On November 3, 2017, Navios South American Logistics Inc. (“Navios Logistics”) completed the issuance of a new \$100.0 million Term Loan B (the “Term Loan B”). Navios Logistics intends to use the net proceeds of the Term Loan B: (i) to finance a cash dividend of a \$70.0 million of which Navios Holdings would receive \$44.7 million, (ii) for general corporate purposes and (iii) to pay fees and expenses relating to the Term Loan B.

On November 3, 2017, Navios Holdings prepaid in full the outstanding amount under its secured loan facility of up to \$70.0 million with Navios Maritime Acquisition Corporation’s (“Navios Acquisition”) entered into in September 2016 with a payment of \$55.1 million. Many of Navios Holdings' current long-term chartered-in vessels are chartered from ship owners with whom Navios Holdings has long-standing relationships. Navios Holdings pays these ship owners daily rates of hire for such vessels, and then charters out these vessels to other parties, who pay Navios Holdings a daily rate of hire. Navios Holdings also enters into COAs pursuant to which Navios Holdings has agreed to carry cargoes, typically for industrial customers, who export or import dry bulk cargoes. Further, Navios Holdings enters into spot market voyage contracts, where Navios Holdings is paid a rate per ton to carry a specified cargo from point A to point B.

Short-Term Fleet. Navios Holdings' short-term fleet is comprised of Capesize, Panamax and Ultra Handymax vessels chartered-in for durations of less than 12 months. The number of short-term vessels varies from time to time. These vessels are not included in the "core fleet" of the Company.

Charter Policy and Industry Outlook

Navios Holdings' policy has been to take a portfolio approach to managing operating and counterparty risks. This policy may lead Navios Holdings to time charter-out many of the vessels that it is operating (i.e., vessels owned by Navios Holdings or which Navios Holdings has taken into its fleet under charters having a duration of more than 12 months) for long-term periods to various shipping industry counterparties considered by Navios Holdings to have appropriate credit profiles. By doing this, Navios Holdings aims to lock in, subject to credit and operating risks, favorable forward revenue and cash flows which it believes will cushion it against unfavorable market conditions, when the Company deems necessary. In addition, Navios Holdings occasionally trades additional vessels taken in on shorter term charters of less than 12 months duration as well as voyage charters or COAs and Forward Freight Agreements ("FFAs").

The average daily charter-in vessel cost for the Navios Holdings long-term charter-in fleet (excluding vessels, which are utilized to serve voyage charters or COAs) was \$12,189 per day for the nine month period ended September 30, 2017. The average long-term charter-in hire rate per vessel included in this document was computed by (a) multiplying (i) the daily charter-in rate for each vessel by (ii) the number of days each vessel is in operation for the period under review; (b) summing those individual multiplications; and (c) dividing such total by the total number of charter-in vessel days for the period. These rates exclude gains and losses from FFAs. Furthermore, Navios Holdings has the ability to increase its owned fleet through purchase options exercisable in the future if the price is favorable relative to the then-current market. Navios Holdings holds 20 purchase options. Historically, this chartering policy had the effect of generating Time Charter Equivalents ("TCE") that were higher than spot employment.

Navios Holdings believes that a decrease in global commodity demand from its current level, and the delivery of dry bulk carrier new buildings into the world fleet, could have an adverse impact on future revenue and profitability. According to Clarksons September 2017 Dry Bulk Trade Outlook, expectations are for growth in dry bulk demand to increase by 3.8% in 2017 and the fleet is only expected to grow by 3.5%, which should signal a positive market and stable or increasing revenue and profitability this year. Navios Holdings also believes that the operating cost advantage of its owned vessels should continue to help mitigate the impact of the declines in freight rates. A reduced freight rate environment also has an adverse impact on the value of Navios Holdings' owned fleet. In reaction to a decline in freight rates, available ship financing can also be negatively impacted.

Navios Logistics owns and operates vessels, barges and pushboats located mainly in Argentina, the largest independent bulk transfer and storage port facility in Uruguay, and an upriver liquid port facility located in Paraguay. Operating results for Navios Logistics are highly correlated to: (i) South American grain production and export, in particular Argentinean, Brazilian, Paraguayan, Uruguayan and Bolivian production and export; (ii) South American iron ore production and export, mainly from Brazil; and (iii) sales (and logistic services) of petroleum products in the Argentine and Paraguayan markets. Navios Holdings believes that the continuing development of these businesses will foster throughput growth and therefore increase revenues at Navios Logistics. Should this development be delayed, grain harvests be reduced or diverted to other areas or uses, or the market experience an overall decrease in the prices or the demand for grain or iron ore, the operations of Navios Logistics could be adversely affected.

