$4,100 daily rate per Panamax vessel; (iii) \$5,100 daily rate per Capesize vessel effective from January 1, 2014 through December 31, 2015; and (iv) \$6,500 daily rate per Container vessel effective from the delivery through December 31, 2015. Drydocking expenses under this agreement will be reimbursed by Navios Partners at cost at occurrence. Navios Acquisition's fleet is comprised of 33 tankers and 11 VLCC vessels, and Navios Holdings will receive a daily fee of \$6,000 per owned MR2 product tanker and chemical tanker vessel, \$7,000 per owned LR1 product tanker vessel and \$10,000 per owned VLCC vessel.

Navios Holdings' strategy and business model focuses on:

- Operation of a high quality, modern fleet. Navios Holdings owns and charters-in a modern, high quality fleet, having an average age of approximately 7.2 years that provides numerous operational advantages including more efficient cargo operations, lower insurance and vessel maintenance costs, higher levels of fleet productivity, and an efficient operating cost structure.
- Pursuing an appropriate balance between vessel ownership and a long-term chartered-in fleet. Navios Holdings controls, through a

combination of vessel ownership and long-term time chartered vessels, approximately 6.3 million dwt in tonnage, making Navios Holdings one of the largest independent drybulk operators in the world. Navios Holdings' ability, through its long-standing relationships with various shipyards and trading houses, to charter-in vessels at favorable rates allows it to control additional shipping capacity without the capital expenditures required by new vessel acquisition. In addition, having purchase options on 16 of the 24 time chartered vessels (including those to be delivered) permits Navios Holdings to determine when is the most commercially opportune time to own or charter-in vessels. Navios Holdings intends to monitor developments in the sales and purchase market to maintain the appropriate balance between owned and long-term time chartered vessels.

- Capitalize on Navios Holdings' established reputation. Navios Holdings believes its reputation and commercial relationships enable it
  to obtain favorable long-term time charters, enter into the freight market and increase its short-term tonnage capacity to complement the
  capacity of its core fleet, as well as to obtain access to cargo freight opportunities through COA arrangements not readily available to other
  industry participants. This reputation has also enabled Navios Holdings to obtain favorable vessel acquisition terms as reflected in the
  purchase options contained in some of its long-term charters.
- *Utilize industry expertise to take advantage of market volatility.* The drybulk shipping market is cyclical and volatile. Navios Holdings uses its experience in the industry, sensitivity to trends, and knowledge and expertise as to risk management and FFAs to hedge against, and in some cases, to generate profit from, such volatility.

- Maintain customer focus and reputation for service and safety. Navios Holdings is recognized by its customers for the high quality of
  its service and safety record. Navios Holdings' high standards for performance, reliability, and safety provide Navios Holdings with an
  advantageous competitive profile.
- Enhance vessel utilization and profitability through a mix of spot charters, time charters, and COAs and strategic backhaul and triangulation methods. Specifically, this strategy is implemented as follows:
  - The operation of voyage charters or spot fixtures for the carriage of a single cargo from load port to discharge port;
  - The operation of time charters, whereby the vessel is hired out for a predetermined period but without any specification as to voyages to be performed, with the ship owner being responsible for operating costs and the charterer for voyage costs;
  - The use of COAs, under which Navios Holdings contracts to carry a given quantity of cargo between certain load and discharge ports within a stipulated time frame, but does not specify in advance which vessels will be used to perform the voyages; and
  - The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and
    minimizing the days its vessels are off-hire. At 98.4% as of December 31, 2013, Navios Holdings believes that it has one of the
    highest fleet utilization rates in the industry.

In addition, Navios Holdings attempts, through selecting COAs on what would normally be backhaul or ballast legs, to enhance vessel utilization and, hence, profitability. In such cases, the cargoes are used to position vessels at or near major loading areas (such as the Gulf of Mexico) where spot cargoes can readily be obtained. This reduces ballast time as a percentage of the round voyage. This strategy is referred to as triangulation.

Navios Holdings is one of relatively few major owners and operators of this type in the drybulk market, and has vast experience in this area. In recent years, it has further raised the commercial sophistication of its business model by using market intelligence derived from its risk management operations and, specifically, its freight derivatives hedging desk, to make more informed decisions regarding the management of its fleet.

#### **Competitive Advantages**

Controlling approximately 6.3 million dwt (excluding Navios Logistics) in drybulk tonnage, Navios Holdings is one of the largest independent drybulk operators in the world. Management believes that Navios Holdings occupies a competitive position within the industry in that its reputation in the global drybulk markets permits it to enter into at any time, and take on spot, medium or long-term freight commitments, depending on its view of future market trends. In addition, many of the long-term charter deals that form the core of Navios Holdings' fleet were brought to the attention of Navios Holdings prior to even being quoted in the open market. Even in the open market, Navios Holdings' solid reputation allows it to take in large amounts of tonnage on a short, medium, or long-term basis on very short notice. This ability is possessed by relatively few ship owners and operators, and is a direct consequence of Navios Holdings' market reputation for reliability in the performance of its obligations in each of its roles as a ship owner, COA operator, and charterer. Navios Holdings, therefore, has much greater flexibility than a traditional ship owner or charterer to quickly go "long" or "short" relative to the drybulk markets.

Navios Holdings' long involvement and reputation for reliability in the Asian Pacific region have also allowed it to develop privileged relationships with many of the largest trading houses in Japan, such as Marubeni Corporation and Mitsui & Co. Through these institutional relationships, Navios Holdings has obtained relatively low-cost, long-term charter-in deals, with options to extend time charters and options to purchase the majority of the vessels. Through its established reputation and relationships, Navios Holdings has had access to opportunities not readily available to most other industry participants who lack Navios Holdings' brand recognition, credibility, and track record.

In addition to its long-standing reputation and flexible business model, management believes that Navios Holdings is well-positioned in the drybulk market on the basis of the following factors:

- A high-quality, modern fleet of vessels that provides a variety of operational advantages, such as lower insurance premiums, higher levels
  of productivity, and efficient operating cost structures, as well as a competitive advantage over owners of older fleets, especially in the time
  charter market, where age, fuel economy and quality of a vessel are of significant importance in competing for business;
- A core fleet which has been chartered-in (some through 2026, assuming minimum available charter extension periods are exercised) on attractive terms that allow Navios Holdings to charter-out the vessels at an attractive spread during strong markets and to weather down cycles in the market while maintaining low costs;
- Strong commercial relationships with both freight customers and Japanese trading houses and ship owners, providing Navios Holdings with access to future attractive long-term time charters on newbuildings with valuable purchase options;
- Strong in-house technical management team who oversee every step of technical management, from the construction of the vessels in Japan and South Korea to subsequent shipping operations throughout the life of a vessel, including the superintendence of maintenance, repairs and drydocking, providing efficiency and transparency in Navios Holdings' owned fleet operations;
- · Visibility into worldwide commodity flows through its physical shipping operations and port terminal operations in South America; and
- An experienced management team with a strong track record of operational experience and a strong brand having a well established reputation for reliability and performance.

Management intends to maintain and build on these qualitative advantages, while at the same time continuing to benefit from Navios Holdings' reputation.

# **Shipping Operations**

**Navios Holdings' Fleet.** Navios Holdings controls a core fleet of 42 owned vessels and 24 chartered-in vessels (16 of which have purchase options). The average age of the operating fleet is 7.2 years.

**Owned Fleet.** Navios Holdings owns and operates a fleet comprised of 14 modern Ultra Handymax vessels, 11 Capesize vessels, 16 Panamax vessels and one Handysize vessel, whose technical specifications and youth distinguish them in the market, where, as of the beginning of 2014, over 11% of the industry's drybulk vessels were 20 or more years old.

# **Owned Vessels**

Vessel Name	Vessel Type	Year Built	Deadweight (in metric tons)

Long-Term Fleet. In addition to the 42 owned vessels, Navios Holdings controls a fleet of six Capesize, 11 Panamax, six Ultra Handymax, and one Handysize vessels under long-term time charters, having an average age of approximately 6.0 years. In April 2013, Navios Holdings agreed to postpone the delivery dates of two chartered-in vessels, the Navios Felix and the Navios Venus. Of the 24 chartered-in vessels, 17 are currently in operation and seven are scheduled for delivery at various times through 2016, as set forth in the following table:

#### Long-term Chartered-in Fleet in Operation

		Year	Deadweight	Purchase

## Long-term Chartered-in Fleet to be Delivered

Vessels	Vessel Type	Delivery Date	Deadweight (in metric tons)	Purchase Option
Navios Venus		Q1		
	Ultra Handymax	2015	61,000	Yes
Navios Felix		Q2		
	Capesize	2016	180,000	Yes
Navios TBN		Q2		
	Panamax	2015	80,000	Yes
Navios TBN	Panamax	Q3 2015	82,000	Yes
Navios TBN	Panamax	Q4 2016	81,000	Yes
Navios TBN	Panamax	Q4 2016	81,000	Yes
Navios TBN	Panamax	Q4 2016	84,000	Yes

- (1) Generally, Navios Holdings may exercise its purchase option after three to five years of service.
- (2) Navios Holdings holds the initial 50% purchase option on the vessel.
- (3) 51% ownership by Navios Holdings.

Many of Navios Holdings' current long-term chartered-in vessels are chartered from ship owners with whom Navios Holdings has long-standing relationships. Navios Holdings pays these ship owners daily rates of hire for such vessels, and then charters out these vessels to other parties, who pay Navios Holdings a daily rate of hire. Navios Holdings also enters into COAs pursuant to which Navios Holdings has agreed to carry cargoes, typically for industrial customers, who export or import drybulk cargoes. Further, Navios Holdings enters into spot market voyage contracts, where Navios Holdings is paid a rate per ton to carry a specified cargo from point A to point B.

**Short-Term Fleet:** Navios Holdings' "short-term fleet" is comprised of Capesize, Panamax and Ultra Handymax vessels chartered-in for a duration of less than 12 months. The number of short-term vessels varies from time to time.

## **Exercise of Vessel Purchase Options**

As of December 31, 2013, Navios Holdings executed purchase options comprising of six Ultra Handymax, six Panamax and one Capesize vessels. The Navios Meridian, Navios Mercator, Navios Arc, Navios Galaxy I, Navios Magellan, Navios Horizon, Navios Star, Navios Hyperion, Navios Orbiter, Navios Hope, Navios Fantastiks, Navios Vector and Navios Astra were delivered on various dates from November 30, 2005 until February 21, 2011. Navios Holdings currently has options to acquire nine of the 17 chartered-in vessels currently in operation and all of the seven long-term chartered-in vessels on order (on one of the 16 purchase options Navios Holdings holds a 50% initial purchase option).

Commercial Ship Management: Commercial management of Navios Holdings' fleet involves identifying and negotiating charter party employment for the vessels. In addition to its internal commercial ship management capabilities, Navios Holdings uses the services of a related party, Acropolis Chartering & Shipping Inc. ("Acropolis"), based in Piraeus, as well as numerous third-party charter brokers, to solicit, research, and propose charters for its vessels. Charter brokers research and negotiate with different charterers, and propose charters to Navios Holdings for cargoes suitable for carriage by Navios Holdings' vessels. Navios Holdings then evaluates the employment opportunities available for each type of vessel and arranges cargo and country exclusions, bunkers, loading and discharging conditions, and demurrage.

**Technical Ship Management:** Navios Holdings provides, through its subsidiaries, Navios ShipManagement Inc. and Navios Tankers Management Inc., technical ship management and maintenance services to its owned vessels and has also provided such services to Navios Partners' and Navios Acquisition's vessels under the terms of the management agreements between the parties. Based in Piraeus, Greece, Monaco and Singapore, this operation is run by experienced professionals who oversee every step of technical management, from the construction of the vessels in Japan and Korea to subsequent shipping operations throughout the life of a vessel, including the superintendence of maintenance, repairs and drydocking.

**Operation of the Fleet:** The operations departments, which are located in Greece and Belgium, supervise the post-fixture business of the vessels in Navios Holdings' fleet (i.e., once the vessel is chartered and being employed) by monitoring their daily positions to ensure that the terms and conditions of the charters are being fulfilled.

**Financial Risk Management:** Navios Holdings actively engages in assessing financial risks associated with fluctuating future freight rates, daily time charter hire rates, fuel prices, credit risks, interest rates and foreign exchange rates. Financial risk management is carried out under policies approved and guidelines established by the Company's executive management.

- Freight Rate Risk. Navios Holdings may use FFAs to manage and mitigate its risk to its freight market exposures in shipping capacity and freight commitments and respond to fluctuations in the drybulk shipping market by augmenting its overall long or short position. These FFAs settle monthly in cash on the basis of publicly quoted indices, not physical delivery. These instruments typically cover periods from one month to one year, and are based on time charter rates or freight rates on specific quoted routes. Navios Holdings may enter into these FFAs through over-the-counter transactions and over LCH, the London Clearing House. Navios Holdings' FFA trading personnel work closely with the chartering group to ensure that the most up-to-date information is incorporated into the Company's commercial ship management strategy and policies. See "Risk Factors Risks Associated with the Shipping Industry and Our Drybulk Operations Trading and complementary hedging activities in freight, tonnage and FFAs subject us to trading risks, and we may suffer trading losses which could adversely affect our financial condition and results of operations" for additional detail on the financial implications, and risks of our use of FFAs.
- Credit Risk. Navios Holdings closely monitors its credit exposure to charterers and FFAs counterparties. Navios Holdings has established
  policies designed to ensure that contracts are entered into with counterparties that have appropriate credit history. Counterparties and cash
  transactions are limited to high credit quality collateralized corporations and financial institutions. Most importantly, Navios Holdings
  has strict guidelines and policies that are designed to limit the amount of credit exposure.
- Interest Rate Risk. Navios Holdings may use from time to time interest rate swap agreements to reduce exposure to fluctuations in interest rates. These instruments allow Navios Holdings to raise long-term borrowings at floating rates and swap them into fixed rates. Although these instruments are intended to minimize the anticipated financing costs and maximize gains for Navios Holdings that may be set off against interest expense, they may also result in losses, which would increase financing costs. Currently, Navios Holdings holds no interest rate swap contracts. See also item 11 "Quantitative and Qualitative Disclosures about Market Risks Interest Rate Risk."
- Foreign Exchange Risk. Although Navios Holdings' revenues are U.S. dollar-based, 23.4% of its expenses, related to its Navios Logistics segment, are in Uruguayan pesos, Argentinean pesos, Paraguayan Guaranies and Brazilian Reales and 9.4% of its expenses related to operation of its Greek, Belgian and Monaco offices, are in Euros. Navios Holdings monitors its Euro, Argentinean Peso, Uruguayan Peso, Paraguayan Guarani and Brazilian Real exposure against long-term currency forecasts and enters into foreign currency contracts when considered appropriate.

### Customers

## **Drybulk Vessel Operations**

The international drybulk shipping industry is highly fragmented and, as a result, there are numerous charterers. Navios Holdings' assessment of a charterer's financial condition and reliability is an important factor in negotiating employment of its vessels. Navios Holdings generally charters its vessels to major trading houses (including commodities traders), major producers and government-owned entities. Navios Holdings' customers under charter parties, COAs, and its counterparties under FFAs, include national, regional and international companies, such as Mitsui O.S.K. Lines Ltd., BHP Billiton, Cargill International S.A., GIIC, Louis Dreyfus Commodities, Baosteel, Glencore Grain, Swiss Marine, Mansel Ltd and Dampskibselskabet Norden. For the years ended December 31, 2013, 2012 and 2011, none of the customers accounted for more than 10% of the Company's revenue.

## **Logistics Business Operations**

Navios Logistics is one of the largest logistics companies in the Hidrovia region of South America, focusing on the Hidrovia region river system, the main navigable river system in the region, and on cabotage trades along the eastern coast of South America. Navios Logistics is focused on providing its customers integrated transportation, storage and related services through its port facilities, its large, versatile fleet of dry and liquid cargo barges and its product tankers. Navios Logistics serves the needs of a number of growing South American industries, including mineral and grain commodity providers as well as users of refined petroleum products.

Customers of Navios Logistics include affiliates of Archer Daniels Midland Company ("ADM"), Axion Energy (formerly known as Esso), Bunge, Cargill, Glencore, Louis Dreyfus, Petrobras, Petropar (the national oil company of Paraguay), Shell, Vale, Vitol and YPF. In its dry port facility in Uruguay, Navios Logistics has been serving three of its key global customers, ADM, Cargill and Louis Dreyfus, for more than 14 years on average. In its liquid port facility, liquid barge transportation and cabotage business, Navios Logistics has had long-term relationships with its global petroleum customers (such as Axion Energy, Petrobras Group, YPF and Shell) for more than 10 years on average. In its dry barge business, Navios Logistics started its relationship with Vale in 2008 for iron ore transportation and has signed new contracts since then. Navios Logistics is committed to providing quality logistics services for its customers and further developing and maintaining its long-term relationships.

Concentrations of credit risk with respect to accounts receivables are limited due to Navios Logistics' large number of customers, who are established international operators and have an appropriate credit history. Due to these factors, management believes that no additional credit risk beyond amounts provided for collection losses is inherent in our trade receivables. For the year ended December 31, 2013, Navios Logistics' two largest customers, Vale and Petropar, accounted for 18.5% and 10.7% of its revenues, respectively, and Navios Logistics' five largest customers accounted for approximately 56.4% of its revenues. For the year ended December 31, 2012, Navios Logistics' three largest customers, Vale, YPF and Axion Energy (formerly known as Esso), accounted for 18.5%, 11.5% and 11.5% of its revenues, respectively and its five largest customers accounted for approximately 56.4% of its revenues. For the year ended December 31, 2011, three of its largest customers, Petropar and Esso, accounted for 18.1%, 10.2% and 10.0% of its revenues, respectively.

### Competition

The drybulk shipping markets are extensive, diversified, competitive and highly fragmented, divided among approximately 1,730 independent drybulk carrier owners. The world's active drybulk fleet consists of approximately 10,000 vessels, aggregating approximately 723 million dwt as of December 31, 2013. As a general principle, the smaller the cargo carrying capacity of a drybulk carrier, the more fragmented is its market, both with regard to charterers and vessel owner/operators. Even among the larger drybulk owners and operators, whose vessels are mainly in the larger sizes, only five companies are known to have fleets of 100 vessels or more: the two largest Chinese shipping companies, China Ocean Shipping and China Shipping Group and the three largest Japanese shipping companies, Mitsui O.S.K. Lines, Kawasaki Kisen and Nippon Yusen Kaisha. There are about 45 owners known to have fleets of between 30 and 100 vessels. However, vessel ownership is not the only determinant of fleet control. Many owners of bulk carriers charter their vessels out for extended periods, not just to end users (owners of cargo), but also to other owner/operators and to tonnage pools. Such operators may, at any given time, control a fleet many times the size of their owned tonnage. Navios Holdings is one such operator; others include Cargill, Pacific Basin Shipping, Bocimar, Zodiac Maritime, Louis Dreyfus/Cetragpa, Cobelfret, Torvald Klaveness and Swiss Marine.

It is likely that we will face substantial competition for long-term charter business from a number of experienced companies. Many of these competitors will have significantly greater financial resources than we do. It is also likely that we will face increased numbers of competitors entering into our transportation sectors, including in the drybulk sector. Many of these competitors have strong reputations and extensive resources and experience. Increased competition may cause greater price competition, especially for long-term charters.

## Navios Logistics

Navios Logistics is one of the largest logistics providers in the Hidrovia region of South America. Navios Logistics believes its ownership of river ports, including its port terminal in Uruguay that provides access to the ocean, allows it to offer a logistics solution superior to its competitors that also operate barges and pushboats. Navios Logistics also competes based on reliability, efficiency and price.

With respect to loading, storage and ancillary services, the market is divided between transits and exports, depending on the cargo origin. In the case of transits there are other companies operating in the river system that are able to offer services similar to Navios Logistics. However, most of these companies are proprietary service providers that are focused on servicing their own cargo. Unlike these companies, Navios Logistics is an independent service provider in the market for transits. With respect to exports, its competitors are Montevideo Port in Montevideo and Ontur in Nueva Palmira, neither of which has storage, and TGU in Nueva Palmira. The main competitor of its liquid port terminal in Paraguay is Petropar, a Paraguayan state-owned entity. Other competitors include Copetrol and Petrobras, which are also customers of Navios Logistics' port.

Navios Logistics faces competition in its barge and cabotage businesses with transportation of oil and refined petroleum products from other independent ship owners and from vessel operators who primarily charter vessels to meet their cargo carrying needs. The charter markets in which Navios Logistics' vessels compete are highly competitive. Key competitors include Ultrapetrol Bahamas Ltd. and Fluviomar. In addition, some of Navios Logistics' customers, including ADM, Cargill, Louis Dreyfus and Vale, have some of their own dedicated barge capacity, which they can use to transport cargo in lieu of hiring a third party. Navios Logistics also competes indirectly with other forms of land-based transportation such as truck and rail. Competition is primarily based on prevailing market contract rates, vessel location and vessel manager know-how, reputation and credibility. These companies and other smaller entities are regular competitors of Navios Logistics in its primary tanker trading areas.

Navios Logistics believes that its ability to combine its ports in Uruguay and Paraguay with its versatile fleet of barges, pushboats and tankers to offer integrated, end-to-end logistics solutions for both its dry and liquid customers seeking to transport mineral and grain commodities and liquid cargoes through the Hidrovia region has allowed Navios Logistics to differentiate its business and offer superior services compared to its competitors.

## **Intellectual Property**

We consider NAVIOS to be our proprietary trademark, service mark and trade name. We hold several U.S. trademark registrations for our proprietary logos and the domain name registration for our website.

#### **Governmental and Other Regulations**

**Sources of Applicable Rules and Standards:** Shipping is one of the world's most heavily regulated industries, and, in addition, it is subject to many industry standards. Government regulation significantly affects the ownership and operation of vessels. These regulations consist mainly of rules and standards established by international conventions, but they also include national, state, and local laws and regulations in force in jurisdictions where vessels may operate or are registered, and which are commonly more stringent than international rules and standards. This is the case particularly in the United States and, increasingly, in Europe.

A variety of governmental and private entities subject vessels to both scheduled and unscheduled inspections. These entities include local port authorities (the U.S. Coast Guard, harbor masters or equivalent entities), classification societies, flag state administration (country vessel of registry), and charterers, particularly terminal operators. Certain of these entities require vessel owners to obtain permits, licenses, and certificates for the operation of their vessels. Failure to maintain necessary permits or approvals could require a vessel owner to incur substantial costs or temporarily suspend operation of one or more of its vessels.

Heightened levels of environmental and quality concerns among insurance underwriters, regulators, and charterers continue to lead to greater inspection and safety requirements on all vessels and may accelerate the scrapping of older vessels throughout the industry. Increasing environmental concerns have created a demand for vessels that conform to stricter environmental standards. Vessel owners are required to maintain operating standards for all vessels that will emphasize operational safety, quality maintenance, continuous training of officers and crews and compliance with U.S. and international regulations.

**International Environmental Regulations:** The International Maritime Organization ("IMO") has adopted a number of international conventions concerned with ship safety and with preventing, reducing or controlling pollution from ships. These fall into two main categories, consisting firstly of those concerned generally with ship safety standards, and secondly of those specifically concerned with measures to prevent pollution.

Ship Safety Regulation: In the former category, the primary international instrument is the Safety of Life at Sea Convention of 1974, as amended ("SOLAS"), together with the regulations and codes of practice that form part of its regime. Much of SOLAS is not directly concerned with preventing pollution, but some of its safety provisions are intended to prevent pollution as well as promote safety of life and preservation of property. These regulations have been and continue to be regularly amended as new and higher safety standards are introduced with which we are required to comply.

An amendment of SOLAS introduced the International Safety Management (ISM) Code, which has been effective since July 1998. Under the ISM Code, the party with operational control of a vessel is required to develop an extensive safety management system that includes, among other things, the adoption of a safety and environmental protection policy setting forth instructions and procedures for operating its vessels safely and describing procedures for responding to emergencies. The ISM Code requires that vessel operators obtain a safety management certificate for each vessel they operate. This certificate evidences compliance by a vessel's management with code requirements for a safety management system. No vessel can obtain a certificate unless its manager has been awarded a document of compliance, issued by the flag state for the vessel, under the ISM Code. Noncompliance with the ISM Code and other IMO regulations, such as the mandatory ship energy efficiency management plan ("SEEMP") which is akin to a safety management plan and came into effect on January 1, 2013, may subject a ship owner to increased liability, may lead to decreases in available insurance coverage for affected vessels, and may result in the denial of access to, or detention in, some ports. For example, the United States Coast Guard and European Union authorities have indicated that vessels not in compliance with the ISM Code will be prohibited from trading in ports in the United States and European Union.

Another amendment of SOLAS, made after the terrorist attacks in the United States on September 11, 2001, introduced special measures to enhance maritime security, including the International Ship and Port Facilities Security Code (ISPS Code).

Our owned fleet maintains ISM and ISPS certifications for safety and security of operations. In addition, Navios ShipManagement voluntarily implements and maintains certifications pursuant to the International Organization for Standardization ("ISO"), for its office and ships covering both quality of services and environmental protection (ISO 9001 and ISO 14001, respectively).

International regulations to Prevent Pollution from Ships: In the second main category of international regulation, the primary instrument is the International Convention for the Prevention of Pollution from Ships ("MARPOL"), which imposes environmental standards on the shipping industry set out in Annexes I-VI of MARPOL. These contain regulations for the prevention of pollution by oil (Annex I), by noxious liquid substances in bulk (Annex II), by harmful substances in packaged forms within the scope of the International Maritime Dangerous Goods Code (Annex III), by sewage (Annex IV), by garbage (Annex V), and by air emissions (Annex VI).

These regulations have been and continue to be regularly amended as new and higher standards of pollution prevention are introduced with which we are required to comply.

For example, MARPOL Annex VI, together with the NOx Technical Code established thereunder, sets limits on sulphur oxide and nitrogen oxide emissions from ship exhausts and prohibits deliberate emissions of ozone depleting substances, such as chlorofluorocarbons. It also includes a global cap on the sulphur content of fuel oil and allows for special areas to be established with more stringent controls on emissions. Originally adopted in September 1997, Annex VI came into force in May 2005 and was amended in October 2008 (as was the NOx Technical Code) to provide for progressively more stringent limits on such emissions from 2010 onwards. The revised Annex VI provides, in particular, for a reduction of the global sulfur cap, initially to 3.5% (from the previous cap of 4.5%), with an effective date of January 1, 2012, then progressively reducing the cap to 0.50%, with an effective date of January 1, 2020, subject to a feasibility review to be completed no later than 2018; and the establishment of new tiers of stringent nitrogen oxide emissions standards for marine engines, depending on their date of installation. We anticipate incurring costs in complying with these more stringent standards.

The revised Annex VI further allows for designation, in response to proposals from member parties, of Emission Control Areas (ECAs) that impose accelerated and/or more stringent requirements for control of sulfur oxide, particulate matter, and nitrogen oxide emissions. Thus far, ECAs have been formally adopted for the Baltic Sea area (limits SOx emissions only); the North Sea area including the English Channel (limiting SOx emissions only) and the North American ECA (which came into effect on August 1, 2012 limiting SOx, NOx and particulate matter emissions). The United States Caribbean Sea ECA entered into force on January 1, 2013 and has been effective since January 1, 2014, and limits SOx, NOx and particulate matter emissions. For the currently-designated ECAs, much lower sulfur limits on fuel oil content are being phased in (1% from July 2010 and 0.1% from January 1, 2015). At its 65th session, the MEPC considered and agreed to proposed draft amendments to MARPOL Annex VI regulation 13 on Nitrogen Oxides (NOx), to amend the date for the implementation of the so called "Tier III" standards within emission control areas (ECAs) to January 1, 2021, from the current effective date of January 1, 2016. NOx control requirements apply to installed marine diesel engines of over 130 kW output power, and different levels (Tiers) of control apply based on the ship's construction date. Tier III controls apply only to specified ships while operating in ECAs designated to limit NOx emissions (currently the North American Emission Control Area and the United States Caribbean Sea Area). The draft amendments will be circulated for consideration at MEPC 66 in March 2014, with a view to adoption. These more stringent fuel standards, when fully in effect, are expected to require measures such as fuel switching, vessel modification adding distillate fuel storage capacity, or addition of exhaust gas cleaning scrubbers, to achieve compliance, and may require installation and operation of further control equipment at significant inc

International Ballast Water Requirements: In addition to MARPOL, other more specialized international instruments have been adopted to prevent different types of pollution or environmental harm from ships. In February 2004, the IMO adopted an International Convention for the Control and Management of Ships' Ballast Water and Sediments (the "BWM Convention"). The BWM Convention's implementing regulations require a ballast water management plan and a phased introduction of mandatory ballast water exchange requirements, to be replaced in time with mandatory concentration limits.

The BWM Convention will not enter into force until 12 months after it has been adopted by 30 states, the combined merchant fleets of which represent not less than 35% of the gross tonnage of the world's merchant shipping. To date, there has not been sufficient adoption of this standard by member-states representing enough of the gross tonnage of the world's fleet for it to take force. However, as of January 31, 2013, the Convention has been ratified by 36 states, representing 29.07% of the global merchant shipping fleet's gross tonnage, and its entry-into-force with attendant compliance costs may therefore be anticipated in the foreseeable future.

However, as of February 10, 2014, the Convention has been ratified by 38 states, representing 30.38% of the global merchant shipping fleet's gross tonnage, and its attendant compliance costs may therefore be anticipated in the foreseeable future.

**European Environmental Regulations:** European regulations in the maritime sector are in general based on international law. However, since the Erika incident in 1999, the European Community has become increasingly active in the field of regulation of maritime safety and protection of the environment. It has been the driving force behind a number of amendments of MARPOL (including, for example, changes to accelerate the timetable for the phase-out of single hull tankers, and to prohibit the carriage in such tankers of heavy grades of oil), and if dissatisfied either with the extent of such amendments or with the timetable for their introduction, it has been prepared to legislate on a unilateral basis. In some instances where it has done so, international regulations have subsequently been amended to the same level of stringency as that introduced in Europe, but the risk is well established that EU regulations may from time to time impose burdens and costs on ship owners and operators which are additional to those involved in complying with international rules and standards.

In some areas of regulation the EU has introduced new laws without attempting to procure a corresponding amendment of international law. Notably, it adopted in 2005 a directive on ship-source pollution, imposing criminal sanctions for pollution not only where this is caused by intent or recklessness (which would be an offense under MARPOL), but also where it is caused by "serious negligence". The directive could therefore result in criminal liability being incurred in circumstances where it would not be incurred under international law. Experience has shown that in the emotive atmosphere often associated with pollution incidents, retributive attitudes towards ship interests have found expression in negligence being alleged by prosecutors and found by courts on grounds which the international maritime community has found hard to understand. Moreover, there is skepticism that the notion of "serious negligence" is likely to prove any narrower in practice than ordinary negligence. Criminal liability for a pollution incident could not only result in us incurring substantial penalties or fines but may also, in some jurisdictions, facilitate civil liability claims for greater compensation than would otherwise have been payable.

Greenhouse Gas Emissions: In February 2005, the Kyoto Protocol to the United Nations Framework Convention on Climate Change entered into force. Pursuant to the Kyoto Protocol, adopting countries are required to implement national programs to reduce emissions of certain gases, generally referred to as greenhouse gases, which are suspected of contributing to global warming. Currently, the greenhouse gas emissions from international shipping do not come under the Kyoto Protocol.

In December 2011, UN climate change talks took place in Durban and concluded with an agreement referred to as the Durban Platform for Enhanced Action. In preparation for the Durban Conference, the International Chamber of Shipping ("ICS") produced a briefing document, confirming the shipping industry's commitment to cut shipping emissions by 20% by 2020, with significant further reductions thereafter. The ICS called on the participants in the Durban Conference to give the IMO a clear mandate to deliver emissions reductions through market-based measures, for example a shipping industry environmental compensation fund. Notwithstanding the ICS' request for global regulation of the shipping industry, the Durban Conference did not result in any proposals specifically addressing the shipping industry's role in climate change. The European Union announced in April 2007 that it planned to expand the European Union emissions trading scheme by adding vessels, and a proposal from the European Commission was expected if no global regime for reduction of seaborne emissions had been agreed by the end of 2011. That deadline has now expired and it remains to be seen what position the EU takes in this regard in the period ahead. As of January 31, 2013, the Commission has stopped short of proposing that emissions from ships be included in the EU's emissions-trading scheme (ETS). However, on October 1, 2012, the Commission announced that it would propose measures to monitor, verify and report on greenhouse-gas emissions from the shipping sector in early 2013. On June 28, 2013, the European Commission adopted a communication setting out a strategy for progressively including greenhouse gas emissions from maritime transport in the EU's policy for reducing its overall GHG emissions. The first step proposed by the Commission is an EU Regulation which would establish an EU-wide system for the monitoring, reporting and verification (MRV) of carbon dioxide (CO2) emissions from large ships starting in 2018. The draft regulation is currently working its way through the various stages of the EU legislative process and will require approval from both the European Council and European Parliament before entering into force. This regulation may be seen as indicative of an intention to maintain pressure on the international negotiating process. This may be seen as indicative of an intention to maintain pressure on the international negotiating process. Any passage of climate control legislation or other regulatory initiatives by the IMO, European Union, or individual countries where we operate, including the U.S. that restrict emissions of greenhouse gases from vessels could require us to make significant financial expenditures we cannot predict with certainty at this time.

International Laws Governing Civil Liability for Pollution: Several international conventions impose and limit pollution liability relating to both our drybulk vessels, and the tanker vessels held by our subsidiary, Navios Logistics. The U.S., however, is not a party to these liability conventions and is instead subject to the oil liability provisions of OPA discussed below.

An owner of a tanker vessel carrying a cargo of "persistent oil" as defined by the Civil Liability Convention 1992 (CLC), is subject under that convention to strict liability for any pollution damage caused in a contracting state by an escape or discharge from her cargo or from her bunker tanks. This liability is subject to a financial limit calculated by reference to the tonnage of the ship, and the right to limit liability may be lost if the spill is caused by the shipowner's intentional or reckless conduct. Liability may also be incurred under the CLC for a bunker spill from the vessel even when she is not carrying such a cargo, but is in ballast. The CLC applies in over 100 states around the world, but it does not apply in the United States of America, where the corresponding liability laws such as the OPA are particularly stringent.

When a tanker is carrying clean oil products which do not constitute "persistent oil" covered under the CLC, liability for any pollution damage will generally fall outside the CLC and will depend on other international conventions or domestic laws in the jurisdiction where the spillage occurs. The same principle applies to any pollution from the vessel in a jurisdiction which is not a party to the CLC.

Vessels not covered by the CLC, including drybulk tankers, are subject to the International Convention on Civil Liability for Bunker Oil Pollution Damage (the "Bunker Convention"). The Bunker Convention was adopted by the IMO in 2001 and imposes strict liability on ship owners for pollution damage in jurisdictional waters of ratifying states caused by discharges of "bunker oil." The Bunker Convention defines "bunker oil" as "any hydrocarbon mineral oil, including lubricating oil, used or intended to be used for the operation or propulsion of the ship, and any residues of such oil." The Bunker Convention also requires registered owners of ships over a certain size to maintain insurance for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime, including liability limits calculated in accordance with the Convention on Limitation of Liability for Maritime Claims of 1976, as amended, (the "1976 Convention"), discussed below. The Bunker Convention entered into force on November 21, 2008 and as of February 10, 2014 had 74 contracting states comprising approximately 90.72% of the gross tonnage of the world's merchant fleet. In other jurisdictions liability for spills or releases of oil from ships' bunkers continues to be determined by the national or other domestic laws in the jurisdiction where the events or damages occur.

The most widely applicable international regime limiting maritime pollution liability is the 1976 Convention mentioned above. Rights to limit liability under the 1976 Convention are forfeited where a spill is caused by a shipowners' intentional or reckless conduct. Some states have ratified the 1996 LLMC Protocol to the 1976 Convention, which provides for liability limits substantially higher than those set forth in the 1976 Convention to apply in such states. Finally, some jurisdictions are not a party to either the 1976 Convention or the 1996 LLMC Protocol, and, therefore, shipowners' rights to limit liability for maritime pollution in such jurisdictions may be uncertain.

United States Environmental Regulations and Laws Governing Civil Liability for Pollution: Environmental legislation in the United States merits particular mention as it is in many respects more onerous than international laws, representing a high-water mark of regulation with which ship owners and operators must comply, and of liability likely to be incurred in the event of non-compliance or an incident causing pollution.

U.S. federal legislation, including notably the OPA establishes an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills, including bunker oil spills from drybulk vessels as well as cargo or bunker oil spills from tankers. The OPA covers all owners and operators whose vessels trade in the United States, its territories and possessions or whose vessels operate in United States waters, which includes the United States' territorial sea and its 200 nautical mile exclusive economic zone. Under the OPA, vessel owners, operators and bareboat charterers are "responsible parties" and are jointly, severally and strictly liable (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or substantial threats of discharges, of oil from their vessels. In addition to potential liability under the OPA as the relevant federal legislation, vessel owners may in some instances incur liability on an even more stringent basis under state law in the particular state where the spillage occurred.

Title VII of the Coast Guard and Maritime Transportation Act of 2004 (the "CGMTA"), amended the OPA to require the owner or operator of any non tank vessel of 400 gross tons or more, that carries oil of any kind as a fuel for main propulsion, including bunkers, to prepare and submit a response plan for each vessel. The vessel response plans must include detailed information on actions to be taken by vessel personnel to prevent or mitigate any discharge or substantial threat of such a discharge of ore from the vessel due to operational activities or casualties. The OPA had currently limited liability of responsible parties to the greater of \$1,000 per gross ton or \$0.85 million per containership that is over 300 gross tons (subject to periodic adjustment for inflation).

These limits of liability do not apply if an incident was directly caused by violation of applicable United States federal safety, construction or operating regulations or by a responsible party's gross negligence or willful misconduct, or if the responsible party fails or refuses to report the incident or to cooperate and assist in connection with oil removal activities. In addition to potential liability under the OPA as the relevant federal legislation, vessel owners may in some instances incur liability on an even more stringent basis under state law in the particular state where the spillage occurred. The OPA specifically permits individual states to impose their own liability regimes with regard to oil pollution incidents occurring within their boundaries, and some states' environmental laws impose unlimited liability for oil spills.

In response to the Deepwater Horizon incident in the Gulf of Mexico, in 2010 the U.S. Congress proposed, but did not formally adopt legislation that would amend OPA to mandate stronger safety standards and increased liability and financial responsibility for offshore drilling operations. The bill did not seek to change the OPA liability limits applicable to vessels. While Congressional activity on this topic is expected to continue to focus on offshore facilities rather than on vessels generally, it cannot be known with certainty what form any such new legislative initiatives may take.

On February 24, 2014, the Bureau of Ocean Energy Management (BOEM), which regulates offshore drilling, published a proposed change to its regulations that will allow for the agency to implement adjustments to the limitation amounts to account for inflation. With respect to offshore facilities, the \$75 million limit has never been raised since OPA was enacted in 1990. Thus, if approved, the new regulations will give BOEM the authority to raise the \$75 million dollar cap to approximately \$134 million. There will be smaller periodic adjustments thereafter.

In addition, the Comprehensive Environmental Response, Compensation, and Liability Act (the "CERCLA"), which applies to the discharge of hazardous substances (other than oil) whether on land or at sea, contains a similar liability regime and provides for cleanup, removal and natural resource damages. Liability under CERCLA is limited to the greater of \$300 per gross ton or \$0.5 million for vessels not carrying hazardous substances as cargo or residue. For vessels carrying hazardous substances as cargo or residue, the limit of liability is \$300 per gross ton or \$5.0 million, whichever is greater. Under both these provisions liability is unlimited if the incident is caused by gross negligence, willful misconduct, or a violation of certain regulations.

We currently maintain, for each of our owned vessels, insurance coverage against pollution liability risks in the amount of \$1.0 billion per incident. The insured risks include penalties and fines as well as civil liabilities and expenses resulting from accidental pollution. However, this insurance coverage is subject to exclusions, deductibles and other terms and conditions. If any liabilities or expenses fall within an exclusion from coverage, or if damages from a catastrophic incident exceed the \$1.0 billion limitation of coverage per incident, our cash flow, profitability and financial position could be adversely impacted.

The OPA requires owners and operators of all vessels over 300 gross tons, even those that do not carry petroleum or hazardous substances as cargo, to establish and maintain with the U.S. Coast Guard evidence of financial responsibility sufficient to meet their potential liabilities under the OPA. The U.S. Coast Guard has implemented regulations requiring evidence of financial responsibility in the amount of \$1,300 per gross ton, which includes the OPA limitation on liability of \$1,000 per gross ton. Under the regulations, vessel owners and operators may evidence their financial responsibility by showing proof of insurance, surety bond, self-insurance or guaranty. These limits are periodically revised.

Under the OPA, an owner or operator of a fleet of vessels is required only to demonstrate evidence of financial responsibility in an amount sufficient to cover the vessel in the fleet having the greatest maximum liability under the OPA. Under the self-insurance provisions, the ship owner or operator must have a net worth and working capital, measured in assets located in the United States against liabilities located anywhere in the world, that exceeds the applicable amount of financial responsibility. We have complied with the U.S. Coast Guard regulations by providing a certificate of responsibility from third party entities that are acceptable to the U.S. Coast Guard evidencing sufficient self-insurance.

The U.S. Coast Guard's regulations concerning certificates of financial responsibility provide, in accordance with the OPA, that claimants may bring suit directly against an insurer or guarantor that furnishes certificates of financial responsibility. In the event that such insurer or guarantor is sued directly, it is prohibited from asserting any contractual defense that it may have had against the responsible party and is limited to asserting those defenses available to the responsible party and the defense that the incident was caused by the willful misconduct of the responsible party. Certain organizations, which had typically provided certificates of financial responsibility under pre-OPA laws, including the major protection and indemnity organizations have declined to furnish evidence of insurance for vessel owners and operators if they are subject to direct actions or required to waive insurance policy defenses. This requirement may have the effect of limiting the availability of the type of coverage required by the Coast Guard and could increase our costs of obtaining this insurance as well as the costs of our competitors that also require such coverage.

The United States Clean Water Act ("CWA") prohibits the discharge of oil or hazardous substances in U.S. navigable waters and imposes strict liability in the form of penalties for unauthorized discharges. The CWA also imposes substantial liability for the costs of removal, remediation and damages and complements the remedies available under CERCLA. The EPA regulates the discharge of ballast water and other substances incidental to the normal operation of vessels in U.S. waters using a Vessel General Permit, or VGP, system pursuant to the CWA, in order to combat the risk of harmful organisms that can travel in ballast water carried from foreign ports. Compliance with the conditions of the VGP is required for commercial vessels 79 feet in length or longer (other than commercial fishing vessels.) In November 2011, the EPA issued a revised draft VGP that is expected to go into effect in 2013.

This new VGP will impose a numeric standard to control the release of non-indigenous invasive species in ballast water discharges. In addition, through the CWA certification provisions that allow states to place additional conditions on use of the VGP within state waters, a number of states have proposed or implemented a variety of stricter ballast water requirements including, in some states, specific treatment standards. Compliance with new U.S. federal and state requirements could require the installation of equipment on our vessels to treat ballast water before it is discharged or the implementation of other port facility disposal arrangements or procedures at potentially substantial cost, and/or otherwise restrict our vessels from entering U.S. waters.

The Federal Clean Air Act ("CAA") requires the EPA to promulgate standards applicable to emissions of volatile organic compounds and other air contaminants. Our vessels are subject to CAA vapor control and recovery standards ("VCS") for cleaning fuel tanks and conducting other operations in regulated port areas, and to CAA emissions standards for so-called "Category 3" marine diesel engines operating in U.S. waters. In April 2010, EPA adopted regulations implementing the provision of MARPOL Annex VI regarding emissions from Category 3 marine diesel engines. Under these regulations, both U.S. and foreign-flagged ships must comply with the applicable engine and fuel standards of MARPOL Annex VI, including the stricter North America Emission Control Area (ECA) standards which took effect in August 2012, when they enter U.S. ports or operate in most internal U.S. waters including the Great Lakes. MARPOL Annex VI requirements are discussed in greater detail above under "International regulations to prevent pollution from ships." We may incur costs to install control equipment on our vessels to comply with the new standards. Also under the CAA, the U.S. Coast Guard has since 1990 regulated the safety of VCSs that are required under EPA and state rules. Our vessels operating in regulated port areas have installed VCSs that are compliant with EPA, state and U.S. Coast Guard requirements. On July 16, 2013, the U.S. Coast Guard adopted regulations that made its VCS requirements more compatible with new EPA and State regulations, reflected changes in VCS technology, and codified existing U.S. Coast Guard guidelines. We intend to comply with all applicable U.S. state and federal regulations in the ports where our vessels call.

We intend to comply with all applicable U.S. state and federal regulations in the ports where our vessels call.

Security Regulations: Since the terrorist attacks of September 11, 2001, there have been a variety of initiatives intended to enhance vessel security. On November 25, 2002, the Marine Transportation Security Act of 2002 (the "MTSA") came into effect. To implement certain portions of the MTSA, in July 2003, the United States Coast Guard issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States. Similarly, in December 2002, amendments to SOLAS created a new chapter of the convention dealing specifically with maritime security. The new chapter went into effect on July 1, 2004, and imposes various detailed security obligations on vessels and port authorities, most of which are contained in the ISPS Code. Among the various requirements are:

· on-board installation of automatic information systems to enhance vessel-to-vessel and vessel-to-shore communications;

- on-board installation of ship security alert systems;
- the development of vessel security plans; and
- · compliance with flag state security certification requirements.

Furthermore, additional security measures could be required in the future which could have a significant financial impact on us. The U.S. Coast Guard regulations, intended to be aligned with international maritime security standards, exempt non-U.S. vessels from MTSA vessel security measures, provided such vessels have on board a valid International Ship Security Certificate, or ISSC, that attests to the vessel's compliance with SOLAS security requirements and the ISPS Code. We will implement the various security measures addressed by the MTSA, SOLAS and the ISPS Code and take measures for the vessels to comply with all applicable security requirements within the prescribed time periods. Although management does not believe these additional requirements will have a material financial impact on our operations, there can be no assurance that there will not be an interruption in operations to bring vessels into compliance with the applicable requirements and any such interruption could cause a decrease in charter revenues. Furthermore, additional security measures could be required in the future which could have a significant financial impact on us.

**Inspection by Classification Societies:** Every sea going vessel must be "classed" by a classification society. The classification society certifies that the vessel is "in class," signifying that the vessel has been built and maintained in accordance with the rules of the classification society and complies with applicable rules and regulations of the vessel's country of registry and the international conventions of which that country is a member. In addition, where surveys are required by international conventions and corresponding laws and ordinances of a flag state, the classification society will undertake them on application or by official order, acting on behalf of the authorities concerned.

The classification society also undertakes, on request, other surveys and checks that are required by regulations and requirements of the flag state. These surveys are subject to agreements made in each individual case or to the regulations of the country concerned. For maintenance of the class, regular and extraordinary surveys of hull, machinery (including the electrical plant) and any special equipment classed are required to be performed as follows:

- Annual Surveys: For seagoing ships, annual surveys are conducted for the hull and the machinery (including the electrical plant) and, where applicable, for special equipment classed, at intervals of 12 months from the date of commencement of the class period indicated in the certificate.
- Intermediate Surveys: Extended annual surveys are referred to as intermediate surveys and typically are conducted two and a half years after commissioning and each class renewal. Intermediate surveys may be carried out on the occasion of the second or third annual survey.
- Class Renewal Surveys: Class renewal surveys, also known as special surveys, are carried out for the ship's hull, machinery (including the electrical plant), and for any special equipment classed, at the intervals indicated by the character of classification for the hull. At the special survey, the vessel is thoroughly examined, including audio-gauging, to determine the thickness of its steel structure. Should the thickness be found to be less than class requirements, the classification society would prescribe steel renewals. The classification society may grant a one-year grace period for completion of the special survey. Substantial amounts of money may have to be spent for steel renewals to pass a special survey if the vessel experiences excessive wear and tear. In lieu of the special survey every four or five years, depending on whether a grace period was granted, a ship owner has the option of arranging with the classification society for the vessel's integrated hull or machinery to be on a continuous survey cycle, in which every part of the vessel would be surveyed within a five-year cycle.

#### Risk of Loss and Liability Insurance

General: The operation of any cargo vessel includes risks such as mechanical failure, physical damage, collision, property loss, cargo loss or damage, business interruption due to political circumstances in foreign countries, hostilities, and labor strikes. In addition, there is always an inherent possibility of marine disaster, including oil spills and other environmental mishaps, and the liabilities arising from owning and operating vessels in international trade. The OPA, which imposes virtually unlimited liability upon owners, operators and demise charterers of any vessel trading in the United States exclusive economic zone for certain oil pollution accidents in the United States, has made liability insurance more expensive for ship owners and operators trading in the U.S. market. While we believe that our present insurance coverage is adequate, not all risks can be insured, and there can be no guarantee that any specific claim will be paid, or that we will always be able to obtain adequate insurance coverage at reasonable rates.

Hull and Machinery and War Risk Insurance: We have marine hull and machinery and war risk insurance, which include coverage of the risk of actual or constructive total loss, for all of our owned vessels. Each of the owned vessels is covered up to at least fair market value, with a deductible of \$0.1 million per Panamax, Handymax and Container vessel and \$0.2 million per Capesize vessel for the hull and machinery insurance. There are no deductibles for the war risk insurance. We have also arranged increased value insurance for all of the owned vessels. Under the increased value insurance, in case of total loss of the vessel, we will be able to recover the sum insured under the increased value policy in addition to the sum insured under the hull and machinery policy. Increased value insurance also covers excess liabilities that are not recoverable in full by the hull and machinery policies by reason of under-insurance.

**Protection and Indemnity Insurance:** Protection and indemnity insurance is provided by mutual protection and indemnity associations, or P&I Associations, which cover Navios Holdings' third-party liabilities in connection with the operation of its ships. This includes third-party liability and other related expenses of injury or death of crew, passengers and other third parties, loss or damage to cargo, claims arising from collisions with other vessels, damage to other third-party property, pollution arising from oil or other substances, and salvage, towing and other related costs, including wreck removal. Protection and indemnity insurance is a form of mutual indemnity insurance, extended by protection and indemnity mutual associations.

Our protection and indemnity insurance coverage for oil pollution is limited to \$1.0 billion per event. The 13 P&I Associations that comprise the International Group insure approximately 95% of the world's commercial tonnage and have entered into a pooling agreement to reinsure each association's liabilities. Each vessel that we acquire will be entered with P&I Associations of the International Group. Under the International Group reinsurance program, each P&I club in the International Group is responsible for the first \$9.0 million of every claim. In every claim the amount in excess of \$9.0 million and up to \$80.0 million is shared by the clubs under a pooling agreement. Any claim in excess of \$80.0 million is reinsured by the International Group under the General Excess of Loss Reinsurance Contract. This policy currently provides an additional \$2.0 billion of coverage for non-oil pollution claims. Further to this, overspill protection has been placed by the International Group for claims up to \$1.0 billion in excess of \$2.08 billion, or \$3.08 billion in total. For passengers and crew claims, the overall limit is \$3.0 billion for any one event relating to any one vessel with a sub-limit of \$2.0 billion for passengers.

As a member of a P&I Association that is a member of the International Group, we will be subject to calls payable to the associations based on its claim records as well as the claim records of all other members of the individual associations, and members of the pool of P&I Associations comprising the International Group. The P&I Associations' policy year commences on February 20th. Calls are levied by means of Estimated Total Premiums ("ETP") and the amount of the final installment of the ETP varies according to the actual total premium ultimately required by the club for a particular policy year. Members have a liability to pay supplementary calls which might be levied by the board of directors of the club if the ETP is insufficient to cover amounts paid out by the club.

Uninsured Risks: Not all risks are insured and not all risks are insurable. The principal insurable risks which nonetheless remain uninsured across our fleet are "loss of hire" and "strikes," except in cases of loss of hire due to war or a piracy event. Specifically, Navios Holdings does not insure these risks because the costs are regarded as disproportionate. These insurances provide, subject to a deductible, a limited indemnity for hire that would not be receivable by the shipowner for reasons set forth in the policy. Should a vessel on time charter, where the vessel is paid a fixed hire day by day, suffer a serious mechanical breakdown, the daily hire will no longer be payable by the charterer. The purpose of the loss of hire insurance is to secure the loss of hire during such periods. In the case of strikes insurance, if a vessel is being paid a fixed sum to perform a voyage and the ship becomes strike bound at a loading or discharging port, the insurance covers the loss of earnings during such periods. However, in some cases when a vessel is transiting high risk war and/or piracy areas, Navios Holdings arranges war loss of hire insurance to cover up to 270 days of detention/loss of time. There are no deductibles for the war loss of hire cover.

Credit Risk Insurance: With effect from March 25, 2014, the Company entered into an agreement to terminate the amended credit default insurance policy. In connection with the termination, Navios Holdings received compensation of \$4.0 million in cash direct from the credit default insurer during the second quarter of 2014. The Company is expected to receive an additional \$7.2 million in the second quarter of 2014 from the settlement proceeds of a defaulted counterparty-related claim.

#### Risk Management

Risk management in the shipping industry involves balancing a number of factors in a cyclical and potentially volatile environment. Fundamentally, the challenge is to appropriately allocate capital to competing opportunities of owning or chartering vessels. In part, this requires a view of the overall health of the market, as well as an understanding of capital costs and returns. Thus, stated simply, one may charter-in part of a fleet as opposed to owning the entire fleet to maximize risk management and economic results. This is coupled with the challenge posed by the complex logistics of ensuring that the vessels controlled by Navios Holdings are fully employed.

Navios Holdings seeks to manage risk through a number of strategies, including vessel control strategies (chartering and ownership), freight carriage and FFA trading. Navios Holdings' vessel control strategies include seeking the appropriate mix of owned vessels, long- and short-term chartered-in vessels, coupled with purchase options, when available, and spot charters. Navios Holdings also enters into COAs, which gives Navios Holdings, subject to certain limitations, the flexibility to determine the means of getting a particular cargo to its destination. Navios Holdings' FFA trading strategies include taking economic hedges to manage and mitigate risk on vessels that are on-hire or coming off-hire to protect against the risk of movement in freight market rates.

## **Legal Proceedings**

Navios Holdings is not involved in any legal proceedings that it believes will have a significant effect on its business, financial position, results of operations and liquidity.

In January 2011, KLC filed for receivership, which is reorganization under South Korean bankruptcy law. Navios Holdings has reviewed the matter, as five vessels of its core fleet were chartered out to KLC. The contracts for these vessels have been terminated and the vessels have been rechartered to third parties for variable charter periods. The Company has filed claims for all unpaid amounts by KLC in respect of the employment of the five vessels in the KLC corporate rehabilitation proceedings. As of December 31, 2013 the Company has received payment in full for all its claims against KLC partly in cash and partly in shares.

From time to time, Navios Holdings may be subject to legal proceedings and claims in the ordinary course of business. It is expected that these claims would be covered by insurance if they involved liabilities such as those that arise from a collision, other marine casualty, damage to cargoes, oil pollution, death or personal injuries to crew, subject to customary deductibles. Those claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

## **Crewing and Shore Employees**

Navios Holdings crews its vessels primarily with Greek, Ukrainian, Georgian, Filipino, Polish and Russian officers and Filipino, Georgian, Bulgarian and Ukrainian seamen. Navios Holdings' fleet manager is responsible for selecting its Greek officers. Other nationalities are referred to Navios Holdings' fleet manager by local crewing agencies. Navios Holdings is also responsible for travel and payroll of the crew. The crewing agencies handle each seaman's training. Navios Holdings requires that all of its seamen have the qualifications and licenses required to comply with international regulations and shipping conventions. Navios Logistics crews its fleet with Argentinean, Brazilian and Paraguayan officers and seamen. Navios Logistics' fleet managers are responsible for selecting the crew.

As of December 31, 2013, with respect to shore-side employees, Navios Holdings and its subsidiaries employ 156 employees in its Piraeus, Greece office, 11 employees in its New York office, nine employees in its Antwerp, Belgium office, two employees in its Monaco office and one employee in its Singapore office. Navios Logistics employs 38 employees in its Asuncion, Paraguay offices, with 45 employees at the port facility in San Antonio, Paraguay, 135 employees in the Buenos Aires, Argentina office, seven employees in its Montevideo, Uruguay office, with an additional 133 employees at the port facility in Nueva Palmira, Uruguay, and 10 employees at Hidronave S.A.'s Corumba, Brazil office.