Factors Affecting Navios Holdings' Results of Operations

Navios Holdings believes the principal factors that will affect its future results of operations are the economic, regulatory, political and governmental conditions that affect the shipping industry generally and that affect conditions in countries and markets in which its vessels engage in business. Please read "Risk Factors" included in Navios Holdings' Annual Report on Form 20-F for the year ended December 31, 2016 filed with the SEC for a discussion of certain risks inherent in its business.

Navios Holdings actively manages the risk in its operations by: (i) operating the vessels in its fleet in accordance with all applicable international standards of safety and technical ship management; (ii) enhancing vessel utilization and profitability through an appropriate mix of long-term charters complemented by spot charters (time charters for short-term employment) and COAs; (iii) monitoring the financial impact of corporate exposure from both physical and FFAs transactions; (iv) monitoring market and counterparty credit risk limits; (v) adhering to risk management and operation policies and procedures; and (vi) requiring counterparty credit approvals.

Navios Holdings believes that important measures for analyzing trends in its results of operations include the following:

- *Market Exposure:* Navios Holdings manages the size and composition of its fleet by seeking a mix between chartering and owning vessels in order to adjust to anticipated changes in market rates. Navios Holdings aims to achieve an appropriate balance between owned vessels and long and short-term chartered-in vessels and controls approximately 6.6 million dwt in dry bulk tonnage. Navios Holdings' options to extend the charter duration of vessels it has under long-term time charter (durations of over 12 months) and its purchase options on chartered vessels permit Navios Holdings to adjust the cost and the fleet size to correspond to market conditions.
- *Available days:* Available days are the total number of days a vessel is controlled by a company, less the aggregate number of days that the vessel is off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys. The shipping industry uses available days to measure the number of days in a period during which vessels should be capable of generating revenues.
- *Operating days:* Operating days are the number of available days in a period, less the aggregate number of days that the vessels are off-hire due to any reason, including lack of demand or unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.
- *Fleet utilization:* Fleet utilization is obtained by dividing the number of operating days during a period by the number of available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning.
- *TCE rates:* TCE rates are defined as voyage and time charter revenues less voyage expenses during a period divided by the number of available days during the period. The TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts, while charter hire rates for vessels on time charters generally are expressed in such amounts.
- *Equivalent vessels:* Equivalent vessels are defined as the available days of the fleet divided by the number of the calendar days in the period.

Voyage and Time Charter

Revenues are driven primarily by the number and type of vessels in the fleet, the number of days during which such vessels operate and the amount of daily charter hire rates that the vessels earn under charters, which, in turn, are affected by a number of factors, including:

Table of Contents

- the duration of the charters;
- the level of spot market rates at the time of charters;
- decisions relating to vessel acquisitions and disposals;
- the amount of time spent positioning vessels;
- the amount of time that vessels spend in drydock undergoing repairs and upgrades;
- the age, condition and specifications of the vessels; and
- the aggregate level of supply and demand in the dry bulk shipping industry.

Time charters are available for varying periods, ranging from a single trip (spot charter) to a long-term period which may be many years. Under a time charter, owners assume no risk for finding business and obtaining and paying for fuel or other expenses related to the voyage, such as port entry fees. In general, a long-term time charter assures the vessel owner of a consistent stream of revenue. Operating the vessel in the spot market affords the owner greater spot market opportunity, which may result in high rates when vessels are in high demand or low rates when vessel availability exceeds demand. Vessel charter rates are affected by world economics, international events, weather conditions, labor strikes, governmental policies, supply and demand, and many other factors that might be beyond the control of management.

Consistent with industry practice, Navios Holdings uses TCE rates, as a method of analyzing fluctuations between financial periods and as a method of equating revenue generated from a voyage charter to time charter revenue.

TCE rate also serves as an industry standard for measuring revenue and comparing results between geographical regions and among competitors.

The cost to maintain and operate a vessel increases with the age of the vessel. Older vessels are less fuel efficient, cost more to insure and require upgrades from time to time to comply with new regulations. The average age of Navios Holdings' owned fleet is 9.9 years. As Navios Holdings' fleet ages or if Navios Holdings expands its fleet by acquiring previously owned and older vessels, the cost per vessel would be expected to rise and, assuming all else, including rates, remains constant, vessel profitability would be expected to decrease.

COAs and FFAs

Navios Holdings enhances vessel utilization and profitability through a mix of voyage charters, short-term charter-out contracts, COAs and strategic cargo contracts.