### **Facilities**

- Navios ShipManagement Inc. and Navios Corporation lease approximately 3,882.3 square meters of space at 85 Akti Miaouli, Piraeus, Greece, pursuant to lease agreements that expire in 2017 and 2019.
- On July 1, 2010, Kleimar N.V. signed a contract for the lease of approximately 632 square meters for its offices, pursuant to a lease that expires in 2019.
- Navios Corporation leases approximately 16,703 square feet of space at 825 Third Avenue, New York, New York, pursuant to a lease that
  expires in 2019. Navios Holdings sublets a portion of the 34th floor in the building located at 825 Third Avenue, New York, New York, which
  premises comprise a portion of the premises under the main lease, to a third party pursuant a sub-lease that expires in 2019.
- Navios Tankers Management Inc. leases approximately 253.75 square meters of space at 85 Akti Miaouli, Piraeus, Greece, pursuant to a lease agreement signed on October 29, 2010 and expiring in 2019.
- Navios Shipmanagement Inc. leases office space in Monaco pursuant to a lease that expires in June 2015.

Navios Logistics and its subsidiaries currently lease the following premises:

CNSA, as a free zone direct user at the Nueva Palmira Free Zone, holds the right to occupy the land on which it operate its port and transfer
facility, located at Zona Franca, Nueva Palmira, Uruguay. CNSA was authorized to operate as a free zone user on November 29, 1955 by a
resolution of the Executive, which on

September 27, 1956 approved an agreement, as required by applicable law at the time. On December 4, 1995, CNSA rights as a direct user were renewed in a single free zone user agreement, which was subsequently amended in many occasions — incorporating new plots of land — until its final version dated November 27, 2009. The agreement currently in force permits CNSA to install and operate a transfer station to handle and store goods, and to build and operate a plant to receive, prepare and dry grain on land in the Nueva Palmira Free Zone. The agreement expires on December 31, 2025, with a 20-year extension at our request. Navios Logistics pays an annual fee of approximately \$0.2 million, payable in eight consecutive months beginning in January of each year and increasing yearly in proportion to the variation in the U.S. Consumer Price Index corresponding to the previous year. There is also a transhipment fee of \$0.20 per ton transshipped. Navios Logistics has certain obligations with respect to improving the land subject to the agreement, and the agreement is terminable by the Free Zone Division if we breach the terms of the agreement, or labor laws and social security contributions, and if Navios Logistics commit illegal acts or acts expressly forbidden by the agreement. In March 2013, CNSA acquired Energias Renovables del Sur S.A., an Uruguayan corporation and Nueva Palmira Free Zone direct user pursuant to an agreement with the Free Trade Zone Authority — General Trade Bureau of the Ministry of Economy and Finance.

- CNSA also leases approximately 205 square meters of space at Paraguay 2141, Montevideo, Uruguay, pursuant to a lease that expires in November 2020.
- Petrolera San Antonio S.A. leases approximately 655 square meters of space at Av. Aviadores del Chaco 1669 Edificio AYMAC, Asuncion, Paraguay, pursuant to a lease that expires in October 31, 2018.
- Compañía Naviera Horamar S.A. leases approximately 409 square meters at Cepeda 429 Street, San Nicolás, Buenos Aires, Argentina, pursuant to a lease agreement that expires in November 2014
- Hidronave S.A. leases approximately 195 square meters at Av. General Rondon 1473 Street, Corumba, Brazil, pursuant to a lease agreement that expires in March 2015.
- Petrolera San Antonio S.A. leases approximately 10,481 square meters of a land and a small warehouse next to the river Paraguay at San Miguel district of Asunción over the way to the Club Mbigua, pursuant to a lease agreement that expires in June 2018.
- Compañía Naviera Horamar S.A. leases a piece of land called "La Misteriosa" in an Island in the Province of Entre Rios, Argentina, Department
  of Islands of Ibicuy and Paranacito, pursuant to a lease agreement that expires in May 2018.
- Compañía Naviera Horamar S.A. leases approximately 1370 square meters of office space at Av. Juana Manso 205, Buenos Aires, Argentina, pursuant to a lease agreement that expires in June 2016.
- Merco Par S.A.C.I. leases approximately 655 square meters of office space at Avenida Aviadores del Chaco No 1.669 corner San Martín, Asuncion, Paraguay, pursuant to a lease agreement that expires in November 2018.

CNSA owns premises in Montevideo, Uruguay. This space is approximately 112 square meters and is located at Juan Carlos Gomez 1445, Oficina 701, Montevideo 1100, Uruguay.

Petrolera San Antonio S.A. owns the premises from which it operates in Avenida San Antonio, Paraguay. This space is approximately 146,744 square meters and is located between Avenida San Antonio and Virgen de Caacupé, San Antonio, Paraguay.

Compania Naviera Horamar S.A. owns two storehouses located at 880 Calle California, Ciudad Autonoma de Buenos Aires, Argentina and at 791/795 Calle General Daniel Cerri, Ciudad Autonoma de Buenos Aires, Argentina of approximately 259 and 825 square meters, respectively. Compania Naviera Horamar S.A. also owns a premesis, the space of which is approximately 1,208 square meters and is located in Buenos Aires, Argentina 846 Avenida Santa Fe, Ciudad Autonoma.

Petrovia Internacional S.A. owns three plots of land in Nueva Palmira, Uruguay, two of approximately 29 acres each and one of 23 acres.

### C. Organizational structure

Navios Holdings maintains offices in Piraeus, Greece, Antwerp, Belgium, New York, Monaco and Singapore. Navios Holdings' corporate structure is functionally organized: commercial ship management and risk management are conducted through Navios Corporation and its wholly-owned subsidiaries, while the operation and technical management of Navios Holdings' owned vessels are conducted through wholly-owned subsidiaries of Navios Holdings. Navios Logistics maintains offices in Buenos Aires, Argentina, Asuncion, Paraguay, Montevideo, Uruguay and Corumba, Brazil. Navios Logistics conducts the commercial and technical management of its vessels, barges and pushboats through its wholly-owned subsidiaries. Navios Logistics also owns the Nueva Palmira port and transfer facility indirectly through its Uruguayan subsidiary, CNSA, and the San Antonio port facility through its Paraguayan subsidiary, Petrolera San Antonio S.A.

As of December 31, 2013, all subsidiaries included in the consolidated financial statements are 100% owned, except for Navios Logistics and its subsidiaries, which is 63.8% owned and Navios Asia and its subsidiaries, which is 51% owned. Navios Acquisition was a consolidated subsidiary from May 28, 2010 until its deconsolidation on March 30, 2011.

The table below sets forth Navios Holdings' corporate structure as of December 31, 2013.

## Subsidiaries included in the consolidation:

	N	Effective		<b>G</b>		
Company Name	Nature/ Vessel Name	Ownership Interest	Country of Incorporation	2013	tement of Operat 2012	ons 2011

### Affiliates included in the financial statements accounted for under the equity method:

In the consolidated financial statements of Navios Holdings, the following entities are included as affiliates and are accounted for under the equity method for such periods during which such entities were affiliates of Navios Holdings: (i) Navios Partners and its subsidiaries (ownership interest as of December 31, 2013 was 21.6%, which includes a 2.0% general partner interest); (ii) Navios Acquisition and its subsidiaries (voting and economic interest as of December 31, 2013 was 47.8% and 50.5%, respectively); (iii) Acropolis Chartering and Shipping Inc. ("Acropolis") (ownership interest as of December 31, 2013 was 50.0%); and (iv) Navios Europe and its subsidiaries (ownership interest as of December 31, 2013 was 47.5%).

#### D. Property, plants and equipment

Our only material property is the owned vessels, tanker vessels, barges and pushboats and the port terminal facilities in Paraguay and Uruguay. See "Item 4.B Business Overview" above.

### **Item 4A. Unresolved Staff Comments**

None.

#### Item 5. Operating and Financial Review and Prospects

The following is a discussion of Navios Holdings' financial condition and results of operations for each of the fiscal years ended December 31, 2013, 2012 and 2011. All of these financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (U.S. GAAP). You should read this section together with the consolidated financial statements, including the notes to those financial statements, for the years mentioned above which are included in this document.

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Reform Act of 1995. These forward-looking statements are based on Navios Holdings' current expectations and observations. Included among the factors that, in our view, could cause actual results to differ materially from the forward-looking statements contained in this report are those discussed under "Risk Factors" and "Forward-Looking Statements."

#### Overview

Navios Holdings is a global, vertically integrated seaborne shipping and logistics company focused on the transport and transshipment of drybulk commodities, including iron ore, coal and grain. We technically and commercially manage our owned fleet, Navios Acquisitions' fleet, Navios Partners' fleet and Navios Europe's fleet, and commercially manage our chartered-in fleet. Navios Holdings has in-house ship management expertise that allows it to oversee every step of ship management including the shipping operations throughout the life of the vessels and the superintendence of maintenance, repairs and drydocking.

On February 2, 2007, Navios Holdings acquired all of the outstanding share capital of Kleimar N.V. ("Kleimar"). Kleimar is a Belgian maritime transportation company established in 1993. Kleimar is the owner and operator of Capesize, Panamax and Handymax vessels used in the transportation of cargoes and has an extensive COA business.

Navios Logistics is one of the largest logistics companies in the Hidrovia region of South America, serving the storage and marine transportation needs of its customers through two port storage and transfer facilities, one for grain commodities and the other for refined petroleum products and a diverse fleet, consisting of vessels, barges and pushboats. Navios Holdings currently owns 63.8% of Navios Logistics.

On August 7, 2007, Navios Holdings formed Navios Partners under the laws of Marshall Islands. Navios G.P. L.L.C. ("General Partner"), a wholly-owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received a 2.0% general partner interest in Navios Partners. Navios Partners is an affiliate and not consolidated under Navios Holdings.

Navios Acquisition is an owner and operator of tanker vessels focusing in the transportation of petroleum products (clean and dirty) and bulk liquid chemicals. On May 28, 2010, Navios Holdings acquired control over Navios Acquisition. As a result, Navios Holdings concluded a business combination had occurred and consolidated the results of Navios Acquisition from that date until March 30, 2011. From March 30, 2011, Navios Acquisition has been considered as an affiliate entity of Navios Holdings. As of December 31, 2013, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition was 47.8% and its economic interest in Navios Acquisition was 50.5%.

### **Charter Policy and Industry Outlook**

Navios Holdings' policy has been to take a portfolio approach to managing operating risks. This policy led Navios Holdings to time charter-out many of the vessels that it is presently operating (i.e., vessels owned by Navios Holdings or which it has taken into its fleet under charters having a duration of more than 12 months) for periods up to 10 years at inception to various shipping industry counterparties considered by Navios Holdings to have appropriate credit profiles. By doing this, Navios Holdings aims to lock in, subject to credit and operating risks, favorable forward revenue and cash flows which it believes will cushion it against unfavorable market conditions. In addition, Navios Holdings trades additional vessels taken in on shorter term charters of less than 12 months duration as well as voyage charters or COAs and forward freight agreements ("FFAs").

employment.

The average daily charter-in vessel cost for the Navios Holdings long-term charter-in fleet (excluding vessels, which are utilized to serve voyage charters or COAs) was 12,304 per day for the year ended December 31, 2013. The average long-term charter-in hire rate per vessel was included in the amount of long-term hire included elsewhere in this document and was computed by (a) multiplying the (i) daily charter-in rate for each vessel by (ii) number of days the vessel is in operation for the year and (b) dividing such product by the total number of vessel days for the year. These rates exclude gains and losses from FFAs. Furthermore, Navios Holdings has the ability to increase its owned fleet through purchase options exercisable in the future at favorable prices relative to the then-current market.

Navios Holdings believes that a decrease in global commodity demand from its current level, and the delivery of drybulk carrier new buildings into the world fleet, could have an adverse impact on future revenue and profitability. However, the operating cost advantage of Navios Holdings' owned vessels and long-term chartered fleet, which is chartered-in at favorable rates, will continue to help mitigate the impact of the declines in freight rates. A reduced freight rate environment may also have an adverse impact on the value of Navios Holdings' owned fleet. In reaction to a decline in freight rates, available ship financing has also been negatively impacted.

Navios Logistics owns and operates vessels, barges and pushboats located mainly in Argentina, the largest independent bulk transfer and storage port facility in Uruguay, and an upriver liquid port facility located in Paraguay. Operating results for Navios Logistics are highly correlated to: (i) South American grain production and export, in particular Argentinean, Brazilian, Paraguayan, Uruguayan and Bolivian production and export; (ii) South American iron ore production and export, mainly from Brazil; and (iii) sales (and logistic services) of petroleum products in the Argentine and Paraguayan markets. Navios Holdings believes that the continuing development of these businesses will foster throughput growth and therefore increase revenues at Navios Logistics. Should this development be delayed, grain harvests be reduced, or the market experience an overall decrease in the demand for grain or iron ore, the operations in Navios Logistics could be adversely affected.

### **Fleet Development**

The following is the current "core fleet" employment profile (excluding Navios Logistics), including the newbuilds to be delivered. The current "core fleet" consists of 66 vessels totaling 6.3 million deadweight tons. The employment profile of the fleet as of April 28, 2014 is reflected in the tables below. The 53 vessels in current operation aggregate approximately 5.1 million deadweight tons and have an average age of 7.2 years. Navios Holdings has currently fixed 57.8% and 7.0% of the 2014 and 2015 available days, respectively, of its fleet (excluding vessels, which are utilized to fulfill COAs), representing contracted fees (net of commissions), based on contracted charter rates from our current charter agreement of \$131.4 million and \$21.5 million, respectively. Although these fees are based on contractual charter rates, any contract is subject to performance by the counterparties and us. Additionally, the level of these fees would decrease depending on the vessels' off-hire days to perform periodic maintenance. The average contractual daily charter-out rate for the core fleet (excluding vessels, which are utilized to fulfill COAs) is \$13,600 and \$16,914 for 2014 and 2015, respectively. The average daily charter-in rate for the active long-term charter-in vessels (excluding vessels, which are utilized to fulfill COAs) for 2014 is \$13,357.

- (10) Based on weighted average Panamax Index routes +17%.
- (11) Based on weighted average Supramax Index routes +10%.

## Credit Default Insurance Policy

With effect from March 25, 2014, the Company entered into an agreement to terminate the amended credit default insurance policy. In connection with the termination, Navios Holdings received compensation of \$4.0 million in cash direct from the credit default insurer during the second quarter of 2014. The Company is expected to receive an additional \$7.2 million in the second quarter of 2014 from the settlement proceeds of a defaulted counterparty-related claim.

## Issuances of American Depositary Shares Representing Preferred Stock

On January 28, 2014, Navios Holdings completed the sale 2,000,000 American Depositary Shares, each of which represents 1/100th of a share of the Company's Series G Cumulative Redeemable Perpetual Preferred Stock, with a liquidation preference of \$2,500.00 per share, priced at \$25.00 per American Depositary Share. Dividends will be payable on the Series G Cumulative Redeemable Perpetual Preferred Stock at a rate of 8.75% per annum of the stated liquidation preference. The net proceeds of approximately \$47.7 million from the offering (after deducting underwriting discounts and estimated offering expenses) will be used for general corporate purposes, including acquisition of vessels.

### Fleet Developments

Acquisition of Two New Building Vessels

On January 26, 2014, Navios Holdings entered into agreements to purchase two drybulk vessels, one 84,000 dwt Panamax vessel and one 180,600 dwt Capesize vessel, both to be built in Japan. The vessels' acquisition prices are \$31.8 million and \$52.0 million, respectively. Both vessels are scheduled for delivery in the fourth quarter of 2015. The vessels will be financed with debt and cash from operations.

#### Chartered-in Five Vessels

In January 2014, Navios Holdings entered into agreements to charter-in five new building Japanese Kamsarmax vessels. The vessels are expected to be delivered between the second quarter of 2015 and the fourth quarter of 2016 and are chartered-in for periods from seven to ten years. Navios Holdings has purchase options on all of the vessels.

#### **Dividend Policy**

On February 17, 2014, the Board of Directors declared a quarterly cash dividend for the fourth quarter of 2013 of \$0.06 per share of common stock. This dividend was paid on March 27, 2014 to stockholders of record on March 20, 2014. The declaration and payment of any further dividend remain subject to the discretion of the Board, and will depend on, among other things, Navios Holdings' cash requirements after taking into account market opportunities, restrictions under its credit agreements, other debt obligations and such other factors as the Board may deem advisable.

## Changes in Capital Structure

Issuances to Employees and Exercise of Options

During the year ended December 31, 2013, pursuant to the stock plan approved by the Board of Directors, 106,032, 29,243, 10,969 and 7,312 shares were issued following the exercise of options for cash.

On December 11, 2013, pursuant to the stock plan approved by the Board of Directors Navios Holdings issued to its employees 856,437 shares of restricted common stock, 30,000 restricted stock units and 674,809 stock options.

During the year ended December 31, 2012, pursuant to the stock plan approved by the Board of Directors, 29,251 shares were issued following the exercise of options for cash.

On December 20, 2012, pursuant to the stock plan approved by the Board of Directors Navios Holdings issued to its employees 801,028 shares of restricted common stock, 31,000 restricted stock units and 1,344,357 stock options.

### Vested, Surrendered and Forfeited

During the years ended December 31, 2013 and 2012, 21,463 and 24,932 restricted stock units, issued to the Company's employees have vested, respectively.

During the years ended December 31, 2013 and 2012, 12,452 and 9,166 restricted shares of common stock, respectively, were forfeited upon termination of employment.

Share Repurchase Program: On November 14, 2008, the Board of Directors approved a share repurchase program authorizing the purchase of up to \$25.0 million of Navios Holdings' common stock pursuant to a program adopted under Rule 10b5-1 under the Exchange Act. The program does not require any minimum purchase or any specific number or amount of shares and may be suspended or reinstated at any time in Navios Holdings' discretion and without notice. Repurchases are subject to restrictions under the terms of the Company's credit facilities and indenture. There were no shares repurchased during the year ended December 31, 2013 and 2012. During the year ended December 31, 2011, Navios Holdings repurchased 73,651 shares for a total cost of \$0.2 million.

Following the issuances, repurchases and cancellations of the shares described above, as of December 31, 2013, Navios Holdings had 104,261,029 shares of common stock and 8,479 shares of preferred stock outstanding.

### Navios Logistics

On April 22, 2014, Navios Logistics and Navios Logistics Finance (US) Inc. completed the sale of \$375.0 million of its 7.25% senior notes due 2022 (the "2022 Logistics Notes"). The net proceeds of this offering were used (i) to fund its current tender offer and consent solicitation for certain outstanding notes and pay related fees and expenses, (ii) to discharge and redeem any of such notes that are not purchased in the tender offer after all conditions to the tender offer are satisfied or waived, including the payment of any related fees and expenses and any redemption premium, and (iii) for general corporate purposes.

On February 11, 2014, Navios Logistics entered into an agreement for the construction of three new pushboats with a construction price of \$7.4 million each. These pushboats are expected to be delivered in the first quarter of 2015.

On January 2, 2014, Navios Logistics took delivery of three second-hand pushboats that were acquired during the second quarter of 2013, for a total consideration of \$20.3 million.

### Navios Asia

In January, 2014, Navios Asia took delivery of the N Bonanza, a 2006-built 76,596 dwt bulk carrier vessel for a purchase price of \$17.5 million, of which \$6.3 million was paid from the Company's and noncontrolling shareholders' cash and \$11.3 million was financed through a loan.

### Navios Partners

In February 2014, Navios Partners completed a public offering of 6,325,000 common units, including the full exercise of the underwriters' overallotment option at \$17.30 per unit, and raised net proceeds of approximately \$106.7 million. Navios Holdings paid \$2.2 million in order to retain its 2.0% general partner interest. Following this offering, Navios Holdings owns 20.0% of Navios Partners (which includes a 2.0% general partner interest).

The Board of Directors of Navios Partners declared a cash distribution for the fourth quarter of 2013 of \$0.4425 per unit. On February 14, 2014, Navios Holdings received \$7.4 million representing the cash distribution from Navios Partners for the fourth quarter of 2013.

#### Navios Acquisition

On February 20, 2014, Navios Acquisition closed a public offering of 14,950,000 shares of its common stock, including the full exercise of the underwriters' overallotment option at a price of \$3.85 per share, raising gross proceeds of \$57.6 million. Following this offering, Navios Holdings' has a 43.1% voting and a 45.8% economic interest in Navios Acquisition following the exercise of the underwriters' overallotment option.

On January 7, 2014, Navios Holdings received \$3.6 million from Navios Acquisition representing the cash dividend for the third quarter of 2013.

### A. Operating Results

## Factors Affecting Navios Holdings' Results of Operations:

Navios Holdings actively manages the risk in its operations by: (i) operating the vessels in its fleet in accordance with all applicable international standards of safety and technical ship management; (ii) enhancing vessel utilization and profitability through an appropriate mix of long-term charters complemented by spot charters (time charters for short-term employment) and COAs; (iii) monitoring the financial impact of corporate exposure from both physical and FFAs transactions; (iv) monitoring market and counterparty credit risk limits; (v) adhering to risk management and operation policies and procedures; and (vi) requiring counterparty credit approvals.

Navios Holdings believes that the important measures for analyzing trends in its results of operations consist of the following:

- Market Exposure: Navios Holdings manages the size and composition of its fleet by chartering and owning vessels in order to adjust to anticipated changes in market rates. Navios Holdings aims to achieve an appropriate balance between owned vessels and long and short-term chartered-in vessels and controls approximately 6.3 million dwt in dry bulk tonnage. Navios Holdings' options to extend the charter duration of vessels it has under long-term time charter (durations of over 12 months) and its purchase options on chartered vessels permit Navios Holdings to adjust the cost and the fleet size to correspond to market conditions.
- Available days: Available days is the total number of days a vessel is controlled by a company less the aggregate number of days that the vessel is
  off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys. The shipping industry uses available days to
  measure the number of days in a period during which vessels should be capable of generating revenues.
- Operating days: Operating days is the number of available days in a period less the aggregate number of days that the vessels are off-hire due to
  any reason, including lack of demand or unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number
  of days in a period during which vessels actually generate revenues.
- Fleet utilization: Fleet utilization is obtained by dividing the number of operating days during a period by the number of available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning.
- TCE rates: TCE rates are defined as voyage and time charter revenues less voyage expenses during a period divided by the number of available days during the period. The TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts, while charter hire rates for vessels on time charters generally are expressed in such amounts.
- Equivalent vessels: Equivalent vessels data is the available days of the fleet divided by the number of the calendar days in the period.

### Voyage and Time Charter

Revenues are driven primarily by the number of vessels in the fleet, the number of days during which such vessels operate and the amount of daily charter hire rates that the vessels earn under charters, which, in turn, are affected by a number of factors, including:

- the duration of the charters;
- the level of spot market rates at the time of charters;
- decisions relating to vessel acquisitions and disposals;
- the amount of time spent positioning vessels;
- the amount of time that vessels spend in drydock undergoing repairs and upgrades;
- the age, condition and specifications of the vessels; and
- the aggregate level of supply and demand in the drybulk shipping industry.

Time charters are available for varying periods, ranging from a single trip (spot charter) to a long-term period which may be many years. Under a time charter, owners assume no risk for finding business and obtaining and paying for fuel or other expenses related to the voyage, such as port entry fees. In general, a long-term time charter assures the vessel owner of a consistent stream of revenue. Operating the vessel in the spot market affords the owner greater spot market opportunity, which may result in high rates when vessels are in high demand or low rates when vessel availability exceeds demand. Vessel charter rates are affected by world economics, international events, weather conditions, strikes, governmental policies, supply and demand, and many other factors

that might be beyond the control of management.

Consistent with industry practice, Navios Holdings uses TCE rates, which consist of revenue from vessels operating on time charters and voyage revenue less voyage expenses from vessels operating on voyage charters in the spot market, as a method of analyzing fluctuations between financial periods and as a method of equating revenue generated from a voyage charter to time charter revenue.

TCE revenue also serves as an industry standard for measuring revenue and comparing results between geographical regions and among competitors.

The cost to maintain and operate a vessel increases with the age of the vessel. Older vessels are less fuel efficient, cost more to insure and require upgrades from time to time to comply with new regulations. The average age of Navios Holdings' owned core fleet is 7.6 years. However, as such fleet ages or if Navios Holdings expands its fleet by acquiring previously owned and older vessels, the cost per vessel would be expected to rise and, assuming all else, including rates, remains constant, vessel profitability would be expected to decrease.

### Spot Charters, Contracts of Affreightment and Forward Freight Agreements (COAs and FFAs)

Navios Holdings enhances vessel utilization and profitability through a mix of voyage charters, short-term charter-out contracts, COAs and strategic backhaul cargo contracts.

Navios Holdings may enter into drybulk shipping FFAs as economic hedges relating to identifiable ship and/or cargo positions and as economic hedges of transactions the Company expects to carry out in the normal course of its shipping business. By utilizing certain derivative instruments, including drybulk shipping FFAs, the Company manages the financial risk associated with fluctuating market conditions. In entering into these contracts, the Company has assumed the risks relating to the possible inability of counterparties to meet the terms of their contracts.

FFAs cover periods generally ranging from one month to one year and are based on time charter rates or freight rates on specific quoted routes. FFAs are executed either over-the-counter, between two parties, or through LCH, the London clearing house. FFAs are settled in cash monthly based on publicly quoted indices. No over-the-counter trades have been executed during 2011, 2012, and 2013 or in 2014, or were active during those periods. LCH calls for both base and margin collaterals, which are funded by Navios Holdings, and which in turn substantially eliminates counterparty risk. Certain portions of these collateral funds may be restricted at any given time as determined by LCH. At the end of each calendar quarter, the fair value of drybulk shipping FFAs traded over-the-counter are determined from an index published in London, United Kingdom and the fair value of those FFAs traded with LCH are determined from the LCH valuations accordingly. Navios Holdings has implemented specific procedures designed to respond to credit risk associated with over-the-counter trades, including the establishment of a list of approved counterparties and a credit committee which meets regularly.

### Statement of Operations Breakdown by Segment

Navios Holdings reports financial information and evaluates its operations by charter revenues and not by vessel type, length of ship employment, customers or type of charter. Navios Holdings does not use discrete financial information to evaluate the operating results for each such type of charter. Although revenue can be identified for these types of charters, management does not identify expenses, profitability or other financial information for these charters. The reportable segments reflect the internal organization of the Company and are strategic businesses that offer different products and services. The Company currently has two reportable segments from which it derives its revenues, Drybulk Vessel Operations and Logistics Business. The Drybulk Vessel Operations business consists of the transportation and handling of bulk cargoes through the ownership, operation, and trading of vessels, freight, and FFAs. For Navios Holdings' reporting purposes, Navios Logistics is considered as one reportable segment, the Logistics Business segment. The Logistics Business segment consists of Navios Holdings' port terminal business, barge business and cabotage business in the Hidrovia region of South America. Navios Holdings measures segment performance based on net income attributable to Navios Holdings' common stockholders.

For further segment information, please see Note 20 to the Consolidated Financial Statements included elsewhere in this Annual Report.

### **Period over Period Comparisons**

### For the year ended December 31, 2013 compared to the year ended December 31, 2012

The following table presents consolidated revenue and expense information for each of the years ended December 31, 2013 and 2012 and was derived from the audited consolidated revenue and expense accounts of Navios Holdings for each of the years ended December 31, 2013 and 2012.

	_	ear Ended	_	ear Ended
(In thousands of U.S. dollars)	Ъ.	2013	ь	2012
Revenue	\$	512,279	\$	616,494
Time charter, voyage and logistics business expenses		(244,412)		(269,279)
Direct vessel expenses		(114,074)		(117,790)
General and administrative expenses		(44,634)		(51,331)
Depreciation and amortization		(98,124)		(108,206)
Provision for losses on accounts receivable		(630)		(17,136)
Interest income		2,299		2,717
Interest expense and finance cost, net		(110,805)		(106, 196)
Loss on derivatives		(260)		(196)
Gain on sale of assets		18		323
Loss on bond and debt extinguishment		(37,136)		_
Other income		17,031		189,239
Other expense		(10,447)		(10,993)
(Loss)/income before equity in net earnings of affiliated companies	\$	(128,895)	\$	127,646
Equity in net earnings of affiliated companies		19,344		48,228

Less: Net income attributable to the noncontrolling interest		(3,772)		(77)
Net (loss)/income attributable to Navios Holdings common stockholders	\$	(109,063)	\$	175,485

Set forth below are selected historical and statistical data for Navios Holdings (excluding Navios Logistics) for each of the years ended December 31, 2013 and 2012 that the Company believes may be useful in better understanding the Company's financial position and results of operations.

Year Ended December 31,		
19,364	17,589	
19,062	17,273	
98.4%	98.2%	
53	48	
\$12,029	\$18,167	
	19,364 19,062 98.4% 53	

During the year ended December 31, 2013, there were 1,775 more available days as compared to 2012, due to (i) an increase in available days for owned vessels of 669 days, mainly due to the delivery of the Navios Taurus, Navios Galileo, Navios Amitie, Navios Northern Star and N Amalthia in the second half of 2013; and (ii) an increase in short-term charter-in fleet available days of 1,415 days. This increase was partially offset by a decrease in the long-term charter-in fleet available days of 309 days. Navios Holdings can increase or decrease its fleet's size by chartering-in vessels for long or short-term periods (less than one year).

The average TCE rate for the year ended December 31, 2013 was \$12,029 per day, which was \$6,138 per day lower than the rate achieved in 2012. This was due primarily to (i) the decline in the freight market during 2013 as compared to the same period in 2012 and (ii) the impact of the accounting treatment of the one-time upfront cash payment received in connection with the credit default insurance restructuring, whereby revenues attributable to defaulted charterers that would have been previously recognized over the life of those charters, were recorded immediately within "Other income".

**Revenue:** Revenue from drybulk vessel operations for the year ended December 31, 2013 was \$275.2 million as compared to \$369.5 million for the same period during 2012. The decrease in drybulk revenue was mainly attributable to a decrease in the TCE per day by 33.8% to \$12,029 per day in the year ended December 31, 2013, as compared to \$18,167 per day in the same period of 2012. This decrease was partially offset by an increase in available days of 1,775.

Revenue from the logistics business was \$237.1 million for the year ended December 31, 2013 as compared to \$247.0 million for the year ended December 31, 2012. This decrease was mainly attributable to a decrease in the Paraguayan liquid port's volume of products sold. This decrease was partially offset by an increase in (i) rates, storage and other fees in the dry port terminal; and (ii) rates in the cabotage fleet.

*Time Charter, Voyage and Logistics Business Expenses:* Time charter, voyage and logistics business expenses decreased by \$24.9 million or 9.2% to \$244.4 million for the year ended December 31, 2013, as compared to \$269.3 million for the year ended December 31, 2012.

The time charter and voyage expenses from drybulk operations decreased by \$3.3 million or 2.0% to \$159.2 million for the year ended December 31, 2013, as compared to \$162.5 million for the year ended December 31, 2012. This was primarily due to a decrease in voyage expenses mainly relating to bunker expenses, partially mitigated by an overall increase in charter-in fleet available days (as discussed above).

Of the total amounts for the years ended December 31, 2013 and 2012, \$85.2 million and \$106.8 million, respectively, were related to Navios Logistics. The decrease in Navios Logistics was mainly due to (a) decrease in the volume of products sold in the liquid port in Paraguay; and (b) decrease of charter-in expenses due to the acquisition, in the third quarter of 2012, of one pushboat and six tank barges, which were previously chartered-in. This overall decrease was partially mitigated by (a) an increase in expenses attributable to the port operation as a result of the increased operations in the dry port; and (b) an increase in the expenses under spot trips for the cabotage vessels.

**Direct Vessel Expenses:** Direct vessel expenses decreased by \$3.7 million, or 3.2%, to \$114.1 million for the year ended December 31, 2013, as compared to \$117.8 million for the year ended December 31, 2012. Direct vessel expenses include crew costs, provisions, deck and engine stores, lubricating oils, insurance premiums and costs for maintenance and repairs.

The direct vessel expenses from drybulk operations decreased by \$9.0 million, or 19.2%, to \$38.0 million for the year ended December 31, 2013, as compared to \$47.0 million for the year ended December 31, 2012. This decrease was mainly attributable to a decrease in spares, repairs and maintenance.

Of the total amounts for the years ended December 31, 2013 and 2012, \$76.1 million and \$70.8 million, respectively, related to Navios Logistics. The increase in Navios Logistics was mainly due to an increase in the expenses of the barge business mainly attributable to higher repair and maintenance and crew costs.

General and Administrative Expenses: General and administrative expenses of Navios Holdings are composed of the following:

	Year Ended December 31,	Year Ended December 31,
(in thousands of U.S. dollars)	2013	2012
Payroll and related costs(1)	\$ 25,019	\$ 24,912
Professional, legal, audit fees and other(1)	3.856	5.731

Navios Logistics(2)	14,617	14,844
Sub-total	43,492	45,487
Credit risk insurance	1,142	5,844
General and administrative expenses	\$ 44,634	\$ 51,331

- (1) Excludes the logistics business.
- (2) Includes \$0.6 million administrative management services provided by Navios Holdings as per the administrative agreement with Navios Logistics.

The decrease in general and administrative expenses by \$6.7 million, or 13.1%, to \$44.6 million for the year ended December 31, 2013, as compared to \$51.3 million for the year ended December 31, 2012, was mainly attributable to (a) \$4.7 million decrease in credit risk insurance fees following the restructuring of the credit default insurance in 2012; (b) \$1.9 million decrease in professional, legal audit fees and other; and (c) \$0.2 million decrease in general and administrative expenses attributable to the logistics business. The overall decrease was partially offset by a \$0.1 million increase payroll and other related costs.

**Depreciation and Amortization:** For the year ended December 31, 2013, depreciation and amortization decreased by \$10.1 million to \$98.1 million, as compared to \$108.2 million for the year ended December 31, 2012. The decrease was primarily due to a decrease in (i) depreciation and amortization in the logistics business by \$3.6 million mainly due to the decrease of the amortization of intangible assets allocated to the barge business which were fully amortized in 2012; and (ii) depreciation and

amortization of drybulk vessels by \$6.5 million mainly due to a (a) \$0.3 million decrease in depreciation following the change in scrap rates (See also "F. Contractual Obligations as at December 31, 2013 — Critical Accounting Policies" section) partially mitigated by an increase in depreciation and amortization following the new deliveries in the second half of 2013, and (b) \$6.2 million decrease in amortization of favorable/unfavorable leases mainly resulting from the redelivery of charter-in vessels in the fourth quarter of 2012.

**Provision for Losses on Accounts Receivable:** For the year ended December 31, 2013, provision for losses on accounts receivable decreased by \$16.5 million to \$0.6 million, as compared to \$17.1 million for the year ended December 31, 2012. The decrease is mainly due to drybulk operations and is a result of provisions for defaulted charterers including the effect of the credit default insurance restructuring in 2012. For the years ended December 31, 2013 and 2012, the provision for losses on accounts receivable related to the logistics business was \$0.6 million and \$0.8 million, respectively.

*Interest income:* Interest income decreased by \$0.4 million to \$2.3 million for the year ended December 31, 2013, as compared to \$2.7 million for the same period in 2012. This decrease was attributable to (a) a \$0.2 million decrease in interest income of drybulk vessel operations; and (b) a \$0.2 million decrease in interest income of the logistics business. This decrease was mainly attributable to the decrease in cash balances.

Interest Expense and Finance Cost, Net: Interest expense and finance cost, net for the year ended December 31, 2013 increased by \$4.6 million, or 4.3%, to \$110.8 million, as compared to \$106.2 million in the same period of 2012. This increase was due to a \$5.1 million increase in interest expense and finance cost of the logistics business mainly due to the issuance of \$90.0 million Additional Logistics Senior Notes (as defined below) in March 2013. This increase was partially offset by a \$0.5 million decrease in interest expense and finance cost, net of drybulk vessel operations.

**Loss on Derivatives:** The loss from derivatives increased by \$0.1 million to \$0.3 million for the year ended December 31, 2013, as compared to \$0.2 million for the same period in 2012. Navios Holdings records the change in the fair value of derivatives at each balance sheet date. The extent of the impact on earnings is dependent on two factors: market conditions and Navios Holdings' net position in the market. Market conditions were volatile in both periods.

*Gain on Sale of Assets:* The gain on sale of assets for the year ended December 31, 2013 was \$0, as compared to \$0.3 million for the same period in 2012, which resulted from the sale of the Navios Buena Ventura to Navios Partners on June 15, 2012.

Loss on Bond and Debt Extinguishment: On November 29, 2013, Navios Holdings completed the sale of \$650.0 million of its 7.375% First Priority Ship Mortgage Notes due 2022 (the "2022 Notes"). From the net proceeds of the offering Navios Holdings repaid in full the \$488.0 million of the 8.875% First Priority Ship Mortgage Notes due 2017 (the "2017 Notes") and \$123.3 million of senior secured debt. The effect of this early repayment was the recognition of a \$37.1 million loss in the statement of income, which comprises a \$12.1 million loss relating to the accelerated amortization of unamortized deferred finance costs and a \$25.0 million loss relating to cash payments for transaction fees and expenses in connection with the 2017 Notes extinguishment.

Other Income: Other income decreased by \$172.2 million to \$17.0 million for the year ended December 31, 2013, as compared to \$189.2 million for the year ended December 31, 2012. This decrease was mainly due to a \$186.3 million decrease of other income of drybulk vessel operations as a result of the credit default insurance restructuring (see Note 25 to the audited consolidated financial statements of Navios Holdings for the year ended December 31, 2012, included elsewhere in this document) and (b) a \$1.3 million decrease in other income of Navios Logistics. This decrease was partially offset by a \$15.3 million increase in miscellaneous income, of which \$15.0 million is attributable to income recorded from the full settlement of KLC's claims. See "B. Business Overview — Legal Proceedings" for more information on KLC.

Other Expense: Other expense decreased by \$0.5 million to \$10.5 million for the year ended December 31, 2013, as compared to \$11.0 million for the year ended December 31, 2012. This decrease was mainly attributable to a \$1.2 million decrease in other expenses of the logistics business mainly due to lower other-than-income taxes and decreased expenses from foreign exchange differences as a result of a favorable fluctuation of the U.S. dollar exchange rate against the local currencies in the countries where Navios Logistics conducts its barge and cabotage business operations. This decrease was partially offset by a \$0.7 million increase in other expenses of drybulk operations mainly due to increase in miscellaneous expenses relating to voyages.

Equity in Net Earnings of Affiliated Companies: Equity in net earnings of affiliated companies decreased by \$28.9 million, or 60.0%, to \$19.3 million for the year ended December 31, 2013, as compared to \$48.2 million for the same period in 2012. This decrease was mainly due to a \$23.1 million decrease in investment income, and a \$5.8 million decrease in amortization of deferred gain from the sale of vessels to Navios Partners. The \$23.1 million decrease in investment income was mainly due to (a) a \$19.7 million negative contribution relating to Navios Acquisition (\$6.2 million of losses as a result of the issuance of shares following Navios Acquisition's offerings during 2013, which qualified as sale of shares and a \$13.5 million decrease in equity in losses); and (b) a \$3.4 million decrease in investment income from Navios Partners, mainly due to a \$9.9 million decrease in equity in earnings from Navios Partners, partially offset by \$6.5 million of gains as a result of the issuance of shares following Navios Partners' offerings during 2013, which qualified as sales of shares.

Navios Holdings' ownership in Navios Partners and Navios Acquisition decreased following Navios Partners' offerings in February and September of 2013 and Navios Acquisition's offerings in February, May and September of 2013. The Company determined that the issuance of shares qualified as a sale of shares by the equity method investee.

The Company recognizes the gain from the sale of vessels to Navios Partners immediately in earnings only to the extent of the interest in Navios Partners owned by third parties and defers recognition of the gain to the extent of its own ownership interest in Navios Partners (the "deferred gain") (see also "Item 7.B. Related Party Transactions"). Subsequently, the deferred gain is amortized to income over the remaining useful life of the vessel. The recognition of the deferred gain is accelerated in the event that (i) the vessel is subsequently sold or otherwise disposed of by Navios Partners or (ii) the Company's ownership interest in Navios Partners is reduced.

Income Tax Benefit/(Expense): Income tax benefit increased by \$4.6 million to a \$4.3 million benefit for the year ended December 31, 2013, as compared to a \$0.3 million expense for the year ended December 31, 2012. The total change in income taxes was mainly attributable to the logistics business due to the merging of certain subsidiaries in Paraguay affecting the port terminal business and the barge business in 2013. This change was partially offset by an increase in income taxes of the cabotage business.

**Net Income Attributable to the Noncontrolling Interest:** Net income attributable to the noncontrolling interest increased by \$3.7 million to \$3.8 million for the year ended December 31, 2013, as compared to \$0.1 million for the same period in 2012. This increase was mainly attributable to logistics business higher net income for the year ended December 31, 2013 compared to the same period in 2012.

## For the year ended December 31, 2012 compared to the year ended December 31, 2011

The following table presents consolidated revenue and expense information for each of the years ended December 31, 2012 and 2011 and was derived from the audited consolidated revenue and expense accounts of Navios Holdings for each of the years ended December 31, 2012 and 2011.

(In thousands of U.S. dollars)	_	ear Ended cember 31, 2012	-	ear Ended ecember 31, 2011

Preferred stock dividends attributable to the noncontrolling interest	_			12
Net income attributable to Navios Holdings common stockholders	\$	175,485	\$	40,811

Set forth below are selected historical and statistical data for Navios Holdings (excluding Navios Acquisition and Navios Logistics) for each of the years ended December 31, 2012 and 2011 that the Company believes may be useful in better understanding the Company's financial position and results of operations.

	Year Ended December 31,	
	2012	2011
FLEET DATA		
Available days	17,589	16,423
Operating days	17,273	16,201
Fleet utilization	98.2%	98.7%
Equivalent vessels	48	45
AVERAGE DAILY RESULTS		
Time Charter Equivalents	\$18,167	\$ 23,064

During the year ended December 31, 2012, there were 1,166 more available days as compared to 2011, due to (i) an increase of 543 available days of the owned fleet mainly due to the delivery of two newbuild vessels and the acquisition of one formerly chartered-in vessel in 2012; this increase was partially mitigated by the sale of the Navios Buena Ventura in June 2012 and (ii) an increase in long-term charter-in fleet available days of 2,167 days. This increase was partially offset by a decrease of 1,544 days in short-term chartered-in fleet available days. Navios Holdings can increase or decrease its fleet's size by chartering-in vessels for long or short-term periods (less than one year).

The average TCE rate for the year ended December 31, 2012 was \$18,167 per day, which was \$4,897 per day lower than the rate achieved in 2011. This was due primarily to (i) the decline in the freight market during 2012 as compared to the same period in 2011 and (ii) the impact of the accounting treatment of the one-time upfront cash payment received in connection with the credit default insurance restructuring, whereby revenues attributable to defaulted charterers that would have been previously recognized over the life of those charters, were recorded immediately within "Other income".

**Revenue:** Revenue from drybulk vessel operations for the year ended December 31, 2012 was \$369.5 million, as compared to \$429.5 million for the year ended December 31, 2011. The decrease in drybulk revenue was mainly attributable to: (i) a decrease in short-term charter-in fleet available days by 1,544 days and (ii) a decrease in TCE per day by 21.2% to \$18,167 per day during the year ended December 31, 2012, as compared to \$23,064 per day during the year ended December 31, 2011. This decrease was partially offset by (i) an increase in available days for owned vessels by 5.3% to 10,757 days during the year ended December 31, 2012 from 10,214 days during the year ended December 31, 2011 and (ii) an increase in long-term charter-in fleet available days by 2,167 days.

Revenue from the logistics business was \$247.0 million for the year ended December 31, 2012, as compared to \$234.7 million for the year ended December 31, 2011. This increase was mainly attributable to: (i) increase in volume handled and in rates in the dry and liquid port terminals; (ii) increase due to the expansion of the barge fleet in the third and fourth quarter of 2011; and (iii) increase in the time charter rates of the cabotage vessels. This overall increase was partially mitigated by a decrease in the volume of products sold in the liquid port in Paraguay.

Following the Navios Acquisition Share Exchange, and the deconsolidation of Navios Acquisition on March 30, 2011, there was no revenue from tanker vessel operations from that date onwards. Revenue from tanker vessel operations for the year ended December 31, 2011 was \$25.1 million.

*Time Charter, Voyage and Logistics Business Expenses:* Time charter, voyage and logistics business expenses decreased by \$4.0 million or 1.5% to \$269.3 million for the year ended December 31, 2012, as compared to \$273.3 million for the year ended December 31, 2011.

The time charter and voyage expenses from drybulk operations decreased by \$2.0 million or 1.2% to \$162.5 million for the year ended December 31, 2012, as compared to \$164.5 million for the year ended December 31, 2011. This was primarily due to a decrease in charter-in hire rates and voyage charter expenses. This decrease was mitigated by a net increase of 623 days in the short-term and long-term fleet available days (as discussed above).

Of the total amounts for the years ended December 31, 2012 and 2011, \$106.8 million and \$108.4 million, respectively, were related to Navios Logistics. The decrease in Navios Logistics was mainly due to (a) decrease in the volume of products sold in the liquid port in Paraguay; and (b) decrease of charter-in expenses of the barge fleet due to the acquisition of one pushboat and six tank barges, which were previously chartered-in, in the third quarter of 2012. This overall decrease was partially mitigated by an increase in expenses attributable to the port operation as a result of the increased operations in the dry port.

Time charter and voyage expenses from tanker vessel operations for year ended December 31, 2011 was \$0.4 million.

**Direct Vessel Expenses:** Direct vessel expenses increased by \$0.5 million or 0.4% to \$117.8 million for the year ended December 31, 2012, as compared to \$117.3 million for the year ended December 31, 2011. Direct vessel expenses include crew costs, provisions, deck and engine stores, lubricating oils, insurance premiums and costs for maintenance and repairs.

The direct vessel expenses from drybulk operations increased by \$1.4 million or 3.2% to \$47.0 million for the year ended December 31, 2012, as compared to \$45.6 million for the year ended December 31, 2011. The increase resulted primarily from an increase in available days for owned vessels by 543 days.

Of the total amounts for the years ended December 31, 2012 and 2011, \$70.8 million and \$64.1 million, respectively, related to Navios Logistics. The increase in Navios Logistics was mainly due to (a) increase in crew costs of cabotage vessels; and (b) increase in the expenses of the barge business as a result of the expansion of the barge fleet in the third and fourth quarter of 2011.

Direct vessel expenses from tanker vessel operations was \$7.6 million for the year ended December 31, 2011.

General and Administrative Expenses: General and administrative expenses of Navios Holdings are composed of the following:

(in thousands of U.S. dollars)	Year Ended December 31, 2012	Year Ended December 31, 2011
Payroll and related costs <sup>(1)</sup>	\$ 24,912	\$ 22,906
Professional, legal and audit fees(1)	4,862	5,958
Navios Logistics(2)	14,844	13,662
Navios Acquisition	<del></del>	1,026
Other(1)	869	513
Sub-total	45,487	44,065
Credit risk insurance	5,844	8,787
General and administrative expenses	\$ 51,331	\$ 52,852

- (1) Excludes the logistics and tanker vessel businesses.
- (2) Includes \$0.6 million of administrative management services provided by Navios Holdings as per the administrative agreement with Navios Logistics.

The decrease in general and administrative expenses by \$1.6 million or 2.9% to \$51.3 million for the year ended December 31, 2012, as compared to \$52.9 million for the year ended December 31, 2011, was mainly attributable to (a) \$1.1 million decrease in professional and legal fees; (b) a \$1.0 million decrease in general and administrative expenses due to deconsolidation of Navios Acquisition; and (c) a \$3.0 million decrease in credit risk insurance fees. The overall decrease was partially offset by (a) a \$2.0 million increase in payroll and other related costs consisting of a \$1.5 million increase in payroll costs and a \$0.5 million increase in stock plan expenses; (b) a \$1.2 million increase in general and administrative expenses attributable to the logistics business mainly due to an increase in professional fees; and (c) a \$0.3 million increase in other general and administrative expenses.

**Depreciation and Amortization:** For the year ended December 31, 2012, depreciation and amortization increased by \$0.8 million to \$108.2 million, as compared to \$107.4 million for the year ended December 31, 2011. The increase was primarily due to (a) an increase in depreciation of drybulk vessels by \$0.6 million due to the increase in the number of the owned fleet vessels; (b) a \$3.9 million increase in amortization of favorable and unfavorable leases attributable to accelerated amortization of intangible assets and liabilities as a result of the redelivery of two chartered-in vessels; and (c) an increase of \$4.3 million attributable to the logistics business, mainly due to the additional depreciation generated by (i) the expansion of the barge fleet in the third and fourth quarter of 2011, (ii) the completion of the new silo in the dry port in the second quarter of 2012 and (iii) the acquisition of one pushboat and six tank barges in the third quarter of 2012 that were previously chartered-in. This increase was partially offset by an \$8.0 million decrease due to deconsolidation of Navios Acquisition.

**Provision for Losses on Accounts Receivable:** For the year ended December 31, 2012, provision for losses on accounts receivable increased by \$16.9 million to \$17.1 million, as compared to \$0.2 million for the year ended December 31, 2011. The increase derives mainly from the recognition of \$17.1 million of bad debt expense during 2012, which relates mainly to (i) \$4.6 million of receivable balances from various defaulted charterers that are no longer covered by the Company's credit default insurance following its restructuring; and (ii) \$12.5 million of receivable balances from charterers whose financial condition and creditworthiness deteriorated during the period causing the Company to determine that these receivables may no longer be recoverable.

For the years ended December 31, 2012 and 2011, the provision for losses on accounts receivable related to the logistics business was \$0.8 million and \$0.5 million, respectively.

Interest Expense and Finance Cost, Net: Interest expense and finance cost, net for the year ended December 31, 2012 decreased by \$1.0 million or 0.9% to \$106.2 million, as compared to \$107.2 million in the same period of 2011. This decrease was due to an \$8.7 million decrease in interest expense and finance cost attributable to Navios Acquisition as a result of its deconsolidation. This decrease was partially offset by (a) a \$4.7 million increase in interest expense and finance cost o mainly as a result of (i) the \$88.0 million 2017 Notes issued in July 2012 and (ii) increased amortization of deferred finance costs; and (b) a \$3.0 million increase in interest expense and finance cost attributable to Navios Logistics following the issuance of the Existing Logistics Senior Notes in April 2011.

Interest income decreased by \$1.4 million to \$2.7 million for the year ended December 31, 2012, as compared to \$4.1 million for the same period of 2011. This decrease was attributable to (a) a \$0.6 million decrease in interest income of drybulk vessel operations; (b) a \$0.4 million decrease in interest income of the logistics business; and (c) a \$0.4 million decrease as a result of the deconsolidation of Navios Acquisition. This decrease was mainly attributable to the decrease in time deposits and to lower rates.

Loss on Derivatives: The loss from derivatives was \$0.2 million for both years ended December 31, 2012 and 2011. Navios Holdings records the change in the fair value of derivatives at each balance sheet date. The FFA market has experienced significant volatility in the past few years and, accordingly, recognition of the changes in the fair value of FFAs has, and can, cause significant volatility in earnings. The extent of the impact on earnings is dependent on two factors: market conditions and Navios Holdings' net position in the market. Market conditions were volatile in both periods.

Gain on Sale of Assets: The gain on sale of assets for the year ended December 31, 2012 was \$0.3 million which resulted from the sale of the Navios Buena Ventura to Navios Partners on June 15, 2012 for cash consideration of \$67.5 million. During the same period in 2011, a gain of \$38.8 million resulted from the sale of the Navios Luz and the Navios Orbiter to Navios Partners on May 19, 2011 for a total consideration of \$130.0 million, of which \$120.0 million was paid in cash and \$10.0 million was paid in newly issued common units of Navios Partners.

(Loss)/ Gain on Change in Control: On March 30, 2011, Navios Holdings completed the Navios Acquisition Share Exchange whereby Navios Holdings exchanged 7,676,000 shares of Navios Acquisition's common stock it held for non-voting Series C preferred stock of Navios Acquisition pursuant to an Exchange Agreement entered into on March 30, 2011 between Navios Acquisition and Navios Holdings. On March 30, 2011, based on the equity method, the Company recorded an investment in Navios Acquisition of \$103.3 million, which represents the fair values of the common stock and Series C preferred stock that were held by Navios Holdings on such date. On March 30, 2011, the Company accounted for a loss on change in control of \$35.3 million, which is equal to the fair value of the Company's investment in Navios Acquisition of \$103.3 million less the Company's portion of Navios Acquisition's net assets on March 30, 2011.

Loss on Bond and Debt Extinguishment: In December 2006, the Company issued \$300.0 million in senior notes at a fixed rate of 9.5% due on December 15, 2014 (the "2014 Notes"). On January 28, 2011, Navios Holdings completed the sale of \$350.0 million of 8.125% Senior Notes due 2019 (the "2019 Notes"). The net proceeds from the sale of the 2019 Notes were used to redeem all of the 2014 Notes and pay related transaction fees and expenses and for general corporate purposes. As a result of such transaction, Navios Holdings recorded expenses from bond extinguishment of \$21.2 million.

*Other Income:* Other income increased by \$187.6 million to \$189.2 million for the year ended December 31, 2012, as compared to \$1.6 million for the year ended December 31, 2011. This increase was mainly due to (a) a \$186.3 million of other income of drybulk vessel operations as a result of the credit default insurance restructuring (see Note 25 to the audited consolidated financial statements of Navios Holdings for the year ended December 31, 2012, included elsewhere in this document); and (b) a \$0.9 million increase in other income of Navios Logistics.

Other Expense: Other expense decreased by \$2.0 million to \$11.0 million for the year ended December 31, 2012, as compared to \$13.0 million for the year ended December 31, 2011. This decrease was mainly attributable to (a) a \$1.0 million decrease in miscellaneous expenses mainly relating to voyages; and (b) a \$1.0 million decrease in other expenses of Navios Logistics mainly due to (i) lower taxes other-than-income taxes and (ii) decreased expenses from foreign exchange differences as a result of favorable fluctuation of the U.S. dollar exchange rate against the local currencies in the countries where Navios Logistics conducts its barge business operations.

Equity in Net Earnings of Affiliated Companies: Equity in net earnings of affiliated companies increased by \$13.0 million or 36.8% to \$48.2 million for the year ended December 31, 2012, as compared to \$35.2 million for the same period in 2011. This increase was mainly due to (a) a \$0.6 million increase in the amortization of deferred gain from the sale of vessels to Navios Partners; and (b) a \$12.4 million increase in investment income resulting from: (i) a \$13.3 million net increase in contribution relating to Navios Partners; and (ii) a \$0.9 million negative contribution under the equity method relating to Navios Acquisition.

The Company recognizes the gain from the sale of vessels to Navios Partners immediately in earnings only to the extent of the interest in Navios Partners owned by third parties and defers recognition of the gain to the extent of its own ownership interest in Navios Partners (the "deferred gain") (see also "Item 7.B. Related Party Transactions"). Subsequently, the deferred gain is amortized to income over the remaining useful life of the vessel. The recognition of the deferred gain is accelerated in the event that (i) the vessel is subsequently sold or otherwise disposed of by Navios Partners or (ii) the Company's ownership interest in Navios Partners is reduced. Besides, the Company recognizes gains and losses in earnings for the issuance of shares by its affiliates, provided that the issuance of shares qualifies as a sale of shares.

*Income Tax (Expense)/ Benefit:* Income tax increased by \$0.4 million to a \$0.3 million expense for the year ended December 31, 2012, as compared to a \$0.1 million benefit for the year ended December 31, 2011. The main reason was the decrease in income from deferred tax of Navios Logistics.

Net Income Attributable to the Noncontrolling Interest: Net income attributable to the noncontrolling interest decreased by \$0.4 million to \$0.1 million for the year ended December 31, 2012, as compared to \$0.5 million for the same period in 2011. This decrease was due to a \$0.6 million decrease income attributable to the noncontrolling interest in Navios Logistics mainly due to the acquisition of the noncontrolling interests of its joint ventures on July 25, 2011. This decrease was partially offset by a \$0.2 million decrease in loss attributable to the noncontrolling interest in Navios Acquisition as a result of the deconsolidation of Navios Acquisition on March 30, 2011.

## Non-Guarantor Subsidiaries

Our non-guarantor subsidiaries accounted for approximately \$238.1 million, or 46.5%, of our total revenue, \$9.4 million, or 8.6%, of our total net loss and approximately \$56.8 million, or 52.6%, of Adjusted EBITDA, in each case for the year ended December 31, 2013. Our non-guarantor subsidiaries accounted for approximately \$252.1 million, or 40.9%, of our total revenue, \$3.9 million, or 2.2%, of our total net income and approximately \$53.7 million, or 13.4%, of Adjusted EBITDA, in each case for the year ended December 31, 2012. Our non-guarantor subsidiaries accounted for approximately \$280.6 million, or 40.7%, of our total revenue, \$11.0 million, or 26.9%, of our total net income and approximately \$71.7 million, or 27.5%, of Adjusted EBITDA, in each case, for the year ended December 31, 2011.

## B. Liquidity and Capital Resources

Navios Holdings has historically financed its capital requirements with cash flows from operations, equity contributions from stockholders and issuance of debt and bank credit facilities. Main uses of funds have been capital expenditures for the acquisition of new vessels, new construction and upgrades at the port terminals, expenditures incurred in connection with ensuring that the owned vessels comply with international and regulatory standards, repayments of credit facilities and payments of dividends. Navios Holdings anticipates that cash on hand, internally generated cash flows and borrowings under the existing credit facilities will be sufficient to fund the operations of the fleet and the logistics business, including working capital requirements. However, see "Item 4.B Business Overview — Exercise of Vessel Purchase Options", "Working Capital Position" and "Long-Term Debt Obligations and Credit Arrangements" for further discussion of Navios Holdings' working capital position.

In November 2008, the Board of Directors approved a share repurchase program for up to \$25.0 million of Navios Holdings' common stock. Share repurchases are made pursuant to a program adopted under Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. The program does not require any minimum purchase or any specific number or amount of shares and may be suspended or reinstated at any time in Navios Holdings' discretion and without notice. Repurchases are subject to restrictions under the terms of the Company's credit facilities and indentures. In October 2011, Navios Holdings repurchased 73,651 shares for a total cost of \$0.2 million. There were no shares repurchased during the year ended December 31, 2013 and 2012. Since the initiation of the program, 981,131 shares have been repurchased for a total consideration of \$2.0 million.

The following table presents cash flow information for each of the years ended December 31, 2013, 2012 and 2011.

(in thousands of U.S. dollars)	Year Ended December 31, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011
,			
Net cash provided by operating activities	\$ 59,749	\$ 228,644	\$ 102,742
Net cash (used in)/provided by investing activities	(258,571)	12,453	(171,363)
Net cash provided by/(used in) financing activities	128,785	(154,325)	32,307
(Decrease)/increase in cash and cash equivalents	(70,037)	86,772	(36,314)
Cash and cash equivalents, beginning of year	257,868	171,096	207,410
Cash and cash equivalents, end of year	\$ 187,831	\$ 257,868	\$ 171,096

Cash provided by operating activities for the year ended December 31, 2013 as compared to the cash provided by operating activities for the year ended December 31, 2012:

Net cash provided by operating activities decreased by \$168.9 million to \$59.7 million for the year ended December 31, 2013, as compared to \$228.6 million for the year ended December 31, 2012. In determining net cash provided by operating activities, net (loss)/income is adjusted for the gain on sale of assets and effects of certain non-cash items including depreciation and amortization, deferred taxes and unrealized gains and losses on derivatives which may be analyzed in detail as follows:

(in thousands of U.S. dollars)	Year Ended December 31, 2013	Year Ended December 31, 2012
Net (loss)/income	\$ (105,291)	\$ 175,562
Adjustments to reconcile net (loss)/income to net cash provided by operating activities:		
Depreciation and amortization	98,124	108,206
Amortization and write-off of deferred financing costs	5,384	6,309
Amortization of deferred drydock and special survey costs	9,581	7,289
Provision for losses on accounts receivable	630	17,136
Unrealized loss on FFA derivatives	69	124
Share based compensation	5,021	4,712
Gain on sale of assets	(18)	(323)
Loss on bond and debt extinguishment	12,142	<u> </u>
Income tax (benefit)/expense	(4,260)	312
Equity in affiliates, net of dividends received	19,781	(7,519)
Net income adjusted for non-cash items	\$ 41,163	\$ 311,808

Accounts receivable, net, increased by \$0.5 million from \$85.7 million at December 31, 2012 to \$86.2 million at December 31, 2013. The increase was primarily due to a \$13.9 million increase in accounts receivable from charterers and other receivables. This increase was partially offset by: (a) a \$7.6 million decrease in accounts receivable of Navios Logistics mainly due to timely collection of outstanding invoices; and (b) a \$5.8 million increase in accounts receivables reserves.

Amounts due from affiliate companies, including current and non-current portion, decreased by \$95.0 million from \$108.5 million for the year ended December 31, 2012 to \$13.5 million for the year ended December 31, 2013. This decrease was due to (a) a \$21.3 million receipt of management and administrative fees and other expenses from Navios Partners; and (b) a \$75.1 million receipt of management and administrative fees, other expenses and reimbursement for drydocking costs from Navios Acquisition. This decrease was partially offset by a \$1.4 million increase in accounts receivable from Navios Europe.

Inventories decreased by \$5.0 million from \$31.6 million at December 31, 2012 to \$26.6 million at December 31, 2013. The decrease was primarily due to a \$5.6 million decrease in inventories of Navios Logistics mainly attributable to a decrease in petroleum products inventories in the liquid port. This decrease was partially offset by a \$0.6 million increase in inventories on board of our drybulk vessels.

Prepaid expenses and other current assets increased by \$9.1 million from \$19.9 million at December 31, 2012 to \$29.0 million at December 31, 2013. The main reason for the increase was: (a) a \$5.3 million increase in accounts receivable claims; (b) a \$7.4 million increase in prepaid voyage and operating costs; and (c) a \$0.7 million increase in prepaid taxes and advances to agents. This increase was partially offset by (a) a \$2.8 million decrease in other assets; (b) a \$1.3 million decrease in short-term derivative assets; and (c) a \$0.2 million decrease in prepaid expenses and other currents assets of Navios Logistics mainly due to decrease in claims and other current assets.

Other long term assets decreased by \$4.0 million from \$9.5 million at December 31, 2012 to \$5.5 million at December 31, 2013. The main reason for the decrease was: (a) a \$4.9 million decrease in long-term receivables from charterers; and (b) a \$0.3 million decrease in long-term prepaid hire. This decrease was partially offset by a \$1.2 million increase in other long-term assets of Navios Logistics.

reasons for the decrease were (a) a \$14.8 million decrease in accounts payable of Navios Logistics; (b) a \$2.9 million decrease in accounts payable to bunkers and lubricants suppliers; and (c) a \$7.6 million decrease in accounts payable relating to utilities and other service providers, repairers and legal, audit and consulting services. This decrease was mitigated by (a) a \$4.7 million increase in accounts payable to headowners; (b) a \$3.5 million increase in accounts payable to suppliers; (c) a \$3.3 million increase in accounts payable to insurers; and (d) a \$1.6 million increase in accounts payable relating to brokers and other accounts payable.

Accrued expenses decreased by \$11.5 million to \$64.2 million at December 31, 2013 from \$75.7 million at December 31, 2012. The primary reasons for the decrease were (a) a \$3.4 million decrease in accrued interest; (b) a \$8.0 million decrease in accrued voyage expenses; (c) a \$4.2 million decrease in accrued estimated losses on uncompleted voyages; (d) a \$0.6 million decrease in accrued expenses relating to payroll; and (e) \$0.1 million decrease in accrued professional fees. This decrease was partially offset by (a) a \$2.4 million increase in accrued running costs; (b) a \$0.5 million increase in accrued audit fees and related services; (c) a \$0.6 million increase in other accrued expenses; and (d) a \$1.3 million increase in accrued expenses of Navios Logistics.

Deferred income and cash received in advance decreased by \$2.1 million to \$13.2 million at December 31, 2013 from \$15.3 million at December 31, 2012. Deferred income primarily reflects freight and charter-out amounts collected on voyages that have not been completed and the current portion of the deferred gain from the sale of various vessels to Navios Partners to be amortized over the next year. The primary reasons for the decrease of the deferred income and cash received in advance were: (a) \$2.1 million decrease in deferred income of Navios Logistics; and (b) a \$6.1 million decrease in deferred gain from the sale of assets. This decrease was partially offset by a \$6.1 million increase in deferred freight.

Other long term liabilities and deferred income decreased by \$4.4 million to \$25.2 million at December 31, 2013 from \$29.6 million at December 31, 2012. The primary reasons for the decrease were: (a) a \$0.8 million decrease in the non-current portion of deferred gain from the sale of vessels to Navios Partners; and (b) a \$3.6 million decrease in other long-term liabilities of Navios Logistics mainly due to the repayment of installments for the acquisition of the chartered-in fleet.

Cash used in investing activities for the year ended December 31, 2013 as compared to cash provided by investing activities for the year ended December 31, 2012:

Cash used in investing activities was \$258.6 million for the year ended December 31, 2013, as compared to cash provided by investing activities of \$12.5 million for the same period of 2012.

Cash used in investing activities for the year ended December 31, 2013 was the result of: (a) \$163.2 million in payments relating to (i) \$3.2 million for the acquisition of General Partner units following Navios Partners' offerings; and (ii) \$160.0 million relating to the acquisition of Navios Acquisition shares as part of its February, May and September 2013 offerings; (b) \$2.1 million relating to the acquisition of port terminal operating rights; (c) \$85.7 million in payments relating to the acquisition of four Panamax vessels (Navios Galileo, Navios Taurus, Navios Amitie and Navios Northern Star) during the third quarter of 2013, and the acquisition of N Amalthia in October 2013; (d) \$60.2 million of payments in other fixed assets mainly relating to amounts paid by Navios Logistics for the construction of a new conveyor belt in Nueva Palmira; the construction of two new tank barges; and the purchase of other fixed assets; (e) \$2.7 million loan to Navios Europe; and (f) \$4.7 million investment in Navios Europe. The above was partially offset by (a) a \$35.0 million loan repayment from Navios Acquisition; (b) a \$14.9 million inflow relating to Navios Acquisition's long-term receivable; and (c) \$10.1 million in dividends received from Navios Acquisition.

Cash provided by investing activities for the year ended December 31, 2012 was the result of: (a) \$67.5 million of proceeds from the sale of the Navios Buena Ventura to Navios Partners on June 15, 2012; (b) \$10.0 million of loan repayments received from Navios Acquisition; and (c) \$5.2 million in dividends from Navios Acquisition. The above was partially offset by: (a) \$5.0 million due to additional drawdowns during 2011 from Navios Acquisition under its loan facility with the Company and \$6.1 million of expenses paid by the Company for Navios Acquisition vessels under construction; (b) \$1.5 million in payments relating to the acquisition of General Partner units following offerings by Navios Partners; (c) \$26.0 million paid for the acquisition of the vessel Navios Serenity and \$12.3 million paid for the delivery of the Navios Centaurus and Navios Avior in the first and second quarter of 2012, respectively; and (d) \$1.7 million paid for the purchase of other fixed assets by the Company and \$17.6 million relating to amounts paid by Navios Logistics for (i) the construction of a new silo in Nueva Palmira, Uruguay; (ii) the construction of a new conveyor belt in the dry port in Uruguay; (iii) the construction of four tank barges; (iv) the construction of additional tanks in the liquid port; (v) the acquisition of one pushboat and six tank barges in 2012 that were previously chartered-in by Navios Logistics; and (vi) improvements in the pushboat fleet.

Cash provided by financing activities for the year ended December 31, 2013 as compared to cash used in financing activities for the year ended December 31, 2012:

Cash provided by financing activities was \$128.8 million for the year ended December 31, 2013, as compared to cash used in financing activities of \$154.3 million for the same period of 2012.

Cash provided by financing activities for the year ended December 31, 2013 was the result of: (a) \$90.2 million of proceeds (net of \$3.2 million finance fees) from the Additional Logistics Senior Notes issued in March 2013; (b) \$635.3 million of proceeds (net of \$14.7 million finance fees) from the 2022 Notes issued in November 2013; (c) a \$22.2 million movement in restricted cash relating to loan repayments; (d) \$50.4 million of loan proceeds (net of \$0.9 million finance fees) for the financing the acquisition of five Panamax vessels (Navios Galileo, Navios Taurus, Navios Amitie, Navios Northern Star and N Amalthia); (e) \$0.6 million of proceeds from the exercise of options to purchase common stock; and (f) \$3.9 million contribution of noncontrolling shareholders for the acquisition of N Amalthia. This was partially offset by (a) \$157.2 million of installments paid in connection with the Company's outstanding indebtedness; (b) \$488.0 million full repayment of the 2017 Notes; (c) \$1.4 million relating to payments for capital lease obligations; (d) \$0.8 million for acquisition of noncontrolling interest relating to Navios Logistics; and (e) \$26.4 million of dividends paid to the Company's stockholders.

Cash used in financing activities for the year ended December 31, 2012 was the result of: (a) \$236.2 million of debt repayments made in connection with Navios Holdings' outstanding indebtedness (including Navios Logistics); (b) \$1.5 million relating to payments for capital lease obligations; (c) a \$19.6 million increase in restricted cash related to loan repayments; and (d) \$32.4 million of dividends paid to the Company's shareholders. This was partially offset by: (a) \$52.2 million of gross loan proceeds in connection with (i) \$40.9 million of gross loan proceeds for financing the acquisition of the Navios Serenity and refinancing the debt of the Navios Astra; and (ii) \$11.3 million of loan proceeds for financing the construction of the Navios Centaurus, less \$1.9 million of debt issuance costs; (b) \$85.0 million of net proceeds from the sale of 2022 Notes; and (c) \$0.1 million of proceeds from the exercise of options to purchase common stock.

Cash provided by operating activities for the year ended December 31, 2012 as compared to the cash provided by operating activities for the year ended December 31, 2011:

\$106.6 million for the year ended December 31, 2011. In determining net cash provided by operating activities, net income is adjusted for the gain on sale of assets and effects of certain non-cash items including depreciation and amortization, deferred taxes and unrealized gains and losses on derivatives which may be analyzed in detail as follows:

	Year Ended December 31,	Year Ended December 31,
(in thousands of U.S. dollars)	2012	2011
Net income	\$ 175,562	\$ 41,332
Adjustments to reconcile net income to net cash provided by operating		
activities:		
Depreciation and amortization	108,206	107,395
Amortization and write-off of deferred financing costs	6,309	5,580
Amortization of deferred drydock and special survey costs	7,289	5,364
Provision for losses on accounts receivable	17,136	239
Unrealized loss/(gain) on FFA derivatives	124	(289)
Share based compensation and consultancy fees	4,712	4,252
Gain on sale of assets	(323)	(38,822)
Loss on bond extinguishment	_	5,573
Loss on change in control	_	35,325
Income tax expense/(benefit)	312	(56)
Equity in affiliates, net of dividends received	(7,519)	3,008
Net income adjusted for non-cash items	\$ 311,808	\$ 168,901

Restricted cash increased by \$18.3 million from \$6.4 million at December 31, 2011 to \$24.7 million at December 31, 2012. The primary reason for this increase was: (a) an \$11.7 million increase of cash reserves in the pledged account with the agent bank under one loan facility as additional security; and (b) a \$6.8 million increase in cash reserves deposited in retention accounts for repayment of debt principal and interest. This increase was partially offset by a \$0.3 million decrease in the margin account for FFAs.

Accounts receivable, net, decreased by \$15.7 million from \$101.4 million at December 31, 2011 to \$85.7 million at December 31, 2012. The decrease was primarily due to: (a) a decrease of \$14.7 million in accounts receivable from charterers and receivables reserves; and (b) a \$2.9 million decrease in accounts receivable of Navios Logistics. This increase was partially offset by a \$1.9 million increase in other receivables.

Amounts due from affiliate companies, including current and non-current portion, increased by \$59.1 million from \$49.4 million for the year ended December 31, 2011 to \$108.5 million for the year ended December 31, 2012. The increase was due to: (a) a \$41.5 million increase in management and administrative fees, other expenses and reimbursement for drydocking costs receivable from Navios Acquisition, and (b) a \$17.6 million increase in management and administrative fees and other expenses receivable from Navios Partners.

Inventories increased by \$9.9 million from \$21.7 million at December 31, 2011 to \$31.6 million at December 31, 2012. The increase was primarily due to: (a) an \$8.1 million increase in inventories of Navios Logistics mainly attributable to an increase in petroleum products inventories in the liquid port; and (b) a \$1.8 million increase in inventories on board of our drybulk vessels.

Prepaid expenses and other current assets decreased by \$1.1 million from \$21.0 million at December 31, 2011 to \$19.9 million at December 31, 2012. The main reason for the decrease was: (a) a \$4.1 million decrease in accounts receivable claims; and (b) a \$0.7 million decrease in prepaid expenses. This decrease was partially offset by: (a) a \$1.7 million increase in other current assets and prepaid taxes; and (b) a \$2.0 million increase in prepaid expenses and other current assets of Navios Logistics mainly due to decrease in accounts receivable claims and other current assets.

Other long term assets decreased by \$9.4 million from \$18.9 million at December 31, 2011 to \$9.5 million at December 31, 2012. The main reason for the decrease was: (a) a \$0.9 million decrease in long-term receivables from charterers; (b) a \$7.0 million decrease in long-term accrued income; and (c) a \$1.5 million decrease in other long-term assets of Navios Logistics.

Accounts payable increased by \$11.8 million from \$52.1 million at December 31, 2011 to \$63.9 million at December 31, 2012. The primary reasons for the increase were: (a) a \$15.2 million increase in accounts payable of Navios Logistics mainly attributable to: (i) a \$11.5 million increase in accounts trade payable as a result of the increase in operations following the expansion of the barge fleet and the increase of activities in Navios Logistics' dry port terminal, and (ii) a \$3.7 million increase due to the current portion of consideration payable for the acquisition of the chartered-in fleet; (b) \$2.4 million increase in accounts payable to bunkers and lubricants suppliers; (c) a \$2.0 million increase in accounts payable to insurers; and (d) a \$3.7 million increase in accounts payable relating to utilities and other service providers, repairers and legal, audit and consulting services. This increase was partially offset by a decrease of: (a) a \$7.7 million decrease in accounts payable to head owners; (b) a \$1.9 million decrease in accounts payable to suppliers; and (c) a \$1.9 million decrease in accounts payable relating to brokers and other accounts payable.

Accrued expenses increased by \$11.8 million to \$75.7 million at December 31, 2012 from \$63.9 million at December 31, 2011. The primary reasons for the increase were: (a) an increase of \$1.3 million in accrued expenses of Navios Logistics mainly due to the increase in payroll and taxes; (b) a \$0.7 million increase in accrued expenses relating to payroll; (c) a \$7.2 million increase in accrued expenses relating to direct vessel expenses and voyage expenses; (d) an increase of \$3.3 million in accrued estimated losses on uncompleted voyages; and (e) a \$1.6 million increase in other accrued expenses. This increase was partially offset by a \$2.3 million decrease in accrued interest and professional fees.

Deferred income and cash received in advance decreased by \$13.3 million to \$15.3 million at December 31, 2012 from \$28.6 million at December 31, 2011. Deferred income primarily reflects freight and charter-out amounts collected on voyages that have not been completed and the current portion of the deferred gain from the sale of various vessels to Navios Partners to be amortized over the next year amounting to \$10.1 million. The primary reasons for the decrease of the deferred income and cash received in advance were: (a) a \$0.9 million decrease in gain from the sale of assets; (b) a \$10.9 million decrease in deferred freight; and (c) a \$1.5 million decrease in deferred income of Navios Logistics.

Other long term liabilities and deferred income decreased by \$8.6 million to \$29.6 million at December 31, 2012 from \$38.2 million at December 31, 2011. The primary reasons for the decrease were: (a) an \$11.7 million decrease in the non-current portion of deferred gain from the sale of vessels to Navios Partners; and (b) a \$4.3 million decrease in other long term payables. This decrease was partially offset by a \$7.4 million increase in other long-term liabilities of Navios Logistics mainly due to the non-current portion of consideration payable for the acquisition of the chartered-in fleet.

Cash provided by investing activities for the year ended December 31, 2012 as compared to cash used in investing activities for the year ended December 31, 2011:

Cash provided by investing activities was \$12.5 million for the year ended December 31, 2012, as compared to cash used in investing activities of \$171.4 million for the same period of 2011.

Cash provided by investing activities for the year ended December 31, 2012 was the result of: (a) \$67.5 million of proceeds from the sale of the Navios Buena Ventura to Navios Partners on June 15, 2012; (b) \$10.0 million of loan repayments received from Navios Acquisition; and (c) \$5.2 million in dividends from Navios Acquisition. The above was partially offset by: (a) \$5.0 million due to additional drawdowns during 2011 from Navios Acquisition under its loan facility with the Company and \$6.1 million of expenses paid by the Company for Navios Acquisition vessels under construction; (b) \$1.5 million in payments relating to the acquisition of General Partner units following offerings by Navios Partners; (c) \$26.0 million paid for the acquisition of the vessel Navios Serenity and \$12.3 million paid for the delivery of the Navios Centaurus and Navios Avior in the first and second quarter of

2012, respectively; and (d) \$1.7 million paid for the purchase of other fixed assets by

the Company and \$17.6 million relating to amounts paid by Navios Logistics for (i) the construction of a new silo in Nueva Palmira, Uruguay; (ii) the construction of a new conveyor belt in the dry port in Uruguay; (iii) the construction of four tank barges; (iv) the construction of additional tanks in the liquid port; (v) the acquisition of one pushboat and six tank barges in 2012 that were previously chartered-in by Navios Logistics; and (vi) improvements in the pushboat fleet.

Cash used in investing activities for the year ended December 31, 2011 was the result of: (a) a \$72.4 million decrease due to the Navios Acquisition deconsolidation; (b) \$3.0 million of deposits for acquisitions of tanker vessels under construction; (c) \$33.6 million due to additional drawdowns during 2011 from Navios Acquisition under its loan facility with the Company; (d) \$63.8 million of deposits for the acquisition of two newbuilding bulk carriers scheduled to be delivered during the first the second quarter of 2012; (e) \$51.6 million paid for the acquisition of the vessels Navios Azimuth, Navios Altamira and Navios Astra, and \$4.5 million paid for the delivery of the Nave Polaris on January 27, 2011; (f) \$2.1 million in payments relating to the acquisition of General Partner units following offerings by Navios Partners; and (g) the purchase of other fixed assets of \$71.1 million mainly relating to Navios Logistics for (i) the construction of the new drying and conditioning facility and a new silo in the dry port in Uruguay; (ii) the acquisition and transportation of three pushboats, 66 barges and a floating dry dock; (iii) the construction of a new silo in the dry port in Uruguay and (iv) fixed asset improvements and the purchase of other fixed assets. The above was partially offset by (a) \$120.0 million of proceeds from the sale of the Navios Luz and the Navios Orbiter to Navios Partners on May 19, 2011; (b) a \$0.8 million decrease in restricted cash, (c) \$6.0 million of loan repayments received from Navios Acquisition; and (d) \$3.9 million in dividends from Navios Acquisition.

Cash used in financing activities for the year ended December 31, 2012 as compared to cash provided by financing activities for the year ended December 31, 2011:

Cash used in financing activities was \$154.3 million for the year ended December 31, 2012, as compared to cash provided by financing activities of \$32.3 million for the same period of 2011.

Cash used in financing activities for the year ended December 31, 2012 was the result of: (a) \$236.2 million of debt repayments made in connection with Navios Holdings' outstanding indebtedness (including Navios Logistics); (b) \$1.5 million relating to payments for capital lease obligations; (c) a \$19.6 million increase in restricted cash related to loan repayments; and (d) \$32.4 million of dividends paid to the Company's shareholders. This was partially offset by: (a) \$52.2 million of gross loan proceeds in connection with (i) \$40.9 million of gross loan proceeds for financing the acquisition of the Navios Serenity and refinancing the debt of the Navios Astra; and (ii) \$11.3 million of loan proceeds for financing the construction of the Navios Centaurus, less \$1.9 million of debt issuance costs; (b) \$85.0 million of net proceeds from the sale of 2017 Notes issued on July 2012; and (c) \$0.1 million of proceeds from the exercise of options to purchase common stock.

Cash provided by financing activities for the year ended December 31, 2011 was the result of: (a) \$83.5 million of loan proceeds (net of related finance fees of \$2.8 million) in connection with (i) \$80.5 million of Navios Holdings' loan proceeds for financing the acquisition of the Navios Azimuth, the Navios Astra, the Navios Avior and the Navios Centaurus (net of relating finance fees of \$2.4 million); and (ii) \$3.0 million of Navios Acquisition's loan proceeds (net of relating finance fees of \$0.4 million); (b) \$0.4 million of proceeds from the exercise of options to purchase common stock; (c) \$341.0 million of net proceeds from the sale of the 2019 Notes; and (d) \$193.2 million of net proceeds from the sale of the Existing Logistics Senior Notes. This was partially offset by: (a) the repayment of \$300.0 million of the 2014 Notes with the proceeds of the sale of the 2019 Notes; (b) \$248.5 million of installment payments made in connection with Navios Holdings' outstanding indebtedness (including Navios Acquisition and Navios Logistics); (c) \$1.0 million relating to payments for capital lease obligations; (d) \$27.2 million of dividends paid to the Company's shareholders; (e) \$8.6 million paid by Navios Logistics for the acquisition of the noncontrolling interests in its joint ventures Thalassa Energy S.A., HS Tankers Inc., HS Navigation Inc., HS Shipping Ltd Inc. and HS South Shipping Inc.; (f) a \$0.3 million increase in restricted cash relating to loan repayments; and (g) \$0.2 million paid for the repurchase of 73,651 shares of the Company's common stock pursuant to the share repurchase program approved in November 2008.

Adjusted EBITDA: EBITDA represents net income plus interest and finance costs plus depreciation and amortization and income taxes. Adjusted EBITDA in this document represents EBITDA before stock based compensation. Navios Holdings believes that Adjusted EBITDA is a basis upon which liquidity can be assessed and represents useful information to investors regarding Navios Holdings' ability to service and/or incur indebtedness, pay capital expenditures, meet working capital requirements and pay dividends. Navios Holdings also believes that Adjusted EBITDA is used (i) by prospective and current lessors as well as potential lenders to evaluate potential transactions; and (ii) to evaluate and price potential acquisition candidates.

Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation or as a substitute for the analysis of Navios Holdings' results as reported under U.S. GAAP. Some of these limitations are: (i) Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital needs; and (ii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future. Adjusted EBITDA does not reflect any cash requirements for such capital expenditures. Because of these limitations, Adjusted EBITDA should not be considered as a principal indicator of Navios Holdings' performance. Furthermore, our calculation of Adjusted EBITDA may not be comparable to that reported by other companies due to differences in methods of calculation.

For a reconciliation of cash flows from operating activities to Adjusted EBITDA refer to "Item 3. Key Information- A. Selected Financial Data."

Adjusted EBITDA for the years ended December 31, 2013 and 2012 was \$107.9 million and \$399.5 million, respectively. The \$291.6 million decrease in Adjusted EBITDA was primarily due to: (a) a decrease of \$104.2 million in revenue; (b) a \$172.2 million decrease in other income; (c) a \$0.3 million decrease in gain on sale of assets; (d) a \$37.1 million loss on bond and debt extinguishment; (e) a \$3.7 million increase in income attributable to the noncontrolling interest; (f) a \$28.9 million decrease in equity in net earnings from affiliated companies; and (g) a \$0.1 million increase in losses on derivatives. The overall variance of \$346.5 million was partially offset by: (a) a \$0.5 million decrease in other expense; (b) a \$24.9 million decrease in time charter, voyage and logistic business expenses; (c) a \$6.0 million decrease in direct vessel expenses (excluding the amortization of deferred drydock and special survey costs); (d) a \$7.0 million decrease in general and administrative expenses (excluding share based compensation expenses); and (e) a \$16.5

million decrease in provision for losses on accounts receivable.

Adjusted EBITDA for the years ended December 31, 2012 and 2011 was \$399.5 million and \$260.8 million, respectively. The \$138.7 million increase in Adjusted EBITDA was primarily due to: (a) a decrease of \$4.0 million in time charter, voyage and logistic business expenses; (b) a decrease in direct vessel expenses (excluding the amortization of deferred drydock and special survey costs) of \$1.4 million; (c) a decrease in general and administrative expenses of \$2.0 million (excluding share based compensation expenses); (d) a \$35.3 million decrease in losses on change in control; (e) a \$21.2 million decrease in loss on bond extinguishment; (f) a \$187.6 million increase in other income as a result of the credit default insurance restructuring (see Note 25 to the audited consolidated financial statements of Navios Holdings for the year ended December 31, 2012, included elsewhere in this document); (g) a decrease in other expense by \$2.0 million; (h) an increase in equity in net earnings from affiliated companies of \$13.0 million; and (i) a decrease in income attributable to the noncontrolling interest income (including preferred stock dividends and preferred stock dividends attributable to the noncontrolling interest) of \$0.4 million. The overall variance of \$266.9 million was partially offset by: (a) a decrease in revenue of \$72.8 million; (b) an increase in provision for losses on accounts receivable of \$16.9 million; and (c) a \$38.5 million decrease in gain on sale of assets.

### **Long-Term Debt Obligations and Credit Arrangements:**

## Navios Holdings loans

#### Senior Notes

In December 2006, the Company issued \$300.0 million in senior notes at a fixed rate of 9.5% due on December 15, 2014 (the "2014 Notes"). On January 28, 2011, Navios Holdings and its wholly owned subsidiary, Navios Maritime Finance II (US) Inc. (together with the Company, the "2019 Co -Issuers") completed the sale of \$350.0 million of 8.125% Senior Notes due 2019 (the "2019 Notes"). The net proceeds from the sale of the 2019 Notes were used to redeem any and all of Navios Holdings' outstanding 2014 Notes and pay related transaction fees and expenses and for general corporate purposes. The effect of this transaction was the recognition of a \$21.2 million loss in the statement of income under "Loss on bond and debt extinguishment".

The 2019 Notes are fully and unconditionally guaranteed, jointly and severally and on an unsecured senior basis, by all of the Company's subsidiaries, other than Navios Maritime Finance II (US) Inc., Navios Maritime Finance (US) Inc., Navios Logistics and its subsidiaries, Navios Asia and its subsidiaries and Navios GP L.L.C. The subsidiary guarantees are "full and unconditional", as those terms are used in Regulation S-X Rule 3-10, except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2019 Notes. The 2019 Co-Issuers have the option to redeem the 2019 Notes in whole or in part, at any time (i) before February 15, 2015, at a redemption price equal to 100% of the principal amount, plus a make-whole premium, plus accrued and unpaid interest, if any, and (ii) on or after February 15, 2015, at a fixed price of 104.063% of the principal amount, which price declines ratably until it reaches par in 2017, plus accrued and unpaid interest, if any. Upon the occurrence of certain change of control events, the holders of the 2019 Notes will have the right to require the 2019 Co-Issuers to repurchase some or all of the 2019 Notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The 2019 Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering in transactions with affiliates, merging or consolidating or selling all or substantially all of the 2019 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2019 Co-Issuers were in compliance with the covenants as of December 31, 2013.

#### **Ship Mortgage Notes**

In November 2009, the Company and its wholly owned subsidiary, Navios Maritime Finance (US) Inc. (together, the "Mortgage Notes Co- Issuers") issued \$400.0 million of first priority ship mortgage notes due on November 1, 2017 at a fixed rate of 8.875%. In July 2012, the Mortgage Notes Co- Issuers issued an additional \$88.0 million of the ship mortgage notes at par value. On November 29, 2013, Navios Holdings completed the sale of \$650.0 million of its 7.375% First Priority Ship Mortgage Notes due 2022 (the "2022 Notes"). The 2022 Notes are guaranteed by all of the Company's subsidiaries that guarantee the Company's 2019 Notes. The net proceeds of the offering of the 2022 Notes have been used: (i) to repay in full the \$488.0 million of the 8.875% First Priority Ship Mortgage Notes due 2017 (the "2017 Notes"); and (ii) to repay in full indebtedness of \$123.3 million relating to six vessels added as collateral under the 2022 Notes. The remainder has been used for general corporate purposes. The effect of this transaction was the recognition of a \$37.1 million loss in the statement of income under "Loss on bond extinguishment", which comprises a \$12.1 million loss relating to the accelerated amortization of unamortized deferred finance costs and a \$25.0 million loss relating to cash payments for transaction fees and expenses.

The 2022 Notes are senior obligations of Navios Holdings and Navios Maritime Finance II (US) Inc. (together with the Company, the "2022 Co-Issuers") and are secured by first priority ship mortgages on 23 drybulk vessels owned by certain subsidiary guarantors and certain other associated property and contract rights (the "Collateral"). The 2022 Notes are fully and unconditionally guaranteed, jointly and severally by all of the Company's direct and indirect subsidiaries that guarantee the 2019 Notes and Navios Maritime Finance II (US) Inc. The guarantees of the Company's subsidiaries that own mortgage vessels are senior secured guarantees and the guarantees of the Company's subsidiaries that do not own mortgage vessels are senior unsecured guarantees. In addition, the 2022 Co-Issuers have the option to redeem the 2022 Notes in whole or in part, at any time (i) before January 15, 2017, at a redemption price equal to 100% of the principal amount plus a make whole price which is based on a formula calculated using a discount rate of treasury bonds plus 50 basis points, and (ii) on or after January 15, 2017, at a fixed price of 105.531%, which price declines ratably until it reaches par in 2020.

Furthermore, upon occurrence of certain change of control events, the holders of the 2022 Notes may require the 2022 Co-Issuers to repurchase some or all of the notes at 101% of their face amount. The 2022 Notes contain covenants which among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into transactions with affiliates, merging or consolidating or selling all or substantially all of the 2022 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2022 Co-Issuers were in compliance with the covenants as of December 31, 2013.

#### **Loan Facilities**

The majority of the Company's senior secured credit facilities include maintenance covenants, including loan-to-value ratio covenants, based on either charter-adjusted valuations, or charter-free valuations. As of December 31, 2013, the Company and its subsidiaries were in compliance with all of the covenants under each of its credit facilities outlined below.

HSH/Commerzbank Facility: In February 2007, Navios Holdings entered into a secured loan facility with HSH Nordbank and Commerzbank AG maturing on October 31, 2014. The facility was initially composed of a \$280.0 million term loan facility and a \$120.0 million reducing

revolving facility and it has been amended and repaid as certain vessels have been sold.

The interest rate of the loan facility was based on a margin ranging from 115 basis points to 175 basis points depending on the specified security value.

On November 29, 2013, the Company repaid the loan and revolving credit facility in full using a portion of the proceeds of the 2022 Notes issued in November 2013. As of December 31, 2013, no amount was available under these facilities.

Credit Agricole (formerly Emporiki) Facilities: In December 2012, all of the Emporiki Bank of Greece facilities were transferred to Credit Agricole Corporate and Investment Bank.

In December 2007, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$154.0 million in order to partially finance the construction of two Capesize bulk carriers.

The interest rate of the amended facility was based on a margin of 175 basis points. On November 29, 2013, the Company repaid in full the loan using a portion of the proceeds of the 2022 Notes issued in November 2013.

In August 2009, Navios Holdings entered into an additional facility agreement with Emporiki Bank of Greece for an amount of up to \$75.0 million to partially finance the acquisition costs of two Capesize vessels. The loan bears interest at a rate of LIBOR plus 175 basis points. On November 29, 2013, the Company repaid the loan in full using a portion of the proceeds of the 2022 Notes issued in November 2013.

In September 2010, Navios Holdings entered into another facility agreement with Emporiki Bank of Greece for an amount of up to \$40.0 million in order to partially finance the construction of one Capesize bulk carrier. As of December 31, 2013, the outstanding amount under the loan facility was repayable in 15 semi-annual equal installments of \$1.2 million with a final balloon payment of \$8.0 million on the last payment date. The loan bears interest at a rate of LIBOR plus 275 basis points. The loan facility requires compliance with certain financial covenants and the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$26.1 million.

In August 2011, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$23.0 million in order to partially finance the construction of one newbuilding bulk carrier. As of December 31, 2013, the facility is repayable in 17 semi-annual equal installments of \$0.7 million, with a final balloon payment of \$7.3 million on the last payment date. The loan bears interest at a rate of LIBOR plus 275 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$18.8 million.

In December 2011, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$23.0 million in order to partially finance the construction of one newbuilding bulk carrier. As of December 31, 2013, the outstanding amount under the loan facility was repayable in 17 semi-annual equal installments of \$0.7 million after the drawdown date, with a final balloon payment of \$7.5 million on the last payment date. The loan bears interest at a rate of LIBOR plus 325 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$19.4 million.

On December 20, 2013, Navios Asia entered into a facility with Credit Agricole Corporate and Investment Bank for an amount of up to \$22.5 million in two tranches of \$11.3 million each, in order to finance the acquisition of N Amalthia, which was delivered in October 2013, and the N Bonanza, which was delivered in January 2014. The two tranches bear interest at a rate of LIBOR plus 300 basis points. As of December 31, 2013, Navios Asia had drawn \$11.3 million. Each tranche is repayable in ten equal semi-annual installments of \$0.6 million, with a final balloon payment of \$5.6 million on the last repayment date. The loan facility requires compliance with certain financial covenants. As of December 31, 2013, the outstanding amount of the loan was \$11.3 million.

DNB Facilities: In June 2008, Navios Holdings entered into a facility agreement with DNB NOR BANK ASA for an amount of up to \$133.0 million in order to partially finance the construction of two Capesize bulk carriers. The interest rate of the amended facility was based on a margin of 225 basis points. On July 10, 2012, the Company repaid in full the loan using a portion of the proceeds of the 2017 Notes issued in July 2012 and cash on hand.

In August 2010, Navios Holdings entered into a facility agreement with DNB NOR BANK ASA for an amount of up to \$40.0 million in order to partially finance the construction of one Capesize bulk carrier. The loan bears interest at a rate of LIBOR plus 275 basis points. In November 29, 2013, the Company repaid the loan in full using a portion of the proceeds of the 2022 Notes issued in November 2013.

Dekabank Facility: In February 2009 (amended and restated in May 2009), Navios Holdings entered into a facility of up to \$120.0 million with Dekabank Deutsche Girozentrale to finance the acquisition of two Capesize vessels. The interest rate of the facility was based on a margin of 190 basis points. On June 15, 2012, the Company sold the Navios Buena Ventura and fully repaid the outstanding balance associated with the vessel. On July 9, 2012, the Company repaid in full the loan using a portion of the proceeds of the 2017 Notes issued in July 2012 and cash on hand.

Commerzbank Facility: In June 2009, Navios Holdings entered into a facility agreement for an amount of up to \$240.0 million (divided into four tranches of \$60.0 million) with Commerzbank AG in order to partially finance the acquisition of a Capesize vessel and the construction of three Capesize vessels. Following the delivery of two Capesize vessels, Navios Holdings cancelled two of the four tranches and in October 2010 fully repaid their outstanding loan balances of \$53.6 million and \$54.5 million, respectively. As of December 31, 2013, the third tranche of the facility is repayable in 22 quarterly installments of \$0.9 million, with a final balloon payment of \$13.8 million on the last payment date; and the fourth tranche of the facility is repayable in 28 quarterly installments of \$0.8 million, with a final balloon payment of \$9.5 million on the last payment date. The loan bears interest at a rate based on a margin of 225 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount was \$66.1 million.

DVB Bank SE Facilities: On March 23, 2012, Navios Holdings entered into a facility agreement with a syndicate of banks led by DVB Bank SE for an amount of up to \$42.0 million in two tranches: (a) the first tranche is for an amount of up to \$26.0 million in order to finance the acquisition of a handysize vessel; and (b) the second tranche is for an amount of up to \$16.0 million to refinance the Navios Astra loan facility with Cyprus Popular Bank Public Co. Ltd. The two tranches bear interest at a rate of LIBOR plus 285 basis points and 360 basis points, respectively. As of December 31, 2013, Navios Holdings had drawn \$26.0 million under the first tranche and \$15.0 million under the second tranche. As of December 31, 2013, the first tranche is repayable in 25 quarterly installments of \$0.4 million, with a final balloon payment of \$14.4 million on the last repayment date and the second tranche is repayable in 26 quarterly installments of \$0.3 million, with a final balloon payment of \$6.3 million on the last repayment date. The loan facility requires compliance with certain financial covenants and the covenants contained in the 2019 Notes. As of December 31, 2013, the total outstanding amount was \$36.8 million.

In September 2013, Navios Holdings entered into a facility agreement with DVB Bank SE for an amount of up to \$40.0 million in order to finance the acquisition of four Panamax vessels, delivered in August and September 2013. The facility bears interest at a rate of LIBOR plus 325 basis points. As of December 31, 2013, Navios Holdings had drawn the entire available amount under the facility. As of December 31, 2013, the facility is repayable in eight quarterly installments of \$0.9 million, followed by 12 quarterly installments of \$1.0 million, with a final balloon payment of \$21.0 million payable on

the last repayment date.

Unsecured Bond: In July 2009, Navios Holdings issued a \$20.0 million unsecured bond due in July 2012 as a partial payment for the acquisition price of a Capesize vessel. Interest accrued on the principal amount of the unsecured bond at the rate of 6% per annum. All accrued interest (which was not compounded) would have been first due and payable in July 2012, which was the maturity date. The outstanding amount was repaid in full on July 24, 2012 in accordance with its terms.

Amounts drawn under the facilities are secured by first priority mortgages on Navios Holdings' vessels and other collateral. The credit facilities contain a number of restrictive covenants that limit Navios Holdings and/or its subsidiaries from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Holdings' vessels; changing the commercial and technical management of Navios Holdings' vessels; selling or changing the ownership of Navios Holdings' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels. The credit facilities also require the vessels to

comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. Additionally, the credit facilities require compliance with the covenants contained in the indentures governing the 2019 Notes and the 2022 Notes. Among other events, it will be an event of default under the credit facilities if the financial covenants are not complied with or if Angeliki Frangou and her affiliates, together own less than 20% of the outstanding share capital of Navios Holdings.

## Navios Logistics loans

Logistics Senior Notes

In April 2011, Navios Logistics and its wholly-owned subsidiary Navios Logistics Finance (US) Inc. ("Logistics Finance" and, together the "Logistics Co-Issuers") issued \$200.0 million in senior notes due on April 15, 2019 at a fixed rate of 9.25% (the "Existing Logistics Senior Notes"). In March 2013, the Logistics Co-Issuers issued an additional \$90.0 million of the senior notes due on April 15, 2019 (the "Additional Logistics Senior Notes", together with the Existing Logistics Senior Notes, the "Logistics Senior Notes") at a premium, with a price of 103.750%. The terms of the Additional Logistics Senior Notes issued in March 2013 are identical to the \$200.0 million Existing Logistics Senior Notes that were issued in April 2011.

The Logistics Senior Notes are fully and unconditionally guaranteed, jointly and severally, by Navios Logistics and all of Navios Logistics' direct and indirect subsidiaries except for Logistics Finance and Horamar do Brazil. The subsidiary guarantees are "full and unconditional", as those terms are used in Regulation S-X Rule 3-10, except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the notes. The Logistics Co-Issuers have the option to redeem the notes in whole or in part, at their option, at any time (i) before April 15, 2014, at a redemption price equal to 100% of the principal amount plus the applicable make-whole premium plus accrued and unpaid interest, if any, to the redemption date and (ii) on or after April 15, 2014, at a fixed price of 106.938%, which price declines ratably until it reaches par in 2017. At any time before April 15, 2014, the Logistics Co-Issuers may redeem up to 35% of the aggregate principal amount of the Logistics Senior Notes with the net proceeds of an equity offering at 109.25% of the principal amount of the notes, plus accrued and unpaid interest, if any, to the redemption date so long as at least 65% of the originally issued aggregate principal amount of the notes remains outstanding after such redemption.

In addition, upon the occurrence of certain change of control events, the holders of the Logistics Senior Notes will have the right to require the Logistics Co Issuers to repurchase some or all of the notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The Logistics Senior Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, in excess of 6% per annum of the net proceeds received by or contributed to Navios Logistics in or from any public offering, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into transactions with affiliates, merging or consolidating or selling all or substantially all of Navios Logistics properties and assets and creation or designation of restricted subsidiaries.

The Logistics Co-Issuers were in compliance with the covenants as of December 31, 2013.

On April 22, 2014, Navios Logistics completed the sale of the 2022 Logistics Notes. The net proceeds from this sale were used to redeem any and all of the Logistics Senior Notes, pay related transactions and expenses and for general corporate purposes.

Non-Wholly Owned Subsidiaries' Indebtedness

On July 25, 2011, Navios Logistics acquired the noncontrolling interests of its joint ventures Thalassa Energy S.A., HS Tankers Inc., HS Navigation Inc., HS Shipping Ltd. Inc. and HS South Inc., in accordance with the terms of certain stock purchase agreements with HS Energy Ltd., an affiliate of Vitol S.A. and simultaneously paid \$53.2 million in full and final settlement of all amounts of indebtedness of such joint ventures.

#### Other Indebtedness

In connection with the acquisition of Hidronave S.A. on October 29, 2009, Navios Logistics assumed an \$0.8 million loan facility that was entered into by Hidronave S.A. in 2001 in order to finance the construction of a pushboat (Nazira). As of December 31, 2013, the outstanding loan balance was \$0.5 million. The loan facility bears interest at a fixed rate of 600 basis points. The loan is repayable in monthly installments of \$5,740 each and the final repayment must occur prior to August 10, 2021. The loan also requires compliance with certain covenants.

The annual weighted average interest rates of the Company's total borrowings were 7.75% and 7.32% for the year ended December 31, 2013 and 2012, respectively.

The maturity table below reflects the principal payments for the next five years and thereafter of all borrowings of Navios Holdings (including Navios Logistics) outstanding as of December 31, 2013, based on the repayment schedules of the respective loan facilities (as described above) and the outstanding amount due under the debt securities.

	Amount in
	millions of
Year	U.S. dollars
Year 2014	\$ 19.3
2015	19.4

2016	19.8
2017	19.8
2018	45.4
2019 and thereafter	1,384.4
Total	\$ 1,508.1

Working Capital Position: On December 31, 2013, Navios Holdings' current assets totaled \$340.0 million, while current liabilities totaled \$149.8 million, resulting in a positive working capital position of \$190.2 million. Navios Holdings' cash forecast indicates that it will generate sufficient cash during 2014 to make the required principal and interest payments on its indebtedness, provide for the normal working capital requirements of the business and remain in a positive cash position during 2014.

While projections indicate that existing cash balances and operating cash flows will be sufficient to service the existing indebtedness, Navios Holdings continues to review its cash flows with a view toward increasing working capital.

Capital Expenditures: For the year ended December 31, 2013, the Company took delivery of (a) the Navios Galileo, a 2006-built 76,596 dwt bulk carrier vessel; (b) the Navios Amitie, a 2005-built 75,395 dwt bulk carrier vessel; (c) the Navios Taurus, a 2005-built 76,596 dwt bulk carrier vessel; and (d) the Navios Northern Star, a 2005-built 75,395 dwt bulk carrier vessel. The total acquisition price for the four vessels was \$67.8 million, of which \$27.8 million was paid from existing cash and \$40.0 million was financed through a loan. Additionally, in October 2013, Navios Asia took delivery of the N Amalthia, a 2006-built 75,318 dwt bulk carrier vessel for a purchase price of \$17.9 million, of which \$6.6 million was paid from the Company's and noncontrolling shareholders' cash and \$11.3 million was financed through a loan.

On January 26, 2014, Navios Holdings entered into agreements to purchase two bulk carrier vessels, one 84,000 dwt Panamax vessel and one 180,600 dwt Capesize vessel, to be built in Japan. The vessels' acquisition prices are \$31.8 million and \$52.0 million, respectively. Both vessels are scheduled for delivery in the fourth quarter of 2015. The vessels will be financed with debt and cash from operations.

Navios Logistics

During the second quarter of 2012, Navios Logistics began the construction of a new conveyor belt in its dry port facility in Nueva Palmira, which became operational in October 2013. As of December 31, 2013, Navios Logistics had paid \$21.8 million for the construction of the new conveyor belt.

During the second quarter of 2012, Navios Logistics began the construction of four new tank barges. The first tank barge was delivered in October 2013, the second tank barge was delivered in December 2012, the third tank barge was delivered in April 2013 and the fourth in June, 2013, with a cost of \$1.9 million each.

On June 26, 2013, Navios Logistics entered into an agreement for the acquisition of three pushboats for a total acquisition price of \$20.3 million. As of December 31, 2013, Navios Logistics had paid \$19.8 million for the acquisition of the three pushboats.

On August 5, 2013, Navios Logistics entered into an agreement for the construction of 36 dry barges for a total consideration of \$19.1 million and on October 8, 2013 the company exercised the option for the construction of an additional 36 dry barges for a total consideration of \$19.1 million, based on the initial agreement. As of December 31, 2013, Navios Logistics had paid \$11.4 million for the construction of the new barges.

Refer also to "Item 5F. Contractual Obligations as at December 31, 2013".

#### Concentration of Credit Risk:

Accounts receivable

Concentrations of credit risk with respect to accounts receivables are limited due to Navios Holdings' large number of customers, who are internationally dispersed and have a variety of end markets in which they sell. Due to these factors, management believes that no additional credit risk beyond amounts provided for collection losses is inherent in Navios Holdings' trade receivables. For the years ended December 31, 2013, 2012 and 2011, no customer accounted for more than 10% of the Company's revenue.

Cash deposits with financial institutions

Cash deposits in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Holdings does maintain cash deposits in excess of government-provided insurance limits. Navios Holdings also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

#### **Effects of Inflation:**

Navios Holdings does not consider inflation to be a significant risk to the cost of doing business in the foreseeable future. Inflation has a moderate impact on operating expenses, drydocking expenses and corporate overhead.

### C. Research and development, patents and licenses, etc.

Not applicable.

# D. Trend information

Our results of operations depend primarily on the charter hire rates that we are able to realize for our vessels, which depend on the demand and supply dynamics characterizing the dry bulk market at any given time. For other trends affecting our business, please see other discussions in Item 5. "Operating and Financial Review and Prospects".

### E. Off-Balance Sheet Arrangements

Charter hire payments to third parties for chartered-in vessels are treated as operating leases for accounting purposes. Navios Holdings is also committed to making rental payments under operating leases for its office premises. Future minimum rental payments under Navios Holdings' non-cancelable operating leases are included in the contractual obligations above. As of December 31, 2013, Navios Holdings was contingently liable for letters of guarantee and letters of credit amounting to \$0.6 million issued by various banks in favor of various organizations and the total amount was collateralized by cash deposits, which are included as a component of restricted cash.

In November 2012 (as amended in March 2014), the Company entered into an agreement with Navios Partners that provided Navios Partners with guarantees against counterparty default on certain existing charters (the "Navios Partners Guarantee"). The Navios Partners Guarantee provided Navios Partners with guarantees against counterparty default on certain existing charters, which had previously been covered by the charter insurance for the same vessels, same periods and same amounts. The Navios Partners Guarantee provides for a maximum possible payout of \$20.0 million by the Company to Navios Partners. Premiums that are calculated on the same basis as the restructured charter insurance are included in the management fee that is paid by

Navios Partners to Navios Holdings pursuant to the management agreement. As of December 31, 2013, no claims had been submitted to Navios Holdings.

The Company is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where the Company believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were issued. Management believes the ultimate disposition of these matters will be immaterial to the Company's financial position, results of operations or liquidity.

In connection with the acquisition of Horamar, the Company recorded liabilities for certain pre-acquisition contingencies amounting to \$6.6 million (\$2.9 million relating to VAT-related matters, \$1.7 million for withholding tax-related matters, \$1.5 million relating to provisions for claims and others and \$0.5 million for income tax-related matters) that were included in the allocation of the purchase price based on their respective fair values. As it relates to these contingencies, the prior owners of Horamar agreed to indemnify the Company in the event that any of the above contingencies materialize before agreed-upon dates, extending to various dates through January 2020. As of December 31, 2013, the remaining liability related to these pre-acquisition contingencies amounted to \$0.8 million (\$1.0 million in 2012; \$2.8 million in 2011) and was entirely offset by an indemnification asset for the same amount, which was reflected in other non-current assets.

As of December 31, 2013, Navios Logistics has obligations related to the acquisition of new dry barges, the acquisition of three pushboats and the acquisition of the chartered-in fleet of \$26.7 million, \$0.5 million and \$11.1 million, respectively. As of December 31, 2013, Navios Asia concluded the acquisition of a bulk carrier vessel to be named N Bonanza for an acquisition cost of \$17.5 million.

# F. Contractual Obligations as at December 31, 2013:

## Payment due by period (\$ in millions)

		Less than			More than
Contractual Obligations	Total	1 year	1-3 years	3-5 years	5 years
Long-term debt(1)	\$1,508.1	\$ 19.3	\$ 39.2	\$ 65.2	\$ 1,384.4
Operating Lease Obligations (Time Charters) for vessels in operation (5)	450.4	82.5	123.0	111.6	133.3
Operating Lease Obligations (Time Charters) for vessels to be delivered (4)	147.0	_	18.4	29.8	98.8

Capital lease obligations	23.8	1.4	22.4	_	
Dry vessel deposits(3)	17.5	17.5			
Navios Logistics contractual payments (4)	38.3	32.6	5.7	_	
Rent Obligations(2)	14.0	3.1	5.7	4.2	1.0
Total	\$ 2,199.4	\$ 156.6	\$ 214.5	\$ 210.8	\$1.617.5

Navios Holdings, Navios Acquisition and Navios Partners will make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans of up to \$24.1 million to fund working capital requirements (collectively, the "Navios Revolving Loans"), See Note 9 to the Consolidated Financial Statements included elsewhere in this Annual Report.

- (1) The amount identified does not include interest costs associated with the outstanding credit facilities, which are based on LIBOR rates, plus the costs of complying with any applicable regulatory requirements and a margin ranging from 1.30% to 3.60% per annum. The amount does not include interest costs with rates of 8.125% and 7.375% for the 2019 Notes and the 2022 Notes of Navios Holdings, respectively, and 9.25% for the Logistics Senior Notes.
- (2) Navios Corporation also leases approximately 16,703 square feet of space at 825 Third Avenue, New York pursuant to a lease that expires on April 29, 2019. Navios Shipmanagement Inc. and Navios Corporation lease approximately 3,882 square meters of space at 85 Akti Miaouli, Piraeus, Greece, pursuant to lease agreements that expires in 2017 and 2019. Navios Shipmanagement Inc. also leases office space in Monaco pursuant to a lease that expires on June 2015. On July 1, 2010, Kleimar N.V. signed a new contract and currently leases approximately 632 square meters for its offices. Navios Tankers Management Inc. leases approximately for 254 square meters at 85 Akti Miaouli, Piraeus, Greece pursuant to a lease that expires in 2019. The table above incorporates the lease obligations of the offices of Navios Holdings, indicated in this footnote, and of Navios Logistics. See also Item 4.B. "Business Overview Facilities."
- (3) Future remaining contractual deposit for the N Bonanza, which was delivered on January 27, 2014.
- (4) As of December 31, 2013, Navios Logistics had future remaining contractual payments for the acquisition of (a) three pushboats; (b) one push-boat and six barges; and (c) 36 dry barges.
- (5) Approximately 33% of the time charter payments included above are estimated to relate to operational costs for these vessels.

# **Critical Accounting Policies**

The Navios Holdings' consolidated financial statements have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires Navios Holdings to make estimates in the application of its accounting policies based on the best assumptions, judgments and opinions of management. Following is a discussion of the accounting policies that involve a higher degree of judgment and the methods of their application that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of its financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. Navios Holdings has described below what it believes are its most critical accounting policies that involve a high degree of judgment and the methods of their application. For a description of all of Navios Holdings' significant accounting policies, see Note 2 to the Consolidated Financial Statements, included herein.

Use of Estimates: The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an on-going basis, management evaluates the estimates and judgments, including those related to uncompleted voyages, future drydock dates, the carrying value of investments in affiliates, the selection of useful lives

for tangible assets, expected future cash flows from long-lived assets to support impairment tests, provisions necessary for accounts receivables, provisions for legal disputes, pension benefits, and contingencies. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions and/or conditions.