Navios Holdings may enter into dry bulk shipping FFAs as economic hedges relating to identifiable ship and/or cargo positions or as economic hedges of transactions the Company expects to carry out in the normal course of its shipping business. FFAs cover periods generally ranging from one month to one year and are based on time charter rates or freight rates on specific quoted routes. FFAs are executed either over-the-counter, between two parties, or through LCH, the London clearing house. FFAs are settled in cash monthly based on publicly quoted indices. No over-the-counter trades have been executed since 2012. Navios Holdings has implemented specific procedures designed to respond to credit risk associated with over-the-counter trades, including the establishment of a list of approved counterparties and a credit committee which meets regularly.

Statement of Operations Breakdown by Segment

Navios Holdings reports financial information and evaluates its operations by charter revenues and not by vessel type, length of ship employment, customers or type of charter. Navios Holdings does not use discrete financial information to evaluate the operating results for each such type of charter. Although revenue can be identified for each type of charter, management does not identify expenses, profitability or other financial information on a charter-by-charter or type of charter basis. The reportable segments reflect the internal organization of the Company and are strategic businesses that offer different products and services. The Company currently has two reportable segments: the Dry bulk Vessel Operations and the Logistics Business. The Dry bulk Vessel Operations segment consists of the transportation and handling of bulk cargoes through the ownership, operation, and trading of vessels, freight, and FFAs. The Logistics Business segment consists of port terminal business, barge business and cabotage business in the Hidrovia region of South America. Navios Holdings measures segment performance based on net income attributable to Navios Holdings' common stockholders.

Fleet utilization	99.9%	99.8%
Equivalent vessels	63	57
AVERAGE DAILY RESULTS		
Time Charter Equivalents	\$ 9,481	\$ 9,010

During the three month period ended September 30, 2017, there were 579 more available days, as compared to the same period in 2016, mainly due to an increase in long-term charter-in fleet available days by 797 days. The increase was partially mitigated by a decrease in available days for owned vessels by 218 days mainly due to the sale of Navios Ionian and Navios Horizon.

The average time charter equivalent rate ("TCE") rate for the three month period ended September 30, 2017 was \$9,481 per day, which was \$471 or 5.2% per day higher than the rate achieved in the same period in 2016, mainly due to the improved freight market.

Revenue: Revenue from dry bulk vessel operations for the three month period ended September 30, 2017 was \$61.0 million as compared to \$49.7 million for the same period in 2016. The increase in dry bulk revenue was mainly attributable to (i) the increase in TCE per day; and (ii) an increase in available days of long-term charter-in fleet.

Revenue from the logistics business was \$59.6 million for the three months ended September 30, 2017 as compared to \$63.4 million for the same period in 2016. This decrease was mainly attributable to (i) a \$6.4 million decrease in revenue from the barge business mainly due to the expiration of certain iron ore transportation contracts; and (ii) a \$0.6 million decrease in revenue from the cabotage business mainly due to the less operating days. The overall decrease was partially mitigated by a \$3.2 million increase in revenue from the port terminal business mainly due to the increase in the volume and tariffs in the dry port terminal, and to the beginning of operations at the new iron ore terminal.

Of the total amount of depreciation and amortization for the three month periods ended September 30, 2017 and 2016, \$7.2 million and \$7.7 million, respectively, related to Navios Logistics. The decrease in depreciation and amortization of the logistics business was mainly due to (i) certain barges having been fully depreciated and (ii) a decrease in depreciation of tangible assets and amortization of intangible assets. The decrease in other expense, net of dry bulk vessels operations was mainly due to a \$0.9 million decrease in miscellaneous expenses mainly in relation to claims and recovery of bad debt provisions partially mitigated by a \$0.1 million increase in miscellaneous income.

The decrease in other expense, net related to the logistics business was mainly due to a decrease in other expense, net in the barge and cabotage business.

The decrease in depreciation and amortization of the logistics business was mainly due to (i) certain barges having been fully depreciated and (ii) a decrease in depreciation of tangible assets and amortization of intangible assets. This decrease was partially mitigated by (i) an increase in the depreciation and amortization in the port terminal business mainly due to the beginning of operations at the new iron ore terminal; and (ii) an increase in the depreciation and amortization in the cabotage business.