Stock-based Compensation: In December 2013, 2012 and 2011, the Company authorized the issuance of shares of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors. These awards of restricted common stock, restricted stock units and stock options are based on service conditions only and vest over three years. In December 2013, the Company also authorized the issuance of shares of restricted common stock, restricted stock units and stock options for its employees, officers and directors that vest on April 30, 2014 upon achievement of certain internal performance criteria and set targets.

The fair value of stock option grants is determined with reference to option pricing model, and principally adjusted Black-Scholes models. The fair value of restricted stock and restricted stock units is determined by reference to the quoted stock price on the date of grant. Compensation expense, net of estimated forfeitures, is recognized based on a graded expense model over the vesting period. Compensation expense for the awards that vest upon achievement of the performance criteria is recognized when it is probable that the performance criteria will be met.

Impairment of Long lived Assets: Vessels, other fixed assets and other long-lived assets held and used by Navios Holdings are reviewed periodically for potential impairment whenever events or changes in circumstances indicate that the carrying amount of a particular asset may not be fully recoverable. Navios Holdings' management evaluates the carrying amounts and periods over which long-lived assets are depreciated to determine if events or changes in circumstances have occurred that would require modification to their carrying values or useful lives. In evaluating useful lives and carrying values of long-lived assets, certain indicators of potential impairment are reviewed, such as undiscounted projected operating cash flows, vessel sales and purchases, business plans and overall market conditions.

Undiscounted projected net operating cash flows are determined for each asset group and compared to the carrying value of the vessel, the unamortized portion of deferred drydock and special survey costs related to the vessel and related carrying value of the intangible with respect to the time charter agreement attached to that vessel or the carrying value of deposits for newbuildings. Within the shipping industry, vessels are customarily bought and sold with a charter attached. The value of the charter may be favorable or unfavorable when comparing the charter rate to then current market rates. The loss recognized either on impairment (or on disposition) will reflect the excess of carrying value over fair value (selling price) for the vessel asset group.

The Company determined undiscounted projected net operating cash flows for each vessel and compared it to the vessel's carrying value together with the carrying value of deferred drydock and special survey costs related to the vessel and the carrying value of the related intangible. The significant factors and assumptions used in the undiscounted projected net operating cash flow analysis included: determining the projected net operating cash flows by considering the charter revenues from existing time charters for the fixed fleet days (the Company's remaining charter agreement rates) and an estimated daily time charter equivalent for the unfixed days (based on the 10-year average historical one year time charter rates adjusted for outliers) over the remaining economic life of each vessel, net of brokerage and address commissions, excluding days of scheduled off-hires, running cost based on current year actual, assuming an annual increase of 3.0% after 2015 and a utilization rate of 98.1% based on the fleet's historical performance. The assessment concluded that step two of the impairment analysis was not required and no impairment of vessels and the intangible assets existed as of December 31, 2013, as the undiscounted projected net operating cash flows exceeded the carrying value.

In the event that impairment would occur, the fair value of the related asset would be determined and an impairment charge would be recorded to operations calculated by comparing the asset's carrying value to its fair value. Fair value is typically estimated primarily through the use of third-party valuations performed on an individual vessel basis.

Although management believes the underlying assumptions supporting this assessment are reasonable, if the charter rate trends and the length of the current market downturn, vary significantly from our forecasts, management may be required to perform step two of the impairment analysis in the future which could expose Navios Holdings to material impairment charges in the future.

No impairment loss was recognized for any of the periods presented.

In connection with its impairment testing on its vessels as of December 31, 2013, the Company performs a sensitivity analysis on the most sensitive and/or subjective assumptions that have the potential to affect the outcome of the test, principally the projected charter rate used to forecast future cash flows for unfixed days. In that regard, there would continue to be no impairment required to be recognized on any of the Company's vessels when assuming a decline in the 10-year average (of the one-year charter rate for similar vessels), which is the rate that the Company uses to forecast future cash flows for unfixed days, ranging from 21.6% to 85.1% (depending on the vessel).

As of December 31, 2013, the 10-year historical average rates for the Company's vessels (which naturally varies by type of vessel) used in determining future cash flows for purposes of its impairment analysis were 130.5% higher than the daily time charter equivalent rate of the owned fleet achieved in the fiscal year 2013 of \$12,029 per day.

In addition, the Company compared the 10-year historical average (of the one-year charter rate for similar vessels) with the five-year, three-year and one-year historical averages (of the one-year charter rate for similar vessels). A comparison of the 10-year historical average (of the one-year charter rate) and the five-year, three-year and one-year historical averages (of the one-year charter rate for similar vessels) is as follows (as of December 31, 2013):

# Historical Average of One-year Charter Rates (over Various Periods) vs. the 10-year Historical Average

		(of the One-Year Charter Rate)		
	5-Year Average	3-Year Average	1-Year Average	
	·	(% below the 10-year average)		
Handysize	(28.2%)	(38.5%)	(46.5%)	
Ultra-Handymax	(36.7%)	(48.3%)	(54.6%)	

Panamax	(38.2%)	(54.1%)	(59.6%)
Capesize	(49.5%)	(65.4%)	(64.7%)

If testing for impairment using the five-year, three-year and one-year historical averages (of the one-year charter rate for similar vessels) in lieu of the 10-year historical average (of the one-year charter rate for similar vessels), the Company estimates that two, 17 and 27 of its vessels, respectively, would have carrying values in excess of their projected undiscounted future cash flows.

As of December 31, 2013 and 2012, the Company owns and operates a fleet of 35 and 30 vessels, respectively, with an aggregate carrying value of \$1,417.8 million and \$1,396.9 million, respectively, including the carrying value of existing time charters on its fleet of vessels. On a vessel-by-vessel basis, as of December 31, 2013 and 2012, the carrying value of 27 and 28 of the Company's vessels, respectively, (including the carrying value of the time charter, if any, on the specified vessel) exceeds the estimated fair value of those same vessels (including the estimated fair value of the time charter, if any, on the specified vessel) by approximately \$455.2 million and \$602.2 million, respectively, in the aggregate (the unrealized loss).

A vessel-by-vessel summary as of December 31, 2013 and 2012 follows (with an \* indicating those individual vessels whose carrying value exceeds its estimated fair value, including the related time charter):

Vessel	Year Built	Purchase Price (in millions)(1)	Carrying Value (as of December 31, 2013) (in millions)(1)	Carrying Value (as of December 31, 2012) (in millions)(1)
Navios Serenity	2011	\$ 26.1	\$ 24.4*	\$ 25.4*

		\$ 1,732.8	\$ 1,417.8	\$ 1,396.9

# (1) All amounts include related time charter, if any.

Although the aforementioned excess of carrying value over fair value represents an estimate of the loss that the Company would sustain on a hypothetical disposition of those vessels as of December 31, 2013 and 2012, the recognition of the unrealized loss absent a disposition (i.e. as an impairment) would require, among other things, that a triggering event had occurred and that the undiscounted cash flows attributable to the vessel are also less than the carrying value of the vessel (including the carrying value of the time charter, if any, on the specified vessel).

Vessels, Port Terminal, Tanker Vessels, Barges, Pushboats and Other Fixed Assets, net: Vessels, port terminal, tanker vessels, barges, pushboats and other fixed assets acquired as parts of business combinations or asset acquisitions are recorded at fair value on the date of acquisition. Vessels constructed by the company would be stated at historical cost, which consists of the contract price, capitalized interest and any material expenses incurred upon acquisition (improvements and delivery expenses). Subsequent expenditures for major improvements and upgrades are capitalized, provided they appreciably extend the life, increase the earnings capability or improve the efficiency or safety of the vessels. The cost and related accumulated depreciation of assets retired or sold are removed from the accounts at the time of sale or retirement and any gain or loss is included in the accompanying consolidated statements of income.

Expenditures for routine maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight line method over the useful life of the vessels, port terminal, tanker vessels, barges, pushboats and other fixed assets, after considering the estimated residual value.

Annual depreciation rates used, which approximate the useful life of the assets are:

Vessels	25 years
Port facilities and transfer station	3 to 40 years
Tanker vessels, barges and pushboats	15 to 44 years
Furniture, fixtures and equipment	3 to 10 years
Computer equipment and software	5 years
Leasehold improvements	shorter of lease term or 6 years

Management estimates the residual values of our drybulk vessels based on a scrap value cost of steel times the weight of the ship noted in lightweight tons (LWT). Residual values are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of residual values affect the depreciable amount of the vessels and affects depreciation expense in the period of the revision and future periods. Up to December 31, 2012, management estimated the residual values of its vessels based on a scrap rate of \$285 per LWT. Effective January 1, 2013, following management's consideration of current market trends for scrap rates and ten-year average historical scrap rates of the residual values of the Company's vessels, the estimated scrap value per LWT was increased to \$340. This change in accounting estimates did not materially affect the statements of income and the loss per share of the Company for the year ended December 31, 2013.

Management estimates the useful life of its vessels to be 25 years from the vessel's original construction. However, when regulations place limitations on the ability of a vessel to trade on a worldwide basis, its useful life is re-estimated to end at the date such regulations become effective. An increase in the useful life of a vessel or in its residual value would have the effect of decreasing the annual depreciation charge and extending it into later periods. A decrease in the useful life of a vessel or in its residual value would have the effect of increasing the annual depreciation charge.

Deferred Drydock and Special Survey Costs: The Company's vessels, barges and push boats are subject to regularly scheduled drydocking and special surveys which are carried out every 30 and 60 months, respectively for vessels, every 60 months for oceangoing vessels and every 84 months for pushboats and barges, to coincide with the renewal of the related certificates issued by the Classification Societies, unless a further extension is obtained in rare cases and under certain conditions. The costs of drydocking and special surveys are deferred and amortized over the above periods or to the next drydocking or special survey date if such has been determined. Unamortized drydocking or special survey costs of vessels, barges and push boats sold are written-off to income in the year the vessel, barge or pushboat is sold. Costs capitalized as part of the drydocking or special survey consist principally of the actual costs incurred at the yard, and expenses relating to spare parts, paints, lubricants and services incurred solely during the drydocking or special survey period.

#### Goodwill and Other Intangibles:

(i) Goodwill: Goodwill is tested for impairment at the reporting unit level at least annually.

The Company evaluates impairment of goodwill using a two-step process. First, the aggregate fair value of the reporting unit is compared to its carrying amount, including goodwill. The Company determines the fair value of the reporting unit based on discounted cash flow analysis and believes that the discounted cash flow analysis is the best indicator of fair value for its individual reporting units.

The fair value for goodwill impairment testing was estimated using the expected present value of future cash flows, using judgments and assumptions that management believes were appropriate in the circumstances. The significant factors and assumptions the Company used in its discounted cash flow analysis included: EBITDA, the discount rate used to calculate the present value of future cash flows and future capital expenditures. EBITDA assumptions included revenue assumptions, general and administrative expense growth assumptions, and direct vessel expense growth assumptions. The future cash flows from the shipping operations were determined by considering the charter revenues from existing time charters for the fixed fleet days (the Company's remaining charter agreement rates) and an estimated daily time charter equivalent for the non-fixed days (based on a combination of two year forward freight agreements and the 10-year average historical charter rates available for each type of vessel adjusted for outliers), which the Company believes is an objective approach for forecasting charter rates over an extended time horizon for long lived assets. The future cash flows from logistics operations were determined principally by combining revenues from existing contracts and estimated revenues based on the historical performance of the segment, including utilization rates and actual storage capacity.

If the fair value of a reporting unit exceeds the carrying amount, no impairment exists. If the carrying amount of the reporting unit exceeds the fair value, then the Company must perform the second step to determine the implied fair value of the reporting unit's goodwill and compare it with its carrying amount. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit to all the assets and liabilities of that reporting unit, as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price. If the carrying amount of the goodwill exceeds the implied fair value, then goodwill impairment is recognized by writing the goodwill down to its implied fair value.

No impairment loss was recognized for any of the periods presented.

(ii) Intangibles Other Than Goodwill: Navios Holdings' intangible assets and liabilities consist of favorable lease terms, unfavorable lease terms, customer relationships, trade name and port terminal operating rights. The fair value of the trade name was determined based on the "relief from royalty" method which values the trade name based on the estimated amount that a company would have to pay in an arm's length transaction to use that trade name. The asset is being amortized under the straight line method over 32 years. Navios Logistics' trade name is being amortized under the straight line method over 10 years.

The fair value of customer relationships was determined based on the "excess earnings" method, which relies upon the future cash flow generating ability of the asset. The asset is amortized under the straight line method over 20 years.

Other intangibles that are being amortized, such as customer relationships and port terminal operating rights, would be considered impaired if their carrying value could not be recovered from the future undiscounted cash flows associated with the asset.

When intangible assets or liabilities associated with the acquisition of a vessel are identified, they are recorded at fair value. Fair value is determined by reference to market data and the discounted amount of expected future cash flows. Where charter rates are higher than market charter rates, an asset is recorded, being the difference between the acquired charter rate and the market charter rate for an equivalent vessel. Where charter rates are less than market charter rates, a liability is recorded, being the difference between the assumed charter rate and the market charter rate for an equivalent vessel. The

determination of the fair value of acquired assets and assumed liabilities requires the Company to make significant assumptions and estimates of many variables including market charter rates, expected future charter rates, the level of utilization of the Company's vessels and the Company's weighted average cost of capital. The use of different assumptions could result in a material change in the fair value of these items, which could have a material impact on the Company's financial position and results of operations.

The amortizable value of favorable and unfavorable leases is amortized over the remaining life of the lease term and the amortization expense is included in the statement of comprehensive (loss)/income in the "Depreciation and Amortization" line item.

The amortizable value of favorable leases would be considered impaired if its fair market value could not be recovered from the future undiscounted cash flows associated with the asset. Vessel purchase options that have not been exercised, which are included in favorable lease terms, are not amortized and would be considered impaired if the carrying value of an option, when added to the option price of the vessel, exceeded the fair value of the vessel. As of December 31, 2013, there was no impairment of intangible assets.

Vessel purchase options that are included in favorable leases are not amortized, and when the purchase option is exercised the asset is capitalized as part of the cost of the vessel and depreciated over the remaining useful life of the vessel (Note 8) and if not exercised, the intangible will be written off. Vessel purchase options that are included in unfavorable lease terms are not amortized and when the purchase option is exercised by the charterer and the underlying vessel is sold, it will be recorded as part of gain/loss on sale of the assets. If the option is not exercised at the expiration date it will be written-off to the statements of income.

The weighted average amortization periods for intangible assets/liabilities are:

Intangible Assets/Liabilities	Years
Trade name	<u>Years</u> 21.0
Favorable lease terms	6.6
Unfavorable lease terms	4.7
Port terminal operating rights	30.0
Customer relationships	20.0

Investments in Equity Securities: Navios Holdings evaluates its investments in Navios Acquisition, Navios Partners, Navios Europe and KLC for other than temporary impairment ("OTTI") on a quarterly basis. Consideration is given to (i) the length of time and the extent to which the fair value has been less than the carrying value, (ii) their financial condition and near-term prospects, and (iii) the intent and ability of the Company to retain its investment in these companies for a period of time sufficient to allow for any anticipated recovery in fair value. If the fair value of our equity method investments continues to remain below their carrying value and our OTTI analysis indicates such write down to be necessary, the potential future impairment charges may have a material adverse impact on our results of operations in the period recognized.

As of December 31, 2013, management considers the decline in market value of these securities to be temporary. However, there is the potential for future impairment charges relative to these equity securities if their fair values do not recover and our OTTI analysis indicates such write downs are necessary which may have a material adverse impact on our results of operations in the period recognized.

During the year ended December 31, 2013, the Company did not recognize any OTTI.

#### G. Safe Harbor

Applicable to the extent the disclosures in Item 5.E and 5.F above require the statutory safe harbor protections provided to forward-looking statements.

### Item 6. Directors, Senior Management and Employees

### A. Directors and Senior Management

The current board of directors, executive officers and significant employees are as follows:

Name	Age	Position
Angeliki Frangou	49	Chairman of the Board and Chief Executive Officer
George Achniotis	49	Chief Financial Officer
Ted C. Petrone	58	President of Navios Corporation and Director
Vasiliki Papaefthymiou	45	Executive Vice President, Legal and Director
Anna Kalathakis	44	Chief Legal Risk Officer
Shunji Sasada*	56	Chief Operating Officer — Navios Corporation
Leonidas Korres	38	Senior Vice President, Business Development
Efstratios Desypris	41	Chief Financial Controller
Ioannis Karyotis	38	Senior Vice President, Strategic Planning
Spyridon Magoulas	60	Director
John Stratakis	49	Director
Efstathios Loizos	52	Director
George Malanga	56	Director

# \* Significant employee

Angeliki Frangou has been our Chairman and CEO since August 25, 2005. In addition, Ms. Frangou has been the Chairman and Chief Executive Officer of Navios Maritime Partners L.P. (NYSE: NMM), an affiliated limited partnership, since August 2007, and the Chairman and Chief Executive Officer of Navios Maritime Acquisition Corporation (NYSE: NNA), an affiliated corporation. Ms. Frangou has been the Chairman of the Board of Directors of Navios Logistics since its inception in December 2007. Previously, Ms. Frangou served as Chairman, Chief Executive Officer and President of International Shipping Enterprises Inc., which acquired Navios Holdings. From 1990 until August 2005, Ms. Frangou was the Chief Executive Officer of Maritime Enterprises Management S.A. and its predecessor company, which specialized in the management of dry cargo vessels. Ms. Frangou is the Chairman of IRF European Finance Investments Ltd., listed on the SFM of the London Stock Exchange. From September 2012 to June 2013, Ms. Frangou served as a Board member of Eurobank Ergasias S.A. Ms. Frangou is member of the Board of the United Kingdom Mutual Steam Ship Assurance

Association (Bermuda) Limited, Vice Chairman of China Classification Society Mediterranean Committee, a member of the International General Committee and of the Hellenic and Black Sea Committee of Bureau Veritas, as well as a member of Greek Committee of Nippon Kaiji Kyokai. Since July 2013, Ms. Frangou has been a Member of the Board of Visitors of the Columbia University School of Engineering and Applied Science. Ms. Frangou received a bachelor's degree in mechanical engineering, *summa cum laude*, from Fairleigh Dickinson University and a master's degree in mechanical engineering from Columbia University.

George Achniotis has been Navios Holdings' Chief Financial Officer since April 12, 2007. Prior to being appointed Chief Financial Officer of Navios Holdings, Mr. Achniotis served as Senior Vice President-Business Development of Navios Holdings from August 2006 to April 2007. Before joining Navios Holdings, Mr. Achniotis was a partner at PricewaterhouseCoopers in Greece, heading the Piraeus office and the firm's shipping practice. He became a partner at PwC in 1999 when he set up and headed the firm's internal audit services department from which all SOX implementation and consultation projects were performed. Mr. Achniotis is

currently a Director and Executive Vice President-Business Development of Navios Partners, a New York Stock Exchange traded limited partnership, which is an affiliate of Navios Holdings. He has more than 19 years' experience in the accounting profession with work experience in England, Cyprus and Greece. Mr. Achniotis qualified as a Chartered Accountant in England and Wales in 1991, and he holds a Bachelor's degree in Civil Engineering from the University of Manchester.

Ted C. Petrone became a director of Navios Holdings in May 2007, having become President of Navios Corporation in September 2006. He heads Navios Holdings' worldwide commercial operations. Mr. Petrone has served in the maritime industry for 36 years, of which 33 have been with Navios Holdings. After joining Navios Holdings as an assistant vessel operator, Mr. Petrone worked in various operational and commercial positions. For the last fifteen years, Mr. Petrone has been responsible for all aspects of the daily commercial Panamax activity, encompassing the trading of tonnage, derivative hedge positions and cargoes. Mr. Petrone is currently also President of Navios Acquisition, a New York Stock Exchange listed company, and an affiliate of the Company; and has served in such capacity since June 2008. Mr. Petrone graduated from New York Maritime College at Fort Schuyler with a B.S. in Maritime Transportation. He has served aboard U.S. Navy (Military Sealift Command) tankers.

Vasiliki Papaefthymiou has been Executive Vice President — Legal and a member of Navios Holdings' board of directors since its inception, and prior to that was a member of the board of directors of ISE. Ms. Papaefthymiou has served as general counsel for Maritime Enterprises Management S.A. since October 2001, where she has advised the company on shipping, corporate and finance legal matters. Ms. Papaefthymiou provided similar services as general counsel to Franser Shipping from October 1991 to September 2001. Ms. Papaefthymiou received her undergraduate degree from the Law School of the University of Athens and a master degree in Maritime Law from Southampton University in the United Kingdom. Ms. Papaefthymiou is admitted to practice law before the Bar in Piraeus, Greece.

Anna Kalathakis has been Chief Legal Risk Officer since November 2012, and Senior Vice President — Legal Risk Management of Navios Maritime Holdings Inc. from December 2005 until October 2012. Before joining Navios Holdings, Ms. Kalathakis was the General Manager of the Greek office of A Bilbrough & Co. Ltd. and an Associate Director of the Company (Managers of the London Steam-Ship Owners' Mutual Insurance Association Limited). She has previously worked for a U.S. maritime law firm in New Orleans, was admitted to practice law in the state of Louisiana in 1995, and has also worked in a similar capacity at a London maritime law firm. She qualified as a solicitor in England and Wales in 1999 and was admitted to the Piraeus BAR, Greece in 2003. She has studied International Relations at Georgetown University, Washington D.C. (1991). She holds an MBA from European University at Brussels (1992) and a J.D. from Tulane Law School (1995).

Shunji Sasada became Chief Operating Officer of Navios Corporation in June 2007. Previously, as Senior Vice President of Fleet Development, he headed Navios Holdings' program for the growth and development of the Company's long-term chartered-in and owned tonnage. Mr. Sasada remains President of Navimax Corporation, the Ultra Handymax operating subsidiary of the group. Mr. Sasada started his shipping career in 1981 in Japan with Mitsui O.S.K. Lines, Ltd. ("MOSK"). Mr. Sasada's first position with MOSK was in steel products in the Tokyo branch as a salesman for exporting steel products to worldwide destinations. Two years later, Mr. Sasada moved to the tramp section in Mitsui's bulk carrier division and was in charge of operations and then of chartering 20-40 smaller Handysize vessels between 21,000 dwt and 35,000 dwt. In 1991, Mr. Sasada moved to Norway to join Trinity Bulk Carriers as its chartering manager as well as subsidiary board member, representing MOSK as one of the shareholders. After an assignment in Norway, Mr. Sasada moved to London and started MOSK's own Ultra Handymax operation as its General Manager. Mr. Sasada joined Navios Holdings in May 1997. Mr. Sasada is the member of the North American Committee of Nippon Kaiji Kyokai. He is a graduate of Keio University, Tokyo, with a B.A. degree in Business.

Leonidas Korres has been our Senior Vice President — Business Development since February 2011. Mr. Korres is also the Chief Financial Officer of Navios Maritime Acquisition Corporation since April 2010, and previously served as Senior Vice President for Business Development since January 2010. Mr. Korres served as the Special Secretary for Public Private Partnerships in the Ministry of Economy and Finance of the Hellenic Republic from October 2005 until November 2009. Prior to that, from April 2004 to October 2005, Mr. Korres served as Special Financial Advisor to the Minister of Economy and Finance of the Hellenic Republic and as liquidator of the Organizational Committee for the Olympic Games Athens 2004 S.A. From 2001 to 2004, Mr. Korres worked as a Senior Financial Advisor for KPMG Corporate Finance. From October 2007 until January 2010, Mr. Korres was a member of the board of directors of Navios Partners. From May 2003 to December 2006, Mr. Korres was Chairman of the Center for Employment and Entrepreneurship, a Non-Profit Company. From June 2008 until February 2009, Mr. Korres served as a board member and audit committee member of Hellenic Telecommunications Organization S.A. (trading on the Athens and New York Stock Exchanges). From June 2004 until November 2009, Mr. Korres served on the board of Hellenic Olympic Properties S.A., which was responsible for exploiting the Olympic venues. Mr. Korres earned his Bachelor's degree in Economics from the Athens University of Economics and Business and his master's degree in Finance from the University of London.

Efstratios Desypris has been our Chief Financial Controller since February 2011. Mr. Desypris has previously served as Financial Controller since May 2006. In addition, Mr. Desypris is the Chief Financial Officer of Navios Maritime Partners since January 2010. He also serves as Senior Vice President — Strategic Planning and Director of Navios Logistics, and as director in Navios Europe Inc. Before joining Navios Group, Mr. Desypris worked for 9 years in the accounting profession, most recently as manager of the audit department at Ernst & Young in Greece. Mr. Desypris started his career as an auditor with Arthur Andersen & Co. in 1997. He holds a Bachelor of Science degree in Economics from the University of Piraeus

Ioannis Karyotis has been our Senior Vice President — Strategic Planning since February 2011. Mr. Karyotis is also Chief Financial Officer of Navios Logistics since March 2011. Prior to joining the Company, from 2006 until 2011, Mr. Karyotis was Consultant and later Project Leader at The Boston Consulting Group (BCG), an international management consulting firm. From 2003 until 2005, Mr. Karyotis was Senior Equity Analyst at Eurocorp Securities, a Greek brokerage house, and in 2003, he was Senior Analyst in the Corporate Finance Department at HSBC Pantelakis Securities, a subsidiary of HSBC Bank. Mr. Karyotis began his career in 2002 with Marfin Hellenic Securities as Equity Analyst. He received his bachelor's degree in Economics from the Athens University of Economics and Business (1998). He holds a master's of Science in Finance and Economics from the London School of Economics (1999) and an MBA from INSEAD (2006).

Spyridon Magoulas has been a member of Navios Holdings' Board of Directors since its inception, and prior to that was a member of the board of directors of ISE. Mr. Magoulas is the co-founder and director of Doric Shipbrokers S.A., a chartering firm based in Athens, Greece, and has served as the managing director of Doric Shipbrokers S.A. since its formation in 1994. From 1982 to 1993, Mr. Magoulas was chartering director and shipbroker for Nicholas G. Moundreas Shipping S.A., a company located in Piraeus, Greece, and from 1980 to 1982, Mr. Magoulas served at Orion and Global Chartering Inc. in New York. Mr. Magoulas received a Bachelors degree in Economics (honors) from the City University of New York, New York, a master degree in Transportation Management from the Maritime College in New York and a master degree in Political Economy from the New School for Social Research in New York. In addition to his role on the Board of Directors, Mr. Magoulas also serves as a member of the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Mr. Magoulas is an independent director.

John Stratakis has been a member of Navios Holdings' Board of Directors since its inception, and prior to that was a member of the board of directors of ISE. Since 1994, Mr. Stratakis has been a partner with the law firm of Poles, Tublin, Stratakis & Gonzalez, LLP, in New York, New York, where he specializes in all aspects of marine finance and admiralty law, real estate, trusts and estates and general corporate law. From 1992 to 1993, Mr. Stratakis was an associate attorney with Wilson, Elser, Moskowitz Edelman & Dicker, in New York, New York. Mr. Stratakis also has been a director and the President of the Hellenic-American Chamber of Commerce in New York. He serves on the board of New York Maritime Inc., an association that promotes the New York region as a maritime business center. Mr. Stratakis received a Bachelor of Arts (cum laude) from Trinity College and a Juris Doctor degree from Washington College of Law at American University. Mr. Stratakis is admitted to practice law in the State of New York and in the courts of the Southern and Eastern Districts of New York. In addition to his role on the Board of Directors, Mr. Stratakis also serves as chairman of the Nominating and Governance Committee and a member of the Compensation Committee. Mr. Stratakis is an independent director.

Efstathios Loizos was appointed to our Board of Directors in July 2010. Mr. Loizos was also director of Navios Partners from October 2007 until June 2010. In October 2008, Mr. Loizos joined the Managing Team of ION S.A., a leading Greek chocolate and cocoa group of companies, with the responsibility of supervising MABEL S.A., one of the affiliated companies of the group. In June 2010, Mr. Loizos was appointed to the Board of Directors of ION S.A. and assumed enlarged executive responsibilities within the group. Since March 2014, Mr. Loizos serves as the CEO of the affiliated company INTERION S.A., which operates in Bulgaria. In May 2010, Mr. Loizos was elected as a member of the Board of Directors of IOBE (Foundation of Economic and Industrial Research). Between 2001 and 2008, Mr. Loizos served as

the General Manager and a member of the Board of Directors of ELSA S.A., a Greek steel packaging company, and also as the Vice Chairman of the Board of Directors of its affiliated company ATLAS S.A. From 2005 to 2007, Mr. Loizos served as the President of the International Packaging Association and as the Vice President of the Greek Association of Steel Packaging Manufacturers. He is one of the founders/Owners of Facility Plus which is engaged in the field of property & facility management. Mr. Loizos received a Maitrise en Sciences Economiques from the University of Strasbourg and an M.B.A. in Finance from New York University. Mr. Loizos also serves as Chairman of the Audit Committee and chairman of the Compensation Committee. Mr. Loizos is an independent director.

George Malanga has been a member of our Board of Directors since April 2010. He is currently serving as the Chief Credit Officer of BNY Mellon. Mr. Malanga has held a variety of positions during his 27 year tenure with the bank. He began his banking career in various relationship management roles before moving to risk management in 2000. Mr. Malanga has served in roles with increased responsibility in credit risk management over the past 12 years. His credit risk experience includes head of asset recovery, head of domestic corporate credit and currently as Chief Credit Officer of BNY Mellon. Mr. Malanga is a member of BNY Mellon's Operating Committee and holds a Bachelor's Degree in Business Administration from Rutgers College and an M.B.A. in Finance from New York University. Mr. Malanga also serves as a member of the Audit Committee and the Nominating and Governance Committee. Mr. Malanga is an independent director.

#### **B.** Compensation

The aggregate annual compensation (salaries and bonus) paid to our current executive officers was approximately \$7.8 million for the year ended December 31, 2013. We also made contributions for our executive officers to a 401(k) in an aggregate amount of approximately \$0.1 million. In December 2006, our shareholders approved the adoption of the Navios Maritime Holdings Inc. 2006 Employee, Directors and Consultants Stock Plan (the "2006 Plan"). The 2006 Plan authorizes the issuance of stock grants to our employees, directors and consultants in such amounts and pursuant to such terms as may be determined by the Board of Directors at the time of the grant.

On October 18, 2007 and December 16, 2008, the Compensation Committee of the Board of Directors authorized the issuance of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors. The Company awarded shares of restricted common stock and restricted stock units to its employees, officers and directors and stock options to its officers and directors, based on service conditions only, which vest over two years and three years, respectively. On December 17, 2009, December 16, 2010, and December 5, 2011, the Company authorized the issuance of shares of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors. These awards of restricted common stock and restricted stock units to its employees, officers and directors, vest over three years.

On December 20, 2012 and December 11, 2013, the Company authorized: (i) the issuance of shares of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors, which vest over three years; and (ii) the issuance of shares of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors, which vest upon achievement of internal performance criteria and completion of a service period on April 30, 2014 and April 30, 2015, respectively. This restriction lapses in two or three equal tranches, respectively, over the requisite service periods, of one, two and three years from the grant date.

As of the filing of this Annual Report on Form 20-F: a) 5,582,992 stock options to purchase the Company's common stock have been issued of which 3,260,803 have vested and 443,962 have been exercised in total of which 396,438 at an exercise price of \$3.18 per share, 29,243 at an exercise price of \$3.81 per share; 10,969 at an exercise price of \$5.87 per share and 7,312 at an exercise price of \$5.15 per share; 288,000 options were granted at an exercise price of \$16.75 per share; 571,266 options were granted at an exercise price of \$3.18 per share; 405,365 options were granted at an exercise price of \$5.87 per share; 954,842 options were granted at an exercise price of \$5.15 per share; 1,344,353 options were granted at an exercise price of \$3.81 per share; 1,344,357 options were granted at an exercise price of \$3.44 per share and 674,809 at an exercise price of \$8.63 per share; and b) 3,944,977 shares of restricted stock and restricted stock units have been issued of which 1,993,315 have vested and in the aggregate 67,680 were forfeited during the years from 2007 until 2013.

Non-employee directors receive annual fees in the amount of \$50,000 each plus reimbursement of their out-of-pocket expenses. From January 1, 2014, the non-employee directors' annual fees have been increased to \$80,000. In addition, the non-executive serving as chairman of the Audit Committee receives an annual fee of \$20,000, the chairman of the Nominating and Governance Committee receives an annual fee of \$17,000, and the chairman of the Compensation Committee receives an annual fee of \$20,000, plus reimbursement of their out-of-pocket expenses.

### C. Board Practices

The board of directors of Navios Holdings is divided into three classes with only one class of directors being elected in each year and each class serving a three-year term. The term of office of the first class of directors, consisting of John Stratakis, George Malanga and Efstathios Loizos will expire in December 2015. The term of office of the second class of directors, consisting of Ted C. Petrone and Spyridon Magoulas, will expire in December 2016. The term of office of the third class of directors, consisting of Angeliki Frangou and Vasiliki Papaefthymiou, will expire in November 2014. No directors are entitled to any benefits upon termination of their term.

The board of directors has established an audit committee of three independent directors. The audit committee is governed by a written charter, which was approved by the board of directors. One of the members of the audit committee is an "audit committee financial expert" for purposes of SEC rules and regulations. The audit committee, among other things, reviews our external financial reporting, engages our external auditors, approves all fees paid to auditors and oversees our internal audit activities and procedures and the adequacy of our internal accounting controls. Our audit committee is comprised of Messrs. George Malanga, Efstathios Loizos and Spyridon Magoulas, and our audit committee financial expert is Mr. Efstathios Loizos.

The board of directors has established a nominating and governance committee of three independent directors, Messrs. John Stratakis, who serves as a Chairman, Spyridon Magoulas and George Malanga. This committee is governed by a written charter, which was approved by the board of directors. The nominating and governance committee is responsible for providing assistance to the board of directors in fulfilling its responsibility to the Company's stockholders relating to the Company's nominating procedures and practices for appointing officers and directors as well as the Company's oversight, analysis and recommendations with respect to corporate governance and best practices, and the Company's process for monitoring compliance with laws and regulations.

The board of directors has established a compensation committee of three independent directors, Messrs. Efstahios Loizos, who serves as a Chairman, Spyridon Magoulas and John Stratakis. The compensation committee is governed by a written charter, which was approved by the board of directors. The compensation committee is responsible for reviewing and approving the compensation of the Company's executive officers, for establishing, reviewing and evaluating, in consultation with senior management, the long-term strategy of employee compensation and approving any material change to existing compensation plans.

### D. Employees

Navios Holdings crews its vessels primarily with Greek, Ukrainian, Georgian, Filipino, Polish and Russian officers and Filipino, Georgian, Bulgarian and Ukrainian seamen. Navios Holdings' fleet manager is responsible for selecting its Greek officers. Other nationalities are referred to Navios Holdings' fleet manager by local crewing agencies. Navios Holdings is also responsible for travel and payroll of the crew. The crewing agencies handle each seaman's training. Navios Holdings requires that all of its seamen have the qualifications and licenses required to comply with international regulations and shipping conventions.

Navios Logistics crews its fleet with Argentine, Brazilian and Paraguayan officers and seamen. Navios Logistics' fleet managers are responsible for selecting the crew.

With respect to shore-side employees, as of December 31, 2013, Navios Holdings and its subsidiaries employ 130 employees in its Piraeus, Greece office, 12 employees in its New York office and nine employees in its Antwerp, Belgium office and two employees in its Monaco office. Navios Logistics employs 43 employees in its Asuncion, Paraguay offices, with 48 employees at the port facility in San Antonio, Paraguay, 123 office employees in the Buenos Aires, Argentina office, six employees in its Montevideo, Uruguay office, with an additional 135 employees at the port facility in Nueva Palmira, Uruguay and 12 employees in its office in Corumba, Brazil.

### E. Share Ownership

The following table sets forth information regarding the beneficial ownership of the common stock of Navios Holdings as of April 28, 2014, based on 104,399,916 shares of common stock outstanding as of such day, by each of Navios Holdings' executive officers and directors.

Unless otherwise indicated based upon Schedules 13D filed with the SEC and the Company's knowledge, Navios Holdings believes that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them.

Name and Address of Beneficial Owner(1)	Amount and Nature of Beneficial Ownership	Percentage of Outstanding Common Stock
Angeliki Frangou(2)(3)	27,723,045	25.9%

- \* Less than one percent
- (1) The business address of each of the individuals is 85 Akti Miaouli Street, Piraeus Greece 185 38.
- (2) Angeliki Frangou has filed a Schedule 13D amendment indicating that she intends, subject to market conditions, to purchase up to \$20.0 million of common stock and as of April 28, 2014, she had purchased approximately \$10.0 million in value of common stock.
- (3) The amount and nature of beneficial ownership and the percentage of outstanding common stock includes 1,867,445 options, each for one share, vested but not yet exercised and 802,239 unvested options, each for one share, which will vest within 60 days of the date thereof.

On December 5, 2011, 1,344,353 options were granted at an exercise price of \$3.81, on December 20, 2012, 435,283 options were granted at an exercise price of \$3.44, and on December 11, 2013 424,136 options were granted at an exercise price of \$8.63 all based on service conditions only. On December 20, 2012 and December 31, 2013, 909,074 and 250,673 options were granted at an exercise price of \$3.44 and \$8.63, respectively, based on performance and service conditions.

On March 1, March 2, March 7, 2011 and June 23, 2011, 18,281, 29,250, 68,047 and 15,000 shares, respectively, were issued following the exercise of the options for cash at an exercise price of \$3.18 per share.

On January 11, 2012 and February 27, 2012, 10,969 and 18,282 shares, respectively, were issued following the exercise of the options for cash at an exercise price of \$3.18 per share.

During 2013, 106,032, 29,243, 10,969 and 7,312 shares, respectively, were issued following the exercise of the options for cash at an exercise price of \$3.18 per share, \$5.87 per share and \$5.15 per share, respectively.

## Item 7. Major Shareholders and Related Party Transactions

### A. Major Shareholders

The following table sets forth information regarding the beneficial ownership of the common stock of Navios Holdings as of April 28, 2014 based on shares of common stock outstanding as of such date of each person known by Navios Holdings to be the beneficial owner of more than 5% of its outstanding shares of common stock based upon the amounts and percentages as are contained in the public filings of such persons. All such stockholders have the same voting rights with respect to their shares of common stock.

persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them.

	Amount and	
	Nature of	Percentage of
	Beneficial	Outstanding
Name	Ownership	Common Stock
Angeliki Frangou(1)	27 723 045	25.9%

(1) The amount and nature of beneficial ownership and the percentage of outstanding common stock includes 1,867,445 options, each for one share, vested but not yet exercised and 802,239 unvested options, each for one share, which will vest within 60 days of the date thereof.

## **B.** Related Party Transactions

Office rent: The Company has entered into lease agreements with Goldland Ktimatiki-Ikodomiki-Touristiki Xenodohiaki Anonimos Eteria and Emerald Ktimatiki-Ikodomiki Touristiki Xenodohiaki Anonimos Eteria, both of which are Greek corporations that are currently majority-owned by Angeliki Frangou, Navios Holdings' Chairman and Chief Executive Officer. The lease agreements provide for the leasing of facilities located in Piraeus, Greece to house the operations of most of the Company's subsidiaries. The total annual lease payments are in the aggregate  $\{0.9 \text{ million (approximately $1.3 million)}$  and the lease agreements expire in 2017 and 2019. These payments are subject to annual adjustments, which are based on the inflation rate prevailing in Greece as reported by the Greek State at the end of each year.

**Purchase of Services:** The Company utilizes its affiliate company, Acropolis, as a broker. Navios Holdings has a 50% interest in Acropolis. Although Navios Holdings owns 50% of Acropolis' stock, the two shareholders have agreed that the earnings and amounts declared by way of dividends will be allocated 35% to the Company with the balance to the other shareholder. As of December 31, 2013 and 2012, the carrying amount of the investment was \$0.4 million, respectively. Commissions paid to Acropolis for each of the years ended December 31, 2013, 2012 and 2011 were less than \$0.1 million. During the years ended December 31, 2013, 2012 and 2011, the Company received dividends of \$0.4 million, \$0.1 million, and \$0.6 million, respectively. Included in the trade accounts payable at December 31, 2013 and 2012 was an amount of \$0.1 million and \$0.1 million, respectively, which was due to Acropolis.

Vessels Charter Hire: In February 2012, the Company chartered in from Navios Partners the Navios Apollon, a 2000-built Ultra-Handymax vessel. The term of this charter is approximately two years at a net daily rate of \$12,500 for the first year and \$13,500 for the second year, plus 50/50 profit sharing based on actual earnings.

In May 2012, the Company chartered-in from Navios Partners the Navios Prosperity, a 2007-built Panamax vessel. The term of this charter is approximately one year, with two six-month extension options granted to the Company, at a net daily rate of \$12,000 plus profit sharing. The owners will receive 100% of the first \$1,500 in profits above the base rate, and thereafter all profits will be split 50/50 to each party.

In September 2012, the Company chartered-in from Navios Partners the Navios Libra, a 1995-built Panamax vessel. The term of this charter is approximately three years at a net daily rate of \$12,000 plus 50/50 profit sharing based on actual earnings.

In May 2013, the Company chartered-in from Navios Partners the Navios Felicity, a 1997-built Panamax vessel. The term of this charter is approximately one year at a net daily rate of \$12,000 plus 50/50 profit sharing based on actual earnings.

In May 2013, the Company chartered-in from Navios Partners the Navios Aldebaran, a 2008-built Panamax vessel. The term of this charter is approximately six months at a net daily rate of \$11,000 plus profit sharing. The owners will receive 100% of the first \$2,500 in profits above the base rate, and thereafter all profits will be split 50/50 to each party.

In July 2013, the Company chartered-in from Navios Partners the Navios Hope, a 2005-built Panamax vessel. The term of this charter is approximately one year at a net daily rate of \$10,000.

In July 2013, the Company chartered-in from Navios Partners the Navios Melodia, a 2010-built Capesize vessel. The term of this charter is approximately four months at a net daily rate of \$15,000.

In July 2013, the Company chartered-in from Navios Partners the Navios Pollux, a 2009-built Capesize vessel, under a voyage charter which was completed in August 2013.

Total charter hire expense for all vessels for the years ended December 31, 2013, 2012 and 2011 was \$22.4 million, \$7.5 million and \$0, respectively, and was included in the statement of comprehensive (loss)/income under "Time charter, voyage and logistics business expenses".

Management Fees: Pursuant to a management agreement dated November 16, 2007, as amended in 2009 and 2011, Navios Holdings provides commercial and technical management services to Navios Partners' vessels for a daily fixed fee. As of December 31, 2013, the daily fees are \$4,650 per owned Ultra Handymax vessel, \$4,550 per owned Panamax vessel and \$5,650 per owned Capesize vessel. This daily fee covers all of the vessels' operating expenses, including the cost of drydock and special surveys. In October 2013, the Company amended its existing management agreement with Navios Partners to fix the fees for ship management services effective from January 1, 2014 through December 31, 2015. The daily fees were amended to a \$4,000 daily rate per Ultra-Handymax vessel, a \$4,100 daily rate per Panamax vessel, a \$5,100 daily rate per Capesize vessel, and a \$6,500 daily rate per Container vessel. From January 1, 2016 to December 31, 2017, Navios Partners will reimburse Navios Holdings for all of the actual operating costs and expenses in connection with the management of Navios Partners' fleet. Drydocking expenses under this agreement will be reimbursed at cost at occurrence. Total management fees for the years ended December 31, 2013, 2012 and 2011 amounted to \$36.2 million, \$31.7 million and \$26.3 million, respectively.

Pursuant to a management agreement dated May 28, 2010, as amended in 2010 and 2012, Navios Holdings provides commercial and technical management services to Navios Acquisition's vessels for a daily fee of \$6,000 per owned MR2 product tanker and chemical tanker vessel, \$7,000 per owned LR1 product tanker vessel and \$10,000 per owned VLCC vessel. This daily fee covers all of the vessels' operating expenses, other than certain extraordinary fees and costs. Actual operating costs and expenses will be determined in a manner consistent with how the initial fixed fees were determined. Drydocking expenses will be fixed under this agreement for up to \$0.3 million per vessel and will be reimbursed at cost for VLCC vessels. Navios Acquisition may, upon request, reimburse the manager partially or fully for drydocking and other extraordinary fees and expenses under the management agreement at a later date, but not later than January 5, 2015, bearing interest of 1% over LIBOR. Navios Acquisition may, upon request, reimburse the manager partially or fully for any fixed management fees outstanding for a period of not more than nine months at a later date, but no later than December 31, 2014, bearing interest of 1% over

LIBOR. Total management fees for the years ended December 31, 2013, 2012 and 2011 amounted to \$71.4 million, \$47.0 million and \$35.7 million, respectively. The management fees have been eliminated upon consolidation of Navios Acquisition through March 30, 2011.

Pursuant to a management agreement dated December 13, 2013, Navios Holdings provides commercial and technical management services to Navios Europe's tanker and container vessels. The term of this agreement is for a period of six years. Management fees under this agreement will be reimbursed at cost at occurrence. Total management fees for the year ended December 31, 2013 amounted to \$0.7 million.

Navios Partners Guarantee: In November 2012 (as amended in March 2014), the Company entered into an agreement with Navios Partners that provided Navios Partners with guarantees against counterparty default on certain existing charters (the "Navios Partners Guarantee"). The Navios Partners Guarantee provided Navios Partners with guarantees against counterparty default on certain existing charters, which had previously been covered by the charter insurance for the same vessels, same periods and same amounts. The Navios Partners Guarantee provides for a maximum possible payout of \$20.0 million by the Company to Navios Partners. Premiums that are calculated on the same basis as the restructured charter insurance are included in the management fee that is paid by Navios Partners to Navios Holdings pursuant to the management agreement. As of December 31, 2013, no claims had been submitted to Navios Holdings.

General and Administrative Expenses: *Navios* Holdings provides administrative services to Navios Partners. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the years ended December 31, 2013, 2012 and 2011 amounted to \$4.4 million, \$3.9 million and \$3.4 million, respectively.

On May 28, 2010, Navios Acquisition entered into an administrative services agreement, expiring May 28, 2015, with Navios Holdings, pursuant to which Navios Holdings provides office space and certain administrative management services to Navios Acquisition which include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the years ended December 31, 2013, 2012 and 2011 amounted to \$3.5 million, \$2.1 million and \$1.5 million, respectively. The general and administrative fees have been eliminated upon consolidation of Navios Acquisition through March 30, 2011.

On April 12, 2011, Navios Holdings entered into an administrative services agreement with Navios Logistics for a term of five years, pursuant to which Navios Holdings will provide certain administrative management services to Navios Logistics. Such services include bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the years ended December 31, 2013, 2012 and 2011 amounted to \$0.8 million, \$0.6 million and \$0.4 million, respectively, which have been eliminated upon consolidation of Navios Acquisition.

Pursuant to a management agreement dated December 13, 2013, Navios Holdings provides administrative services to Navios Europe's tanker and container vessels. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. The term of this agreement is for a period of six years. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the year ended December 31, 2013 were below \$0.1 million.

Pursuant to a management agreement dated May 15, 2013, Navios Holdings provides commercial and administrative services to Navios Asia vessels. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. The agreement will continue unless terminated by either party. The annual fee that Navios Asia pays to Navios Holdings is \$50,000 per vessel. Total general and administrative fees charged for the year ended December 31, 2013 was below \$0.1 million. The general and administrative fees have been eliminated upon consolidation.

Balance Due from Affiliates (Navios Partners and Navios Acquisition): Balance due from affiliates as of December 31, 2013 amounted to \$12.1 million (December 31, 2012: \$108.5 million) which included the current amounts due from Navios Partners and Navios Acquisition, of \$0.4 million (December 31, 2012: \$21.7 million) and \$6.5 million (December 31, 2012: \$29.1 million), respectively, and the non-current amount of \$5.1 million (December 31, 2012: \$57.7 million) due from Navios Acquisition. The balances mainly consisted of management fees, administrative fees, drydocking and other expenses and other amounts payable.

Omnibus Agreements: In June 2009, Navios Holdings entered into an omnibus agreement with Navios Partners (the "Partners Omnibus Agreement") in connection with the closing of Navios Partners' IPO governing, among other things, when Navios Holdings and Navios Partners may compete against each other as well as rights of first offer on certain drybulk carriers. Pursuant to the Partners Omnibus Agreement, Navios Partners generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of an independent committee of Navios Partners. In addition, Navios Holdings agreed to offer to Navios Partners the opportunity to purchase vessels from Navios Holdings when such vessels are fixed under time charters of three or more years.

Navios Acquisition entered into an omnibus agreement (the "Acquisition Omnibus Agreement") with Navios Holdings and Navios Partners in connection with the closing of Navios Acquisition's initial vessel acquisition, pursuant to which, among other things, Navios Holdings and Navios Partners agreed not to acquire, charter-in or own liquid shipment vessels, except for container vessels and vessels that are primarily employed in operations in South America, without the consent of an independent committee of Navios Acquisition. In addition, Navios Acquisition, under the Acquisition Omnibus Agreement, agreed to cause its subsidiaries not to acquire, own, operate or charter drybulk carriers subject to specific exceptions. Under the Acquisition Omnibus Agreement, Navios Acquisition and its subsidiaries granted to Navios Holdings and Navios Partners, a right of first offer on any proposed sale, transfer or other disposition of any of its drybulk carriers and related charters owned or acquired by Navios Acquisition. Likewise, Navios Holdings and Navios Partners agreed to grant a similar right of first offer to Navios Acquisition for any liquid shipment vessels it might own. These rights of first offer will not apply to a (a) sale, transfer or other disposition of vessels between any affiliated subsidiaries, or pursuant to the terms of any charter or other agreement with a counterparty, or (b) merger with or into, or sale of substantially all of the assets to, an unaffiliated third party.

Sale of Vessels and Sale of Rights to Navios Partners: Upon the sale of vessels to Navios Partners, Navios Holdings recognizes the gain immediately in earnings only to the extent of the interest in Navios Partners owned by third parties and defers recognition of the gain to the extent of its own ownership interest in Navios Partners (the "deferred gain"). Subsequently, the deferred gain is amortized to income over the remaining useful life of the vessel. The recognition of the deferred gain is accelerated in the event that (i) the vessel is subsequently sold or otherwise disposed of by Navios Partners or (ii) the Company's ownership interest in Navios Partners is reduced. In connection with the public offerings of common units by Navios Partners, a pro rata portion of the deferred gain is released to income upon dilution of the Company's ownership interest in Navios Partners. As of December 31, 2013 and 2012, the unamortized deferred gain for all vessels and rights sold totaled \$21.6 million and \$28.5 million, respectively, and for the years ended December 31, 2013, 2012 and 2011, Navios Holdings recognized \$6.9 million, \$12.7 million and \$12.0 million respectively, of the deferred gain in "Equity in net earnings of affiliated companies".

Conversion of Navios Partners Units: On January 1, 2012, all of the outstanding subordinated units converted into 7,621,843 common units of Navios Partners (excluding the Series A Subordinated Units, which are a separate class of subordinated units) (the "Conversion"). The Company concluded that the Conversion resulted in a change in the form of its investment in Navios Partners that was a reconsideration event pursuant to ASC 323-10-15-16a. In connection with that reconsideration, the Company concluded that the common units of Navios Partners, which prior to January 1, 2012 did not meet the definition of common stock or "in-substance common stock," met the definition of "in-substance common stock" starting January 1, 2012. Although the common units continued to enjoy certain preferences by comparison to the Series A Subordinated Units, the Series A Subordinated Units constituted a small portion of the capital structure of Navios Partners and, as such, the liquidation preference was not considered to be substantive under ASC 323-10-15-13a. In addition, at the time of the reconsideration, it was known that the Series A Subordinated Units would themselves automatically convert to common units of Navios Partners on June 29, 2012. Accordingly, the Company concluded that the risk and reward profile of the common units and Series A Subordinated Units were substantially the same in accordance with ASC 323-10-15-13b. As a result, the Company's entire investment in Navios Partners (a portion of which was previously accounted for as available-for-sale securities) is accounted for by the equity method from January 1, 2012. As a result, the carrying value of the available-for sale securities of \$82.6 million plus the amount reflected in other comprehensive losses of \$6.2 million (in each case, as of December 31, 2011) was reclassified to "Investments in Affiliates." On June 29, 2012, the outstanding Series A Subordinated Units converted into 1,000,000 shares of common units which have the same distribution rights as all ot

**Deconsolidation of Navios Acquisition:** On March 30, 2011, Navios Holdings completed the Navios Acquisition Share Exchange whereby Navios Holdings exchanged 7,676,000 shares of Navios Acquisition's common stock it held for non-voting Series C preferred stock of Navios Acquisition pursuant to an Exchange Agreement entered into on March 30, 2011 between Navios Acquisition and Navios Holdings. The fair value of the exchange was \$30.5 million, which was based on the share price of the publicly traded common shares of Navios Acquisition on March 30, 2011. Immediately after the Navios Acquisition Share Exchange, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition decreased to 45% and Navios Holdings no longer controlled a majority of the voting power of Navios Acquisition. From that date onwards, Navios Acquisition has been considered an affiliate entity of Navios Holdings and not a controlled subsidiary of the Company, and the investment in Navios Acquisition has been accounted for under the equity method due to the Company's significant influence over Navios Acquisition. Navios Acquisition has been accounted for under the equity method of accounting based on Navios Holdings' economic interest in Navios Acquisition, since the preferred stock is considered to be, in substance, common stock for accounting purposes.

On March 30, 2011, based on the equity method, the Company recorded an investment in Navios Acquisition of \$103.3 million, which represents the fair value of the common stock and Series C preferred stock (in-substance common stock) that were held by Navios Holdings on such date. On March 30, 2011, the Company calculated a loss on change in control of \$35.3 million, which was calculated as the fair value of the Company's equity method investment in Navios Acquisition of \$103.3 million less the Company's 53.7% interest in Navios Acquisition's net assets on March 30, 2011.

The Navios Holdings Credit Facility: Navios Acquisition entered into a \$40.0 million credit facility with Navios Holdings in 2010 which was amended in 2010 and 2011. The facility is available for multiple drawings up to a limit of \$40.0 million, has a margin of LIBOR plus 300 basis points and matures in December 2014. As of December 31, 2013, the outstanding amount under this facility was \$0 (December 31, 2012: \$35.0 million), which was recorded under "Loan receivable from affiliate company".

Balance due from Navios Europe: Current balance due from Navios Europe as of December 31, 2013, amounted to \$1.4 million and mainly consists of management fees and other expenses.

Navios Holdings, Navios Acquisition and Navios Partners will make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24.1 million to fund working capital requirements (collectively, the "Navios Revolving Loans").

The Navios Revolving Loans earn a 12.7% preferred distribution and are repaid from Free Cash Flow (as defined in the loan agreement) to the fullest extent possible at the end of each quarter. There are no covenant requirements or stated maturity dates.

As of December 31, 2013, Navios Holdings' portion of the outstanding amount relating to portion of the investment in Navios Europe (47.5% of the \$10.0 million) is \$4.8 million, under caption "Investment in affiliates" and the outstanding amount relating to the Navios revolving loans capital is \$2.7 million, under caption "Loan receivable from affiliate companies." As of December 31, 2013, the amount undrawn from the revolving facility was \$18.5 million, of which Navios Holdings is committed to fund \$8.8 million.

## C. Interests of experts and counsel.

## **Item 8. Financial Information**

## A. Consolidated Statements and Other Financial Information

Consolidated Financial Statements: See Item 18.

**Legal Proceedings:** Navios Holdings is not involved in any legal proceedings that it believes will have a significant effect on its business, financial position, results of operations or liquidity.

From time to time, Navios Holdings may be subject to legal proceedings and claims in the ordinary course of business. It is expected that these claims would be covered by insurance if they involve liabilities such as arise from a collision, other marine casualty, damage to cargoes, oil pollution, death or personal injuries to crew, subject to customary deductibles. Those claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

**Dividend Policy:** At the present time, Navios Holdings intends to retain most of its available earnings generated by operations for the development and growth of the business. The declaration and payment of any dividend remains subject to the discretion of the Board of Directors, and will depend on, among other things, Navios Holdings' cash requirements as measured by market opportunities and conditions. In addition, the terms and provisions of our current secured credit facilities and our indenture limit our ability to pay dividends in excess of certain amounts or if certain covenants are not met. (See also Item 5.B. "Long-term Debt Obligations and Credit Arrangements.")

On February 15, 2013, the Board of Directors declared a quarterly cash dividend of approximately \$6.2 million for the fourth quarter of 2012 of \$0.06 per common share paid on March 27, 2013 to stockholders of record on March 20, 2013.

On May 17, 2013, the Board of Directors declared a quarterly cash dividend of approximately \$6.2 million for the first quarter of 2013 of \$0.06 per common share paid on June 26, 2013 to stockholders of record as of June 18, 2013.

On August 19, 2013, the Board of Directors declared a quarterly cash dividend of approximately \$6.2 million for the second quarter of 2013 of

\$0.06 per common share paid on September 26, 2013 to stockholders of record as of September 18, 2013.

On November 15, 2013, the Board of Directors declared a dividend of approximately \$6.2 million for the third quarter of 2013 of \$0.06 per common share paid on December 20, 2013 to stockholders of record as of December 12, 2013.

On February 17, 2014, the Board of Directors declared a quarterly cash dividend of approximately \$6.3 million for the fourth quarter of 2013 of \$0.06 per common share paid on March 27, 2014 to stockholders of record on March 20, 2014.

# **B.** Significant Changes

Not applicable.

## **Item 9. Listing Details**

As of February 22, 2007, the Company's common stock and warrants were no longer trading as a unit, and as of such date, the principal trading market for our securities has been the New York Stock Exchange ("NYSE") under the symbols "NM" for our common stock and "NMWS" for our warrants. On December 9, 2008, our publicly traded warrants expired and ceased to be publicly traded. For the period from November 3, 2005 to February 22, 2007 our common stock, warrants and units were trading on the Nasdaq National Market ("NASDAQ") under the symbols "BULK", "BULKW" and "BULKU", respectively. Prior to November 3, 2005, the principal trading market of our securities was the Over-The-Counter Bulletin Board ("OTCBB").

The following table sets forth, for the periods indicated, the reported high and low market prices of our common stock, warrants and units on the New York Stock Exchange.

On April 25, 2014, the closing price of our common stock was \$8.26. The quotations listed below reflect high and low market prices, without retail markup, markdown or commission, and may not necessarily represent actual transactions:

(a) For the five most recent full financial years: the annual high and low market prices:

	Commo	n Stock
Year Ended	High	Low
December 31, 2013	\$11.73	\$ 3.40
December 31, 2012	\$ 4.49	\$ 3.08
December 31, 2011	\$ 5.99	\$2.88
December 31, 2010	\$ 7.55	\$ 4.38
December 31, 2009	\$ 6.60	\$1.68

(b) For the two most recent full financial years and any subsequent period: the high and low closing prices for each financial quarter:

	Comm	Common Stock	
Quarter Ended	High	Low	
March 31, 2014	\$12.12	\$ 8.53	
December 31, 2013	\$11.73	\$6.78	
September 30, 2013	\$ 7.67	\$5.26	
June 30, 2013	\$ 5.70	\$ 3.80	
March 31, 2013	\$ 4.65	\$ 3.40	
December 31, 2012	\$ 4.15	\$ 3.26	
September 30, 2012	\$ 4.08	\$ 3.26	
June 30, 2012	\$ 4.25	\$ 3.08	
March 31, 2012	\$ 4.49	\$ 3.41	

(c) For the most recent six months: the high and low closing prices for each month:

	Commo	Common Stock	
Month Ended	High	Low	
March 2014	\$12.12	\$9.11	
February 2014	\$ 10.39	\$8.53	
January 2014	\$11.10	\$8.53	
December 2013	\$11.73	\$7.61	
November 2013	\$ 8.22	\$7.16	
October 2013	\$ 7.83	\$6.78

### B. Memorandum of articles of association

Please refer to Exhibit 3.1 of Form F-1, filed with the Securities and Exchange Commission ("SEC") on November 2, 2005 with file number 333-129382; Exhibit 99.1 of Form 6-K, filed on January 17, 2007 with file number 000-51047, which the Company hereby incorporates by reference and the following filings on Form 6-K or Form 8-A, as applicable, (file number 001-33311) filed with the SEC: Exhibit 99.2 of Form 6-K filed on October 6, 2008; Exhibit 3.1 of Form 6-K filed on July 7, 2009; Exhibit 3.1 of Form 6-K filed on September 22, 2009; Exhibit 3.1 of Form 6-K filed on September 24, 2009; Exhibit 3.1 of Form 6-K filed on February 4, 2010; Exhibit 1.1 of Form 6-K filed on November 15, 2010; Exhibit 1.1 of Form 6-K filed on December 22, 2010; Exhibit 3.3 of Form 8-A filed on January 24, 2014, each of which the Company hereby incorporates by reference.

## C. Material Contracts

Please refer to "Item 4. – Information on the Company" for a discussion of various agreements relating to our business and certain vessel transactions, including Item 4.B. for a discussion of our option agreements to purchase 11 chartered-in vessels, and to Item 5. – Operating and Financial Review and Prospects" for a discussion of our long-term debt, including Item 5.F for a discussion of the long-term debt, the operating lease obligations and the rent obligations. Other than these agreements, the Company has no material contracts, other than the contracts entered into in the ordinary course of business, to which the Company or any of its subsidiaries is a party.

## D. Exchange controls

Under the laws of the Marshall Islands, Uruguay, Liberia, Panama, Belgium, Luxembourg, Malta, Brazil, Paraguay, Cayman Islands, Hong Kong and the British Virgin Islands, the countries of incorporation of the Company and its subsidiaries, there are currently no restrictions on the export or import of capital, including foreign exchange controls, or restrictions that affect the remittance of dividends, interest or other payments to non-resident holders of our common stock.

In the case of Argentina, however, it should be noted that since the year 2001, local authorities have established certain foreign exchange restrictions that affect the export or import of capital. Such restrictions have been progressively eased since 2003 but have not been eliminated. Additionally, there can be no assurance that local authorities in Argentina will not modify such regulations.

#### E. Taxation

### **Marshall Islands Tax Considerations**

Navios Holdings is incorporated in the Marshall Islands. Under current Marshall Islands law, Navios Holdings will not be subject to tax on income or capital gains, and no Marshall Islands withholding tax will be imposed upon payments.

### Other Tax Jurisdictions

Certain of Navios Holdings' subsidiaries are incorporated in countries which impose taxes, such as Malta and Belgium, however such taxes are immaterial to Navios Holdings' operations.

Certain of the Company's subsidiaries are registered as Law 89 companies in Greece. These Law 89 companies are exempt from Greek income tax on their income derived from certain activities related to shipping. Since all the Law 89 companies conduct only business activities that qualify for the exemption of Greek income tax, no provision has been made for Greek income tax with respect to income derived by these Law 89 companies from their business operations in Greece.

In accordance with the currently applicable Greek law, foreign flagged vessels that are managed by Greek or foreign ship management companies having established an office in Greece are subject to duties towards the Greek state which are calculated on the basis of the relevant vessel's tonnage. The payment of said duties exhausts the tax liability of the foreign ship owning company and the relevant manager against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Additionally, under a new tax bill ratified on January 14, 2013, an annual contribution, referring only to fiscal years 2012-2015, was imposed on offices or branches of foreign enterprises that have been established in Greece and are engaged in the exploitation, chartering, insurance, average (damage) settlements, purchase, chartering or shipbuilding brokerage, or chartering of insurance of ships under Greek or foreign flag, as well as the representation of ship-owner companies or undertakings, whose object is identical to the abovementioned activities. This contribution is imposed on the total amount of imported foreign exchange, calculated on a minimum \$50,000. The impact of this new tax bill is not expected to be material to Navios Holdings' operations.

Navios Logistics subsidiaries are incorporated in countries which impose taxes, such as Argentina, Uruguay, Brazil and Paraguay. Income tax liabilities for the current and prior periods relating to the Argentinean subsidiaries are measured at the amount expected to be paid to the taxation authorities using a tax rate of 35% on the taxable net income. Tax rates and tax laws used to assess the income tax liability are those that are effective on the close of the fiscal period. Additionally, at the end of the fiscal year local companies in Argentina have to calculate an assets tax ("Impuesto a la Ganancia Mínima Presunta" or Alternative Minimum Income Tax). This tax is supplementary to income tax and is calculated by applying the effective tax rate of 1% over the gross value of the corporate assets (based on tax law criteria). The subsidiaries' tax liabilities will be the higher of income tax or Alternative Minimum Tax. However, if the Alternative Minimum Tax exceeds income tax during any fiscal year, such excess may be computed as a prepayment of any income tax excess over the Alternative Minimum Tax that may arise in the next ten fiscal years. Relating to the Paraguayan subsidiaries there are two possible options to determine the income tax liability. In the first option income tax liabilities for the current and prior periods are measured at the amount expected to be paid to the taxation authorities, using the tax rate of 10% on the fiscal profit and loss. 50% of revenues derived from international freights are considered Paraguayan sourced (and therefore taxed) if carried between Paraguay and Argentina, Bolivia, Brazil or Uruguay. In any other case, only 30% of revenues derived from international freights are considered Paraguayan sourced. Companies whose operations are considered international freights can choose to pay income taxes on their revenues at an effective tax rate of 1% on such revenues, without considering any other kind of adjustments. Fiscal losses, if any, are neither deducted nor carried forwa

# Federal Income Tax Consequences

## General

The following discussion addresses certain United States federal income tax aspects of our business and considerations for the holders of our common stock. It does not address other tax aspects (including issues arising under state, local and foreign tax laws other than the Marshall Islands), nor does it attempt to address the specific circumstances of any particular stockholder of Navios Holdings.

## **United States Federal Income Tax Considerations**

#### **Taxation of Operating Income: In General**

Navios Holdings is incorporated under the laws of the Marshall Islands. Accordingly, it is taxed as a foreign corporation by the United States. If

Navios Holdings were taxed as a United States corporation, it could be subject to substantially greater United States income tax than contemplated below. See "Risk Factors."

In general, a foreign corporation is subject to United States tax on income that is treated as derived from U.S. source income or that is effectively connected income. Based on its current plans, however, Navios Holdings expects that its income from sources within the United States will be international shipping income that qualifies for exemption from United States federal income taxation under Section 883 of the Code and the Shipping and Aircraft Agreement between the United States and the Marshall Islands, and that it will have no effectively connected income. Accordingly, Navios Holdings does not expect to be subject to federal income tax on any of its income.

If Navios Holdings is taxed as a foreign corporation and the benefits of Code Section 883 and the Shipping and Aircraft Agreement are unavailable, Navios Holdings' United States source shipping income that is not effectively connected income would be subject to a four percent (4%) tax imposed by Section 887 of the Code on a gross basis, without the benefit of deductions. Navios Holdings believes that no more than fifty percent (50%) of Navios Holdings' shipping income would be treated as United States source shipping income because, under Navios Holdings' current business plan, its shipping income will be attributable to transportation which does not both begin and end in the United States. Thus, the maximum effective rate of United States federal income tax on Navios Holdings' shipping income would never exceed two percent (2%) of gross income under the four percent (4%) gross basis tax regime.

To the extent the benefits of Code Section 883 exemption are unavailable and Navios Holdings' international shipping income is considered to be effectively

connected income, such income, net of applicable deductions, would be subject to the United States federal corporate income tax. United States corporate income tax would also apply to any other effectively connected income of Navios Holdings and to Navios Holdings' worldwide income if it were taxed as a domestic corporation. This could result in the imposition of a tax of up to 35% on Navios Holdings' income, except to the extent that Navios Holdings were able to take advantage of more favorable rates that may be imposed on shipping income of domestic corporations or foreign corporations. In addition, as a foreign corporation, Navios Holdings could potentially be subject to the thirty percent (30%) branch profits on effectively connected income, as determined after allowance for certain adjustments, and on certain interest paid or deemed paid attributable to the conduct of its United States trade or business. Since Navios Holdings does not intend to have any vessel sailing to or from the United States on a regularly scheduled basis, Navios Holdings believes that none of its international shipping income will be effectively connected income.

#### United States Taxation of Gain on Sale of Vessels

Regardless of whether Navios Holdings qualifies for exemption under Code Section 883, it will not be subject to United States federal income taxation with respect to gain realized on a sale of a vessel, provided that the sale is considered to occur outside of the United States as defined under United States federal income tax principles. In general, a sale of a vessel will be considered to occur outside of the United States for this purpose if title to the vessel, and risk of loss with respect to the vessel, pass to the buyer outside of the United States. It is expected that any sale of a vessel by Navios Holdings will be considered to occur outside of the United States.

#### United States Federal Income Taxation of U.S. Holders

As used herein, the term "U.S. Holder" means a beneficial owner of common stock who:

- is an individual United States citizen or resident, a United States corporation or other United States entity taxable as a corporation, an estate of which the income is subject to United States federal income taxation regardless of its source, or a trust if a court within the United States is able to exercise primary jurisdiction over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust;
- owns Navios Holdings common stock as a capital asset; and
- owns less than ten percent (10%) of Navios Holdings' common stock for United States federal income tax purposes.

If a partnership holds Navios Holdings common stock, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner in a partnership holding Navios Holdings common stock, you should consult your tax advisor.

#### **Tax Treatment of Common Stock**

#### **Distributions**

Subject to the discussion of passive foreign investment companies (PFICs) below, distributions made by Navios Holdings with respect to Navios Holdings common stock to a U.S. Holder will generally constitute dividends to the extent of Navios Holdings' current or accumulated earnings and profits, as determined under United States federal income tax principles, and will be included in the U.S. Holder's gross income. Distributions in excess of such earnings and profits will first be treated as a non-taxable return of capital to the extent of the U.S. Holder's tax basis in his common stock on a dollar-for-dollar basis and thereafter as capital gain. Because Navios Holdings is not a United States corporation, U.S. Holders that are corporations will not be entitled to claim dividends and receive deductions with respect to any distributions it receives from Navios Holdings. Dividends paid with respect to Navios Holdings' common stock will generally be treated as "passive income" for purposes of computing allowable foreign tax credits for United States foreign tax credit purposes.

Dividends paid on Navios Holdings common stock to a U.S. Holder who is an individual, trust or estate, a U.S. Non-Corporate Holder, will, under current law, generally be treated as "qualified dividend income" that is taxable to such U.S. Non-Corporate Holder at preferential tax rates, provided that (1) the common stock is readily tradable on an established securities market in the United States (such as the New York Stock Exchange); (2) the dividend income is not required to be included in gross income under the controlled foreign corporation rules; (3) Navios Holdings is not a passive foreign investment company for the taxable year during which the dividend is paid or the immediately preceding taxable year (which Navios Holdings does not believe it is or will be); (4) the U.S. Non-Corporate Holder has owned the common stock for more than sixty (60) days in the 121-day period beginning sixty (60) days before the date on which the common stock becomes ex-dividend; and (5) the U.S. Non-Corporate Holder is under no obligation to make related payments with respect to positions in substantially similar or related property. Special rules may apply to any "extraordinary dividend" which is generally, a dividend in an amount equal to or in excess of ten percent of a stockholder's adjusted basis in a share of common stock paid by Navios Holdings. If Navios Holdings pays an "extraordinary dividend" on its common stock that is treated as "qualified dividend income", then any loss derived by a U.S. Non-Corporate Holder from the sale or exchange of such common stock will be treated as long-term capital loss to the extent of such dividend.

There is no assurance that any dividends paid on Navios Holdings common stock will be eligible for these preferential rates in the hands of a U.S. Non-Corporate Holder, although Navios Holdings believes that they will be so eligible. Any dividends out of earnings and profits Navios Holdings pays, which are not eligible for these preferential rates, will be taxed as ordinary income to a U.S. Non-Corporate Holder.

# Sale, Exchange or Other Disposition of Common Stock

Assuming Navios Holdings does not constitute with respect to a U.S. Holder a passive foreign investment company for any taxable year, a U.S. Holder generally will recognize taxable gain or loss upon a sale, exchange or other disposition of Navios Holdings common stock in an amount equal to the difference between the amount realized by the US Holder from such sale, exchange or other disposition and the U.S. Holder's tax basis in such stock. Such gain or loss will be treated as long-term capital gain or loss if the U.S. Holder's holding period is greater than one year at the time of the sale, exchange or other disposition. Such capital gain or loss will generally be treated as United States source income or loss, as applicable, for United States foreign tax credit purposes. Long-term capital gains of US Non-Corporate Holders are eligible for reduced rates of taxation. A U.S. Holder's ability to deduct capital losses is subject to certain limitations. See "United States Federal Income Tax Considerations" above for a discussion of certain tax basis and holding period issues related to Navios Holdings common stock.

### Passive Foreign Investment Company Status and Significant Tax Consequences

Special United States federal income tax rules apply to a U.S. Holder that holds stock in a foreign corporation classified as a "passive foreign investment company" for United States federal income tax purposes. A foreign corporation will be a foreign passive investment company if 75% or more of its gross income for a taxable year is treated as passive income, or if the average percentage of assets held by such corporation during a taxable year which produce or are held to produce passive income is at least 50%. A U.S. Holder of stock in a passive foreign investment company can be subject to current taxation on undistributed income of such company or to other adverse tax results if it does not elect to be subject to such current taxation.

Navios Holdings believes that it will not be a passive foreign investment company because it believes that its shipping income is not passive income and most of its assets will be held for the production of non-passive income.

Since there is no legal authority directly on point, however, the IRS or a court could disagree with Navios Holdings' position and treat its shipping income and/or shipping assets as passive income or as producing or held to produce passive income. In addition, although Navios Holdings intends to conduct its affairs in a manner that would avoid Navios Holdings being classified as a passive foreign investment company with respect to any taxable year, it cannot ensure that the nature of its operations will not change in the future.

#### United States Federal Income Taxation of Non-U.S. Holders

A beneficial owner of common stock (other than a partnership) that is not a U.S. Holder is referred to herein as a Non-U.S. Holder.

#### Dividends on Common Stock

Non-U.S. Holders generally will not be subject to United States federal income tax or withholding tax on dividends received with respect to Navios Holdings common stock, unless that income is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States. If the Non-U.S. Holder is entitled to the benefits of a United States income tax treaty with respect to those dividends, that income is taxable only if it is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States. In the event that Navios Holdings were to be taxed as a United States corporation, dividends received by Non-U.S. Holders could be subject to United States withholding tax. See discussion above under "United States Federal Income Tax Considerations — Taxation of Operating Income: In General".

#### Sale, Exchange or other Disposition of Common Stock

Non-U.S. Holders generally will not be subject to United States federal income tax or withholding tax on any gain realized upon the sale, exchange or other disposition of Navios Holdings' common stock, unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (and, if the Non-U.S. Holder is entitled to the benefits of an income tax treaty with respect to that gain, that gain is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States); or
- the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of disposition or is otherwise treated as a United States resident for income tax purposes and other conditions are met.

If the Non-U.S. Holder is engaged in a United States trade or business for United States federal income tax purposes, the income from the common stock, including dividends and the gain from the sale, exchange or other disposition of the stock, that is effectively connected with the conduct of that trade or business, will generally be subject to regular United States federal income tax in the same manner as discussed in the previous section relating to the taxation of U.S. Holders. In addition, if the shareholder is a corporate Non-U.S. Holder, the shareholder's earnings and profits that are attributable to the effectively connected income, which are subject to certain adjustments, may be subject to an additional branch profits tax at a rate of thirty percent (30%), or at a lower rate as may be specified by an applicable income tax treaty.

### **Backup Withholding and Information Reporting**

In general, dividend payments or other taxable distributions, made within the United States to the shareholder, will be subject to information reporting requirements if the shareholder is a non-corporate U.S. Holder. Such payments or distributions may also be subject to backup withholding tax if the shareholder is a non-corporate U.S. Holder and:

- fails to provide an accurate taxpayer identification number;
- is notified by the IRS that the shareholder failed to report all interest or dividends required to be shown on the shareholder's federal income tax returns; or
- in certain circumstances, fails to comply with applicable certification requirements.

Non-US Holders may be required to establish their exemption from information reporting and backup withholding by certifying their status on IRS Form W-8ECI or W-8IMY, as applicable.

If the shareholder is a Non-U.S. Holder and sells the Non-U.S. Holder's common stock to or through a United States office of a broker, the payment of the proceeds is subject to both United States backup withholding and information reporting unless the Non-U.S. Holder certifies that the Non-U.S. Holder is a non-United States person, under penalties of perjury, or otherwise establishes an exemption. If the Non-U.S. Holder sells common stock through a non-United States office of a non-United States broker and the sales proceeds are paid to the Non-U.S. Holder outside the United States, then information reporting and backup withholding generally will not apply to that payment. United States information reporting requirements, but not backup withholding, however, will apply to a payment of sales proceeds, even if that payment is made to the Non-U.S. Holder outside the United States, if the Non-U.S. Holder sells common stock through a non-United States office of a broker that is a United States person or has some other contacts with the United States. Such information reporting requirements will not apply, however, if the broker has documentary evidence in its records that the shareholder is a non-United States person and certain other conditions are met, or otherwise establishes an exemption.

The conclusions expressed above are based on current United States tax law. Future legislative, administrative or judicial changes or interpretations, which can apply retroactively, could affect the accuracy of those conclusions.

The discussion does not address all of the tax consequences that may be relevant to particular taxpayers in light of their personal circumstances or

to taxpayers subject to special treatment under the Code. Such taxpayers include non-US persons, insurance companies, tax-exempt entities, dealers in securities, banks and persons who acquired their shares of capital stock pursuant to the exercise of employee options or otherwise as compensation.

## Tax Return Disclosure Requirements

Individual U.S. holders (and to the extent specified in applicable Treasury regulations, certain individual non-U.S. holders and certain U.S. holders that are entities) that hold certain specified foreign assets with values in excess of certain dollar thresholds are required to report such assets on IRS Form 8938 with their U.S. Federal income tax return, subject to certain exceptions (including an exception for foreign assets held in accounts maintained by U.S. financial institutions). Stock in a foreign corporation, including our common stock is a specified foreign asset for this purpose. Substantial penalties apply for failure to properly complete and file Form 8938. You are encouraged to consult your own tax advisor regarding the filing of this form.

## Item 11. Quantitative and Qualitative Disclosures about Market Risks

Navios Holdings is exposed to certain risks related to interest rate, foreign currency and charter rate risks. To manage these risks, Navios Holdings uses interest rate swaps (for interest rate risk) and FFAs (for charter rate risk).

#### **Interest Rate Risk:**

Debt Instruments — On December 31, 2013 and December 31, 2012, Navios Holdings had a total of \$1,508.1 million and \$1,362.1 million, respectively, of long-term indebtedness (excluding the unamortized discount related to the 2022 Notes). The debt is U.S. dollar-denominated and bears interest at a floating rate, except for the senior notes, the 2022 Notes and certain Navios Logistics' loans discussed in "Item 5.B Liquidity and Capital Resources" that bear interest at a fixed rate.

The interest on the loan facilities is at a floating rate and, therefore, changes in interest rates would affect their interest rate and related interest expense. As of December 31, 2013, the outstanding amount of the Company's floating rate loan facilities was \$218.1 million. The interest rate on the 2019 Notes, the 2022 Notes, and the Logistics Senior Notes is fixed and, therefore, changes in interest rates affect their fair value, which as of December 31, 2013 was \$1,326.9 million, but do not affect the related interest expense. Amounts drawn under the facilities and the 2022 Notes are secured by the assets of Navios Holdings and certain its subsidiaries. A change in the LIBOR rate of 100 basis points would change interest expense for 2013 by \$2.9 million.

For a detailed discussion on Navios Holdings' debt instruments refer to section "Long-Term Debt Obligations and Credit Arrangements" included in Item 5.B. of this Annual Report.

Interest Rate Swaps — Navios Holdings enters from time to time into interest rate swap contracts to hedge its exposure to variability in its floating rate long-term debt. Under the terms of interest rate swaps, Navios Holdings and the banks agree to exchange, at specified intervals, the difference between a paying fixed rate and floating rate interest amount calculated by reference to the agreed principal amounts and maturities. The interest rate swaps allow Navios Holdings to convert long-term borrowings issued at floating rates into equivalent fixed rates.

There are no swap agreements as of December 31, 2013 and 2012, as all swap agreements expired during 2010.

#### FFAs Derivative Risk:

FFAs—Navios Holdings enters into FFAs as economic hedges relating to identifiable ship and/or cargo positions and as economic hedges of transactions that Navios Holdings expects to carry out in the normal course of its shipping business. By using FFAs, Navios Holdings manages the financial risk associated with fluctuating market conditions. In entering into these contracts, the Company has assumed the risk that might arise from the possible inability of counterparties to perform in accordance with the terms of their contracts. The Company records all of its derivative financial instruments and hedges as economic hedges.

At December 31, 2013 and December 31, 2012, none of the "mark to market" positions of the open drybulk FFA contracts, qualified for hedge accounting treatment. Drybulk FFAs traded by the Company that do not qualify for hedge accounting are shown at fair value through the statements of comprehensive (loss)/income.

Navios Holdings is exposed to market risk in relation to its FFAs and could suffer substantial losses from these activities in the event expectations are incorrect. Navios Holdings trades FFAs with an objective of both economically hedging the risk on the fleet, specific vessels or freight commitments and taking advantage of short-term fluctuations in market prices. As there were no positions deemed to be open as of December 31, 2013, a change in underlying freight market indices would not have any effect on our net income.

Inflation has had a minimal impact on vessel operating expenses and general and administrative expenses. Our management does not consider inflation to be a significant risk to direct expenses in the current and foreseeable economic environment.

# Item 12. Description of Securities Other than Equity Securities

Not applicable.

### PART II

### Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

# Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

None.

#### **Item 15. Controls and Procedures**

#### A. Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, conducted an evaluation, pursuant to Rule 13a-15 (e) or 15d — 15(e) promulgated under the Exchange Act, of the effectiveness of our disclosure controls and procedures as of December 31, 2013. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of December 31, 2013.

Disclosure controls and procedures means controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and that such information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosures.

#### B. Management's Annual Report on Internal Control over Financial Reporting

The management of Navios Holdings is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) or 15d-15(f) or 15d-15(f) of the Exchange Act. Navios Holdings' internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States ("GAAP").

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Navios Holdings' management assessed the effectiveness of Navios Holdings' internal control over financial reporting as of December 31, 2013. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (1992). Based on its assessment, management concluded that, as of December 31, 2013, Navios Holdings' internal control over financial reporting is effective based on those criteria.

Navios Holdings' independent registered public accounting firm has issued an attestation report on Navios Holdings' internal control over financial reporting.

# C. Attestation Report of the Registered Public Accounting Firm

Navios Holdings' independent registered public accounting firm has issued an audit report on Navios Holdings' internal control over financial reporting. This report appears on Page F-2 of the consolidated financial statements.

#### D. Changes in Internal Control over Financial Reporting

There have been no changes in internal controls over financial reporting (identified in connection with management's evaluation of such internal controls over financial reporting) that occurred during the year covered by this Annual Report that have materially affected, or are reasonably likely to materially affect, Navios Holdings' internal controls over financial reporting.

#### Item 16. [Reserved]

### Item 16A. Audit Committee financial expert

Navios Holdings' Audit Committee consists of three independent directors, Spyridon Magoulas, Efstathios Loizos and George Malanga. The Board of Directors has determined that Efstathios Loizos qualifies as "an audit committee financial expert" as defined in the instructions of Item 16A of Form 20-F. Mr. Loizos is independent under applicable NYSE and SEC standards.

#### Item 16B. Code of Ethics

Navios Holdings has adopted a code of ethics, the Navios Code of Corporate Conduct and Ethics, applicable to officers, directors and employees of Navios Holdings that complies with applicable guidelines issued by the SEC. The Navios Code of Corporate Conduct and Ethics is available for review on Navios Holdings' website at www.navios.com.

### Item 16C. Principal Accountant Fees and Services

### Audit Fees

Our principal accountants for fiscal years 2013 and 2012 were PricewaterhouseCoopers S.A. The audit fees for the audit of each of the years ended December 31, 2013 and 2012 were \$1.8 million and \$1.8 million, respectively.

The Audit Committee is responsible for the appointment, replacement, compensation, evaluation and oversight of the work of the independent

auditors. As part of this responsibility, the audit committee pre-approves the audit and non-audit services performed by the independent auditors in order to assure that they do not impair the auditors' independence from the Company. The Audit Committee may delegate, to one or more of its designated members, the authority to grant such pre-approvals. The decision of any member to whom such authority is delegated is be presented to the full Committee at each of its scheduled meetings.

All audit services and other services provided by PricewaterhouseCoopers S.A., after the formation of our Audit Committee in October 2005 were pre-approved by the Audit Committee.

### **Audit-Related Fees**

There were no audit-related fees billed in 2013 and 2012.

#### Tax Fees

There were no tax fees billed in 2013 and 2012.

#### All Other Fees

There were no other fees billed in 2013 and 2012.

#### Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

#### Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

In February 2008, as previously publicly announced, the Board of Directors approved a share repurchase program for up to \$50.0 million of Navios Holdings' common stock. On October 20, 2008, Navios Holdings concluded this share repurchase program. As of October 20, 2008, 6,959,290 shares were repurchased under this program, for a total consideration of \$50.0 million.

In November 2008, the Board of Directors approved a share repurchase program for up to \$25.0 million of Navios Holdings' common stock. Share repurchases are made pursuant to a program adopted under Rule 10b5-1 under the Exchange Act. The program does not require any minimum purchase or any specific number or amount of shares and may be suspended or reinstated at any time in Navios Holdings' discretion and without notice. Repurchases are subject to restrictions under the terms of the Company's credit facilities and indenture. As of December 31, 2011, the maximum approximate dollar value of shares that may be purchased under the November 2008 Program currently in effect is \$23.1 million. In October 2011, Navios Holdings repurchased 73,651 shares for a total cost of \$0.2 million. There were no shares repurchased during 2013 and 2012.

### Item 16F. Changes in Registrant's Certifying Accountant

Not applicable.

#### Item 16G. Corporate Governance

Pursuant to an exception for foreign private issuers, we are not required to comply with the corporate governance practices followed by U.S. companies under the NYSE listing standards. However, we have voluntarily adopted all of the NYSE required practices.

### Item 16H. Mine Safety disclosures

Not applicable.

#### PART III

#### Item 17. Financial Statements

See Item 18.

#### Item 18. Financial Statements

The financial information required by this Item is set forth on pages F-1 to F-60 and are filed as part of this annual report.

Separate consolidated financial statements and notes thereto for Navios Partners for each of the years ended December 31, 2013, 2012 and 2011 are being provided as a result of Navios Partners meeting a significance test pursuant to Rule 3-09 of Regulation S-X for the year ended December 31, 2013 and, accordingly, the financial statements of Navios Partners for the year ended December 31, 2013 are required to be filed as part of this Annual Report on Form 20-F. See Exhibit 15.3 to this Annual Report on Form 20-F.

#### Item 19. Exhibits

- 1.1 Amended and Restated Articles of Incorporation. (Incorporated by reference to the Registration Statement on Form F-1 of Navios Maritime Holdings Inc. (File No. 333-129382)).
- 1.2 Bylaws. (Incorporated by reference to the Registration Statement on Form F-1 of Navios Maritime Holdings Inc. (File No. 333-129382)).

- 4.13 Supplemental Agreement in relation to the Amended and Restated Loan Agreement dated May 25, 2009, dated July 16, 2009 (Incorporated by reference to Exhibit 99.1 of the Form 6-K filed on October 8, 2009).
- 4.14 Second Supplemental Agreement in relation to the Facility Agreement dated December 11, 2007, dated August 28, 2009 (Incorporated by reference to Exhibit 99.3 of the Form 6-K filed on October 8, 2009).
- 4.15 Facility Agreement for \$66.5 million, dated August 28, 2009, with Navios Maritime Holdings Inc. as guarantor (Incorporated by reference to Exhibit 99.4 of the Form 6-K filed on October 8, 2009).
- 4.16 Facility Agreement for \$75.0 million, dated August 28, 2009, with Navios Maritime Holdings Inc. as guarantor (Incorporated by reference to Exhibit 99.5 of the Form 6-K filed on October 8, 2009).

- 4.17 Loan Agreement for up to \$110.0 million, dated October 23, 2009, with Navios Maritime Holdings Inc. as guarantor (Incorporated by reference to Exhibit 99.1 of the Form 6-K filed on November 10, 2009 (File No. 091172561)).
- 4.18 Indenture relating to 87/8% First Priority Ship Mortgage Notes due 2017, dated November 2, 2009, among Navios Maritime Holdings Inc., Navios Maritime Finance (US) Inc. and Wells Fargo Bank, National Association (Incorporated by reference to Exhibit 99.3 of the Form 6-K filed on November 10, 2009 (File No. 091172624)).
- 4.19 Registration Rights Agreement, dated as of November 2, 2009 (Incorporated by reference to Exhibit 99.4 of the Form 6-K filed on November 10, 2009 (File No. 091172624)).
- 4.20 First Supplemental Indenture to the indenture dated November 2, 2009, dated as of January 29, 2010 (Incorporated by reference to Exhibit 99.6 of the Form 6-K filed on February 17, 2010).
- 4.21 Credit Agreement, dated as of April 7, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on April 8, 2010).
- 4.22 Credit Agreement, dated as of April 8, 2010 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on April 8, 2010).
- 4.23 Second Supplemental Indenture, dated as of March 30, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on April 21, 2010).
- 4.24 Third Supplemental Indenture, dated as of April 7, 2010 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on April 21, 2010).
- 4.25 Fourth Supplemental Agreement, dated as of January 8, 2010 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on May 18, 2010).
- 4.26 Fifth Supplemental Agreement, dated as of April 28, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on May 18, 2010).
- 4.27 Fourth Supplemental Agreement, dated as of June 7, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on June 17, 2010).
- 4.28 Fifth Supplemental Agreement, dated as of June 7, 2010 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on June 17, 2010).
- 4.29 Facility Agreement for \$40.0 million, dated as of August 20, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on September 1, 2010).
- 4.30 Loan Agreement for \$40.0 million with Navios Maritime Acquisition Corporation, dated as of September 7, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on October 14, 2010).
- 4.31 Letter Amendment, dated as of September 24, 2010 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on October 14, 2010).
- 4.32 Facility Agreement of up to \$40.0 million dated as of September 30, 2010 (Incorporated by reference to Exhibit 10.3 of the Form 6-K filed on October 14, 2010).
- 4.33 Amended and Restated Loan Agreement for \$120.0 million (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on November 15, 2010).
- 4.34 Fifth Supplemental Indenture, dated as of August 10, 2010 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on February 1, 2011).
- 4.35 Sixth Supplemental Indenture, dated as of January 28, 2011 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on February 1, 2011).
- 4.36 Indenture for the 81/8% Senior Notes due 2019, dated as of January 28, 2011 (Incorporated by reference to Exhibit 4.1 of the Form 6-K filed on February 1, 2011).
- 4.37 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of June 24, 2009, for \$240.0 million (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on February 4, 2011).
- 4.38 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of September 30, 2010, for \$40.0 million (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on February 4, 2011).
- 4.39 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of December 11, 2007 (as amended), for \$154.0 million (Incorporated by reference to Exhibit 10.3 of the Form 6-K filed on February 4, 2011).
- 4.40 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of August 28, 2009 (as amended), for \$75.0 million (Incorporated by reference to Exhibit 10.4 of the Form 6-K filed on February 4, 2011).
- 4.41 Supplemental Agreement dated January 28, 2011 relating to the Amended and Restated Loan Agreement, dated as of October 27, 2010, in respect of a loan facility of up to \$120.0 million (Incorporated by reference to Exhibit 10.5 of the Form 6-K filed on February 4, 2011).
- 4.42 Supplemental Agreement dated January 28, 2011 relating to the Loan Agreement, dated as of October 23, 2009 (as amended), for a revolving credit facility of up to \$110.0 million (Incorporated by reference to Exhibit 10.6 of the Form 6-K filed on February 4, 2011).

- 4.43 Sixth Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of February 1, 2007 (as amended), for a term loan facility of up to \$280.0 million (Incorporated by reference to Exhibit 10.7 of the Form 6-K filed on February 4, 2011).
- 4.44 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of August 20, 2010, for a term loan facility of up to \$40.0 million (Incorporated by reference to Exhibit 10.8 of the Form 6-K filed on February 4, 2011).
- 4.45 Supplemental Agreement dated January 28, 2011 relating to the Facility Agreement, dated as of August 28, 2009 (as amended), for a term loan facility of up to \$66.5 million (Incorporated by reference to Exhibit 10.9 of the Form 6-K filed on February 4, 2011).
- 4.46 The Indenture, dated April 12, 2011, among Navios South American Logistics Inc., Navios Logistics Finance (US) Inc., the Guarantors named therein, and Wells Fargo Bank, National Association, as trustee (Incorporated by reference to Exhibit 4.1 of the Form 6-K filed on May 25, 2011).
- 4.47 The Registration Rights Agreement, dated April 12, 2011, among Navios South American Logistics Inc., Navios Logistics Finance (US) Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, Citigroup Global Markets Inc., Credit Suisse Securities (USA) LLC, and S. Goldman Advisors LLC (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on May 25, 2011).
- 4.48 Supplemental Agreement No. 2, dated May 6, 2011, relating to a Loan Agreement, dated October 23, 2009, as amended, in respect of a revolving credit facility of up to \$110,000,000 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on May 25, 2011).
- 4.49 The Administrative Services Agreement, dated April 12, 2011, between Navios South American Logistics Inc. and Navios Maritime Holdings Inc (Incorporated by reference to Exhibit 10.3 of the Form 6-K filed on May 25, 2011).
- 4.50 Letter of Amendment No. 1, dated October 21, 2010, to the Loan Agreement, dated September 7, 2010, between Navios Maritime Acquisition Corporation and Navios Maritime Holdings Inc (Incorporated by reference to Exhibit 10.4 of the Form 6-K filed on May 25, 2011).
- 4.51 First Supplemental Indenture, dated as of June 24, 2011 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on July 22, 2011).
- 4.52 Seventh Supplemental Indenture, dated as of June 24, 2011 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on July 22, 2011).
- 4.53 Second Supplemental Indenture, dated as of July 26, 2011 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on August 5, 2011).
- 4.54 Facility agreement of up to \$23,000,000, dated August 19, 2011 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on August 25, 2011).
- 4.55 Letter Agreement, dated November 8, 2011 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on November 28, 2011).
- 4.56 Facility agreement of up to \$23,000,000, dated December 29, 2011 (Incorporated by reference to Exhibit 10.1 of the Form 6-K filed on January 25, 2012).
- 4.57 Second Supplemental Indenture, dated as of December 29, 2011 (Incorporated by reference to Exhibit 10.2 of the Form 6-K filed on January 25, 2012)
- 4.58 Eighth Supplemental Indenture, dated as of December 29, 2011 (Incorporated by reference to Exhibit 10.3 of the Form 6-K filed on January 25, 2012).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS	F-8

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

# To the Shareholders and the Board of Directors of Navios Maritime Holdings Inc.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of comprehensive (loss)/income, changes in equity and cash flows present fairly, in all material respects, the financial position of Navios Maritime Holdings Inc. and its subsidiaries (the "Company") at December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control — Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in "Management's annual report on internal control over financial reporting", appearing in Item 15(b) of the Company's 2013 Annual Report on Form 20-F. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands of U.S. dollars — except share data)

#### NOTE 1: DESCRIPTION OF BUSINESS

On August 25, 2005, Navios Maritime Holdings Inc. ("Navios Holdings" or the "Company") was acquired by International Shipping Enterprises, Inc. ("ISE") through the purchase of all of the outstanding shares of common stock of Navios Holdings. As a result of this acquisition, Navios Holdings became a wholly owned subsidiary of ISE. In addition, on August 25, 2005, simultaneously with the acquisition of Navios Holdings, ISE effected a reincorporation from the State of Delaware to the Republic of the Marshall Islands through a downstream merger with and into its newly acquired wholly owned subsidiary, whose name was and continues to be Navios Maritime Holdings Inc.

Navios Holdings is a global, vertically integrated seaborne shipping and logistics company focused on the transport and transshipment of drybulk commodities, including iron ore, coal and grain.

#### Navios Logistics

Navios South American Logistics Inc. ("Navios Logistics"), a consolidated subsidiary of the Company, is one of the largest logistics companies in the Hidrovia region of South America, serving the storage and marine transportation needs of its customers through two port storage and transfer facilities, one for grain commodities and the other for refined petroleum products, and a diverse fleet consisting of vessels, barges and pushboats. Navios Holdings currently owns 63.8% of Navios Logistics.

#### Navios Asia

In May 2013, Navios Holdings formed Navios Asia LLC ("Navios Asia") in partnership with a third party. Navios Holdings owns 51.0% and the third party owns 49.0% of Navios Asia.

#### Navios Europe

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe Inc. ("Navios Europe") and have ownership interests of 47.5%, 47.5% and 5.0%, respectively.

#### Navios Partners

Navios Maritime Partners L.P. ("Navios Partners") (NYSE:NMM) is an international owner and operator of dry cargo vessels and is engaged in seaborne transportation services of a wide range of drybulk commodities including iron ore, coal, grain and fertilizer, chartering its vessels under medium to long-term charters. As of December 31, 2013, Navios Holdings owned a 21.6% interest in Navios Partners, including a 2.0% general partner interest.

### Navios Acquisition

Navios Maritime Acquisition Corporation ("Navios Acquisition") (NYSE: NNA), an affiliate (former subsidiary) of the Company, is an owner and operator of tanker vessels focusing in the transportation of petroleum products (clean and dirty) and bulk liquid chemicals.

As of December 31, 2013, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition was 47.8% and its economic interest in Navios Acquisition was 50.5%.

(Expressed in thousands of U.S. dollars — except share data)

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- (a) Basis of Presentation: The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.
  - For the years ended December 31, 2012 and 2011, the Company has revised its statement of cash flows to appropriately classify amounts of \$5,202 and \$3,901 from operating cash inflows to investing cash inflows for dividends it received from one of its equity affiliate investees. These dividends represent a return of the investment (investing activity) rather than a return on the investment (operating activity).
- (b) Principles of Consolidation: The accompanying consolidated financial statements include the accounts of Navios Holdings and its majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated in the consolidated statements.

The Company also consolidates entities that are determined to be variable interest entities ("VIE") as defined in the accounting guidance, if the Company determines that it is the primary beneficiary. A variable interest entity is defined as a legal entity where either (i) equity interest holders as a group lack the characteristics of a controlling financial interest, including decision making ability and an interest in the entity's residual risks and rewards, or (ii) the equity holders have not provided sufficient equity investment to permit the entity to finance its activities without additional subordinated financial support, or (iii) the voting rights of some investors are not proportional to their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both and substantially all of the entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights.

**Subsidiaries:** Subsidiaries are those entities in which the Company has an interest of more than one half of the voting rights or otherwise has power to govern the financial and operating policies. The acquisition method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition. The excess of the cost of acquisition over the fair value of the net assets acquired and liabilities assumed is recorded as goodwill. All subsidiaries included in the consolidated financial statements are 100% owned, except for Navios Logistics, which is 63.8% owned and Navios Asia, which is 51.0% owned.

Investments in Affiliates: Affiliates are entities over which the Company generally has between 20% and 50% of the voting rights, or over which the Company has significant influence, but it does not exercise control. Investments in these entities are accounted for under the equity method of accounting. Under this method, the Company records an investment in the stock of an affiliate at cost, and adjusts the carrying amount for its share of the earnings or losses of the affiliate subsequent to the date of investment and reports the recognized earnings or losses in income. Dividends received from an affiliate reduce the carrying amount of the investment. The Company recognizes gains and losses in earnings for the issuance of shares by its affiliates, provided that the issuance of shares qualifies as a sale of shares. When the Company's share of losses in an affiliate equals or exceeds its interest in the affiliate, the Company does not recognize further losses, unless the Company has incurred obligations or made payments on behalf of the affiliate.

#### Affiliates included in the financial statements accounted for under the equity method

In the consolidated financial statements of Navios Holdings, the following entities are included as affiliates and are accounted for under the equity method for such periods during which such entities were affiliates of Navios Holdings: (i) Navios Partners and its subsidiaries (ownership interest as of December 31, 2013 was 21.6%, which includes a 2.0% general partner interest); (ii) Navios Acquisition and its subsidiaries (economic interest as of December 31, 2013 was 50.5%); (iii) Acropolis Chartering and Shipping Inc. ("Acropolis") (ownership interest as of December 31, 2013 was 50.0%); and (iv) Navios Europe and its subsidiaries (ownership interest as of December 31, 2013 was 47.5%).

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

- (c) Use of Estimates: The preparation of consolidated financial statements in conformity with U.S.GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an on-going basis, management evaluates the estimates and judgments, including those related to uncompleted voyages, future drydock dates, the carrying value of investments in affiliates, the selection of useful lives for tangible assets, expected future cash flows from long-lived assets to support impairment tests, provisions necessary for accounts receivables, provisions for legal disputes, pension benefits, and contingencies. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions and/or conditions.
- (d) Cash and Cash Equivalents: Cash and cash equivalents consist of cash on hand, deposits held on call with banks, and other short-term liquid investments with original maturities of three months or less.
- (e) Restricted Cash: As of December 31, 2013 and 2012, restricted cash included \$1,451 and \$10,914, respectively, which related to amounts held in retention account in order to service debt and interest payments and \$0 and \$13,200, respectively, which related to additional security, as required by certain of Navios Holdings' credit facilities. Also included in restricted cash as of December 31, 2013 and 2012 are amounts held as security in the form of letters of guarantee or letters of credit totaling \$590 and \$590, respectively.
- (f) Insurance Claims: Insurance claims at each balance sheet date consist of claims submitted and/or claims in the process of compilation or submission (claims pending). They are recorded on an accrual basis and represent the claimable expenses, net of applicable deductibles, incurred through December 31 of each reported period, which are probable to be recovered from insurance companies. Any remaining costs to complete the claims are included in accrued liabilities. The classification of insurance claims into current and non-current assets is based on management's expectations as to their collection dates.
- (g) Inventories: Inventories, which are comprised of lubricants, bunkers (when applicable) and stock provisions on board the vessels, as well as petroleum products held by Navios Logistics, are valued at the lower of cost or market value as determined on the first-in, first-out basis.
- (h) Vessel, Port Terminal, Tanker Vessels, Barges, Pushboats and Other Fixed Assets, net: Vessels, port terminal, tanker vessels, barges, pushboats and other fixed assets acquired as parts of business combinations or asset acquisitions are recorded at fair value on the date of acquisition. Vessels constructed by the company would be stated at historical cost, which consists of the contract price, capitalized interest and any material expenses incurred upon acquisition (improvements and delivery expenses). Subsequent expenditures for major improvements and upgrades are capitalized, provided they appreciably extend the life, increase the earnings capability or improve the efficiency or safety of the vessels. The cost and related accumulated depreciation of assets retired or sold are removed from the accounts at the time of sale or retirement and any gain or loss is included in the accompanying consolidated statements of income.

Expenditures for routine maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight line method over the useful life of the vessels, port terminal, tanker vessels, barges, push boats and other fixed assets, after considering the estimated residual value.

Annual depreciation rates used, which approximate the useful life of the assets are:

Vessels25 yearsPort facilities and transfer station3 to 40 yearsTanker vessels, barges and push boats15 to 44 yearsFurniture, fixtures and equipment3 to 10 yearsComputer equipment and software5 yearsLeasehold improvementsshorter of lease term or 6 years

Management estimates the residual values of the Company's dry bulk vessels based on a scrap value cost of steel times the weight of the ship noted in lightweight tons (LWT). Residual values are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of residual values affect the depreciable amount of the vessels and affects depreciation expense in the period of the revision and future periods. Up to December 31, 2012, management estimated the residual values of the Company's vessels based on a scrap rate of \$285 per LWT. Effective January 1, 2013, following management's reassessment after considering current market trends for scrap rates and ten-year average historical scrap rates of

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

the residual values of the Company's vessels, the estimated scrap value per LWT was increased to \$340. This change in accounting estimates did not materially affect the statements of income and the loss per share of the Company for the year ended December 31, 2013.

Management estimates the useful life of its vessels to be 25 years from the vessel's original construction. However, when regulations place limitations on the ability of a vessel to trade on a worldwide basis, its useful life is re-estimated to end at the date such regulations become effective. An increase in the useful life of a vessel or in its residual value would have the effect of decreasing the annual depreciation charge and extending it into later periods. A decrease in the useful life of a vessel or in its residual value would have the effect of increasing the annual depreciation charge.

- (i) Deposits for Vessel Acquisitions: This represents amounts paid by the Company in accordance with the terms of the purchase agreements for the construction of vessels and other long-lived fixed assets. Deposits for vessel acquisitions also include pre-delivery expenses. Pre-delivery expenses represent any direct costs to bring the vessel to the location and condition necessary for it to be capable of operating in the manner intended by management. Interest costs incurred during the construction (until the asset is substantially complete and ready for its intended use) are capitalized. Capitalized interest for the years ended December 31, 2013, 2012 and 2011 amounted to \$1,831, \$1,453 and \$4,303, respectively.
- (j) Assets Held for Sale: It is the Company's policy to dispose of vessels and other fixed assets when suitable opportunities occur and not necessarily to keep them until the end of their useful life. The Company classifies assets and disposal groups as being held for sale when the following criteria are met: management has committed to a plan to sell the asset (disposal group); the asset (disposal group) is available for immediate sale in its present condition; an active program to locate a buyer and other actions required to complete the plan to sell the asset (disposal group) have been initiated; the sale of the asset (disposal group) is probable, and transfer of the asset (disposal group) is expected to qualify for recognition as a completed sale within one year; the asset (disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Long-lived assets or disposal groups classified as held for sale are measured at the lower of their carrying amount or fair value less cost to sell. These assets are not depreciated once they meet the criteria to be held for sale. No assets were classified as held for sale in any of the periods presented.
- (k) Impairment of Long Lived Assets: Vessels, other fixed assets and other long-lived assets held and used by Navios Holdings are reviewed periodically for potential impairment whenever events or changes in circumstances indicate that the carrying amount of a particular asset may not be fully recoverable. Navios Holdings' management evaluates the carrying amounts and periods over which long-lived assets are depreciated to determine if events or changes in circumstances have occurred that would require modification to their carrying values or useful lives. In evaluating useful lives and carrying values of long-lived assets, certain indicators of potential impairment are reviewed, such as undiscounted projected operating cash flows, vessel sales and purchases, business plans and overall market conditions.

Undiscounted projected net operating cash flows are determined for each asset group and compared to the carrying value of the vessel, the unamortized portion of deferred drydock and special survey costs related to the vessel, and related carrying value of the intangible with respect to the time charter agreement attached to that vessel or the carrying value of deposits for newbuildings. Within the shipping industry, vessels are customarily bought and sold with a charter attached. The value of the charter may be favorable or unfavorable when comparing the charter rate to then-current market rates. The loss recognized either on impairment (or on disposition) will reflect the excess of carrying value over fair value (selling price) for the vessel asset group.

The Company determined undiscounted projected net operating cash flows for each vessel and compared it to the vessel's carrying value together with the carrying value of deferred drydock and special survey costs related to the vessel and the carrying value of the related intangible. The significant factors and assumptions used in the undiscounted projected net operating cash flow analysis included: determining the projected net operating cash flows by considering the charter revenues from existing time charters for the fixed fleet days (the Company's remaining charter agreement rates) and an estimated daily time charter equivalent for the unfixed days (based on the 10-year average historical one-year time charter rates adjusted for outliers) over the remaining economic life of each vessel, net of brokerage and address commissions excluding days of scheduled off-hires, running cost based on current year actual, assuming an annual increase of 3.0% after 2015 and a utilization rate of 98.1% based on the fleet's historical performance.

The assessment concluded that step two of the impairment analysis was not required and no impairment of vessels and the intangible assets existed as of December 31, 2013, as the undiscounted projected net operating cash flows exceeded the carrying value.

(Expressed in thousands of U.S. dollars — except share data)

In the event that impairment would occur, the fair value of the related asset would be determined and an impairment charge would be recorded to operations calculated by comparing the asset's carrying value to its fair value. Fair value is typically estimated primarily through the use of third-party valuations performed on an individual vessel basis.

Although management believes the underlying assumptions supporting this assessment are reasonable, if the charter rate trends and the length of the market downturn, vary significantly from our forecasts, management may be required to perform step two of the impairment analysis in the future which could expose Navios Holdings to material impairment charges.

No impairment loss was recognized for any of the periods presented.

- (1) Deferred Drydock and Special Survey Costs: The Company's vessels, barges and push boats are subject to regularly scheduled drydocking and special surveys which are carried out every 30 and 60 months, respectively, for vessels, every 60 months for oceangoing vessels and every 84 months for pushboats and barges, to coincide with the renewal of the related certificates issued by the classification societies, unless a further extension is obtained in rare cases and under certain conditions. The costs of drydocking and special surveys are deferred and amortized over the above periods or to the next drydocking or special survey date if such date has been determined. Unamortized drydocking or special survey costs of vessels, barges and push boats sold are written-off to income in the year the vessel, barge or push boat is sold.
  - Costs capitalized as part of the drydocking or special survey consist principally of the actual costs incurred at the yard, and expenses relating to spare parts, paints, lubricants and services incurred solely during the drydocking or special survey period. For each of the years ended December 31, 2013, 2012 and 2011, the amortization was \$9,581, \$7,289, and \$5,364, respectively.
- (m) Deferred Financing Costs: Deferred financing costs include fees, commissions and legal expenses associated with obtaining or modifying loan facilities. These costs are amortized over the life of the related debt using the effective interest rate method, and are included in interest expense. Amortization and write offs for each of the years ended December 31, 2013, 2012 and 2011 were \$5,384, \$6,309 and \$5,580, respectively.
- (n) Goodwill and Other Intangibles
  - (i) Goodwill: Goodwill is tested for impairment at the reporting unit level at least annually.

The Company evaluates impairment of goodwill using a two-step process. First, the aggregate fair value of the reporting unit is compared to its carrying amount, including goodwill. The Company determines the fair value of the reporting unit based on discounted cash flow analysis and believes that the discounted cash flow analysis is the best indicator of fair value for its individual reporting units.

The fair value for goodwill impairment testing was estimated using the expected present value of future cash flows, using judgments and assumptions that management believes were appropriate in the circumstances. The significant factors and assumptions the Company used in its discounted cash flow analysis included: EBITDA, the discount rate used to calculate the present value of future cash flows and future capital expenditures. EBITDA assumptions included revenue assumptions, general and administrative expense growth assumptions, and direct vessel expense growth assumptions. The future cash flows from the shipping operations were determined by considering the charter revenues from existing time charters for the fixed fleet days (the Company's remaining charter agreement rates) and an estimated daily time charter equivalent for the non-fixed days (based on a combination of two-year forward freight agreements and the 10-year average historical charter rates available for each type of vessel adjusted for outliers), which the Company believes is an objective approach for forecasting charter rates over an extended time period for long lived assets. The future cash flows from logistics operations were determined principally by combining revenues from existing contracts and estimated revenues based on the historical performance of the segment, including utilization rates and actual storage capacity.

If the fair value of a reporting unit exceeds the carrying amount, no impairment exists. If the carrying amount of the reporting unit exceeds the fair value, then the Company must perform the second step to determine the implied fair value of the reporting unit's goodwill and compare it with its carrying amount. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit to all the assets and liabilities of that reporting unit, as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price. If the carrying amount of the goodwill exceeds the implied fair value, then goodwill impairment is recognized by writing the goodwill down to its implied fair value.

No impairment loss was recognized for any of the periods presented.

(ii) Intangibles Other Than Goodwill: Navios Holdings' intangible assets and liabilities consist of favorable lease terms, unfavorable lease terms, customer relationships, trade name and port terminal operating rights. The fair value of the trade name was determined based on the "relief from royalty" method which values the trade name based on the estimated amount that a

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

company would have to pay in an arm's length transaction to use that trade name. The asset is being amortized under the straight line method over 32 years. Navios Logistics' trade name is being amortized under the straight line method over 10 years.

The fair value of customer relationships was determined based on the "excess earnings" method, which relies upon the future cash flow generating ability of the asset. The asset is amortized under the straight line method over 20 years.

Other intangibles that are being amortized, such as customer relationships and port terminal operating rights, would be considered impaired if their carrying value could not be recovered from the future undiscounted cash flows associated with the asset.

When intangible assets or liabilities associated with the acquisition of a vessel are identified, they are recorded at fair value. Fair value is determined by reference to market data and the discounted amount of expected future cash flows. Where charter rates are higher than market charter rates, an asset is recorded, being the difference between the acquired charter rate and the market charter rate for an equivalent vessel. Where charter rates are less than market charter rates, a liability is recorded, being the difference between the assumed charter rate and the market charter rate for an equivalent vessel. The determination of the fair value of acquired assets and assumed liabilities requires the Company to make significant assumptions and estimates of many variables including market charter rates, expected future charter rates, the level of utilization of the Company's vessels and the Company's weighted average cost of capital. The use of different assumptions could result in a material change in the fair value of these items, which could have a material impact on the Company's financial position and results of operations.

The amortizable value of favorable and unfavorable leases is amortized over the remaining life of the lease term and the amortization expense is included in the statement of comprehensive (loss)/income in the "Depreciation and Amortization" line item.

The amortizable value of favorable leases would be considered impaired if its fair market value could not be recovered from the future undiscounted cash flows associated with the asset. Vessel purchase options that have not been exercised, which are included in favorable lease terms, are not amortized and would be considered impaired if the carrying value of an option, when added to the option price of the vessel, exceeded the fair value of the vessel. As of December 31, 2013, there was no impairment of intangible assets.

Vessel purchase options that are included in favorable leases are not amortized and when the purchase option is exercised the asset is capitalized as part of the cost of the vessel and depreciated over the remaining useful life of the vessel and if not exercised, the intangible will be written off. Vessel purchase options that are included in unfavorable lease terms are not amortized and when the purchase option is exercised by the charterer and the underlying vessel is sold, it will be recorded as part of gain/loss on sale of the assets. If the option is not exercised at the expiration date it will be written-off to the statements of income.

The weighted average amortization periods for intangibles are:

Intangible assets/liabilities	Years
Trade name	21.0
Favorable lease terms(*)	6.6
Unfavorable lease terms(**)	4.7
Port terminal operating rights	30.0
Customer relationships	20.0

- (\*) The intangible asset associated with the favorable lease terms includes an amount of \$21,782 related to purchase options for the vessels.
- (\*\*) The intangible liability associated with the unfavorable lease terms includes an amount of \$9,405 related to purchase options held by third parties.
- (o) Foreign Currency Translation: The Company's functional and reporting currency is the U.S. dollar. The Company engages in worldwide commerce with a variety of entities. Although, its operations may expose it to certain levels of foreign currency risk, its transactions are predominantly U.S. dollar denominated. Additionally, the Company's subsidiaries in Uruguay, Argentina, Brazil and Paraguay transact a nominal amount of their operations in Uruguayan pesos, Argentinean pesos, Reales and Guaranies whereas the Company's wholly-owned vessel subsidiaries and the vessel management subsidiaries transact a nominal amount of their operations in Euros; however, all of the subsidiaries' primary cash flows are U.S. dollar denominated. Transactions in currencies other than the functional currency are translated at the exchange rate in effect at the date of each transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

consummated and the date on which it is either settled or translated, are recognized in the statement of comprehensive (loss)/income. The foreign currency exchange gains/(losses) recognized in the consolidated statement of comprehensive (loss)/income for each of the years ended December 31, 2013, 2012 and 2011, were \$184, (\$217) and (\$383), respectively.

(p) Provisions: The Company, in the ordinary course of business, is subject to various claims, suits and complaints. Management, in consultation with internal and external advisers, will provide for a contingent loss in the financial statements if the contingency had occurred at the date of the financial statements and the likelihood of loss was probable and the amount can be reasonably estimated. If the Company has determined that the reasonable estimate of the loss is a range and there is no best estimate within the range, the Company will provide the lower amount within the range. See Note 14, "Commitments and Contingencies" for further discussion.

The Company participates in Protection and Indemnity (P&I) insurance plans provided by mutual insurance associations known as P&I clubs. Under the terms of these plans, participants may be required to pay additional premiums (supplementary calls) to fund operating deficits incurred by the clubs ("back calls"). Obligations for back calls are accrued annually based on information provided by the P&I clubs.

Provisions for estimated losses on uncompleted voyages and vessels time chartered to others are provided for in the period in which such losses are determined. As of December 31, 2013 and 2012, the balance for provision for loss making voyages in progress was \$801 and \$4,974, respectively.

(q) Segment Reporting: Operating segments, as defined, are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Based on the Company's methods of internal reporting and management structure, the Company currently has two reportable segments: the Drybulk Vessel Operations segment and the Logistics Business segment. Previously, the Company had a Tanker Vessel Operations segment until the deconsolidation of Navios Acquisition on March 30, 2011.

#### (r) Revenue and Expense Recognition:

**Revenue Recognition:** Revenue is recorded when services are rendered, the Company has a signed charter agreement or other evidence of an arrangement, the price is fixed or determinable, and collection is reasonably assured. The Company generates revenue from transportation of cargo, time charter of vessels, port terminal operations, bareboat charters, contracts of affreightment/voyage contracts, demurrages and contracts covering dry or liquid port terminal operations.

Voyage revenues for the transportation of cargo are recognized ratably over the estimated relative transit time of each voyage. A voyage is deemed to commence when a vessel is available for loading and is deemed to end upon the completion of the discharge of the current cargo. Estimated losses on voyages are provided for in full at the time such losses become evident. Under a voyage charter, the Company agrees to provide a vessel for the transportation of specific goods between specific ports in return for payment of an agreed upon freight rate per ton of cargo.

Revenue from time chartering and bareboat chartering is earned and recognized on a daily basis as the service is delivered. Revenue from contracts of affreightment/voyage contracts is recognized based upon the percentage of voyage completion. A voyage is deemed to commence upon the departure of the barge after discharge under the previous voyage and is deemed to end upon the completion of discharge under the current voyage. The percentage of voyage completion is based on the days traveled as of the balance sheet date divided by the total days expected for the voyage. The position of the barge at the balance sheet date is determined by the days traveled as of the balance sheet date over the total voyage of the pushboat having the barge in tow. Revenue arising from contracts that provide our customers with continuous access to convoy capacity is recognized ratably over the period of the contracts.

Demurrage income represents payments made by the charterer to the vessel owner when loading or discharging time exceeds the stipulated time in the voyage charter and is recognized as it is earned.

Revenues arising from contracts that provide our customers with continuous access to convoy capacity are recognized ratably over the period of the contracts.

Profit-sharing revenues are calculated at an agreed percentage of the excess of the charterer's average daily income (calculated on a quarterly or half-yearly basis) over an agreed amount and accounted for on an accrual basis based on provisional amounts and for those contracts that provisional accruals cannot be made due to the nature of the profit sharing elements, these are accounted for on the actual cash settlement.

Revenues from time chartering of vessels are accounted for as operating leases and are thus recognized on a straight line basis as the average revenue over the rental periods of such charter agreements as service is performed, except for loss generating time

(Expressed in thousands of U.S. dollars — except share data)

charters, in which case the loss is recognized in the period when such loss is determined. A time charter involves placing a vessel at the charterers' disposal for a period of time during which the charterer uses the vessel in return for the payment of a specified daily hire rate. Short period charters for less than three months are referred to as spot-charters. Charters extending three months to a year are generally referred to as medium term charters. All other charters are considered long-term. Under time charters, operating costs such as for crews, maintenance and insurance are typically paid by the owner of the vessel.

Revenues from port terminal operations consist of an agreed flat fee per ton and cover the services performed to unload barges (or trucks), transfer the product into the silos for temporary storage and then loading the ocean-going vessels. Revenues are recognized upon completion of loading the ocean-going vessels. Additionally, fees are charged for vessel dockage and for storage time in excess of contractually specified terms. Dockage revenues are recognized ratably up to completion of loading. Storage fees are assessed and recognized when the product remains in the silo storage beyond the contractually agreed time allowed. Storage fee revenue is recognized ratably over the storage period and ends when the product is loaded onto the ocean-going vessel.

Revenues from liquid port terminal operations consist mainly of sales of petroleum products in the Paraguayan market. Additionally, revenues consist of an agreed flat fee per cubic meter to cover the services performed to unload barges, transfer the products into the tanks for temporary storage and then loading the trucks. Revenues are recognized upon completion of loading the trucks. Additionally, fees are charged for storage time in excess of contractually specified terms. Storage fee revenue is recognized ratably over the storage period and ends when the product is loaded onto the trucks.

Recovery of lost revenue under credit default insurance for charterers is accounted for as gain contingency and is recognized when all contingencies are resolved. The amount of recovery of lost revenue is recorded within the caption "Revenue" and any amount recovered in excess of the lost revenue is recorded within the caption "Other income".

Expenses related to our revenue-generating contracts are recognized as incurred.

**Forward Freight Agreements (FFAs):** Realized gains or losses from FFAs are recognized monthly concurrent with cash settlements. In addition, the FFAs are "marked to market" quarterly to determine the fair values which generate unrealized gains or losses. Trading of FFAs could lead to material fluctuations in the Company's reported results from operations on a period to period basis. See Note 12.

**Deferred Income and Cash Received In Advance:** Deferred voyage revenue primarily relates to cash received from charterers prior to it being earned. These amounts are recognized as revenue over the voyage or charter period.

Time Charter, Voyage and Logistics Business Expenses: Time charter, voyage and logistics business expenses comprise all expenses related to each particular voyage, including time charter hire paid and voyage freight paid, bunkers, port charges, canal tolls, cargo handling, agency fees and brokerage commissions. Also included in time charter, voyage and logistics business expenses are charterers' liability insurances, provision for losses on time charters and voyages in progress at year-end, direct port terminal expenses and other miscellaneous expenses.

**Direct Vessel Expenses:** Direct vessel expenses consist of all expenses relating to the operation of vessels, including crewing, repairs and maintenance, insurance, stores and lubricants and miscellaneous expenses such as communications and amortization of drydocking and special survey costs net of related party management fees.

**Prepaid Voyage Costs:** Prepaid voyage costs relate to cash paid in advance for expenses associated with voyages. These amounts are recognized as expenses over the voyage or charter period.

#### (s) Employee benefits:

**Pension and Retirement Obligations-Crew:** The Company's ship-owning subsidiaries employ the crew on board under short-term contracts (usually up to nine months) and, accordingly, they are not liable for any pension or post-retirement benefits.

Provision for Employees' Severance and Retirement Compensation: The employees in the Company's office in Greece are protected by Greek labor law. According to the law, the Company is required to pay retirement indemnities to employees upon dismissal or upon leaving with an entitlement to a full security retirement pension. The amount of compensation is based on the number of years of service and the amount of remuneration at the date of dismissal or retirement up to a maximum of two years' salary. If the employees remain in the employment of the Company until normal retirement age, they are entitled to retirement compensation which is equal to 40% of the compensation amount that would be payable if they were dismissed at that time. The number of employees that will remain with the Company until retirement age is not known. The Company considers this plan equivalent to a lump sum defined benefit pension plan and accounts for it under FASB guidance on employer's accounting for pension. The Company is required to annually value the statutory terminations indemnities liability. Management obtains a

(Expressed in thousands of U.S. dollars — except share data)

valuation from independent actuaries to assist in the calculation of the benefits. The Company provides, in full, for the employees' termination indemnities liability. This liability amounted to \$660 and \$686 at December 31, 2013 and 2012, respectively.

**U.S. Retirement Savings Plan:** The Company sponsors a 401(k) retirement savings plan, which is categorized as a defined contribution plan. The plan is available to full time employees who meet the plan's eligibility requirements. The plan permits employees to make contributions up to 15% of their annual salary with the Company matching up to the first 6%. The Company makes monthly contributions (matching contributions) to the plan based on amounts contributed by employees. Subsequent to making the matching contributions, the Company has no further obligations. The Company may make an additional discretionary contribution annually if such a contribution is authorized by the Board of Directors. The plan is administered by an independent professional firm that specializes in providing such services. See Note 13.

**Other Post-Retirement Obligations:** The Company has a legacy pension arrangement for certain Bahamian, Uruguayan and former Navios Corporation employees. The entitlement to these benefits is only to these former employees. The expected costs of these benefits are accrued each year, using an accounting methodology similar to that for defined benefit pension plans. These obligations are valued annually by independent actuaries.

**Stock-Based Compensation:** In December 2013, 2012 and 2011, the Company authorized the issuance of shares of restricted common stock, restricted stock units and stock options in accordance with the Company's stock option plan for its employees, officers and directors. These awards of restricted common stock restricted stock units and stock options are based on service conditions only and vest over three years. In December 2013, the Company also authorized the issuance of shares of restricted common stock, restricted stock units and stock options for its employees, officers and directors that vest on April 30, 2015 upon achievement of certain internal performance criteria and set targets.

The fair value of stock option grants is determined with reference to option pricing model and principally adjusted Black-Scholes models. The fair value of restricted stock and restricted stock units is determined by reference to the quoted stock price on the date of grant. Compensation expense, net of estimated forfeitures, is recognized based on a graded expense model over the vesting period. Compensation expense for the awards that vest upon achievement of the performance criteria is recognized when it is probable that the performance criteria will be met.

(t) Financial Instruments: Financial instruments carried on the balance sheet include cash and cash equivalents, restricted cash, trade receivables and payables, other receivables and other liabilities, long-term debt, capital leases and available-for-sale securities. The particular recognition methods applicable to each class of financial instrument are disclosed in the applicable significant policy description of each item, or included below as applicable.

**Financial Risk Management:** The Company's activities expose it to a variety of financial risks including fluctuations in future freight rates, time charter hire rates, fuel prices and credit and interest rates risk. Risk management is carried out under policies approved by executive management. Guidelines are established for overall risk management, as well as specific areas of operations.

**Credit Risk:** The Company closely monitors its exposure to customers and counterparties for credit risk. The Company has policies in place to ensure that it trades with customers and counterparties with an appropriate credit history. Derivative counterparties and cash transactions are limited to high quality credit financial institutions.

**Interest Rate Risk:** Any differential to be paid or received on an interest rate swap agreement is recognized as a component of gain/loss on derivatives over the period of the agreement. Gains and losses on early termination of interest rate swaps are taken to the consolidated statement of income. The effective portion of changes in the fair value of interest rate swap agreements that are designated and qualify as cash flow hedges are recognized in equity.

**Liquidity Risk:** Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Company monitors cash balances adequately to meet working capital needs.

**Foreign Exchange Risk:** Foreign currency transactions are translated into the measurement currency at rates prevailing on the dates of the relevant transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of income.

#### Accounting for Derivative Financial Instruments and Hedging Activities:

The Company may enter into drybulk shipping FFAs as economic hedges relating to identifiable ship and/or cargo positions and as economic hedges of transactions the Company expects to carry out in the normal course of its shipping business. By utilizing

(Expressed in thousands of U.S. dollars — except share data)

certain derivative instruments, including drybulk shipping FFAs, the Company manages the financial risk associated with fluctuating market conditions. In entering into these contracts, the Company has assumed the risk that might arise from the possible inability of counterparties to perform in accordance with the terms of their contracts.

The Company also trades drybulk shipping FFAs which are cleared through LCH, the London clearing house. LCH calls for both base and margin collateral, which are funded by Navios Holdings, and which in turn substantially eliminate counterparty risk. Certain portions of these collateral funds may be restricted at any given time as determined by LCH.

At the end of each calendar quarter, the fair value of drybulk shipping FFAs traded over-the-counter are determined from an index published in London, United Kingdom and the fair value of those FFAs traded with LCH is determined from the LCH valuations.

The Company records all of its derivative financial instruments and hedges as economic hedges.

The Company classifies cash flows related to derivative financial instruments within cash provided by operating activities in the consolidated statements of cash flows.

- (u) (Losses)/Earnings Per Share: Basic (losses)/earnings per share are computed by dividing net (loss)/income attributable to Navios Holdings common stockholders by the weighted average number of shares of common stock outstanding during the periods presented. Diluted earnings per share reflect the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted. Dilution has been computed by the treasury stock method whereby all of the Company's dilutive securities (convertible preferred stock, stock options and warrants) are assumed to be exercised and the proceeds used to repurchase common shares at the weighted average market price of the Company's common stock during the relevant periods. The incremental shares (the difference between the number of shares assumed issued and the number of shares assumed purchased) shall be included in the denominator of the diluted earnings per share computation. For the year ended December 31, 2011, preferred stock dividends of subsidiaries and preferred stock dividends attributable to the noncontrolling interest were included in the calculation of net income attributable to Navios Holdings common stockholders. Restricted stock and restricted stock units (vested and unvested) are included in the calculation of the diluted earnings per share, based on the weighted average number of restricted stock units assumed to be outstanding during the period. Convertible shares are included in the calculation of the diluted earnings per share, based on the weighted average number of convertible shares assumed to be outstanding during the period. See also Note 21.
- (v) Income Taxes: The Company is a Marshall Islands Corporation. Pursuant to various treaties and the United States Internal Revenue Code, the Company believes that substantially all its operations are exempt from income taxes in the Marshall Islands and United States of America. The tax expense reflected in the Company's consolidated financial statements for the years ended December 31, 2013, 2012 and 2011 was mainly attributable to its subsidiaries in South America, which are subject to the Argentinean and Paraguayan income tax regime.

The asset and liability method is used to account for future income taxes. Under this method, future income tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts and the tax bases of assets and liabilities. Future income tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on future income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A deferred tax asset is recognized for temporary differences that will result in deductible amounts in future years. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax asset will not be realized.

- (w) Dividends: Dividends are recorded in the Company's financial statements in the period in which they are declared.
- (x) Guarantees: A liability for the fair value of the obligation undertaken in issuing the guarantee is recognized. The recognition of fair value is not required for certain guarantees such as the parent's guarantee of a subsidiary's debt to a third party or guarantees on product warranties. For those guarantees excluded from the above guidance requiring the fair value recognition provision of the liability, financial statement disclosures of their terms are made.
  - On November 15, 2012, the Company agreed to provide Navios Partners with guarantees against counterparty default on certain existing charters (see also Notes 16 and 25).
- (y) Leases: Vessel leases where Navios Holdings is regarded as the lessor are classified as either finance leases or operating leases based on an assessment of the terms of the lease.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

For charters classified as finance type leases the minimum lease payments are recorded as the gross investment in the lease. The difference between the gross investment in the lease and the sum of the present values of the two components of the gross investment is recorded as unearned income which is amortized to income over the lease term as finance lease interest income to produce a constant periodic rate of return on the net investment in the lease.

For charters classified as operating leases where Navios Holdings is regarded as the lessor, refer to Note 2(r) "Revenue and Expense Recognition".

For charters classified as operating leases where Navios Holdings is regarded as the lessee, the expense is recognized on a straight line basis over the rental periods of such charter agreements. The expense is included under the line "Time charter, voyage and logistics business expenses".

- (z) Treasury Stock: Treasury stock is accounted for using the cost method. Excess of the purchase price of the treasury stock acquired, plus direct acquisition costs over its par value is recorded in additional paid-in capital.
- (aa) Trade Accounts Receivable: The amount shown as accounts receivable, trade, at each balance sheet date, includes receivables from charterers for hire, freight and demurrage billings and FFA counterparties, net of a provision for doubtful accounts. At each balance sheet date, all potentially uncollectible accounts are assessed individually for purposes of determining the appropriate provision for doubtful accounts.
- (ab) Convertible Preferred Stock: The Company's 2% Mandatorily Convertible Preferred Stock ("Preferred Stock") are recorded at fair market value on issuance. The fair market value is determined using a binomial valuation model. The model which is used takes into account the credit spread of the Company, the volatility of its stock, as well as the price of its stock at the issuance date. Each preferred share has a par value of \$0.0001. Each holder of Preferred Stock is entitled to receive an annual dividend equal to 2% on the nominal value of the Preferred Stock, payable quarterly, until such time as the Preferred Stock converts into common stock. Five years after the issuance date all Preferred Stock shall automatically convert into shares of common stock at a conversion price equal to \$10.00 per preferred share. At any time following the third anniversary from their issuance date, if the closing price of the common stock has been at least \$20.00 per share, for 10 consecutive business days, the remaining balance of the then-outstanding preferred shares shall automatically convert at a conversion price equal to \$14.00 per share of common stock. The holders of Preferred Stock are entitled, at their option, at any time following their issuance date and prior to their final conversion date, to convert all or any such then-outstanding preferred shares into common stock at a conversion price equal to \$14.00 per preferred share.
- (ac) Investment in Available-for-Sale Securities: The Company classifies its existing marketable equity securities as available-for-sale. These securities are carried at fair value, with unrealized gains and losses excluded from earnings and reported directly in stockholders' equity as a component of other comprehensive income (loss) unless an unrealized loss is considered "other-than-temporary," in which case it is transferred to the statements of income. Management evaluates securities for other than temporary impairment ("OTTI") on a quarterly basis. Consideration is given to (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial condition and near-term prospects of the investee, and (iii) the intent and ability of the Company to retain its investment in the investee for a period of time sufficient to allow for any anticipated recovery in fair value.
  - Investment in Equity Securities: Navios Holdings evaluates its investments in Navios Acquisition, Navios Partners and Navios Europe for OTTI on a quarterly basis. Consideration is given to (i) the length of time and the extent to which the fair value has been less than the carrying value, (ii) the financial condition and near-term prospects of Navios Partners, Navios Acquisition and Navios Europe, and (iii) the intent and ability of the Company to retain its investment in Navios Acquisition, Navios Partners and Navios Europe for a period of time sufficient to allow for any anticipated recovery in fair value.
- (ad) Financial Instruments and Fair Value: Guidance on Fair Value Measurements provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level I measurements) and the lowest priority to unobservable inputs (level III measurements).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to guidance on Fair Value Measurements.

(Expressed in thousands of U.S. dollars — except share data)

#### NOTE 3: DECONSOLIDATION

#### Deconsolidation of Navios Acquisition

On March 30, 2011, Navios Holdings completed an exchange whereby Navios Holdings exchanged 7,676,000 shares of Navios Acquisition's common stock for non-voting Series C preferred stock of Navios Acquisition pursuant to an Exchange Agreement entered into on March 30, 2011 between Navios Acquisition and Navios Holdings (the "Navios Acquisition Share Exchange"). The fair value of the exchange was \$30,474, which was based on the share price of the publicly traded common shares of Navios Acquisition on March 30, 2011. Immediately after the Navios Acquisition Share Exchange, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition decreased to 45% and Navios Holdings no longer controlled a majority of the voting power of Navios Acquisition. From that date onwards, Navios Acquisition has been considered as an affiliate entity of Navios Holdings and not as a controlled subsidiary of the Company, and the investment in Navios Acquisition has been accounted for under the equity method due to the Company's significant influence over Navios Acquisition. Navios Acquisition has been accounted for under the equity method of accounting based on Navios Holdings' economic interest in Navios Acquisition, since the preferred stock is considered to be, in substance, common stock for accounting purposes.

On March 30, 2011, based on the equity method, the Company recorded an investment in Navios Acquisition of \$103,250, which represents the fair value of the common stock and Series C preferred stock (in-substance common stock) that were held by Navios Holdings on such date. On March 30, 2011, the Company calculated a loss on change in control of \$35,325, which was calculated as the fair value of the Company's equity method investment in Navios Acquisition of \$103,250 less the Company's 53.7% interest in Navios Acquisition's net assets on March 30, 2011.

As of December 31, 2013, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition was 47.8% and its economic interest in Navios Acquisition was 50.5%.

### NOTE 4: CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	December 31, 2013	December 31, 2012
Cash on hand and at banks	\$ 158,037	\$ 61,283
Short-term deposits and highly liquid funds	29,794	196,585
Total cash and cash equivalents	\$ 187,831	\$ 257,868

Short term deposits and highly liquid funds relate to amounts held in banks for general financing purposes and represent deposits with duration of less than three months.

Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Holdings does maintain cash deposits and equivalents in excess of government provided insurance limits. Navios Holdings also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

### NOTE 5: ACCOUNTS RECEIVABLE, NET

Accounts receivable consist of the following:

	December 31, 2013	December 31, 2012
Accounts receivable	\$ 112,676	\$ 111,657
Less: provision for doubtful receivables	(26,457)	(25,936)
Accounts receivables, net	\$ 86,219	\$ 85,721

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Changes to the provisions for doubtful accounts are summarized as follows:

	Balance at	Charges to		Balance at
	Beginning of	Costs and	Amount	End of
Allowance for doubtful receivables	Period	expenses	Utilized	Period
Year ended December 31, 2011	\$ (8,635)	\$ (239)	\$ —	\$ (8,874)
Year ended December 31, 2012	\$ (8,874)	\$(17,136)	\$ 74	\$(25,936)
Year ended December 31, 2013	\$ (25,936)	\$ (630)	\$ 109	\$ (26,457)

During the year ended December 31, 2012, the increase in the Company's provision for losses on accounts receivable (which resulted from the recognition of \$17,136 of bad debt expense during the period) relates mainly to (i) \$4,593 of receivable balances from various defaulted charterers that are no longer covered by the Company's Charter Insurance following the Insurance Restructuring (each as defined in Note 25); and (ii) \$12,543 of receivable balances from charterers whose financial condition and creditworthiness deteriorated during the period causing the Company to determine that these receivables may no longer be recoverable.

Concentration of credit risk with respect to accounts receivable are limited due to the Company's large number of customers, who are internationally dispersed and have a variety of end markets in which they sell. Due to these factors, management believes that no additional credit risk beyond amounts provided for collection losses is inherent in the Company's trade receivables. For the years ended December 31, 2013, 2012 and 2011, none of the customers accounted for more than 10% of the Company's revenue.

#### NOTE 6: PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets consist of the following:

	December 31, 2013	December 31, 2012	
Prepaid voyage and operating costs	\$ 12,621	\$ 6,414	
Claim receivables	8,658	3,953	
Advances to agents	795	669	
Short-term derivative assets	_	1,275	
Prepaid taxes	4,750	2,986	
Other	2,155	4,585	
Total prepaid expenses and other current assets	\$ 28,979	\$ 19,882	

Claims receivable mainly represents claims against vessels' insurance underwriters in respect of damages arising from accidents or other insured risks, as well as claims under charter contracts including off-hires. While it is anticipated that claims receivable will be recovered within one year, such claims may not all be recovered within one year due to the attendant process of settlement. Nonetheless, amounts are classified as current as they represent amounts currently due to the Company. All amounts are shown net of applicable deductibles.

#### NOTE 7: VESSELS, PORT TERMINAL AND OTHER FIXED ASSETS

#### Sale of Vessels

On May 19, 2011, Navios Holdings sold the Navios Luz, a 2010-built Capesize vessel, and the Navios Orbiter, a 2004-built Panamax vessel, to Navios Partners for a total consideration of \$130,000, of which \$120,000 was paid in cash and \$10,000 was paid through the receipt of 507,916 newly issued common units of Navios Partners (see Note 9, 16 and 19).

On June 15, 2012, Navios Holdings sold the Navios Buena Ventura, a 2010-built Capesize vessel to Navios Partners for a cash consideration of \$67,500 (see Note 16 and 19).

#### Vessel Acquisitions

On January 28, 2011, Navios Holdings took delivery of the Navios Altamira, a new, 2010-built 179,165 dwt Capesize vessel, from a South Korean shipyard for an acquisition price of \$55,427, of which \$15,427 was paid in cash and the remaining amount of \$40,000 was funded through a loan.

On February 14, 2011, Navios Holdings took delivery of the Navios Azimuth, a new, 2011-built 179,169 dwt Capesize vessel from a South Korean shipyard for a purchase price of approximately \$55,672, of which \$14,021 was paid in cash, \$40,000 was financed through a loan and the remaining amount was funded through the issuance of 300 shares of preferred stock issued in 2010.

On February 21, 2011, Navios Holdings exercised its purchase option to acquire the Navios Astra, a 53,468 dwt Ultra- Handymax vessel and former long-term chartered-in vessel in operation, which was delivered to Navios Holdings' owned fleet. The Navios Astra's acquisition price was \$22,775, of which \$1,513 was the unamortized portion of the favorable lease term. On May 10, 2011, the amount of \$18,850 was drawn to finance the acquisition of the Navios Astra.

On March 26, 2012, Navios Holdings took delivery of the Navios Serenity, a 2011-built 34,690 dwt Handysize vessel and former long-term chartered-in vessel in operation, for an acquisition price of \$26,117, of which \$26,000 was funded through a loan and the remaining amount was paid from existing cash.

On March 30, 2012, Navios Holdings took delivery of the Navios Centaurus, a new, 2012-built 81,472 dwt bulk carrier vessel from a South Korean shipyard for an acquisition price of \$37,095, of which \$15,645 was paid from existing cash and \$21,450 was financed through a loan.

On May 14, 2012, Navios Holdings took delivery of the Navios Avior, a new, 2012-built 81,355 dwt bulk carrier vessel, from a South Korean shipyard for a purchase price of \$39,094, of which \$18,210 was paid from existing cash and \$20,884 was financed through a loan.

On August 26, 2013, September 10, 2013, September 17, 2013 and September 19, 2013, Navios Holdings took delivery of the Navios Galileo (2006-built 76,596 dwt), the Navios Amitie (2005-built 75,395 dwt), the Navios Taurus (2005-built 76,596 dwt) and the Northern Star (2005-built 75,395 dwt). The total acquisition price for the four vessels was \$67,795, of which \$27,795 was paid from existing cash and \$40,000 was financed through a loan.

In October, 2013, Navios Asia took delivery of the N Amalthia, a 2006-built 75,318 dwt bulk carrier vessel for a purchase price of \$17,905, of which \$6,655 was paid from the Company's and noncontrolling shareholders' cash and \$11,250 was financed through a loan.

#### Navios Logistics

During the first quarter of 2010, Navios Logistics began the construction of a grain drying and conditioning facility at its dry port facility in Nueva Palmira, Uruguay. The facility, which has been operational since May 16, 2011, has been financed entirely with funds provided by Navios Logistics' dry port operations with a total cost of \$3,891. During 2011, Navios Logistics used a portion of the proceeds from the Logistics Senior Notes (as defined in Note 11) to pay \$10,819 for the acquisition of two pushboats named William Hank and Lonny Fugate and another \$6,360 for the acquisition of a pushboat named WW Dyer. Additionally, Navios Logistics used a portion of such proceeds to pay \$19,836 for the acquisition of 66 dry barges, \$17,635 relating to transportation and other related costs associated with the acquired pushboats and barges, and \$4,304 for the acquisition of a floating drydock facility.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

In September 2011, Navios Logistics acquired an additional 23 acre parcel of land located south of the Nueva Palmira Free Zone as part of a project to develop a new transshipment facility for mineral ores and liquid bulks.

On May 9, 2012, Navios Logistics entered into an agreement for the restructuring of its capital leases for the San San H and the Ferni H (formerly known as the Stavroula), by extending their duration until June 2016 and amending the purchase price obligations to \$9,850 and \$9,800, respectively, each at the end of the extended period. As of December 31, 2013, the obligations for these vessels were accounted for as capital leases and the lease payments during the year ended December 31, 2013 for both vessels were \$1,353.

During the second quarter of 2012, Navios Logistics began the construction of a new conveyor belt in its dry port facility in Nueva Palmira, which became operational in October 2013. As of December 31, 2013, Navios Logistics had paid \$21,773 for the construction of the new conveyor belt.

Navios Logistics constructed four new tank barges. Two barges were delivered in October and December 2012 and two were delivered in April and June, 2013, with a cost of \$1,900 each.

On June 26, 2013, Navios Logistics entered into an agreement for the acquisition of three pushboats for a total acquisition price of \$20,250. As of December 31, 2013, Navios Logistics had paid \$19,767 for the acquisition of the three pushboats.

On August 5, 2013, Navios Logistics entered into an agreement for the construction of 36 dry barges for a total consideration of \$19,080, and on October 8, 2013 the company exercised the option for the construction of an additional 36 dry barges for a total consideration of \$19,080, based on the initial agreement. As of December 31, 2013, Navios Logistics had paid \$11,448 for the construction of the new barges.

<sup>(\*)</sup> As of December 31, 2013, the intangible asset associated with the favorable lease terms includes an amount of \$21,782 related to purchase options for the vessels (see Note 2(n)). As of December 31, 2012, \$9,207 was written off because the purchase option was not exercised.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

- (\*\*) As of December 31, 2013, the intangible liability associated with the unfavorable lease terms includes an amount of \$9,405 related to purchase options held by third parties (see Note 2(n)). As of December 31, 2013 and 2012, no purchase options held by third parties have been exercised. As of December 31, 2012 \$6,485 was written off because the purchase option was not exercised.
- (\*\*\*) During the years ended December 31, 2013 and 2012, acquisition costs and accumulated amortization of \$3,780 and \$14,470, respectively, of fully amortized favorable lease terms were written off.
- (\*\*\*\*) On March 19, 2013, Navios Logistics acquired Energias Renovables del Sur S.A ("Enresur"), a Uruguayan company, for a total consideration of \$2,092. Enersur, as a free zone direct user, holds the right to occupy approximately 12 hectares of undeveloped land located in the Nueva Palmira free zone in Uruguay, near to Navios Logistics' existing port. Navios Logistics accounted for the acquisition as an asset acquisition and as a result, an intangible asset related to the contractual rights was recorded under port terminals operating rights.

### **NOTE 9: INVESTMENT IN AFFILIATES**

#### **Navios Partners**

On August 7, 2007, Navios Holdings formed Navios Partners under the laws of Marshall Islands. Navios GP L.L.C. (the "General Partner"), a wholly owned subsidiary of Navios Holdings, was also formed on that date to act as the general partner of Navios Partners and received a 2.0% general partner interest.

On January 1, 2012, all of the outstanding subordinated units converted into 7,621,843 common units of Navios Partners (excluding the Series A Subordinated Units, which are a separate class of subordinated units) ("the Conversion"). The Company concluded that the Conversion resulted in a change in the form of its investment in Navios Partners that was a reconsideration event pursuant to ASC 323-10-15-16a. In connection with that reconsideration, the Company concluded that the common units of Navios Partners, which prior to January 1, 2012 did not meet the definition of common stock or "in-substance common stock," met the definition of "in-substance common stock" starting January 1, 2012. Although the common units continued to enjoy certain preferences by comparison to the Series A Subordinated Units, the Series A Subordinated Units constituted such a small portion of the capital structure of Navios Partners and, as such, the liquidation preference was not considered to be substantive under ASC 323-10-15-13a. In addition, at the time of the reconsideration, it was known that the Series A Subordinated Units would themselves automatically convert to common units of Navios Partners on June 29, 2012. Accordingly, the Company concluded that the risk and reward profile of the common units and Series A Subordinated Units were substantially the same in accordance with ASC 323-10-15-

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

13b. As a result, the Company's entire investment in Navios Partners (a portion of which was previously accounted for as available-for-sale securities) is accounted for by the equity method from January 1, 2012. As a result, the carrying value of the available-for sale securities of \$82,572 plus the amount reflected in other comprehensive losses of \$6,158 (in each case, as of December 31, 2011) was reclassified to "Investments in Affiliates."

On June 29, 2012, the outstanding subordinated Series A units converted into 1,000,000 shares of common units which have the same distribution rights as all other common unit holders.

In May 2012, Navios Partners completed its public offering of 4,600,000 common units. Navios Holdings paid \$1,472 in order to retain its 2.0% general partner interest. Following this offering Navios Holdings' interest in Navios Partners decreased. The Company deemed that the issuance of shares qualified as a sale of shares by the equity method investee. As a result, a gain of \$9,497 was recognized in "Equity in net earnings of affiliated companies".

In February and September 2013, Navios Partners completed two public offerings in an aggregate amount of 10,925,000 common units, including the full exercise of the underwriters' overallotment options. Navios Holdings paid \$3,168 in order to retain its 2.0% general partner interest. Following these offerings Navios Holdings' interest in Navios Partners decreased. The Company determined that the issuance of shares qualified as sales of shares by the equity method investee. As a result, gains of \$15,991 were recognized in "Equity in net earnings of affiliated companies" for the year ended December 31, 2013.

As of December 31, 2013, Navios Holdings holds a total of 14,223,763 common units, representing a 19.6% common interest in Navios Partners and the entire investment in Navios Partners is accounted for under the equity method.

As of December 31, 2013 and 2012, the unamortized difference between the carrying amount of the investment in Navios Partners and the amount of the Company's underlying equity in net assets of Navios Partners was \$42,412 and \$51,528, respectively. This difference is amortized through "Equity in net earnings of affiliated companies" over the remaining life of Navios Partners tangible and intangible assets.

Gains of \$32,857, \$36,294 and \$14,962 were recognized in "Equity in net earnings of affiliated companies" for the years ended December 31, 2013, 2012 and 2011, respectively.

As of December 31, 2013 and December 31, 2012, the carrying amount of the investment in Navios Partners accounted for under the equity method was \$110,516 and \$103,953, respectively.

Dividends received during the year ended December 31, 2013, 2012 and 2011 were \$29,461, \$27,916 and \$25,640, respectively.

### Acropolis

Navios Holdings has a 50% interest in Acropolis, a brokerage firm for freight and shipping charters. Although Navios Holdings owns 50% of Acropolis' stock, Navios Holdings agreed with the other shareholder that the earnings and amounts declared by way of dividends will be allocated 35% to the Company with the balance to the other shareholder. As of December 31, 2013 and December 31, 2012, the carrying amount of the investment was \$350 and \$420, respectively. Dividends received for each of the years ended December 31, 2013, 2012 and 2011 were \$433, \$140 and \$602, respectively.

#### **Navios Acquisition**

From March 30, 2011, Navios Acquisition has been considered as an affiliate entity of Navios Holdings and not as a controlled subsidiary of the Company. In February, May and September 2013, Navios Acquisition completed multiple offerings, including registered direct offerings and private placements to Navios Holdings and certain members of the management of Navios Acquisition, Navios Partners and Navios Holdings. A total of 94,097,529 shares were issued. As part of these offerings, Navios Holdings purchased in private placements an aggregate of 46,969,669 shares of Navios Acquisition common stock for \$160,001. Following these offerings, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition increased and its economic interest in Navios Acquisition decreased. The Company determined that the issuance of shares qualified as sales of shares by the equity method investee. As a result, losses of \$6,171 were recognized in "Equity in net earnings of affiliated companies" for the year ended December 31, 2013.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

As of December 31, 2013 and 2012, the unamortized difference between the carrying amount of the investment in Navios Acquisition and the amount of the Company's underlying equity in net assets of Navios Acquisition was \$12,052 and \$17,450, respectively. This difference is amortized through "Equity in net earnings of affiliated companies" over the remaining life of Navios Acquisition tangible and intangible assets.

(Losses)/gains of \$(20,759), \$(1,070) and \$6,526 were recognized in "Equity in net earnings of affiliated companies" for the years ended December 31, 2013, 2012 and 2011, respectively.

As of December 31, 2013 and December 31, 2012, the carrying amount of the investment in Navios Acquisition accounted for under the equity method was \$219,664 and \$92,896, respectively.

Dividends received for each of the years ended December 31, 2013, 2012 and 2011 were \$10,126, \$5,202 and \$3,901, respectively.

As of December 31, 2013, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition was 47.8% and its economic interest in Navios Acquisition was 50.5%.

#### **Navios Europe**

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe and have ownership interests of 47.5%, 47.5% and 5.0%, respectively, which were received for nominal consideration, On December 18, 2013, Navios Europe acquired ten vessels for aggregate consideration consisting of (i) cash consideration of \$127,753 (which was funded with the proceeds of a \$117,753 senior loan facility (the "Senior Loan") and loans aggregating \$10,000 from Navios Holdings, Navios Acquisition and Navios Partners (in each case, in proportion to their ownership interests in Navios Europe) (collectively, the "Navios Term Loans") and (ii) the assumption of a junior participating loan facility (the "Junior Loan") with a face amount of \$173,367 and fair value of \$71,929 as of December 31, 2013. In addition to the Navios Term Loans, Navios Holdings, Navios Acquisition and Navios Partners will also make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24,100 to fund working capital requirements (collectively, the "Navios Revolving Loans").

On an ongoing basis, Navios Europe is required to distribute cash flows (after payment of operating expenses and amounts due pursuant to the terms of the Senior Loan) according to a defined waterfall calculation as follows:

- First, Navios Holdings, Navios Acquisition and Navios Partners will each earn a 12.7% preferred distribution on the Navios Term Loans and the Navios Revolving Loans;
- Second, any remaining cash is then distributed on an 80%/20% basis, respectively, between (i) the Junior Loan holder and (ii) the holders of the Navios Term Loans.

The Navios Term Loan will be repaid from the future sale of vessels owned by Navios Europe and is deemed to be the initial investment by Navios Holdings. Navios Holdings evaluated its investment in Navios Europe under ASC 810 and concluded that Navios Europe is a VIE and that they are not the party most closely associated with Navios Europe and, accordingly, is not the primary beneficiary of Navios Europe based on the following:

- the power to direct the activities that most significantly impact the economic performance of Navios Europe are shared jointly between (i) Navios Holdings, Navios Acquisition and Navios Partners and (ii) and the Junior Loan holder;
- while Navios Europe's residual is shared on an 80%/20% basis, respectively, between (i) the Junior Loan holder and (ii) Navios Holdings, Navios Acquisition and Navios Partners, the Junior Loan holder is exposed to a substantial portion of Navios Europe's risks and rewards.

Navios Holdings further evaluated its investment in the common stock of Navios Europe under ASC 323 and concluded that it has the ability to exercise significant influence over the operating and financial policies of Navios Europe and, therefore, its investment in Navios Europe is accounted for under the equity method.

As of December 31, 2013, the estimated maximum potential loss by Navios Holdings in Navios Europe would have been \$7,410, which represents the Company's portion of the initial investment of \$4,750 plus the Company's portion of the carrying balance of the Navios Revolving Loans of \$2,660 and does not include the undrawn portion of the revolving loans.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

For the year ended December 31, 2013, Navios Europe had minimal operations and therefore, the Company did not record any equity method investee income/(loss).

### Navios Holdings loans

#### Senior Notes

In December 2006, the Company issued \$300,000 in senior notes at a fixed rate of 9.5% due on December 15, 2014 (the "2014 Notes"). On January 28, 2011, Navios Holdings and its wholly owned subsidiary, Navios Maritime Finance II (US) Inc. (together with the Company, the "2019 Co-Issuers") completed the sale of \$350,000 of 8.125% Senior Notes due 2019 (the "2019 Notes"). The net proceeds from the sale of the 2019 Notes were used to redeem any and all of Navios Holdings' outstanding 2014 Notes and pay related transaction fees and expenses and for general corporate purposes. The effect of this transaction was the recognition of a \$21,199 loss in the statement of income under "Loss on bond and debt extinguishment", which comprises a \$5,573 loss relating to the accelerated amortization of unamortized deferred finance costs and a \$15,626 loss relating to cash payments for transaction fees and expenses in connection with the 2014 Notes extinguishment.

The 2019 Notes are fully and unconditionally guaranteed, jointly and severally and on an unsecured senior basis, by all of the Company's subsidiaries, other than Navios Maritime Finance II (US) Inc., Navios Maritime Finance (US) Inc., Navios South American Logistics Inc. and its subsidiaries, Navios Asia and its subsidiaries and Navios GP L.L.C. The subsidiary guarantees are "full and unconditional", as those terms are used in Regulation S-X Rule 3-10, except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2019 Notes. The 2019 Co-Issuers have the option to redeem the 2019 Notes in whole or in part, at any time (i) before February 15, 2015, at a redemption price equal to 100% of the principal amount, plus a make-whole premium, plus accrued and unpaid interest, if any, and (ii) on or after February 15, 2015, at a fixed price of 104.063% of the principal amount, which price declines ratably until it reaches par in 2017, plus accrued and unpaid interest, if any. In addition, upon the occurrence of certain change of control events, the holders of the 2019 Notes will have the right to require the 2019 Co-Issuers to repurchase some or all of the 2019 Notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The 2019 Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering in transactions with affiliates, merging or consolidating or selling all or substantially all of the 2019 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2019 Co-Issuers were in compliance with the covenants as of December 31, 2013.

### **Ship Mortgage Notes**

In November 2009, the Company and its wholly owned subsidiary, Navios Maritime Finance (US) Inc. (together, the "Mortgage Notes Co-Issuers") issued \$400,000 of first priority ship mortgage notes due on November 1, 2017 at a fixed rate of 8.875% ("the 2017 Notes"). In July 2012, the Mortgage Notes Co-Issuers issued an additional \$88,000 of the ship mortgage notes at par value. On November 29, 2013, Navios Holdings completed the sale of \$650,000 of its 7.375% First Priority Ship Mortgage Notes

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

due 2022 (the "2022 Notes"). The 2022 Notes are guaranteed by all of the Company's subsidiaries that guarantee the 2019 Notes. The net proceeds of the offering of the 2022 Notes have been used: (i) to repay in full the \$488,000 of the 2017 Notes; and (ii) to repay in full indebtedness of \$123,257 relating to six vessels added as collateral under the 2022 Notes. The remainder has been used for general corporate purposes. The effect of this transaction was the recognition of a \$37,136 loss in the statement of income under "Loss on bond and debt extinguishment", which comprises a \$12,142 loss relating to the accelerated amortization of unamortized deferred finance costs and a \$24,994 loss relating to cash payments for transaction fees and expenses in connection with the 2017 Notes extinguishment.

The 2022 Notes are senior obligations of Navios Holdings and Navios Maritime Finance II (US) Inc. (the "2022 Co-Issuers") and are secured by first priority ship mortgages on 23 drybulk vessels owned by certain subsidiary guarantors and certain other associated property and contract rights (the "Collateral"). The 2022 Notes are fully and unconditionally guaranteed, jointly and severally by all of the Company's direct and indirect subsidiaries that guarantee the 2019 Notes and Navios Maritime Finance II (US) Inc. The guarantees of the Company's subsidiaries that own mortgage vessels are senior secured guarantees and the guarantees of the Company's subsidiaries that do not own mortgage vessels are senior unsecured guarantees. In addition, the 2022 Co-Issuers have the option to redeem the 2022 Notes in whole or in part, at any time (i) before January 15, 2017, at a redemption price equal to 100% of the principal amount plus a make whole price which is based on a formula calculated using a discount rate of treasury bonds plus 50 basis points, and (2) on or after January 15, 2017, at a fixed price of 105.531%, which price declines ratably until it reaches par in 2020.

Furthermore, upon occurrence of certain change of control events, the holders of the 2022 Notes may require the 2022 Co-Issuers to repurchase some or all of the notes at 101% of their face amount. The 2022 Notes contain covenants, which among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into certain transactions with affiliates, merging or consolidating or selling all or substantially all of the 2022 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2022 Co-Issuers were in compliance with the covenants as of December 31, 2013.

#### **Loan Facilities**

The majority of the Company's senior secured credit facilities include maintenance covenants, including loan-to-value ratio covenants, based on either charter-adjusted valuations, or charter-free valuations. As of December 31, 2013, the Company and its subsidiaries were in compliance with all of the covenants under each of its credit facilities outlined below.

HSH/Commerzbank Facility: In February 2007, Navios Holdings entered into a secured loan facility with HSH Nordbank and Commerzbank AG maturing on October 31, 2014. The facility was initially composed of a \$280,000 term loan facility and a \$120,000 reducing revolving facility and it has been amended and repaid as certain vessels have been sold.

The interest rate of the loan facility was based on a margin ranging from 115 basis points to 175 basis points depending on the specified security value.

On November 29, 2013, the Company repaid the loan and revolving credit facility in full using a portion of the proceeds of the 2022 Notes issued in November 2013. As of December 31, 2013, no amount was available under these facilities.

Credit Agricole (formerly Emporiki) Facilities: In December 2012, the Emporiki Bank of Greece facilities were transferred to Credit Agricole Corporate and Investment Bank.

In December 2007, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$154,000 in order to partially finance the construction of two Capesize bulk carriers.

The interest rate of the amended facility was based on a margin of 175 basis points. On November 29, 2013, the Company repaid in full the loan using a portion of the proceeds of the 2022 Notes issued in November 2013.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

In August 2009, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$75,000 to partially finance the acquisition costs of two Capesize vessels. The loan bears interest at a rate of LIBOR plus 175 basis points. On November 29, 2013, the Company repaid the loan in full using a portion of the proceeds of the 2022 Notes issued in November 2013.

In September 2010, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$40,000 in order to partially finance the construction of one Capesize bulk carrier. As of December 31, 2013, the outstanding amount under the loan facility was repayable in 15 semi-annual equal installments of \$1,206 with a final balloon payment of \$8,022 on the last payment date. The loan bears interest at a rate of LIBOR plus 275 basis points. The loan facility requires compliance with certain financial covenants and the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$26,112.

In August 2011, Navios Holdings entered into a facility agreement with Emporiki Bank of Greece for an amount of up to \$23,000 in order to partially finance the construction of one newbuilding bulk carrier. As of December 31, 2013, the facility is repayable in 17 semi-annual equal installments of \$681, with a final balloon payment of \$7,264 on the last payment date. The loan bears interest at a rate of LIBOR plus 275 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$18,841.

In December 2011, Navios Holdings entered into another facility agreement with Emporiki Bank of Greece for an amount of up to \$23,000 in order to partially finance the construction of one newbuilding bulk carrier. As of December 31, 2013, the outstanding amount under the loan facility was repayable in 17 semi-annual equal installments of \$700 after the drawdown date, with a final balloon payment of \$7,450 on the last payment date. The loan bears interest at a rate of LIBOR plus 325 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount under this facility was \$19,350.

On December 20, 2013, Navios Asia entered into a facility with Credit Agricole Corporate and Investment Bank for an amount of up to \$22,500 in two tranches of \$11,250 each, in order to finance the acquisition of the N Amalthia, which was delivered in October 2013, and the N Bonanza which was delivered in January 2014. The two tranches bear interest at a rate of LIBOR plus 300 basis points. As of December 31, 2013, Navios Asia had drawn \$11,250. Each tranche is repayable in ten equal semi-annual instalments of \$563, with a final balloon payment of \$5,625 on the last repayment date. The loan facility requires compliance with certain financial covenants. As of December 31, 2013, the outstanding amount of the loan was \$11,250.

DNB Facilities: In June 2008, Navios Holdings entered into a facility agreement with DNB NOR BANK ASA for an amount of up to \$133,000 in order to partially finance the construction of two Capesize bulk carriers. The interest rate of the amended facility was based on a margin of 225 basis points. On July 10, 2012, the Company repaid in full the loan using a portion of the proceeds of the ship mortgage notes issued in July 2012 and cash on hand.

In August 2010, Navios Holdings entered into a facility agreement with DNB NOR BANK ASA for an amount of up to \$40,000 in order to partially finance the construction of one Capesize bulk carrier. The loan bears interest at a rate of LIBOR plus 275 basis points. On November 29, 2013, the Company repaid the loan in full using a portion of the proceeds of the 2022 Notes issued in November 2013.

Dekabank Facility: In February 2009 (amended and restated in May 2009), Navios Holdings entered into a facility of up to \$120,000 with Dekabank Deutsche Girozentrale to finance the acquisition of two Capesize vessels. The interest rate of the facility was based on a margin of 190 basis points. On June 15, 2012, the Company sold the Navios Buena Ventura and fully repaid the outstanding balance associated with the vessel. On July 9, 2012, the Company repaid in full the loan using a portion of the proceeds of the ship mortgage notes issued in July 2012 and cash on hand.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Commerzbank Facility: In June 2009, Navios Holdings entered into a facility agreement for an amount of up to \$240,000 (divided into four tranches of \$60,000) with Commerzbank AG in order to partially finance the acquisition of a Capesize vessel and the construction of three Capesize vessels. Following the delivery of two Capesize vessels, Navios Holdings cancelled two of the four tranches and in October 2010 fully repaid their outstanding loan balances of \$53,600 and \$54,500, respectively. As of December 31, 2013, the third tranche of the facility is repayable in 22 quarterly installments of \$882, with a final balloon payment of \$13,814 on the last payment date; and the fourth tranche of the facility is repayable in 28 quarterly installments of \$835, with a final balloon payment of \$9,488 on the last payment date. The loan bears interest at a rate based on a margin of 225 basis points. The loan facility requires compliance with certain covenants and with the covenants contained in the 2019 Notes. As of December 31, 2013, the outstanding amount was \$66,086.

DVB Bank SE Facilities: On March 23, 2012, Navios Holdings entered into a facility agreement with a syndicate of banks led by DVB Bank SE for an amount of up to \$42,000 in two tranches: (i) the first tranche is for an amount of up to \$26,000 in order to finance the acquisition of a handysize vessel; and (ii) the second tranche is for an amount of up to \$16,000 to refinance the Navios Astra loan facility with Cyprus Popular Bank Public Co. Ltd. The two tranches bear interest at a rate of LIBOR plus 285 basis points and 360 basis points, respectively. As of December 31, 2013, Navios Holdings had drawn \$26,000 under the first tranche and \$14,950 under the second tranche. As of December 31, 2013, the first tranche is repayable in 25 quarterly installments of \$362, with a final balloon payment of \$14,412 on the last repayment date and the second tranche is repayable in 26 quarterly installments of \$269, with a final balloon payment of \$6,344 on the last repayment date. The loan facility requires compliance with certain financial covenants and the covenants contained in the 2019 Notes. As of December 31, 2013, the total outstanding amount was \$36,801.

In September 2013, Navios Holdings entered into a facility agreement with DVB Bank SE for an amount of up to \$40,000 in order to finance the acquisition of four Panamax vessels, delivered in August and September 2013. The facility bears interest at a rate of LIBOR plus 325 basis points. As of December 31, 2013, Navios Holdings had drawn the entire available amount under the facility. As of December 31, 2013, the facility is repayable in seven quarterly installments of \$875, followed by 12 quarterly installments of \$1,000, with a final balloon payment of \$21,000 payable on the last repayment date.

Unsecured Bond: In July 2009, Navios Holdings issued a \$20,000 unsecured bond due in July 2012 as a partial payment for the acquisition price of a Capesize vessel. Interest accrued on the principal amount of the unsecured bond at the rate of 6% per annum. All accrued interest (which was not compounded) would have been first due and payable in July 2012, which was the maturity date. The outstanding amount was repaid in full on July 24, 2012 in accordance with its terms.

Amounts drawn under the facilities are secured by first priority mortgages on Navios Holdings' vessels and other collateral. The credit facilities contain a number of restrictive covenants that limit Navios Holdings and/or its subsidiaries from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Holdings' vessels; changing the commercial and technical management of Navios Holdings' vessels; selling or changing the ownership of Navios Holdings' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels. The credit facilities also require the vessels to comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. Additionally, the credit facilities require compliance with a number of financial covenants including debt coverage ratios and minimum liquidity, and compliance with the covenants contained in the indentures governing the 2019 Notes and the 2022 Notes. Among other events, it will be an event of default under the credit facilities if the financial covenants are not complied with or if Angeliki Frangou and her affiliates, together own less than 20% of the outstanding share capital of Navios Holdings.

### Navios Logistics loans

Logistics Senior Notes

In April 2011, Navios Logistics and its wholly-owned subsidiary Navios Logistics Finance (US) Inc. ("Logistics Finance" and, together, the "Logistics Co-Issuers") issued \$200,000 in senior notes due on April 15, 2019 at a fixed rate of 9.25% (the "Existing Logistics Senior Notes"). In March 2013, the Logistics Co-Issuers issued an additional \$90,000 of the senior notes due on April 15, 2019 (the "Additional Logistics Senior Notes", together with the Existing Logistics Senior Notes, the "Logistics Senior Notes") at a premium, with a price of 103.750%. The terms of the Additional Logistics Senior Notes issued in March 2013 are identical to the \$200,000 Existing Logistics Senior Notes that were issued in April 2011.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

The Logistics Senior Notes are fully and unconditionally guaranteed, jointly and severally, by Navios Logistics and all of Navios Logistics' direct and indirect subsidiaries, except for Logistics Finance and Horamar do Brazil. The subsidiary guarantees are "full and unconditional", as those terms are used in Regulation S-X Rule 3-10, except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the notes. The Logistics Co-Issuers have the option to redeem the notes in whole or in part, at their option, at any time (i) before April 15, 2014, at a redemption price equal to 100% of the principal amount plus the applicable make-whole premium plus accrued and unpaid interest, if any, to the redemption date and (ii) on or after April 15, 2014, at a fixed price of 106.938%, which price declines ratably until it reaches par in 2017. At any time before April 15, 2014, the Logistics Co-Issuers may redeem up to 35% of the aggregate principal amount of the Logistics Senior Notes with the net proceeds of an equity offering at 109.25% of the principal amount of the notes, plus accrued and unpaid interest, if any, to the redemption date so long as at least 65% of the originally issued aggregate principal amount of the notes remains outstanding after such redemption.

In addition, upon the occurrence of certain change of control events, the holders of the Logistics Senior Notes will have the right to require the Logistics Co-Issuers to repurchase some or all of the notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The Logistics Senior Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, in excess of 6% per annum of the net proceeds received by or contributed to Navios Logistics in or from any public offering, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into transactions with affiliates, merging or consolidating or selling all or substantially all of Navios Logistics properties and assets and creation or designation of restricted subsidiaries.

The Logistics Co-Issuers were in compliance with the covenants as of December 31, 2013.

See also Note 27 for Navios Logistics 7.25% senior notes due 2022.

### Non-Wholly Owned Subsidiaries' Indebtedness

On July 25, 2011, Navios Logistics acquired the noncontrolling interests of its joint ventures Thalassa Energy S.A., HS Tankers Inc., HS Navigation Inc., HS Shipping Ltd. Inc. and HS South Inc., in accordance with the terms of certain stock purchase agreements with HS Energy Ltd., an affiliate of Vitol S.A., and simultaneously paid \$53,155 in full and final settlement of all amounts of indebtedness of such joint ventures.

### Other Indebtedness

In connection with the acquisition of Hidronave S.A. on October 29, 2009, Navios Logistics assumed an \$817 loan facility that was entered into by Hidronave S.A. in 2001 in order to finance the construction of a pushboat (Nazira). As of December 31, 2013, the outstanding loan balance was \$528. The loan facility bears interest at a fixed rate of 600 basis points. The loan is repayable in monthly installments of \$6 each and the final repayment must occur prior to August 10, 2021. The loan also requires compliance with certain covenants.

The annual weighted average interest rates of the Company's total borrowings were 7.75% and 7.32% for the year ended December 31, 2013 and 2012, respectively.

The maturity table below reflects the principal payments for the next five years and thereafter of all borrowings of Navios Holdings (including Navios Logistics) outstanding as of December 31, 2013, based on the repayment schedules of the respective loan facilities (as described above) and the outstanding amount due under the debt securities.

Total	\$ 1,508,093

#### NOTE 12: DERIVATIVES AND FAIR VALUE OF FINANCIAL INSTRUMENTS

### Forward Freight Agreements (FFAs)

Drybulk shipping FFAs generally have the following characteristics: they cover periods from one month to one year; they can be based on time charter rates or freight rates on specific quoted routes; they are executed between two parties and give rise to a certain degree of credit risk depending on the counterparties involved and they are settled monthly based on publicly quoted indices.

At December 31, 2013 and December 31, 2012, none of the "mark-to-market" positions of the open dry bulk FFA contracts, qualified for hedge accounting treatment. Drybulk FFAs traded by the Company that do not qualify for hedge accounting are shown at fair value through the statements of comprehensive (loss)/income.

The net losses from FFAs recorded in the statement of comprehensive (loss)/income amounted to \$260, \$196 and \$165, for the years ended December 31, 2013, 2012 and 2011, respectively.

During each of the years ended December 31, 2013, 2012 and 2011, the changes in net unrealized (losses)/gains on FFAs amounted to \$(69), \$(124) and \$289, respectively.

### Fair value of financial instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

**Restricted cash:** The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

**Borrowings:** The carrying amount of the floating rate loans approximates their fair value. The senior and ship mortgage notes are fixed rate borrowings and their fair value, which was determined based on quoted market prices, is indicated in the table below.

Capital leases: The capital leases are fixed rate obligations and their carrying amounts approximate their fair value as indicated in the table below.

Loan receivable from affiliate company: The carrying amount of the floating rate loan approximates its fair value.

Long-term receivable from affiliate companies: The carrying amount of the floating rate payable approximates its fair value.

Accounts receivable, net: Carrying amounts are considered to approximate fair value due to the short-term nature of these accounts receivables and because there were no significant changes in interest rates. All amounts that are assumed to be uncollectable are written off and/or reserved.

**Accounts payable:** The carrying amounts of accounts payable reported in the balance sheet approximates their fair value due to the short-term nature of these accounts payable and because there were no significant changes in interest rates.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Investments in available-for-sale securities: The carrying amount of the investments in available-for-sale securities reported in the balance sheet represents unrealized gains and losses on these securities, which are reflected directly in equity unless an unrealized loss is considered "other-than-temporary", in which case it is transferred to the statements of comprehensive (loss)/income.

**Forward freight agreements:** The fair value of forward freight agreements is the estimated amount that the Company would receive or pay to terminate the agreement at the reporting date by obtaining quotes from brokers or exchanges.

The estimated fair values of the Company's financial instruments are as follows:

December 31, 2013				December 31, 2012			012

				-					

#### Fair Value Measurements

The estimated fair value of our financial instruments that are not measured at fair value on a recurring basis, categorized based upon the fair value hierarchy, are as follows:

Level I: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level II: Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Level III: Inputs that are unobservable. The Company did not use any Level III inputs as of December 31, 2013 and December 31, 2012.

	Fair V	Fair Value Measurements at December 31, 2013							
	Total	(Level I)	(Level II)	(Level III)					
Cash and cash equivalents	\$ 187,831	\$ 187,831	\$ —	\$ —					
Restricted cash	\$ 2,041	\$ 2,041	\$ —	\$ —

Due from affiliate companies, long term(2)	\$ 57,701	\$ —	\$ 57,701	\$ —			

- (1) The fair value of the Company's long-term debt is estimated based on currently available debt with similar contract terms, interest rate and remaining maturities, published quoted market prices as well as taking into account the Company's creditworthiness.
- (2) The fair value of the Company's loan receivable from affiliate company and long-term receivable from affiliate companies is estimated based on currently available debt with similar contract terms, interest rate and remaining maturities as well as after taking into account the counterparty's creditworthiness.

### NOTE 13: EMPLOYEE BENEFIT PLANS

### **Retirement Saving Plan**

The Company sponsors an employee saving plan covering all of its employees in the United States. The Company's contributions to the employee saving plan during the years ended December 31, 2013, 2012 and 2011, were approximately \$97, \$119 and \$108, respectively, which included a discretionary contribution of \$14, \$15, and \$15, respectively.

#### **Defined Benefit Pension Plan**

The Company sponsors a legacy unfunded defined benefit pension plan that covers certain Bahamian and Uruguayan nationals and former Navios Corporation employees. The liability related to the plan is recognized based on actuarial valuations. The current portion of the liability is included in accrued expenses and the non-current portion of the liability is included in other long-term liabilities. There are no pension plan assets.

The Greek office employees are protected by the Greek Labor Law. According to the law, the Company is required to pay retirement indemnities to employees on dismissal, or on leaving with an entitlement to a full security retirement pension. Please refer to Note 2(s).

### Stock Plan

The Company has awarded shares of restricted stock and restricted stock units to its employees, officers and directors. The restriction lapses in two or three equal tranches, over the requisite service periods, of one, two and three years from the grant date. The Company has also awarded stock options to its officers and directors only, based on service conditions only, which vest in three equal tranches over the requisite service periods of one, two and three years from the grant date. Each option remains exercisable for seven years after its vesting date.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

On December 11, 2013, the Company awarded shares of restricted stock and restricted stock units to its employees, officers and directors and stock options to its officers and directors, which vest all at once upon achievement of the internal performance criteria and completion of a service period on April 30, 2015.

The fair value of all stock option awards has been calculated based on the modified Black-Scholes method. A description of the significant assumptions used to estimate the fair value of the stock option awards is set out below:

• Expected term: The Company began granting stock options in October 2007. The first stock option exercise was in 2010 and the number of options exercised during each of the years ended December 31, 2013 (153,556), 2012 (29,251), 2011 (130,578) and 2010 (130,577) was small in relation to the total number of options granted. Therefore, due to limited historical share option exercise experience to provide for a reasonable basis upon which to estimate expected term, the Company opted to apply the simplified method.

The "simplified method" used includes taking the average of the weighted average time to vesting and the contractual term of the option award. The service conditions option awards vest over three years at 33.3%, 33.3% and 33.4% respectively, resulting in a weighted average time to vest of approximately 2 years. The contractual term of the award is 7 years. Utilizing the simplified approach formula, the derived expected term estimate for the Company's service conditions option award is 4.5 years.

The performance conditions option awards vest in one year and only upon achievement of the performance criteria.

- Expected volatility: The historical volatility of Navios Holdings' shares was used in order to estimate the volatility of the stock option awards. The final expected volatility estimate, which equals the historical estimate, for the service conditions option awards is 42.62%, 43.87% and 68.14% for 2013, 2012 and 2011, respectively, and for the performance conditions option awards is 41.48% for 2013.
- Expected dividends: The expected dividend is based on the current dividend, our historical pattern of dividend increases and the market price of our stock
- *Risk-free rate:* Navios Holdings has selected to employ the risk-free yield-to-maturity rate to match the expected term estimated under the "simplified method". For the service conditions option awards, the 4.5 year yield-to-maturity rate as of the grant date is 1.28%, 0.68% and 0.80% for 2013, 2012 and 2011, respectively. For the performance conditions option awards, the one year yield-to-maturity rate as of the grant date is 0.13% for 2013.

The fair value of restricted stock and restricted stock unit grants excludes dividends to which holders of restricted stock and restricted stock units are not entitled. The expected dividend assumption used in the valuation of restricted stock and restricted stock units grant is \$0.06 for 2013, 2012 and 2011.

The weighted average grant date fair value of stock options, restricted stock and restricted stock units granted during the year ended December 31, 2013 was \$2.11, \$8.63 and \$8.63, respectively.

The weighted average grant date fair value of stock options, restricted stock and restricted stock units granted during the year ended December 31, 2012 was \$0.52, \$3.44 and \$3.44, respectively.

The weighted average grant date fair value of stock options, restricted stock and restricted stock units granted during the year ended December 31, 2011 was \$1.43, \$3.81 and \$3.81, respectively.

The effect of compensation expense arising from the stock-based arrangements described above amounts to \$5,021, \$4,712 and \$4,252 as of December 31, 2013, 2012 and 2011, respectively and it is reflected in general and administrative expenses on the income statement. The recognized compensation expense for the year is presented as adjustment to reconcile net income to net cash provided by operating activities on the statements of cash flows.

The estimated compensation cost relating to service conditions of non-vested (i) stock options and (ii) restricted stock and restricted stock unit awards, not yet recognized was \$1,005 and \$4,436, respectively, as of December 31, 2013 and is expected to be recognized over the weighted average period of 2.25 years.

The estimated compensation cost relating to performance conditions of non-vested (i) stock options and (ii) restricted stock and restricted stock unit awards, not yet recognized was \$303 and \$3,462, respectively, as of December 31, 2013 and is expected to be recognized when it is probable that the performance criteria will be met.

### **NOTE 14: COMMITMENTS AND CONTINGENCIES**

As of December 31, 2013, the Company was contingently liable for letters of guarantee and letters of credit amounting to \$590 (2012: \$590) issued by various banks in favor of various organizations and the total amount was collateralized by cash deposits, which were included as a component of restricted cash.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

In connection with the acquisition of Horamar, Navios Logistics recorded liabilities for certain pre-acquisition contingencies amounting to \$6,632 (\$2,907 relating to VAT-related matters, \$1,703 for withholding tax-related matters, \$1,511 relating to provisions for claims and others and \$511 for income tax-related matters) that were included in the allocation of the purchase price based on their respective fair values. As it relates to these contingencies, the prior owners of Horamar agreed to indemnify Navios Logistics in the event that any of the above contingencies materialize before agreed-upon dates, extending to various dates through January 2020. As of December 31, 2013, the remaining liability related to these pre-acquisition contingencies amounted to \$829 (\$1,039 in 2012; \$2,764 in 2011) and was entirely offset by an indemnification asset for the same amount, which was reflected in other non-current assets.

The Company is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where the Company believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were prepared. In the opinion of management, the ultimate disposition of these matters is expected to be immaterial to the financial statements individually and in the aggregate and will not adversely affect the Company's financial position, results of operations or liquidity.

The Company, in the normal course of business, entered into contracts to time charter-in vessels for various periods through April 2026.

As of December 31, 2013, Navios Logistics has obligations related to the acquisition of new dry barges, the acquisition of three pushboats and the acquisition of the chartered-in fleet of \$26,712, \$483 and \$11,076, respectively. As of December 31, 2013, Navios Asia concluded the acquisition of a bulk carrier vessel to be named N Bonanza for an acquisition cost of \$17,500. The N Bonanza was delivered on January 27, 2014. The table below reflects the future payments for these commitments.

	Amou	ints in thousands of
		U.S. Dollars
December 31, 2014	\$	50,091
December 31, 2015		3,754
December 31, 2016		1,926
Total	\$	55,771

### **NOTE 15: LEASES**

### Chartered-in and office space:

As of December 31, 2013 the Company's future minimum commitments, net of commissions under lease obligations for chartered-in vessels, barges, pushboats and office space were as follows:

	Charter-in vessels in operation	Charter-in vessels to be delivered	Office space
2014	\$ 82,553	\$ 184	\$ 3,135
2015	64,279	5,697	3,032
2016	58,720	12,842	2,667
2017	56,768	14,910	2,505
2018	54,795	14,910	1,736
2019 and thereafter	133,267	98,815	984
Total	\$ 450,382	\$ 147,358	\$ 14,059

Charter hire expense for Navios Holdings chartered-in vessels amounted to \$116,962, \$112,536 and \$113,550, for the each of the years ended December 31, 2013, 2012 and 2011, respectively. Charter hire expense for logistics business chartered-in vessels amounted to \$1,286, \$3,587 and \$5,910, for the each of the years ended December 31, 2013, 2012 and 2011, respectively.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Rent expense for office space amounted to \$2,899, \$2,267, and \$2,229 for each of the years ended December 31, 2013, 2012 and 2011, respectively. The Company leases approximately 16,703 square feet of space at 825 3rd Avenue, New York, New York, pursuant to a lease that expires in April 2019. The Company also leases approximately 3,882 square meters of space at 85 Akti Miaouli, Piraeus, Greece, pursuant to lease agreements that expires in 2017 and 2019. The Company also leases office space in Monaco pursuant to a lease that expires on June 2015. On July 1, 2010, the Company signed a new contract for the lease of approximately 632 square meters of office space in Antwerp, Belgium that expires in 2019. The Company also leases approximately 254 square meters at 85 Akti Miaouli, Piraeus pursuant to a lease that expires in 2019.

Navios Logistics' subsidiaries lease various premises in Argentina and Paraguay that expire on various dates through 2025. The above table incorporates the lease commitments on all offices as disclosed above.

### Chartered-out:

The future minimum revenue, net of commissions, (i) for drybulk vessels, expected to be earned on non-cancelable time charters and (ii) for the Company's logistics business, expected to be earned on non-cancelable time charters, COA's with minimum guaranteed volumes and contracts with minimum guaranteed throughput in Navios Logistics' ports, are as follows:

			Logistics
	Dry	bulk vessels	business
2014	\$	96,281	\$100,198
2015		28,722	83,118
2016		11,401	54,518
2017		10,715	13,708
2018		10,715	770
2019 and thereafter		20,607	
Total minimum revenue, net of commissions	\$	178,441	\$ 252,312

Revenues from time charters are not generally received when a vessel is off-hire, which includes time required for scheduled maintenance of the vessel.

### NOTE 16: TRANSACTIONS WITH RELATED PARTIES

Office rent: The Company has entered into lease agreements with Goldland Ktimatiki-Ikodomiki-Touristiki Xenodohiaki Anonimos Eteria and Emerald Ktimatiki-Ikodomiki Touristiki Xenodohiaki Anonimos Eteria, both of which are Greek corporations that are currently majority-owned by Angeliki Frangou, Navios Holdings' Chairman and Chief Executive Officer. The lease agreements provide for the leasing of facilities located in Piraeus, Greece to house the operations of most of the Company's subsidiaries. The total annual lease payments are in the aggregate €959 (approximately \$1,320) and the lease agreements expire in 2017 and 2019. These payments are subject to annual adjustments, which are based on the inflation rate prevailing in Greece as reported by the Greek State at the end of each year.

**Purchase of services:** The Company utilizes its affiliate company, Acropolis (See Note 9), as a broker. Commissions paid to Acropolis for each of the years ended December 31, 2013, 2012 and 2011 were \$63, \$48 and \$17, respectively. During the years ended December 31, 2013, 2012 and 2011, the Company received dividends of \$433, \$140, and \$602, respectively. Included in the trade accounts payable at December 31, 2013 and 2012 was an amount of \$76 and \$115, respectively, which was due to Acropolis.

Vessels charter hire: In February 2012, the Company chartered in from Navios Partners the Navios Apollon, a 2000-built Ultra-Handymax vessel. The term of this charter is approximately two years at a net daily rate of \$12.5 per day for the first year and \$13.5 net per day for the second year, plus 50/50 profit sharing based on actual earnings.

In May 2012, the Company chartered in from Navios Partners the Navios Prosperity, a 2007-built Panamax vessel. The term of this charter is approximately one year with two six-month extension options granted to the Company, at a net daily rate of \$12.0 plus profit sharing. The owners will receive 100% of the first \$1.5 in profits above the base rate, and thereafter all profits will be split 50/50 to each party.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

In September 2012, the Company chartered in from Navios Partners the Navios Libra, a 1995-built Panamax vessel. The term of this charter is approximately three years at a net daily rate of \$12.0 plus 50/50 profit sharing based on actual earnings.

In May 2013, the Company chartered in from Navios Partners the Navios Felicity, a 1997-built Panamax vessel. The term of this charter is approximately one year at a net daily rate of \$12.0 plus 50/50 profit sharing based on actual earnings.

In May 2013, the Company chartered in from Navios Partners the Navios Aldebaran, a 2008-built Panamax vessel. The term of this charter is approximately six months at a net daily rate of \$11.0 plus profit sharing. The owners will receive 100% of the first \$2.5 in profits above the base rate, and thereafter all profits will be split 50/50 to each party.

In July 2013, the Company chartered in from Navios Partners the Navios Hope, a 2005-built Panamax vessel. The term of this charter is approximately one year at a net daily rate of \$10.0.

In July 2013, the Company chartered in from Navios Partners the Navios Melodia, a 2010-built Capesize vessel. The term of this charter is approximately four months at a net daily rate of \$15.0.

In July 2013, the Company chartered in from Navios Partners the Navios Pollux, a 2009-built Capesize vessel, under a voyage charter which was completed in August 2013.

Total charter hire expense for all vessels for the years ended December 31, 2013, 2012 and 2011 were \$22,386, \$7,484 and \$0, respectively, and were included in the statement of comprehensive (loss)/income under "Time charter, voyage and logistics business expenses".

Management fees: Navios Holdings provides commercial and technical management services to Navios Partners' vessels for a daily fixed fee. As of December 31, 2012, the daily fees are \$4.7 per owned Ultra Handymax vessel, \$4.6 per owned Panamax vessel and \$5.7 per owned Capesize vessel until December 31, 2013. This daily fee covers all of the vessels' operating expenses, including the cost of drydock and special surveys. In October 2013, the Company amended its existing Management Agreement with Navios Partners to fix the fees for ship management services of its owned fleet at: (i) \$4.0 daily rate per Ultra-Handymax vessel; (ii) \$4.1 daily rate per Panamax vessel; (iii) \$5.1 daily rate per Capesize vessel effective from January 1, 2014 through December 31, 2015; and (iv) \$6.5 daily rate per Container vessel effective from the delivery through December 31, 2015. From January 1, 2016 to December 31, 2017, Navios Partners will reimburse Navios Holdings for all of the actual operating costs and expenses in connection with the management of Navios Partners' fleet. Drydocking expenses under this agreement will be reimbursed by Navios Partners at cost at occurrence. Total management fees for the years ended December 31, 2013, 2012 and 2011 amounted to \$36,173, \$31,689 and \$26,343, respectively.

Navios Holdings provides commercial and technical management services to Navios Acquisition's vessels for a daily fee of \$6.0 per owned MR2 product tanker and chemical tanker vessel, \$7.0 per owned LR1 product tanker vessel and \$10.0 per owned VLCC vessel. This daily fee covers all of the vessels' operating expenses, other than certain extraordinary fees and costs. Actual operating costs and expenses will be determined in a manner consistent with how the initial fixed fees were determined. Drydocking expenses will be fixed under this agreement for up to \$300 per vessel and will be reimbursed at cost for VLCC vessels. Navios Acquisition may, upon request, reimburse the manager partially or fully for drydocking and other extraordinary fees and expenses under the management agreement at a later date, but not later than January 5, 2015, bearing interest of 1% over LIBOR. Navios Acquisition may, upon request, reimburse the manager partially or fully for any fixed management fees outstanding for a period of not more than nine months at a later date, but no later than December 31, 2014, bearing interest of 1% over LIBOR. Total management fees for the years ended December 31, 2013, 2012 and 2011 amounted to \$71,392, \$47,043 and \$35,678, respectively.

Pursuant to a management agreement dated December 13, 2013, Navios Holdings provides commercial and technical management services to Navios Europe's tanker and container vessels. The term of this agreement is for a period of six years. Management fees under this agreement will be reimbursed at cost at occurrence. Total management fees for the year ended December 31, 2013 amounted to \$645.

Navios Partners Guarantee: Contemporaneously with the Insurance Restructuring (as defined in Note 25), in November 2012 (as amended in March 2014), the Company entered into an agreement with Navios Partners that provided Navios Partners with guarantees against counterparty default on certain existing charters (the "Navios Partners Guarantee"). The Navios Partners Guarantee provided Navios Partners with

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

guarantees against counterparty default on certain existing charters, which had previously been covered by the charter insurance for the same vessels, same periods and same amounts. The Navios Partners Guarantee provides for a maximum possible payout of \$20,000 by the Company to Navios Partners. Premiums that are calculated on the same basis as the restructured charter insurance are included in the management fee that is paid by Navios Partners to Navios Holdings pursuant to the management agreement. As of December 31, 2013, no claims had been submitted to Navios Holdings.

General & administrative expenses: Navios Holdings provides administrative services to Navios Partners. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the years ended December 31, 2013, 2012 and 2011 amounted to \$4,366, \$3,883 and \$3,447, respectively.

On May 28, 2010, Navios Acquisition has entered into an administrative services agreement, expiring May 28, 2015, with Navios Holdings, pursuant to which Navios Holdings provides office space and certain administrative management services to Navios Acquisition which include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the years ended December 31, 2013, 2012 and 2011 amounted to \$3,476, \$2,110 and \$1,527, respectively.

On April 12, 2011, Navios Holdings entered into an administrative services agreement with Navios Logistics for a term of five years, pursuant to which Navios Holdings will provide certain administrative management services to Navios Logistics. Such services include bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the year ended December 31, 2013, 2012 and 2011 amounted to \$740, \$600 and \$375, respectively. The general and administrative fees have been eliminated upon consolidation.

Pursuant to a management agreement dated December 13, 2013, Navios Holdings provides administrative services to Navios Europe's tanker and container vessels. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. The term of this agreement is for a period of six years. Navios Holdings is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Total general and administrative fees charged for the year ended December 31, 2013 amounted to \$25.

Pursuant to a management agreement dated May 15, 2013, Navios Holdings provides commercial and administrative services to Navios Asia's vessels. Such services include: bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other services. The agreement will continue unless terminated by either party. The annual fee that Navios Asia pays to Navios Holdings is \$50 per vessel. Total general and administrative fees charged for the year ended December 31, 2013 amounted to \$9. The general and administrative fees have been eliminated upon consolidation.

Balance due from affiliate (excluding Navios Europe): Balance due from affiliate as of December 31, 2013 amounted to \$12,064 (December 31, 2012: \$108,538) which included the current amounts due from Navios Partners and Navios Acquisition, which were \$390 (December 31, 2012: \$21,716) and \$6,530 (December 31, 2012: \$29,121), respectively, and the non-current amount of \$5,144 (December 31, 2012: \$57,701) due from Navios Acquisition. The balances mainly consisted of management fees, administrative fees, drydocking and other expenses and other amounts payable.

Omnibus agreements: Navios Holdings has entered into an omnibus agreement with Navios Partners (the "Partners Omnibus Agreement") in connection with the closing of Navios Partners' IPO governing, among other things, when Navios Holdings and Navios Partners may compete against each other as well as rights of first offer on certain drybulk carriers. Pursuant to the Partners Omnibus Agreement, Navios Partners generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of an independent committee of Navios Partners. In addition, Navios Holdings has agreed to offer to Navios Partners the opportunity to purchase vessels from Navios Holdings when such vessels are fixed under time charters of three or more years.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Navios Acquisition entered into an omnibus agreement (the "Acquisition Omnibus Agreement") with Navios Holdings and Navios Partners in connection with the closing of Navios Acquisition's initial vessel acquisition, pursuant to which, among other things, Navios Holdings and Navios Partners agreed not to acquire, charter-in or own liquid shipment vessels, except for container vessels and vessels that are primarily employed in operations in South America, without the consent of an independent committee of Navios Acquisition. In addition, Navios Acquisition, under the Acquisition Omnibus Agreement, agreed to cause its subsidiaries not to acquire, own, operate or charter drybulk carriers subject to specific exceptions. Under the Acquisition Omnibus Agreement, Navios Acquisition and its subsidiaries granted to Navios Holdings and Navios Partners, a right of first offer on any proposed sale, transfer or other disposition of any of its drybulk carriers and related charters owned or acquired by Navios Acquisition. Likewise, Navios Holdings and Navios Partners agreed to grant a similar right of first offer to Navios Acquisition for any liquid shipment vessels it might own. These rights of first offer will not apply to a (i) sale, transfer or other disposition of vessels between any affiliated subsidiaries, or pursuant to the terms of any charter or other agreement with a counterparty, or (ii) merger with or into, or sale of substantially all of the assets to, an unaffiliated third party.

Sale of Vessels and Sale of Rights to Navios Partners: Upon the sale of vessels to Navios Partners, Navios Holdings recognizes the gain immediately in earnings only to the extent of the interest in Navios Partners owned by third parties and defers recognition of the gain to the extent of its own ownership interest in Navios Partners (the "deferred gain"). Subsequently, the deferred gain is amortized to income over the remaining useful life of the vessel. The recognition of the deferred gain is accelerated in the event that (i) the vessel is subsequently sold or otherwise disposed of by Navios Partners or (ii) the Company's ownership interest in Navios Partners is reduced. In connection with the public offerings of common units by Navios Partners, a pro rata portion of the deferred gain is released to income upon dilution of the Company's ownership interest in Navios Partners (See also Note 19 "Disposal of Assets"). As of December 31, 2013 and 2012, the unamortized deferred gain for all vessels and rights sold totaled \$21,578 and \$28,459, respectively, and for the years ended December 31, 2013, 2012 and 2011, Navios Holdings recognized \$6,881, \$12,652 and \$12,024 respectively, of the deferred gain in "Equity in net earnings of affiliated companies".

The Navios Holdings Credit Facility: Navios Acquisition entered into a \$40,000 credit facility with Navios Holdings in 2010 which was amended in 2010 and 2011. The facility is available for multiple drawings up to a limit of \$40,000, has a margin of LIBOR plus 300 basis points and matures in December 2014. As of December 31, 2013, the outstanding amount under this facility was \$0 (December 31, 2012: \$35,000) and was recorded under "Loan receivable from affiliate company".

Balance due from Navios Europe: Current balance due from Navios Europe as of December 31, 2013, amounted to \$1,407 and mainly consists of management fees and other expenses.

Navios Holdings, Navios Acquisition and Navios Partners will make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24,100 to fund working capital requirements (collectively, the "Navios Revolving Loans"). See Note 9 for the investment in Navios Europe and respective ownership interests.

The Navios Revolving Loans earn a 12.7% preferred distribution and are repaid from Free Cash Flow (as defined in the loan agreement) to the fullest extent possible at the end of each quarter. There are no covenant requirements or stated maturity dates.

As of December 31, 2013, Navios Holdings' portion of the outstanding amount relating to portion of the investment in Navios Europe (47.5% of the \$10,000) is \$4,750, under the caption "Investment in affiliates" and the outstanding amount relating to the Navios revolving loans capital is \$2,660, under caption "Loan receivable from affiliate companies." As of December 31, 2013, the amount undrawn from the revolving facility was \$18,500, of which Navios Holdings is committed to fund \$8,788.

### NOTE 17: PREFERRED AND COMMON STOCK

#### **Navios Holdings**

In November 2008, the Board of Directors approved a share repurchase program for up to \$25,000 of Navios Holdings' common stock. Share repurchases are made pursuant to a program adopted under Rule 10b5-1 under the Exchange Act. The program does not require any minimum purchase or any specific number or amount of shares and may be suspended or reinstated at any time in Navios Holdings' discretion and without notice. Repurchases are subject to restrictions under the terms of the Company's credit facilities and indentures. During 2011, Navios Holdings repurchased 73,651 shares for a total cost of \$221. There were no shares repurchased during 2013 and 2012.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

Issuances to Employees and Exercise of Options

During 2013, pursuant to the stock plan approved by the Board of Directors, 106,032, 29,243, 10,969 and 7,312 shares were issued following the exercise of options for cash at an exercise price of \$3.18, \$3.81, \$5.87 and \$5.15 per share, respectively, for a total of \$551.

On December 11, 2013, pursuant to the stock plan approved by the Board of Directors Navios Holdings issued to its employees 856,437 shares of restricted common stock, 30,000 restricted stock units and 674,809 stock options.

During 2012, pursuant to the stock plan approved by the Board of Directors, 29,251 shares were issued following the exercise of options for cash at an exercise price of \$3.18 per share for a total of \$93.

On December 20, 2012, pursuant to the stock plan approved by the Board of Directors Navios Holdings issued to its employees 801,028 shares of restricted common stock, 31,000 restricted stock units and 1,344,357 stock options.

### Vested, Surrendered and Forfeited

During 2013, 21,463 restricted stock units, issued to the Company's employees in 2012, 2011 and 2010, have vested.

During 2012, 24,932 restricted stock units, issued to the Company's employees in 2011, 2010 and 2009, have vested.

During the years ended December 31, 2013 and 2012, 12,452 and 9,166 restricted shares of common stock, respectively, were forfeited upon termination of employment.

Navios Holdings had as of December 31, 2013 and 2012, 104,261,029 and 103,255,409 shares of common stock, respectively, and 8,479 Preferred Stock outstanding for both years.

#### NOTE 18: INTEREST EXPENSE AND FINANCE COST, NET

Interest expense and finance cost, net consist of the following:

	For the Year Ended December 31,	Ended Ended			Ended Ended E

The Company disposed of the following asset in 2012:

Navios Buena Ventura	
Cash consideration received	\$ 67,500
Book value of vessel	(67,068)
Total gain	432
Deferred gain	(109)
Gain recognized on sale of Navios Buena Ventura	\$ 323 <b>\$323</b>
Total gain on sale of assets	<b>\$323</b>

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

The Company disposed of the following assets in 2011:

Navios Luz	
Cash consideration received	\$71,975
Shares consideration received	6,000
Book value of vessel	_(53,548)
Total gain	24,427
Deferred gain	(6,623)
Gain recognized on sale of Navios Luz	\$ 17,804
Navios Orbiter	
Cash consideration received	\$ 47,984
Shares consideration received	4,000
Book value of vessel	(23,198)
Total gain	28,786
Deferred gain	(7,804)
Gain recognized on sale of Navios Orbiter	\$20,982
Gain on sale of other assets	\$ 36
Total gain on sale of assets	\$ 38,822

All the above mentioned vessels were sold to Navios Partners. See also Note 16 "Transactions with Related Parties — Sale of Vessels and Sale of Rights to Navios Partners".

### **NOTE 20: SEGMENT INFORMATION**

The Company currently has two reportable segments from which it derives its revenues: Drybulk Vessel Operations and Logistics Business, and previously had a Tanker Vessel Operations segment until the deconsolidation of Navios Acquisition on March 30, 2011. The reportable segments reflect the internal organization of the Company and are strategic businesses that offer different products and services. Starting in 2008, following the acquisition of Horamar and the formation of Navios Logistics, the Company renamed its Port Terminal segment as its Logistics Business segment, and this segment includes the activities of Horamar, which provides similar products and services in the region as Navios Holdings' legacy port facility. The Drybulk Vessel Operations business consists of the transportation and handling of bulk cargoes through the ownership, operation, and trading of vessels, freight, and FFAs. The Logistics Business consists of operating ports and transfer station terminals, handling of vessels, barges and push boats as well as upriver transport facilities in the Hidrovia region. The Tanker Vessel Operations segment consisted of the transportation and handling of liquid cargoes through the ownership, operation, and trading of tanker vessels.

# ${\bf NAVIOS~MARITIME~HOLDINGS~INC.}$ NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

The Company measures segment performance based on net income attributable to Navios Holdings common stockholders. Inter-segment sales and transfers are not significant and have been eliminated and are not included in the following tables. Summarized financial information concerning each of the Company's reportable segments is as follows:

	Drybulk Vessel Operations for the Year Ended December 31, 2013	Y	stics Business for the ear Ended cember 31, 2013	Total for the Year Ended December 31, 2013

The following table sets out operating revenue by geographic region for the Company's reportable segments. Drybulk Vessel Operation, Tanker Vessel Operation and Logistics Business revenue is allocated on the basis of the geographic region in which the customer is located. Drybulk vessels and tanker vessels operate worldwide. Logistics business operates different types of tanker vessels, pushboats, and wet and dry barges for delivering a wide range of products between ports in the Paraná, Paraguay and Uruguay River systems in South America (commonly known as the "Hidrovia" or the "waterway").

Revenues from specific geographic regions which contribute over 10% of total revenue are disclosed separately.

### Revenue by Geographic Region

	Year ended December 31, 2013	Year ended December 31, 2012	Year ended December 31, 2011
North America	\$ 17,487	\$ 14,622	\$ 20,157
Europe	141,464	127,521	144,846
Asia	99,636	225,366	283,275
South America	241,852	247,033	234,688
Other	11,840	1,952	6,389
Total	\$ 512,279	\$ 616,494	\$ 689,355

The following describes long-lived assets by country for the Company's reportable segments. Vessels operate on a worldwide basis and are not restricted to specific locations. Accordingly, it is not possible to allocate the assets of these operations to specific countries. The total net book value of long-lived assets for drybulk vessels amounted to \$1,409,166 and \$1,386,726 at December 31, 2013 and 2012, respectively. For Logistics Business, all long-lived assets are located in South America. The total net book value of long-lived assets for the Logistics business amounted to \$395,879 and \$356,039 at December 31, 2013 and 2012, respectively.

### **NOTE 21: EARNINGS PER COMMON SHARE**

(Loss)/earnings per share are calculated by dividing net (loss)/income by the average number of shares of Navios Holdings outstanding during the period.

For the year ended December 31, 2013, 2,649,796 potential common shares and 8,479,000 potential shares of convertible preferred stock have an antidilutive effect (i.e. those that increase income per share or decrease loss per share), and are therefore excluded from the calculation of diluted net income per share

### **NOTE 22: INCOME TAXES**

Marshall Islands, Greece, Malta, Liberia, Panama and Malta, do not impose a tax on international shipping income. Under the laws of Marshall Islands, Greece, Liberia and Panama the countries of the companies' incorporation and vessels' registration, the companies are subject to registration and tonnage taxes which have been included in vessel operating expenses in the accompanying consolidated statements of income.

Certain of the Company's subsidiaries are registered as Law 89 companies in Greece. These Law 89 companies are exempt from Greek income tax on their income derived from certain activities related to shipping. Since all the Law 89 companies conduct only business activities that qualify for the exemption of Greek income tax, no provision has been made for Greek income tax with respect to income derived by these Law 89 companies from their business operations in Greece.

In accordance with the currently applicable Greek law, foreign flagged vessels that are managed by Greek or foreign ship management companies having established an office in Greece are subject to duties towards the Greek state which are calculated on the basis of the relevant vessel's tonnage. The payment of said duties exhausts the tax liability of the foreign ship owning company and the relevant manager against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Additionally, under a new tax bill ratified on January 14, 2013, an annual contribution, applying only to fiscal years 2012-2015, was imposed on offices or branches of foreign enterprises that have been established in Greece and are engaged in the exploitation, chartering, insurance, average (damage) settlements, purchase, chartering or shipbuilding brokerage, or chartering or insurance of ships under Greek or foreign flag, as well as the representation of ship-owner companies or undertakings, whose object is identical to the abovementioned activities. This contribution is imposed on the total amount of imported foreign exchange, calculated on a minimum \$50.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

In Belgium profit from ocean shipping is taxable based on the tonnage of the sea-going vessels from which the profit is obtained ("tonnage tax").

Pursuant to Section 883 of the Internal Revenue Code of the United States (the "Code"), U.S. source income from the international operation of ships is generally exempt from U.S. income tax if the company operating the ships meets certain incorporation and ownership requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country which grants an equivalent exemption from income taxes to U.S. corporations. All the Company's ship-operating subsidiaries satisfy these initial criteria. In addition, these companies must be more than 50% owned by individuals who are residents, as defined, in the countries of incorporation or another foreign country that grants an equivalent exemption to U.S. corporations. Subject to proposed regulations becoming finalized in their current form, management of the Company believes by virtue of a special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company like the Company, the second criterion can also be satisfied based on the trading volume and ownership of the Company's shares, but no assurance can be given that this will remain so in the future.

The tax expense reflected in the Company's consolidated financial statements for the year ended December 31, 2013 and 2012 is mainly attributable to Navios Holdings' subsidiaries in South America, which are subject to the Argentinean, Brazilian and Paraguayan income tax regime.

CNSA is located in a tax free zone and is not liable to income or other tax. Navios Logistics' operations in Uruguay are exempted from income taxes.

Income tax liabilities of the Argentinean companies for the current and prior periods are measured at the amount expected to be paid to the taxation authorities, using a tax rate of 35% on the taxable net income. Tax rates and tax laws used to assess the income tax liability are those that are effective on the close of the fiscal period. Additionally, at the end the fiscal year, Argentinean companies in Argentina have to calculate an assets tax ("Impuesto a la Ganancia Minima Presunta" or Alternative Minimum Tax). This tax is supplementary to income tax and is calculated by applying the effective tax rate of 1% over the gross value of the corporate assets (based on tax law criteria). The subsidiaries' tax liabilities will be the higher of income tax or Alternative Minimum Tax. However, if the Alternative Minimum Tax exceeds income tax during any fiscal year, such excess may be computed as a prepayment of any income tax excess over the Alternative Minimum Tax that may arise in the next ten fiscal years.

Under the tax laws of Argentina, the subsidiaries of the Company in that country are subject to taxes levied on gross revenues. Rates differ depending on the jurisdiction where revenues are earned for tax purposes. Average rates were approximately 4.9% for the year ended December 31, 2013 (4.72% for 2012).

There are two possible options to determine the income tax liability of Paraguayan companies. Under the first option income tax liabilities for the current and prior periods are measured by applying the tax rate of 10% on the fiscal profit and loss. 50% of revenues derived from international freights are considered Paraguayan sourced (and therefore taxed) if carried between Paraguay and Argentina, Bolivia, Brazil or Uruguay, Alternatively, only 30% of revenues derived from international freights are considered Paraguayan sourced. Companies whose operations are considered international freights can choose to pay income taxes on their revenues at an effective tax rate of 1% on such revenues, without considering any other kind of adjustments. Fiscal losses, if any, are neither deducted nor carried forward.

The corporate income tax rate in Brazil and Paraguay is 34% and 10%, respectively, for the year ended December 31, 2013.

During the year ended December 31, 2013, Navios Logistics decided to merge certain subsidiaries in Paraguay. As a result of the expected merger, Navios Logistics will distribute specifically identified earnings, which will be offset by retained net losses of \$43,475. Navios Logistics' decision to merge the subsidiaries resulted in a one-off income tax benefit in deferred income tax of \$4,333.

The Company's deferred taxes as of December 31, 2013 and 2012, relate primarily to deferred tax liabilities on acquired intangible assets recognized in connection with the Horamar acquisition.

As of January 1, 2007, the Company adopted the provisions of FASB for Accounting for Uncertainty in Income Taxes. This guidance requires application of a more likely than not threshold to the recognition and derecognition of uncertain tax positions. This

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

guidance permits the Company to recognize the amount of tax benefit that has a greater that 50% likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the quarter of such change. Kleimar's open tax years are 2006 and onwards. Argentinean companies have open tax years ranging from 2006 and onwards and Paraguayan and Brazilian companies have open tax years ranging from 2008 and onwards. In relation to these open tax years, the Company believes that there are no material uncertain tax positions.

### **NOTE 23: NONCONTROLLING INTEREST**

### Navios Logistics

On July 25, 2011, the Company acquired the noncontrolling interests of its joint ventures Thalassa Energy S.A., HS Tankers Inc., HS Navigation Inc., HS Shipping Ltd. Inc. and HS South Inc., in accordance with the terms of certain stock purchase agreements with HS Energy Ltd., an affiliate of Vitol S.A. ("Vitol"). The Company paid a total consideration of \$8,500 for such noncontrolling interests (\$8,638 including transactions expenses), and simultaneously paid \$53,155 in full and final settlement of all amounts of indebtedness of such joint ventures under certain loan agreements. The transaction was considered a step acquisition (with control maintained by Navios Logistics) and was accounted for as an equity transaction.

On July 10, 2013, Navios Logistics became the sole shareholder of Hidronave South American Logistics S.A. by acquiring the remaining 49% noncontrolling interest for a total cash consideration of \$750. The transaction was considered a step acquisition (with control maintained by Navios Logistics) and was accounted for as an equity transaction.

### Navios Asia

On May 14, 2013, Navios Holdings formed Navios Asia. As of December 31, 2013, Navios Asia is owned 51.0% by Diesis Shipmanagement Ltd., a wholly owned subsidiary of Navios Holdings and 49.0% by Global United Shipping LLC, a wholly owned subsidiary of Synergy Marine Pte Ltd. The Company recorded income of \$145 in the statement of comprehensive (loss)/income within the caption "Net income attributable to the noncontrolling interest". As of December 31, 2013, the noncontrolling shareholders' contribution for the acquisition of the N. Amalthia including working capital needs was \$3,905.

### Navios Acquisition

On March 30, 2011, Navios Holdings completed the Navios Acquisition Share Exchange whereby Navios Holdings exchanged 7,676,000 shares of Navios Acquisition's common stock it held for non-voting Series C preferred stock of Navios Acquisition pursuant to an Exchange Agreement entered into on March 30, 2011 between Navios Acquisition and Navios Holdings. The fair value of the exchange was \$30,474, which was based on the share price of the publicly traded common shares of Navios Acquisition on March 30, 2011. Immediately after the Navios Acquisition Share Exchange, Navios Holdings' ownership of the outstanding voting stock of Navios Acquisition decreased to 45% and Navios Holdings no longer controls a majority of the voting power of Navios Acquisition. From that date onwards, Navios Acquisition has been considered as an affiliate entity of Navios Holdings and not as a controlled subsidiary of the Company, and the investment in Navios Acquisition has been accounted for under the equity method due to the Company's significant influence over Navios Acquisition. Navios Acquisition has been accounted for under the equity method of accounting based on Navios Holdings' economic interest in Navios Acquisition, since the preferred stock is considered to be, in substance, common stock for accounting purposes.

On November 4, 2011, of the 1,378,122 contingently returnable shares of common stock of Navios Acquisition that were issued on September 10, 2010 and deposited into escrow for the VLCC Acquisition (see also Note 3), 1,160,963 shares were released to the sellers and the remaining 217,159 shares were returned to Navios Acquisition in settlement of representations and warranties attributable to the prior sellers.

### NOTE 24: INVESTMENTS IN AVAILABLE FOR SALE SECURITIES

On May 19, 2011, Navios Holdings sold to Navios Partners both the Navios Luz and the Navios Orbiter. Out of the \$130,000 total purchase price of these two vessels, \$120,000 was paid in cash and the remaining amount of \$10,000 was paid through the receipt of 507,916 newly issued common units of Navios Partners (see Note 7 and 19). Common units that the Company received from the sale of the vessels to Navios Partners were accounted for under guidance for available-for-sale securities until December 31, 2011.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

On January 1, 2012, all of the outstanding subordinated units converted into 7,621,843 common units of Navios Partners (excluding the Series A subordinated units, which are a separate class of subordinated units). As a result, the Company's entire investment in Navios Partners (a portion of which was previously accounted for as available-for-sale securities) is accounted for by the equity method from January 1, 2012. As a result, the carrying value of the available-for sale securities of \$82,572 plus the amount reflected in other comprehensive losses of \$6,158 (in each case, as of December 31, 2011) was reclassified to "Investments in Affiliates" (See Note 9).

During the years ended December 31, 2013 and 2012, the Company received shares of Korea Line Corporation ("KLC") as partial compensation for the claims filed under the Korean court for all unpaid amounts by KLC in respect of the employment of the vessels. The shares were valued at fair value upon the day of issuance. As of December 31, 2013 and December 31, 2012 the Company retained a total of 314,077 and 138,479 KLC shares, respectively. As of December 31, 2013 and December 31, 2012, the carrying amount of the available-for-sale securities related to KLC was \$7,660 and \$559, respectively.

The shares received from KLC were accounted for under the guidance for available-for-sale securities (the "AFS Securities"). Accordingly, unrealized gains and losses on these securities are reflected directly in equity unless an unrealized loss is considered "other-than-temporary", in which case it is transferred to statements of comprehensive (loss)/income. The Company has no other types of available-for-sale securities.

The unrealized holding (losses)/gains related to these AFS Securities included in "Accumulated Other Comprehensive (Loss)/Income" were \$(11,172), \$(558) and \$6,166, respectively, as of December 31, 2013, 2012 and 2011. During 2013, 2012, and 2011, the Company did not recognize in earnings any realized losses.

### **NOTE 25: OTHER INCOME**

On November 15, 2012, Navios Holdings agreed with its credit default insurer to restructure their existing insurance policy (the "Charter Insurance") with respect to counterparty defaults pursuant to certain charter agreements (the "Insurance Restructuring"). In connection with the Insurance Restructuring, Navios Holdings received a one-time upfront cash payment equal to \$175,433 and agreed to maintain certain long-term charters under the Charter Insurance. Contemporaneously, the Company entered into an agreement with Navios Partners that provided Navios Partners with guarantees against counterparty default (up to \$20,000) on certain existing charters (the "Navios Partners Guarantee")(see also Note 16). The one-time upfront cash payment was accounted for as follows:

- \$168,013 of the proceeds, which represents the irrevocable/non-refundable portion of the total proceeds, were recorded immediately in the statements of comprehensive (loss)/income within the caption "Other income"; and
- \$7,420 of the proceeds, which represents reimbursements for insurance claims submitted for the period prior to the date of the restructuring, were recorded immediately in the statements of comprehensive (loss)/income within the caption "Revenue."

Following consummation of the Insurance Restructuring, the Company also reversed to income ("Other income" within the statements of comprehensive (loss)/income) an amount equal to \$21,592 recorded on the Company's balance sheet as a liability ("cash received in advance") related to an on-going claim. In connection with the Insurance Restructuring, these amounts also became irrevocable/non-refundable.

During the year ended December 31, 2013 the Company received shares of KLC, which were valued at fair value upon the day of issuance. As a result of the valuation of the KLC shares and settlement in full of KLC's claims, the Company also recorded income of \$14,995 in the statement of comprehensive (loss)/income within the caption "Other income".

### NOTE 26: OTHER FINANCIAL INFORMATION

The Company's 2019 Notes, issued on January 28, 2011, are fully and unconditionally guaranteed on a joint and several basis by all of the Company's subsidiaries with the exception of Navios Maritime Finance II (US) Inc., Navios Maritime Finance (US) Inc., Navios Logistics and its subsidiaries, Navios GP L.L.C. and Navios Asia L.L.C. and its subsidiaries. The subsidiary guarantees are "full and unconditional", as those terms are used in Regulation S-X Rule 3-10, except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(Expressed in thousands of U.S. dollars — except share data)

assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the notes. All subsidiaries, except for the non-guarantors Navios Logistics and its subsidiaries and Navios Asia and its subsidiaries, are 100% owned.

The Company revised the classification of certain amounts in its condensed statements of cash flows see Note 2(a) "Basis of Presentation" for amounts reclassified.

These condensed consolidated statements of Navios Holdings, the guarantor subsidiaries and the non-guarantor subsidiaries have been prepared in accordance on an equity basis as permitted by U.S. GAAP.

### NOTE 27: SUBSEQUENT EVENTS

- (a) On January 7, 2014, Navios Holdings received an amount of \$3,649, as a dividend distribution from Navios Acquisition.
- (b) On January 26, 2014, Navios Holdings entered into agreements to purchase two bulk carrier vessels, one 84,000 dwt Panamax vessel and one 180,600 dwt Capesize vessel, to be built in Japan. The vessels' acquisition prices are \$31,800 and \$52,000, respectively. Both vessels are scheduled for delivery in the fourth quarter of 2015. The vessels will be financed with debt and cash from operations.
- (c) On January 27, 2014, Navios Asia took delivery of the N Bonanza, a 2006-built 76,596 dwt bulk carrier vessel for a purchase price of \$17,500, of which \$6,250 was paid from the Company's and noncontrolling shareholders' cash and \$11,250 was financed through a loan.
- (d) On January 28, 2014, the Company completed the sale 2,000,000 American Depositary Shares, each of which represents 1/100th of a share of the Company's Series G Cumulative Redeemable Perpetual Preferred Stock, with a liquidation preference of \$2,500.00 per share (\$25.00 per American Depositary Share). Dividends will be payable on the Series G Cumulative Redeemable Perpetual Preferred Stock at a rate of 8.75% per annum of the stated liquidation preference. The net proceeds of approximately \$47,725 from the offering (after deducting underwriting discounts and estimated offering expenses) will be used for general corporate purposes, including acquisition of vessels.

# NAVIOS MARITIME HOLDINGS INC. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (continued)

- (e) In January 2014, Navios Holdings entered into agreements to charter-in five new building Japanese Kamsarmax vessels. The vessels are expected to be delivered between the second quarter of 2015 and the fourth quarter of 2016 and are chartered-in for periods from seven to ten years. Navios has purchase option on all of the vessels.
- (f) On February 14, 2014, Navios Holdings received an amount of \$7,435, as a dividend distribution from Navios Partners.
- (g) On February 17, 2014, the Board of Directors of Navios Holdings declared a dividend of \$0.06 per share of common stock. The dividend was paid on March 27, 2014 to stockholders of record on March 20, 2014.
- (h) In February, 2014, Navios Partners completed a public offering of 6,325,000 common units, including the full exercise of the underwriters' overallotment option, at \$17.30 per unit and raised net proceeds of approximately \$106,718. Navios Holdings paid \$2,233 in order to retain its 2.0% general partner interest. Following this offering, Navios Holdings' interest in Navios Partners decreased to 20.0% (which includes a 2.0% general partner interest).
- (i) In February 2014, Navios Acquisition completed a public offering of 14,950,000 shares of its common stock, including the full exercise of the underwriters' overallotment option at a price of \$3.85 per share, raising gross proceeds of \$57,558. Following this offering, Navios Holdings has a 43.1% voting and a 45.8% economic interest in Navios Acquisition.
- (j) With effect from March 25, 2014, the Company entered into an agreement to terminate the amended credit default insurance policy. In connection with the termination, Navios Holdings received compensation of \$4,044 in cash direct from the credit default insurer during the second quarter of 2014. The Company is expected to receive an additional \$7,229 in the second quarter of 2014 from the settlement proceeds of a defaulted counterparty-related claim.
- (k) On April 22, 2014, Navios Logistics and Navios Logistics Finance (US) Inc. completed the sale of \$375,000 of its 7.25% senior notes due 2022 (the "2022 Logistics Notes"). The net proceeds of this offering were used (i) to fund its current tender offer and consent solicitation for certain outstanding notes and pay related fees and expenses, (ii) to discharge and redeem any of such notes that are not purchased in the tender offer after all conditions to the tender offer are satisfied or waived, including the payment of any related fees and expenses and any redemption premium, and (iii) for general corporate purposes.

#### Affiliates included in the financial statements accounted for under the equity method

In the consolidated financial statements of Navios Holdings, the following entities are included as affiliates and are accounted for under the equity method for such periods during which such entities were affiliates of Navios Holdings: (i) Navios Partners and its subsidiaries (ownership interest as of December 31, 2013 was 21.6%, which includes a 2.0% general partner interest); (ii) Navios Acquisition and its subsidiaries (economic interest as of December 31, 2013 was 50.5%); (iii) Acropolis Chartering and Shipping Inc. ("Acropolis") (ownership interest as of December 31, 2013 was 50.0%); and (iv) Navios Europe and its subsidiaries (ownership interest as of December 31, 2013 was 47.5%).

## CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

- I, Angeliki Frangou, certify that:
- 1. I have reviewed this annual report on Form 20-F of Navios Maritime Holdings Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
- a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report on such evaluation; and
- d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

#### To the Board of Directors and Partners of Navios Maritime Partners L.P.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, changes in partners' capital and cash flows present fairly, in all material respects, the financial position of Navios Maritime Partners L.P. and its subsidiaries at December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers S.A.

Athens, Greece March 21, 2014

#### NOTE 1 – DESCRIPTION OF BUSINESS

Navios Partners is an international owner and operator of dry cargo vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands by Navios Holdings, a vertically integrated seaborne shipping and logistics company with over 60 years of operating history in the drybulk shipping industry. Navios GP L.L.C. (the "General Partner"), a wholly owned subsidiary of Navios Maritime Holdings Inc. ("Navios Holdings"), was also formed on that date to act as the general partner of Navios Partners and received a 2% general partner interest in Navios Partners.

Navios Partners is engaged in the seaborne transportation services of a wide range of drybulk commodities including iron ore, coal, grain and fertilizer, chartering its vessels under medium to long-term charters. The operations of Navios Partners are managed by Navios ShipManagement Inc., a subsidiary of Navios Holdings (the "Manager") from its offices in Piraeus, Greece, Singapore and Monaco.

Pursuant to the initial public offering ("IPO") on November 16, 2007, Navios Partners entered into the following agreements:

- (a) a management agreement with the Manager pursuant to which the Manager provides Navios Partners commercial and technical management services;
- (b) an administrative services agreement with the Manager pursuant to which the Manager provides Navios Partners administrative services; and
- (c) an omnibus agreement with Navios Holdings ("Omnibus Agreement"), governing, among other things, when Navios Partners and Navios Holdings may compete against each other as well as rights of first offer on certain drybulk carriers.

As of December 31, 2013, there were outstanding: 71,034,163 common units and 1,449,681 general partnership units. As of December 31, 2013, Navios Holdings owned a 21.6% interest in Navios Partners, which includes a 2% general partner interest.

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (a) Basis of presentation: The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).
- (b) Principles of consolidation: The accompanying consolidated financial statements include Navios Partners' wholly owned subsidiaries incorporated under the laws of Marshall Islands, Malta, and Liberia from their dates of incorporation or, for chartered-in vessels, from the dates charter-in agreements were in effect. All significant inter-company balances and transactions have been eliminated in Navios Partners' consolidated financial statements.

Navios Partners also consolidates entities that are determined to be variable interest entities as defined in the accounting guidance, if it determines that it is the primary beneficiary. A variable interest entity is defined as a legal entity where either (a) equity interest holders as a group lack the characteristics of a controlling financial interest, including decision making ability and an interest in the entity's residual risks and rewards, (b) the equity holders have not provided sufficient equity investment to permit the entity to finance its activities without additional subordinated financial support, or (c) the voting rights of some investors are not proportional to their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both and substantially all of the entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights.

**Subsidiaries:** Subsidiaries are those entities in which Navios Partners has an interest of more than one half of the voting rights or otherwise has power to govern the financial and operating policies of each subsidiary.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

- (c) Equity method investments: Affiliates are entities over which the Company generally has between 20% and 50% of the voting rights, or over which the Company has significant influence, but it does not exercise control. Investments in these entities are accounted for under the equity method of accounting. Under this method, the Company records an investment in the stock of an affiliate at cost, and adjusts the carrying amount for its share of the earnings or losses of the affiliate subsequent to the date of investment and reports the recognized earnings or losses in income. Dividends received from an affiliate reduce the carrying amount of the investment. The Company recognizes gains and losses in earnings for the issuance of shares by its affiliates, provided that the issuance of such shares qualifies as a sale of such shares. When the Company's share of losses in an affiliate equals or exceeds its interest in the affiliate, the Company does not recognize further losses, unless the Company has incurred obligations or made payments on behalf of the affiliate.
  - Navios Partners evaluates its investments with equity method, for other than temporary impairment, on a quarterly basis. Consideration is given to (1) the length of time and the extent to which the fair value has been less than the carrying value, (2) the financial condition and near-term prospects and (3) the intent and ability of the Company to retain its investments for a period of time sufficient to allow for any anticipated recovery in fair value.
- (d) Use of Estimates: The preparation of consolidated financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an on-going basis, management evaluates the estimates and judgments, including those related to future drydock dates, the selection of useful lives for tangible assets, expected future cash flows from long-lived assets to support impairment tests, provisions necessary for accounts receivables, provisions for legal disputes, and contingencies. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions and/or conditions.
- (e) Cash and Cash equivalents: Cash and cash equivalents consist of cash on hand, deposits held on call with banks, and other short-term liquid investments with original maturities of three months or less.
- (f) Restricted Cash: Restricted cash includes an amount of \$346 held in retention and pledged accounts as required by Navios Partners' credit facilities and an amount of \$831 to guarantee a claim related to an owned vessel. As of December 31, 2013 and 2012, the restricted cash held in retention accounts was \$1,177 and \$29,529, respectively. Long-term restricted cash as of December 31, 2013 was \$33,429 and related to amounts held in escrow, to partially finance a portion of the acquisition of vessels.
- (g) Accounts Receivable, net: The amount shown as accounts receivable, net at each balance sheet date includes receivables from charterers for hire, freight and demurrage billings, net of a provision for doubtful accounts. At each balance sheet date, all potentially uncollectible accounts are assessed individually for purposes of determining the appropriate provision for doubtful accounts. The allowance for doubtful accounts as of December 31, 2013 and 2012 was \$613 and \$458, respectively.
- (h) Vessels, net: Vessels are stated at historical cost, which consists of the contract price and any material expenses incurred upon acquisition (improvements and delivery expenses). Vessels acquired in an asset acquisition or in a business combination are recorded at fair value. Subsequent expenditures for major improvements and upgrading are capitalized, provided they appreciably extend the life, increase the earning capacity or improve the efficiency or safety of the vessels. Expenditures for routine maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight line method over the useful life of the vessels, after considering the estimated residual value. Management estimates the residual values of our drybulk vessels based on a scrap value cost of steel times the weight of the ship noted in lightweight ton (LWT). Residual values are periodically reviewed and revised to recognize changes in conditions, new regulations or other reasons. Revisions of residual values affect the depreciable amount of the vessels and affects depreciation expense in the period of the revision and future periods. Prior to December 31, 2012, management estimated the residual values of its vessels based on a scrap rate of \$285 per LWT. Effective January 1, 2013, following management's reassessment after considering current market trends for scrap rates and ten-year average historical scrap rates of the residual values of the Company's vessels, the estimated scrap value per LWT was increased to \$340. This change in accounting estimate of scrap value did not materially affect the statement of income and the earnings per unit of the Company for the year ended December 31, 2013.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

Management estimates the useful life of drybulk and container vessels to be 25 and 30 years, respectively, from the vessel's original construction. However, when regulations place limitations over the ability of a vessel to trade on a worldwide basis, its useful life is re-estimated to end at the date such regulations become effective.

- (i) Deferred Drydock and Special Survey costs: Navios Partners' vessels are subject to regularly scheduled dry docking and special surveys which are carried out every 36 or 60 months to coincide with the renewal of the related certificates issued by the classification societies, unless a further extension is obtained in rare cases and under certain conditions.
  - The costs of dry docking and special surveys was included in the daily management fee of \$4.65 per owned Ultra-Handymax vessel, \$4.55 per owned Panamax vessel and \$5.65 per owned Capesize vessel through December 31, 2013. In October 2013, Navios Partners amended its existing Management Agreement with the Manager, a subsidiary of Navios Holdings, to fix the fees for ship management services of its owned fleet at: (a) \$4.00 daily rate per Ultra-Handymax vessel; (b) \$4.10 daily rate per Panamax vessel; (c) \$5.10 daily rate per Capesize vessel effective from January 1, 2014 through December 31, 2015; and (d) \$6.50 daily rate per Post-Panamax container vessel effective from the delivery through December 31, 2015. Drydocking expenses under this agreement will be reimbursed by Navios Partners at cost at occurrence.
- (j) Impairment of long lived assets: Vessels, other fixed assets and other long lived assets held and used by Navios Partners are reviewed periodically for potential impairment whenever events or changes in circumstances indicate that the carrying amount of a particular asset may not be fully recoverable. In accordance with accounting for the "impairment or disposal of long-lived assets", Navios Partners' management evaluates the carrying amounts and periods over which long-lived assets are depreciated to determine if events or changes in circumstances have occurred that would require modification to their carrying values or useful lives. In evaluating useful lives and carrying values of long-lived assets, certain indicators of potential impairment, are reviewed such as undiscounted projected operating cash flows, vessel sales and purchases, business plans and overall market conditions.

Undiscounted projected net operating cash flows are determined for each vessel and compared to the vessel carrying value of the vessel and related carrying value of the intangible with respect to the time charter agreement attached to that vessel. Within the shipping industry, vessels are customarily bought and sold with a charter attached. The value of the charter may be favorable or unfavorable when comparing the charter rate to then current market rates. The loss recognized either on impairment (or on disposition) will reflect the excess of carrying value over fair value (selling price) for the vessel asset group.

During the fourth quarter of fiscal 2013, management concluded that events occurred and circumstances had changed, which indicated that potential impairment of Navios Partners' long-lived assets may exist. These indicators included continued deterioration in the spot market, and the related, impact of the current drybulk sector has on management's expectation for future revenues. As a result, an impairment assessment of long-lived assets was performed.

Navios Partners determined undiscounted projected net operating cash flows for each vessel and compared it to the vessel's carrying value together with the carrying value of the related intangible. The significant factors and assumptions used in the undiscounted projected net operating cash flow analysis included: determining the projected net operating cash flows by considering the charter revenues from existing time charters for the fixed fleet days (Navios Partners' remaining charter agreement rates) and an estimated daily time charter equivalent for the unfixed days (based on a combination of the Navios Partners' remaining charter agreement rates and the 10-year average historical one year time charter rates adjusted for outliers) over the remaining economic life of each vessel, net of brokerage and address commissions and excluding days of scheduled off-hires, management fees fixed until December 2013 and thereafter assuming an annual increase of 3.0% and utilization rate of 98.6% based on the fleet's historical performance. The assessment concluded that step two of the impairment analysis was not required and no impairment of vessels and the intangible assets existed as of December 31, 2013, as the undiscounted projected net operating cash flows exceeded the carrying value.

In the event that impairment would occur, the fair value of the related asset would be determined and an impairment charge would be recorded to operations calculated by comparing the asset's carrying value to its fair value. Fair value is estimated primarily through the use of third-party valuations performed on an individual vessel basis.

Although management believes the underlying assumptions supporting this assessment are reasonable, if charter rate trends and the length of the current market downturn, vary significantly from our forecasts, management may be required to perform step two of the impairment analysis in the future that could expose Navios Partners to material impairment charges in the future.

No impairment loss was recognized for any of the periods presented.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

- (k) Deferred Financing Cost: Deferred financing costs include fees, commissions and legal expenses associated with obtaining credit facilities. These costs are amortized over the life of the related facility using the effective interest rate method, and are included in interest expense. Amortization expense and write-offs of deferred financing cost for each of the years ended December 31, 2013, 2012 and 2011 were \$4,035, \$787 and \$530, respectively.
- (1) Intangible assets and liabilities: Navios Partners' intangible assets and liabilities consist of favorable lease terms and unfavorable lease terms. When intangible assets or liabilities associated with the acquisition of a vessel are identified, they are recorded at fair value. Fair value is determined by reference to market data and the discounted amount of expected future cash flows. Where charter rates are higher than market charter rates, an asset is recorded, being the difference between the acquired charter rate and the market charter rate for an equivalent vessel. Where charter rates are less than market charter rates, a liability is recorded, being the difference between the assumed charter rate and the market charter rate for an equivalent vessel. The determination of the fair value of acquired assets and assumed liabilities requires Navios Partners to make significant assumptions and estimates of many variables including market charter rates, expected future charter rates, the level of utilization of its vessels and its weighted average cost of capital. The use of different assumptions could result in a material change in the fair value of these items, which could have a material impact on Navios Partners' financial position and results of operations.

The amortizable value of favorable and unfavorable leases is amortized over the remaining life of the lease term and the amortization expense is included in the statement of income in the depreciation and amortization line item. The amortizable value of favorable leases would be considered impaired if their fair market values could not be recovered from the future undiscounted cash flows associated with the asset. Management, after considering various indicators, performed on impairment test which included intangible assets as described in paragraph (j) above. As of December 31, 2013, there was no impairment of intangible assets

- (m) Foreign currency translation: Navios Partners' functional and reporting currency is the U.S. Dollar. Navios Partners engages in worldwide commerce with a variety of entities. Although, its operations may expose it to certain levels of foreign currency risk, its transactions are predominantly U.S. dollar denominated. Additionally, Navios Partners' wholly-owned vessel subsidiaries transacted a nominal amount of their operations in Euros; however, all of the subsidiaries' primary cash flows are U.S. dollar denominated. Transactions in currencies other than the functional currency are translated at the exchange rate in effect at the date of each transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is consummated and the date on which it is either settled or translated, are recognized in the statement of operations. The foreign currency exchange (losses)/gains recognized in the accompanying consolidated statements of income, in other income or expense, for each of the years ended December 31, 2013, 2012 and 2011 were \$(13), \$(1) and \$(4), respectively.
- (n) Provisions: Navios Partners, in the ordinary course of its business, is subject to various claims, suits and complaints. Management, in consultation with internal and external advisors, will provide for a contingent loss in the financial statements if the contingency had been incurred and the likelihood of loss is deemed to be probable at the date of the financial statements and the amount of the loss can be reasonably estimated. In accordance with the accounting for contingencies, if Navios Partners has determined that the reasonable estimate of the loss is a range and there is no best estimate within the range, Navios Partners will accrue the lower amount of the range. Navios Partners, through the management agreement, participates in Protection and Indemnity (P&I) insurance coverage plans provided by mutual insurance societies known as P&I clubs. Under the terms of these plans, participants may be required to pay additional premiums to fund operating deficits incurred by the clubs ("additional calls"). Obligations for additional calls are accrued annually based on announcements made by the board of Directors of each Club at the end of each policy year pertaining to collection of any additional calls for the 'closed' policy years. Services such as the ones described above are provided by the Manager under the management agreement and included as part of the daily fee of \$4.55 for each Panamax vessel, \$5.65 for each Capesize vessel and \$4.65 for each Ultra-Handymax vessel through December 31, 2013.
- (o) Segment Reporting: Navios Partners reports financial information and evaluates its operations by charter revenues and not by the length of ship employment for its customers. Navios Partners does not use discrete financial information to evaluate operating results for each type of charter. Management does not identify expenses, profitability or other financial information by charter type. As a result, management reviews operating results solely by revenue per day and operating results of the fleet and thus Navios Partners has determined that it operates under one reportable segment.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### (p) Revenue and Expense Recognition:

**Revenue Recognition:** Revenue is recorded when services are rendered, under a signed charter agreement or other evidence of an arrangement, the price is fixed or determinable, and collection is reasonably assured. Revenue is generated from time charter of vessels.

Voyage revenues for the transportation of cargo are recognized ratably over the estimated relative transit time of each voyage. Voyage expenses are recognized as incurred. A voyage is deemed to commence when a vessel is available for loading and is deemed to end upon the completion of the discharge of the current cargo. Estimated losses on voyages are provided for in full at the time such losses become evident. Under a voyage charter, a vessel is provided for the transportation of specific goods between specific ports in return for payment of an agreed upon freight per ton of cargo.

Revenues from time chartering of vessels are accounted for as operating leases and are thus recognized on a straight line basis as the average minimum lease revenue over the rental periods of such charter agreements, as service is performed. A time charter involves placing a vessel at the charterers' disposal for a period of time during which the charterer uses the vessel in return for the payment of a specified daily hire rate. Under time charters, operating costs such as for crews, maintenance and insurance are typically paid by the owner of the vessel.

Revenues from profit-sharing are calculated at an agreed percentage of the excess of the charterer's average daily income over an agreed amount and accounted for on an accrual basis based on provisional amounts.

Revenues are recorded net of address commissions. Address commissions represent a discount provided directly to the charterers based on a fixed percentage of the agreed upon charter rate. Since address commissions represent a discount (sales incentive) on services rendered by Navios Partners and no identifiable benefit is received in exchange for the consideration provided to the charterer, these commissions are presented as a reduction of revenue.

**Time Charter and Voyage Expenses:** Time charter and voyage expenses comprise all expenses related to each particular voyage, including time charter hire paid and bunkers, port charges, canal tolls, cargo handling, agency fees and brokerage commissions. Time charter expenses are expensed over the period of the time charter and voyage expenses are recognized as incurred.

Management fees: Pursuant to the Management Agreement dated November 16, 2007, which was revised in October 2009 and 2011, the Manager, a wholly owned subsidiary of Navios Holdings, provides commercial and technical management services to Navios Partners' vessels for a daily fee of: (a) \$4.65 daily rate per Ultra-Handymax vessel; (b) \$4.55 daily rate per Panamax vessel; and (c) \$5.65 daily rate per Capesize vessel until December 31, 2013.

In October 2013, Navios Partners amended its existing Management Agreement with the Manager, a subsidiary of Navios Holdings, to fix the fees for ship management services of its owned fleet at: (a) \$4.00 daily rate per Ultra-Handymax vessel; (b) \$4.10 daily rate per Panamax vessel; (c) \$5.10 daily rate per Capesize vessel effective from January 1, 2014 through December 31, 2015; and (d) \$6.50 daily rate per Post-Panamax container vessel effective from the delivery through December 31, 2015. Drydocking expenses under this agreement will be reimbursed at cost at occurrence.

**General and administrative expenses:** Pursuant to the Administrative Services agreement dated November 16, 2007, the Manager also provides administrative services to Navios Partners, which include bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. The Manager is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Navios Partners extended the duration of its existing Administrative Services Agreement with the Manager pursuant to the same terms, until December 31, 2017.

**Deferred Voyage Revenue:** Deferred voyage revenue primarily relates to cash received from charterers prior to it being earned. These amounts are recognized as revenue over the voyage or charter period. In January 2009, Navios Partners and its counterparty to the Navios Hope charter party mutually agreed for a lump sum amount of approximately \$30,443, of which Navios Partners received, net of expenses, an amount of \$29,589 in February 2009. Under a new charter agreement, the balance of the aggregate value of the original contract will be allocated to the period until its original expiration. The amount of \$30,443 has been recognized as deferred revenue and amortized over the life of the vessel's contract through August 2013.

As of December 31, 2013 and December 31, 2012, the deferred voyage revenue of \$2,997 and \$9,112, respectively, included the unamortized amount of the lump sum amount related to the Navios Hope of \$0 and \$4,230, respectively. As of December 31, 2013, each of the current and long-term portion of the lump sum amount for the Navios Hope was zero.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

Prepaid Voyage Costs: Prepaid voyage costs relate to cash paid in advance for expenses associated with voyages. These amounts are recognized as expense over the charter period.

**Inventory:** Inventories, which are comprised of bunkers due to freight voyages, are valued at the lower of cost or market value as determined on the first-in, first-out basis.

(q) Financial Instruments: Financial instruments carried on the balance sheet include cash and cash equivalents, restricted cash, accounts receivables and accounts payables, other receivables and other liabilities and long-term debt. The particular recognition methods applicable to each class of financial instrument are disclosed in the applicable significant policy description of each item, or included below as applicable.

**Financial risk management:** Navios Partners' activities expose it to a variety of financial risks including fluctuations in future freight rates, time charter hire rates, and fuel prices, credit and interest rates risk. Risk management is carried out under policies approved by executive management. Guidelines are established for overall risk management, as well as specific areas of operations.

Credit risk: Navios Partners closely monitors its exposure to customers and counter-parties for credit risk. Navios Partners has entered into the management agreement with the Manager, pursuant to which the Manager agreed to provide commercial and technical management services to Navios Partners. When negotiating on behalf of Navios Partners' various vessel employment contracts, the Manager has policies in place to ensure that it trades with customers and counterparties with an appropriate credit history.

Financial instruments that potentially subject Navios Partners to concentrations of credit risk are accounts receivable and cash and cash equivalents. Navios Partners does not believe its exposure to credit risk is likely to have a material adverse effect on its financial position, results of operations or cash flows.

For the year ended December 31, 2013, Navios Partners' customers representing 10% or more of total revenue were Cosco Bulk Carrier Co. Ltd., Hanjin Shipping Co. Ltd, Navios Corporation and Samsun Logix, which accounted for 23.4%, 11.3%, 10.4% and 10.2%, respectively. For the year ended December 31, 2012, Navios Partners' customers representing 10% or more of total revenue were Cosco Bulk Carrier Co. Ltd., Mitsui O.S.K. Lines, Ltd. and Samsun Logix, which accounted for 22.8%, 16.0% and 13.0%, respectively. For the year ended December 31, 2011, Cosco Bulk Carrier Co. Ltd., Mitsui O.S.K. Lines, Ltd. and Samsun Logix accounted for 22.2%, 18.5% and 13.2%, respectively, of total revenue. No other customers accounted for 10% or more of total revenue for any of the years presented.

**Foreign exchange risk:** Foreign currency transactions are translated into the measurement currency rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statements of income.

(r) Cash Distribution: As per the Partnership Agreement, within 45 days following the end of each quarter, an amount equal to 100% of Available Cash with respect to such quarter shall be distributed to the partners as of the record date selected by the Board of Directors.

Available Cash: Generally means, for each fiscal quarter, all cash on hand at the end of the quarter:

- less the amount of cash reserves established by the board of directors to:
  - provide for the proper conduct of the business (including reserve for Maintenance and Replacement Capital Expenditures)
    - · comply with applicable law, any of Navios Partners' debt instruments, or other agreements; or
  - provide funds for distributions to the unitholders and to the general partner for any one or more of the next four quarters;
- plus all cash on hand on the date of determination of Available Cash for the quarter resulting from working capital borrowings made after the end
  of the quarter. Working capital borrowings are generally borrowings that are made under any revolving credit or similar agreement used solely for
  working capital purposes or to pay distributions to partners.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

Available Cash is a quantitative measure used in the publicly traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Available Cash is not required by US GAAP and should not be considered as an alternative to net income or any other indicator of Navios Partners' performance required by US GAAP.

Maintenance and Replacement Capital Expenditures: Maintenance and Replacement capital expenditures are those capital expenditures required to maintain over the long term the operating capacity of or the revenue generated by Navios Partners' capital assets, and expansion capital expenditures are those capital expenditures that increase the operating capacity of or the revenue generated by the capital assets. To the extent, however, that capital expenditures associated with acquiring a new vessel increase the revenues or the operating capacity of our fleet, those capital expenditures would be classified as expansion capital expenditures. As at December 31, 2013, 2012 and 2011, Maintenance and Replacement capital expenditures reserve approved by the Board of Directors was \$14,593, \$18,869 and \$18,569, respectively.

### NOTE 3 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	December 31, 2013	December 31, 2012		
Cash on hand and at banks	\$ 35,079	\$ 18,180		
Short term deposits and highly liquid funds	267	13,952		
Total cash and cash equivalents	\$ 35,346	\$ 32,132		

Short term deposits and highly liquid funds relate to amounts held in banks for general financing purposes. As of December 31, 2013, Navios Partners held time deposits of \$0 and money market funds of \$267 with duration of less than three months. As of December 31, 2012, Navios Partners held time deposits of \$13,129 and money market funds of \$823 with duration of less than three months.

Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government-provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Restricted cash, as of December 31, 2013 and December 31, 2012, included an amount held as security in the form of a letter of guarantee related to an owned vessel in the amount of \$831 and \$829, respectively. In addition, at each of December 31, 2013 and December 31, 2012, restricted cash included \$346 and \$28,700, respectively, which related to amounts held in retention accounts as required by certain of Navios Partners' credit facilities. As of December 31, 2013 and December 31, 2012 the short-term restricted cash held in retention accounts was \$1,177 and \$29,529, respectively. Long-term restricted cash as of December 31, 2013 and December 31, 2012, was \$33,429 and \$0, respectively which related to amounts held in escrow, to partially finance a portion of the purchase price of vessels to be delivered in 2014.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

### NOTE 4 – ACCOUNTS RECEIVABLE, NET

Accounts receivable consist of the following:

	December 31, 2013	December 31, 2012		
Accounts receivable	\$ 16,911	\$ 8,236		
Less: Provision for doubtful receivables	(613)	(458)		
Accounts receivable, net	\$ 16,298	\$ 7,778		

Charges to provisions for doubtful accounts are summarized as follows:

	Balance	Charges		Balance
	at	to costs		at end
	beginning	and	Amount	of
Allowance for doubtful receivables	of period	expenses	utilized	period
Year ended December 31, 2013	\$ (458)	\$ (155)	\$ —	\$ (613)
Year ended December 31, 2012	\$ (49)	\$ (409)	\$ —	\$ (458)
Year ended December 31, 2011	\$ (49)	\$ —	\$ —	\$ (49)

#### NOTE 5 - PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets consist of the following:

	December 31, 2013	mber 31, 2012
Prepaid voyage costs	\$ 431	\$ 252
Inventory	1,166	_
Other	66	 342
Total prepaid expenses and other current assets	\$ 1,663	\$ 594

Inventories, which are comprised of bunkers due to freight voyages, are valued at the lower of cost or market value as determined on the first-in, first-out basis.

#### NOTE 6 - VESSELS AND OTHER FIXED ASSETS

Vessels	Cost	Accumulated Depreciation	Net Book Value
Balance December 31, 2011	\$ 764,905	\$ (97,692)	\$ 667,213
Additions	88,505	(34,327)	54,178
Balance December 31, 2012	\$ 853,410	\$ (132,019)	\$ 721,391
Additions	341,193	(36,431)	304,762
Balance December 31, 2013	\$1,194,603	\$ (168,450)	\$1,026,153

(Expressed in thousands of U.S. Dollars except unit and per unit data)

To date, for each of the vessels purchased from Navios Holdings, the vessel acquisition was effected through the acquisition of all of the capital stock of the vessel-owning companies, which held the ownership and other contractual rights and obligations related to each of the acquired vessels, including the vessel and a charter-out contract. Management accounted for each acquisition as an asset acquisition. At the transaction date, the purchase price approximated the fair value of the assets acquired, which was determined based on a combination of methodologies including discounted cash flow analyses and independent valuation analyses. The consideration paid, for each of these transactions, was allocated between the intangible assets (favorable lease term) and the vessel value.

In December 2013, Navios Partners acquired from an unrelated third party five 2006 South Korean-built Post-Panamax container vessels of 6,800 TEU each, consisting of the Hyundai Hongkong, the Hyundai Singapore, the Hyundai Tokyo, the Hyundai Shanghai and the Hyundai Busan for a total cash consideration of \$275,000. Navios Partners allocated the total consideration to the fair value of the vessels, as these were the only assets acquired. There was no existing debt, charters or technical and commercial management agreements assumed, therefore, Navios Partners concluded that the acquisition of the Post-Panamax container vessels was an asset acquisition under ASC 805.

On October 11, 2013, Navios Partners acquired from an unrelated third party the Navios Harmony, an 82,790 dwt 2006 Japanese-built Panamax vessel, for an acquisition cost of \$17,955 in cash consideration.

On September 11, 2013, Navios Partners acquired from an unrelated third party the Navios Joy, a 181,389 dwt Japanese new-build Capesize vessel, for an acquisition cost of \$47,467 in cash consideration.

On July 27, 2012, Navios Partners acquired the Navios Helios from unrelated party, a 77,075 dwt Panamax vessel built in 2005, for an acquisition cost of \$21,128 in cash consideration.

On July 24, 2012, Navios Partners acquired the Navios Soleil from unrelated party, a 57,337 dwt Ultra-Handymax vessel built in 2009, for an acquisition cost of \$21,070 in cash consideration.

On June 15, 2012, Navios Partners acquired the Navios Buena Ventura from Navios Holdings for a purchase price of \$67,500 of which \$46,307 was allocated to the vessel and \$21,193 allocated to the acquired time charter-out contract with favorable leases.

Deposits for vessel acquisition represent deposits for vessels to be delivered in the future. As of December 31, 2013 and 2012, Navios Partners vessel deposits amounted to \$7,271 and \$0, respectively.

#### NOTE 7 – INTANGIBLE ASSETS AND UNFAVORABLE LEASE TERMS

Intangible assets and unfavorable lease terms as of December 31, 2013 and 2012 consist of the following:

	Cost	Accumulated Amortization	Net	Book Value
Total favorable lease terms charter-out December 31, 2011	\$227,335	\$ (50,754)	\$	176,581
Additions	21,193	(37,295)		(16,102)
Total favorable lease terms charter-out December 31, 2012	\$ 248,528	\$ (88,049)	\$	160,479
Additions	_	(37,869)		(37,869)
Accelerated amortization		(3,205)		(3,205)
Total favorable lease terms charter-out December 31, 2013	\$ 248,528	\$ (129,123)	\$	119,405

Amortization expense of favorable and unfavorable lease terms for the years ended December 31, 2013, 2012 and 2011 is presented in the following table:

		Year Ended			
	December 31, 2013	December 31, 2012	December 31, 2011		
Unfavorable lease terms	\$ —	\$ —	\$ 665		
Favorable lease terms charter-out	(37,869)	(37,295)	(33,311)		
Acceleration of intangible asset	(3,205)				
Total	\$ (41,074)	\$ (37,295)	\$ (32,646)		

(Expressed in thousands of U.S. Dollars except unit and per unit data)

The aggregate amortization of the intangibles for the 12-month periods ended December 31 is estimated to be as follows:

Year	Amount
<u>Year</u> 2014	\$ 26,442
2015	21,169
2016	17,234
2017	17,526
2018	17,210
2019 and thereafter	19,824
	\$ 119,405

In relation to Navios Partners' new suspension agreement, entered into in June 2013, the amount of \$3,205 of the Navios Melodia favorable lease term that corresponded to the suspension period until April 2016 has been accounted for accelerated amortization in the statement of income under the caption of Depreciation and amortization. The remaining favorable lease term intangible will continue to be amortized once the suspension period ends in April 2016.

Intangible assets subject to amortization are amortized using the straight line method over their estimated useful lives to their estimated residual value of zero. The weighted average useful lives are 7.7 years for favorable lease terms charter-out.

#### NOTE 8 – ACCOUNTS PAYABLE

Accounts payable as of December 31, 2013 and 2012 consist of the following:

	December 31, 2013	December 31, 2012
Creditors	\$ 1,194	\$ 496
Brokers	1,681	1,342
Insurances	171	138
Professional and legal fees	125	114
Total accounts payable	\$ 3,171	\$ 2,090

#### **NOTE 9 – ACCRUED EXPENSES**

Accrued expenses as of December 31, 2013 and 2012 consist of the following:

	December 31 2013	, December 31, 2012
Accrued voyage expenses	\$ 1,979	\$ 2,410
Accrued loan interest	579	780
Accrued legal and professional fees	1,313	3 409
Total accrued expenses	\$ 3,87	\$ 3,599

#### **NOTE 10 – BORROWINGS**

Borrowings as of December 31, 2013 and 2012 consist of the following:

	December 31, 2013	December 31, 2012
Term Loan B facility	\$ 437,778	\$ —
Credit facilities	100,020	299,709
Total borrowings	\$ 537,798	\$ 299,709
Less: Unamortized discount	(4,474)	_
Less: current portion, net of unamortized discount	(5,358)	(23,727)
Total long-term borrowings, net of unamortized discount	\$ 527,966	\$ 275,982

(Expressed in thousands of U.S. Dollars except unit and per unit data)

In June 2013, Navios Partners completed the issuance of the \$250,000 Term Loan B facility. The Term Loan B facility bears an interest rate of LIBOR + 425 basis points and has a five-year term with 1.0% amortization profile and was issued at 98.0% (at a discount of \$5,000). Navios Partners used the net proceeds of the Term Loan B facility to: i) prepay \$101,614 of the July 2012 Credit Facility; ii) fully repay the outstanding balance of \$41,225 of the August 2012 Credit Facility; iii) deposit \$98,179 to be held in escrow, to partially finance part of the acquisition of four new vessels, of which \$47,000 was released in September 2013 for the acquisition of the Navios Joy and \$17,750 was released in October 2013 for the acquisition of the Navios Harmony; and iv) cover fees and expenses.

On November 1, 2013, Navios Partners completed the issuance of a \$189,500 add-on to its existing Term Loan B facility. The add-on to the Term Loan B facility bears an interest rate of LIBOR +425 basis points and has a five year term, with a 1.0% amortization profile and was issued at 100%. Navios Partners used the net proceeds to partially finance the acquisition of five Post-Panamax container vessels.

As of December 31, 2013, the outstanding balance of the Term Loan B facility including the add-on was \$437,778, net of discount of \$4,474 and it is repayable in 18 quarterly installments of \$1,097, beginning in March 2014, with a final payment \$418,032 in June 2018.

The Term Loan B facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral and is guaranteed by each subsidiary of Navios Partners. The Term Loan Agreement requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan Agreement also provides for customary events of default.

In June 2013, Navios Partners amended the July 2012 Credit Facility and prepaid \$101,614 from the proceeds of the Term Loan B facility. The prepayment was applied in partial settlement of the next 16 installments. As of December 31, 2013, the outstanding balance was \$100,020 and is repayable in 16 installments, plus a final payment, in various amounts during the term of the July 2012 Credit Facility consisting of \$496 (five quarterly installments), \$3,456 (nine quarterly installments), \$2,346 (one quarterly installment) and \$5,867 (one quarterly installment) with a final payment of \$58,223. The July 2012 Credit Facility bears interest at rates ranging from 180 to 205 bps per annum (depending on the loan amount compared to the security value) plus, depending on the length of the interest period, either LIBOR or the actual cost of funds. The refinancing of this facility was accounted for as a debt modification in accordance with ASC470 Debt and an amount of \$1,319 was written-off from the deferred financing fees.

In June 2013, Navios Partners fully repaid the outstanding balance of \$41,225 of the August 2012 Credit Facility from the proceeds of the Term Loan B facility. The refinancing of this facility was accounted for as a debt extinguishment in accordance with ASC470 Debt and the remaining unamortized balance of \$707 was written-off from the deferred financing fees.

As of December 31, 2013, the total borrowings under the Navios Partners' credit facilities were \$533,324, net of original issue discount.

As of December 31, 2013, Navios Partners was in compliance with the financial covenants of its credit facilities.

Amounts drawn under the July 2012 Credit Facility are secured by first preferred mortgages on certain Navios Partners' vessels and other collateral and are guaranteed by the respective vessel-owning subsidiary. The July 2012 Credit Facility contains a number of restrictive covenants that prohibit or limit Navios Partners from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels; changing the flag, class, management or ownership of Navios Partners' vessels; changing the commercial and technical management of Navios Partners' vessels; selling or changing the beneficial ownership or control of Navios Partners' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels, including the fixed daily fee payable under the management agreement. The July 2012 Credit Facility also requires compliance with a number of financial covenants, including: (i) maintain a required security amount of over 140%; (ii) minimum free consolidated liquidity of at least the higher of \$20,000 and the aggregate of interest and principal falling due during the previous six months; (iii) maintain a ratio of EBITDA to interest expense of at least 5.00: 1.00; (iv) maintain a ratio of total liabilities to total assets (as defined in our credit facilities) of less than 0.65: 1.00; and (v) maintain a minimum net worth to \$250,000. It is an event of default under the loan facilities if such covenants are not complied with.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

The maturity table below reflects the principal payments due under its credit facilities for the 12-month periods ended December 31:

Year	Amount
<u>Year</u> 2014	\$ 6,373
2015	14,142
2016	20,624
2017	76,436
2018	420,223
2019 and thereafter	<u> </u>
	\$ 537,798

#### NOTE 11 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value amounts of many of Navios Partners' financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and amounts due to related parties approximate their fair value due primarily to the short-term maturity of the related instruments.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

**Borrowings:** The carrying amount of the floating rate loans approximates its fair value.

The estimated fair values of the Navios Partners' financial instruments are as follows:

	December 31, 2013		December	31, 2012
	Book Value	Fair Value	<b>Book Value</b>	Fair Value
Cash and cash equivalents	\$ 35,346	\$ 35,346	\$ 32,132	\$ 32,132
Restricted cash	\$ 34,606	\$ 34,606	\$ 29,529	\$ 29,529
Accounts receivable, net	\$ 16,298	\$ 16,298	\$ 7,778	\$ 7,778
Loans receivable from related parties	\$ 780	\$ 780	\$ —	\$ —
Accounts payable	\$ (3,171)	\$ (3,171)	\$ (2,090)	\$ (2,090)
Amounts due to related parties	\$ (204)	\$ (204)	\$ (21,748)	\$ (21,748)
Term Loan B facility	\$ (433,304)	\$(440,514)	\$ —	\$ —
Other long-term debt	\$(100,020)	\$ (100,020)	\$(299,709)	\$(299,709)

#### Fair Value Measurements

The estimated fair value of our financial instruments that are not measured at fair value on a recurring basis, categorized based upon the fair value hierarchy, are as follows:

Level I: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level II: Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.

Level III: Inputs that are unobservable. The Company did not use any Level 3 inputs as of December 31, 2013.

	Fair Value Measurements at December 31, 2013 Using			3 Using
	Total	Level I	Level II	Level III
Cash and cash equivalents	\$ 35,346	\$ 35,346	\$ —	\$ —
Restricted cash	\$ 34,606	\$ 34,606	\$ —	\$ —
Loans receivable from related parties	\$ 780	\$ 780	\$ —	\$ —
Term Loan B facility(1)	\$ (440,514)	\$ —	\$ (440,514)	\$ —
Other long-term debt (1)	\$ (100,020)	\$ —	\$ (100,020)	\$ —

(1) The fair value of the Company's debt is estimated based currently available debt with similar contract terms, interest rate and remaining maturities as well as taking into account our creditworthiness.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### **NOTE 12 – ISSUANCE OF UNITS**

On February 6, 2013, Navios Partners completed its public offering of 4,500,000 common units at \$14.15 per unit and raised gross proceeds of approximately \$63,675 to fund its fleet expansion. The net proceeds of this offering, including the underwriting discount and excluding offering costs of \$195 were approximately \$60,840. Pursuant to this offering, Navios Partners issued 91,837 general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$1,299. On the same date, Navios Partners completed the exercise of the option previously granted to the underwriters in connection with the offering and issued 675,000 additional common units at the public offering price less the underwriting discount. As a result of the exercise of the option, Navios Partners raised additional gross proceeds of \$9,551. The net proceeds, including the underwriting discount, were approximately \$9,126 and issued 13,776 additional general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$195.

On September 25, 2013, Navios Partners completed its public offering of 5,000,000 common units at \$14.26 per unit and raised gross proceeds of approximately \$71,300 to fund its fleet expansion. The net proceeds of this offering, including the underwriting discount and excluding offering costs of \$179 were approximately \$68,200. Pursuant to this offering, Navios Partners issued 102,041 general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$1,455. On the same date, Navios Partners completed the exercise of the option previously granted to the underwriters in connection with the offering and issued 750,000 additional common units at the public offering price less the underwriting discount. As a result of the exercise of the option, Navios Partners raised additional gross proceeds of \$10,695. The net proceeds, including the underwriting discount, were approximately \$10,230 and issued 15,306 additional general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$218.

#### NOTE 13 – SEGMENT INFORMATION

Navios Partners reports financial information and evaluates its operations by charter revenues. Navios Partners does not use discrete financial information to evaluate operating results for each type of charter. As a result, management reviews operating results solely by revenue per day and operating results of the fleet and thus Navios Partners has determined that it operates under one reportable segment.

The following table sets out operating revenue by geographic region for Navios Partners' reportable segment. Revenue is allocated on the basis of the geographic region in which the customer is located. Drybulk and container vessels operate worldwide. Revenues from specific geographic region which contribute over 10% of total revenue are disclosed separately.

### Revenue by Geographic Region

	Year Ended December 31, 2013	Year Ended December 31, 2012	Year Ended December 31, 2011
Europe	\$ 48,906	\$ 29,658	\$ 24,436
Asia	119,776	151,608	147,642
North America	21,334	15,968	7,218
Australia	8,143	8,201	7,657
Total	\$ 198,159	\$ 205,435	\$ 186,953

Vessels operate on a worldwide basis and are not restricted to specific locations. Accordingly, it is not possible to allocate the assets of these operations to specific countries.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### **NOTE 14 – INCOME TAXES**

Marshall Islands, Malta and Liberia do not impose a tax on international shipping income. Under the laws of Marshall Islands, Malta and Liberia, the countries of the vessel-owning subsidiaries' incorporation and vessels' registration, the vessel-owning subsidiaries are subject to registration and tonnage taxes which have been included in vessel operating expenses in the accompanying consolidated statements of income.

As of January 1, 2013, foreign flagged vessels that are managed by Greek or foreign ship management companies in Greece are subject to Greek tonnage tax. The payment of tonnage tax exhausts the tax liability of the foreign ship owning company against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Pursuant to Section 883 of the Internal Revenue Code of the United States, U.S. source income from the international operation of ships is generally exempt from U.S. income tax if the company operating the ships meets certain incorporation and ownership requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country which grants an equivalent exemption from income taxes to U.S. corporations. All the vessel-owning subsidiaries satisfy these initial criteria. In addition, these companies must meet an ownership test. The management of Navios Partners believes that this ownership test was satisfied prior to the IPO by virtue of a special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company. Although not free from doubt, management also believes that the ownership test will be satisfied based on the trading volume and ownership of Navios Partners' units, but no assurance can be given that this will remain so in the future.

#### NOTE 15 - COMMITMENTS AND CONTINGENCIES

Navios Partners is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where Navios Partners believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were prepared. Management believes, the ultimate disposition of these matters will be immaterial individually and in the aggregate to Navios Partners' financial position, results of operations or liquidity.

In January 2011, Korea Line Corporation ("KLC") which is the charterer of the Navios Melodia filed for receivership. The charter contract was affirmed and will be performed by KLC on its original terms, following an interim suspension period during which Navios Partners trades the vessel directly.

As of December 31, 2013, Navios Partners had commitments for future remaining contractual deposits for the vessels to be delivered on various dates through the first quarter of 2014. The future minimum commitments for the 12-month periods ended December 31, of Navios Partners under its charter-in contracts, net of commissions and for vessel deliveries are as follows:

	Amount
2014	\$42,761
2015	1,005
	\$ 43,766

#### NOTE 16 - LEASES

The future minimum contractual lease income (charter-out rates are presented net of commissions) as of December 31, 2013, is as follows:

	Amount
2014	190,896
2015	161,767
2016	138,128
2017	134,662
2018	126,303
2019 and thereafter	369,381
	\$1,121,137

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### NOTE 17 – TRANSACTIONS WITH RELATED PARTIES AND AFFILIATES

Management fees: Pursuant to the management agreement dated November 16, 2007 (the "Management Agreement"), which was revised in October 2009, the Manager, a wholly owned subsidiary of Navios Holdings, provides commercial and technical management services to Navios Partners' vessels for a daily fee of: (a) \$4.5 daily rate per Ultra-Handymax vessel; (b) \$4.4 daily rate per Panamax vessel; and (c) \$5.5 daily rate per Capesize vessel for the two-year period that ended on November 16, 2011. In October 2011, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2017 and fixed the rate for shipmanagement services of its owned fleet through December 31, 2013 for a daily fee: (a) \$4.65 daily rate per Ultra-Handymax vessel; (b) \$4.55 daily rate per Panamax vessel; and (c) \$5.65 daily rate per Capesize vessel.

In October 2013, Navios Partners amended its existing Management Agreement the Manager, a subsidiary of Navios Holdings, to fix the fees for ship management services of its owned fleet at: (a) \$4.00 daily rate per Ultra-Handymax vessel; (b) \$4.10 daily rate per Panamax vessel; (c) \$5.10 daily rate per Capesize vessel effective from January 1, 2014 through December 31, 2015; and (d) \$6.50 daily rate per Post-Panamax container vessel effective from the delivery through December 31, 2015. Drydocking expenses under this agreement will be reimbursed by Navios Partners at cost at occurrence.

This daily fee covers all of the vessels' operating expenses, including the cost of dry dock and special surveys. Total management fees for the year ended December 31, 2013, 2012 and 2011 amounted to \$36,173, \$31,689 and \$26,343, respectively.

**General and administrative expenses:** Pursuant to the administrative services agreement dated November 16, 2007, the Manager also provides administrative services to Navios Partners, which include bookkeeping, audit and accounting services, legal and insurance services, administrative and clerical services, banking and financial services, advisory services, client and investor relations and other. The Manager is reimbursed for reasonable costs and expenses incurred in connection with the provision of these services. Navios Partners extended the duration of its existing Administrative Services Agreement with the Manager pursuant to the same terms, until December 31, 2017.

Total general and administrative expenses charged by Navios Holdings for the year ended December 31, 2013, 2012 and 2011 amounted to \$4,366, \$3,883 and \$3,447, respectively.

**Balance due to related parties:** Included in the current liabilities as of December 31, 2013 was an amount of \$204, which represented the current account payable to Navios Holdings and its subsidiaries. The balance mainly consisted of other payables amounting to \$204. Amounts due to related parties as of December 31, 2012 was \$21,748 mainly relating to management fees and administrative expenses.

**Vessel Chartering:** In February 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Apollon. The term of this charter is approximately two years commencing in February 2012, at a daily rate of \$12.5 net per day for the first year and \$13.5 net per day for the second year, plus 50/50 profit sharing based on actual earnings. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$4,625, \$4,091 and \$0, respectively.

In May 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Prosperity. The term of this charter is approximately one year with two six-month extension options granted to Navios Holdings, commencing in May 2012, at a daily rate of \$12 net per day plus profit sharing the first \$1.5 in profits above the base rate and thereafter all profits will be split 50% to each party. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$4,401, \$2,364 and \$0, respectively.

In September 2012, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Libra. The term of this charter is approximately three years commencing in October 2012, at a daily rate of \$12 net per day plus 50/50 profit sharing based on actual earnings. For this charter, for the years ended December 31, 2013, 2012 and 2011 the total revenue of Navios Partners from Navios Holdings amounted to \$4,471, \$902 and \$0, respectively.

In May 2013, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Felicity. The term of this charter is approximately one year commencing in May 2013, at a daily rate of \$12 net per day plus 50/50 profit sharing based on actual earnings. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$2,848, \$0 and \$0, respectively.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

In May 2013, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Aldebaran. The term of this charter is approximately six months commencing in June 2013, at a daily rate of \$11 net per day plus profit sharing the first \$2.5 in profits above the base rate and thereafter all profits will be split 50% to each party. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$2,293, \$0 and \$0, respectively.

In July 2013, Navios Partners entered into a charter with a subsidiary of Navios Holdings for the Navios Hope. The term of this charter is approximately one year commencing in July 2013, at a daily rate of \$10 net per day. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$1,874, \$0 and \$0, respectively.

In July 2013, Navios Partners entered into a charter with a subsidiary of Kleimar N.V for the Navios Pollux. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$1,509, \$0 and \$0, respectively.

In July 2013, Navios Partners entered into a charter with a subsidiary of Kleimar N.V for the Navios Melodia. The term of this charter is approximately four months which commenced in July 2013, at a daily rate of \$15 net per day. For this charter, for the years ended December 31, 2013, 2012 and 2011, the total revenue of Navios Partners from Navios Holdings amounted to \$1,717, \$0 and \$0, respectively.

**Revolving Loans to Navios Europe:** Navios Holdings, Navios Acquisition and Navios Partners will make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24,100 to fund working capital requirements (collectively, the "Navios Revolving Loans"). See Note 18 for the Investment in Navios Europe and respective ownership interests.

The Navios Revolving Loans earn a 12.7% preferred distribution and are repaid from Free Cash Flow (as defined in the loan agreement) to the fullest extent possible at the end of each quarter. There are no covenant requirements or stated maturity dates.

As of December 31, 2013, Navios Partners' portion of the outstanding amount relating to portion of the investment in Navios Europe (5.0% of the \$10,000) was \$500, under caption "Investment in affiliates" and the outstanding amount relating to the Navios Revolving Loans capital is \$280, under caption "Loan receivable from affiliates." As of December 31, 2013, the amount undrawn from the revolving facility was \$18,500, of which Navios Partners was committed to fund \$925.

Others: Navios Partners has entered into an Omnibus Agreement with Navios Holdings pursuant to which Navios Holdings and its controlled affiliates (other than us, our general partner and our subsidiaries) generally agreed not to acquire or own Panamax or Capesize drybulk carriers under time charters of three or more years without the consent of our general partner. The Omnibus Agreement, however, contains significant exceptions that allow Navios Holdings or any of its controlled affiliates to compete with us under specified circumstances which could harm our business. In addition, concurrently with the successful consummation of the initial business combination by Navios Maritime Acquisition Corporation, or Navios Acquisition, on May 28, 2010, because of the overlap between Navios Acquisition, Navios Holdings and us, with respect to possible acquisitions under the terms of our Omnibus Agreement, we entered into a business opportunity right of first refusal agreement which provides the types of business opportunities in the marine transportation and logistics industries, we, Navios Holdings and Navios Acquisition must share with the each other.

On January 1, 2012, in accordance with the terms of the partnership agreement, all of the outstanding subordinated units converted into 7,621,843 shares of common units. On June 29, 2012, in accordance with the terms of the partnership agreement, the outstanding subordinated Series A units converted into 1,000,000 shares of common units. As of December 31, 2013, Navios Holdings held a total of 14,223,763 common units, representing a 19.6% common unit interest in Navios Partners and general partner interest of 2%.

On November 15, 2012, Navios Holdings and Navios Partners entered into an agreement by which Navios Holdings will provide supplemental credit default insurance with a maximum cash payment of \$20,000. As of December 31, 2013, the Company had not put forth any claims to Navios Holdings in connection with this supplemental insurance.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### NOTE 18 - INVESTMENT IN NAVIOS EUROPE INC.

On October 9, 2013, Navios Holdings, Navios Acquisition and Navios Partners established Navios Europe and have ownership interests of 47.5%, 47.5% and 5.0%, respectively. On December 18, 2013, Navios Europe acquired ten vessels for aggregate consideration consisting of (i) cash consideration of \$127,753 (which was funded with the proceeds of a \$117,753 senior loan facility (the "Senior Loan") and loans aggregating \$10,000 from Navios Holdings, Navios Acquisition and Navios Partners (in each case, in proportion to their ownership interests in Navios Europe) (collectively, the "Navios Term Loans") and (ii) the assumption of a junior participating loan facility (the "Junior Loan") with a face amount of \$173,367 and fair value of \$71,929 as of December 31, 2013. In addition to the Navios Term Loans, Navios Holdings, Navios Acquisition and Navios Partners will also make available to Navios Europe (in each case, in proportion to their ownership interests in Navios Europe) revolving loans up to \$24,100 to fund working capital requirements (collectively, the "Navios Revolving Loans").

On an ongoing basis, Navios Europe is required to distribute cash flows (after payment of operating expenses, amounts due pursuant to the terms of the Senior Loan and repayments of the Navios Revolving Loans) according to a defined waterfall calculation as follows:

- First, Navios Holdings, Navios Acquisition and Navios Partners will each earn a 12.7% preferred distribution on the Navios Term Loans and the Navios Revolving Loans;
- Second, any remaining cash is then distributed on an 80%/20% basis, respectively, between (i) the Junior Loan holder and (ii) the holders of the Navios
  Term Loans. The Navios Term Loan will be repaid from the future sale of vessels owned by Navios Europe and is deemed to be the initial investment
  by Navios Partners.

Navios Partners evaluated its investment in Navios Europe under ASC 810 and concluded that Navios Europe is a VIE and that they are not the party most closely associated with Navios Europe and, accordingly, is not the primary beneficiary of Navios Europe based on the following:

- the power to direct the activities that most significantly impact the economic performance of Navios Europe are shared jointly between (i) Navios Holdings, Navios Acquisition and Navios Partners and (ii) and the Junior Loan holder;
- while Navios Europe's residual is shared on an 80%/20% basis, respectively, between (i) the Junior Loan holder and (ii) Navios Holdings, Navios Acquisition and Navios Partners, the Junior Loan holder is exposed to a substantial portion of Navios Europe's risks and rewards.

Navios Partners further evaluated its investment in the common stock of Navios Europe under ASC 323 and concluded that it has the ability to exercise significant influence over the operating and financial policies of Navios Europe and, therefore, its investment in Navios Europe is accounted for under the equity method.

As of December 31, 2013, the estimated maximum potential loss by Navios Partners in Navios Europe would have been \$780, which represents the Company's portion of the initial investment of \$500 plus the Company's portion of the carrying balance of the Navios Revolving Loans of \$280 and does not include the undrawn portion of the revolving loans.

For the year ended December 31, 2013, Navios Europe had minimal operations and therefore, the Company did not record any equity method investee income/(loss).

As of December 31, 2013, the Navios Partners' portion of the Navios Revolving Loan was \$ 280.Refer to Note 17 for the terms of the Navios Revolving Loans.

#### NOTE 19 - CASH DISTRIBUTIONS AND EARNINGS PER UNIT

The partnership agreement of Navios Partners requires that all available cash is distributed quarterly, after deducting expenses, including estimated maintenance and replacement capital expenditures and reserves. Distributions may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations. The amount of the minimum quarterly distribution is \$0.35 per unit or \$1.40 per unit per year and is made in the following manner:

First, 98% to all unitholders;

(Expressed in thousands of U.S. Dollars except unit and per unit data)

Thereafter there is incentive distribution rights held by the General Partner, which are analyzed as follows:

		Marginal Percentage				
		Interest in Distributions				
		Common and				
	Total Quarterly Distribution	Subordinated	General			
	Target Amount	Unitholders	Partner			
Minimum Quarterly Distribution	\$0.35	98%	2%			
First Target Distribution	up to \$0.4025	98%	2%			
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%			
Third Target Distribution	above \$0.4375 up to \$0.525	75%	25%			
Thereafter	above \$0.525	50%	50%			

On January 21, 2011, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2010 of \$0.43 per unit. The distribution was paid on February 14, 2011 to all holders of record of common, subordinated and general partner units (not including holders of subordinated Series A units) on February 9, 2011. The aggregate amount of the declared distribution was \$21,901.

On April 18, 2011, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2011 of \$0.43 per unit. The distribution was paid on May 11, 2011 to all holders of record of common, subordinated and general partner units (not including holders of subordinated Series A units) on May 5, 2011. The aggregate amount of the declared distribution was \$23,939.

On July 25, 2011, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended June 30, 2011 of \$0.44 per unit. The distribution was paid on August 11, 2011 to all holders of record of common, subordinated and general partner units (not including holders of subordinated Series A units) on August 5, 2011. The aggregate amount of the declared distribution was \$24,829.

On October 21, 2011, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended September 30, 2011 of \$0.44 per unit. The distribution was paid on November 11, 2011 to all holders of record of common, subordinated and general partner units (not including holders of subordinated Series A units) on November 8, 2011. The aggregate amount of the declared distribution was \$24,829.

On January 24, 2012, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2011 of \$0.44 per unit. The distribution was paid on February 14, 2012 to all holders of record of common and general partner units (not including holders of subordinated Series A units) on February 9, 2012. The aggregate amount of the declared distribution was \$24,829.

On April 25, 2012, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2012 of \$0.44 per unit. The distribution was paid on May 14, 2012 to all holders of record of common and general partner units (not including holders of subordinated Series A units) on May 10, 2012. The aggregate amount of the declared distribution was \$26,923.

On July 23, 2012, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended June 30, 2012 of \$0.4425 per unit. The distribution was paid on August 13, 2012 to all holders of record of common and general partner units on August 8, 2012. The aggregate amount of the declared distribution was \$27,563.

On October 18, 2012, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended September 30, 2012 of \$0.4425 per unit. The distribution was paid on November 13, 2012 to all holders of record of common and general partner units on November 8, 2012. The aggregate amount of the declared distribution was \$27,563.

On January 21, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2012 of \$0.4425 per unit. The distribution was paid on February 14, 2013 to all holders of record of common and general partner units on February 8, 2013, which included the unitholders from the common unit offering in February 2013. The aggregate amount of the declared distribution was \$29,936.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

On April 22, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended March 31, 2013 of \$0.4425 per unit. The distribution was paid on May 14, 2013 to all holders of record of common and general partner units on May 10, 2013. The aggregate amount of the declared distribution was \$29,936.

On July 22, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended June 30, 2013 of \$0.4425 per unit. The distribution was paid on August 13, 2013 to all holders of record of common and general partner units on August 8, 2013. The aggregate amount of the declared distribution was \$29,936.

On October 25, 2013, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended September 30, 2013 of \$0.4425 per unit. The distribution was paid on November 13, 2013 to all holders of record of common and general partner units on November 8, 2013. The aggregate amount of the declared distribution was \$32,573.

Navios Partners calculates earnings per unit by allocating reported net income for each period to each class of units based on the distribution waterfall for available cash specified in Navios Partners' partnership agreement. Basic earnings net income per unit is determined by dividing net income by the weighted average number of units outstanding during the period. Diluted earnings per unit is calculated in the same manner as net income per unit, except that the weighted average number of outstanding units increased to include the dilutive effect of outstanding unit options or phantom units. There were no options or phantom units outstanding during the years ended December 31, 2013, 2012 and 2011.

The calculations of the basic and diluted earnings per unit are presented below.

	Year Ended December 31, 2013		Year Ended December 31, 2012		Year Ended December 31, 2011	
Net income	\$	59,006	\$	95,898	\$	65,335
Earnings attributable to:						
Common unit holders		55,949		93,566		60,506
Subordinated unit holders				3,522		
Subordinated Series A unit holders			_		_	
Weighted average units outstanding (basic and diluted)						
Common unit holders	66,	317,588	58	8,008,617	4	5,409,807
Subordinated unit holders		_		_		7,621,843
Subordinated Series A unit holders				1,000,000		
Earnings per unit (basic and diluted):						
Common unit holders	\$	0.84	\$	1.61	\$	1.33
Subordinated unit holders			\$	_	\$	0.46
Earnings per unit — distributed (basic and diluted):						
Common unit holders	\$	1.82	\$	1.79	\$	1.76
Subordinated unit holders		_	\$	_	\$	1.75
Loss per unit — undistributed (basic and diluted):						
Common unit holders	\$	(0.98)	\$	(0.18)	\$	(0.43)
Subordinated unit holders		_	\$	_	\$	(1.29)

#### **NOTE 20 - OTHER INCOME**

In connection with a suspension agreement entered into in June 2013, Navios Partners received compensation of \$13,333 covering hire revenues for the suspension period in a drybulk charter contract until April 2016. The suspension agreement was accounted for as a termination of an existing lease and, accordingly, the termination penalty of \$13,333 was recognized in the statement of income under the caption "Other income." As of December 31, 2013, \$833 remained outstanding from the charterer and is included in Accounts Receivable. This remaining outstanding balance has been received in the first quarter of 2014.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

#### **NOTE 21 – SUBSEQUENT EVENTS**

On February 14, 2014, Navios Partners completed its public offering of 5,500,000 common units at \$17.30 per unit and raised gross proceeds of approximately \$95,150 to fund its fleet expansion. The net proceeds of this offering, including the underwriting discount and excluding offering costs estimated at \$320 were approximately \$91,135. Pursuant to this offering, Navios Partners issued 112,245 general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$1,942. On February 18, 2014, Navios Partners completed the exercise of the option previously granted to the underwriters in connection with the offering and issued 825,000 additional common units at the public offering price less the underwriting discount. As a result of the exercise of the option, Navios Partners raised additional gross proceeds of \$14,273 and net proceeds, including the underwriting discount, of approximately \$13,670 and issued 16,837 additional general partnership units to its general partner. The net proceeds from the issuance of the general partnership units were \$291.

On January 24, 2014, the Board of Directors of Navios Partners authorized its quarterly cash distribution for the three month period ended December 31, 2013 of \$0.4425 per unit. The distribution was paid on February 14, 2014 to all holders of record of common and general partner units on February 10, 2014. The aggregate amount of the declared distribution was \$32,573.

On January 18, 2014, Navios Partners acquired from an unrelated third party the Navios Sun, a 2005-built Panamax vessel of 76,619 dwt, for a purchase price of \$15,741 paid in cash, which was held in escrow as of December 31, 2013.

On January 7, 2014, Navios Partners acquired from an unrelated third party the Navios La Paix, a new building Ultra-Handymax vessel of 61,485 dwt, for a purchase price of \$27,500 paid in cash, which was partially held in escrow as of December 31, 2013.