Interest Expense and Finance Cost, Net: Interest expense and finance cost, net for the nine month period ended September 30, 2017 increased by \$2.5 million, or 3.1%, to \$83.8 million, as compared to \$81.3 million in the same period of 2016. This increase was mainly due to (i) a \$1.6 million increase in interest income of the dry bulk vessel operations, mainly due to higher interest income from loans provided to Navios Europe I and Navios Europe II and the amortization of the premium from the transfer in March 2017 of Navios Holdings' participation in the Navios Revolving Loans I (as defined herein) to Navios Partners; (ii) a \$2.3 million increase in interest expense and finance cost, of the dry bulk vessel operations, mainly due to increase in interest expense related to Navios Acquisition loan, working capital loan interest in relation to the transfer of the Navios Revolving Loans I to Navios Partners as described

[Table of Contents](#)

above, partially mitigated by a decrease in interest expense related to repurchase of our 2019 Notes; and (iii) a \$1.8 million increase in interest expense and finance cost, net of the logistics business mainly due to reduced capitalized interest following the completion of the new iron ore terminal

Impairment loss on sale of vessel: During the nine month period ended September 30, 2017, the Company recognized (i) an impairment loss of \$9.1 million relating to the sale of Navios Ionian which was completed on June 16, 2017; and (ii) an impairment loss of \$5.1 million relating to the sale of Navios Horizon which was completed on July 2017.

Gain on debt extinguishment: During the nine month period ended September 30, 2017, the Company refinanced one of its secured credit facilities and a benefit to nominal value of \$1.7 million was achieved.

Other (Expense)/income, Net: Other income/(expense), net decreased by \$10.1 million, or 190.6%, to \$4.8 million of expense for the nine month period ended September 30, 2017, as compared to \$5.3 million of income for the same period in 2016. This decrease was due to (i) a \$12.8 million decrease in other income, net of dry bulk vessel operations; and (ii) a \$2.7 million decrease in other expense, net of the logistics business.

The decrease in other income, net of dry bulk vessels operations was mainly due to the early redelivery of a vessel from its charterer in the first quarter of 2016 in exchange for \$13.0 million in cash and settlement of outstanding claims payable to the charterer amounting to \$1.9 million, partially mitigated by (i) a \$1.3 million relating to claims and recovery of bad debt provisions; and (ii) a \$0.8 million decrease in miscellaneous expenses.

The decrease in other expense, net by \$2.7 million related to the logistics business was mainly due to (i) a \$1.1 million gain on sale of assets mainly attributable to the sale of two self-propelled barges; (ii) a \$2.4 million decrease in other expense, for the barge business mainly due to the income recorded from the arbitration award; (iii) a \$0.6 million increase in other expense, for the cabotage business mainly due to foreign exchange differences; and (iv) a \$0.2 million increase in other expense, for the port terminal business mainly due to foreign exchange differences.

Equity in Net Earnings of Affiliated Companies: Equity in net earnings of affiliated companies decreased by \$13.4 million, or 85.9%, to \$2.2 million for the nine month period ended September 30, 2017, as compared to \$15.6 million for the same period in 2016, mainly due to a decrease in equity method income. This decrease in equity method income was mainly due to (i) a \$26.3 million decrease in equity method income from Navios Acquisition; (ii) a \$0.3 million decrease in equity method income from Navios Europe I and Navios Europe II; and (iii) a \$0.1 million decrease in equity method income from Acropolis, which was partially mitigated by (i) a \$13.2 million increase in equity method income from Navios Partners; and (ii) a \$0.1 million increase in equity method income from Navios Containers.

Income Tax Benefit/(expense): Income tax expense for the nine month period ended September 30, 2017 decreased by \$2.4 million, to \$0.6 million benefit for the nine month period ended September 30, 2017, as compared to a \$1.8 million tax expense for the same period in 2016. The total change in income tax was attributable to Navios Logistics and was mainly related to a \$2.2 million increase in income tax benefit of the barge business, partially mitigated by a \$0.2 million decrease in income tax expense of the cabotage business.

Net Income Attributable to the Noncontrolling Interest: Net income attributable to the noncontrolling interest decreased by \$4.5 million to \$1.2 million for the nine month period ended September 30, 2017, as compared to \$5.7 million for the same period in 2016. This decrease was attributable to lower net income of the logistics business for the nine month period ended September 30, 2017, as compared to net income the same period in 2016.

Liquidity and Capital Resources

Navios Holdings has historically financed its capital requirements with cash flows from operations, equity contributions from stockholders, issuance of debt and borrowings under bank credit facilities. Main uses of funds have been capital expenditures for the acquisition of new vessels, new construction and upgrades at the port terminals, expenditures incurred in connection with ensuring that the owned vessels comply with international and regulatory standards, repayments and/or prepayments of debt and payments of dividends. Navios Holdings may from time to time, subject to restrictions under its debt and equity instruments, including limitations on dividends and repurchases under its preferred stock, depending upon market conditions and financing needs, use funds to refinance or repurchase its debt and/or equity in privately negotiated or open market transactions, by tender offer or otherwise, in compliance with applicable laws, rules and regulations, at prices and on terms Navios Holdings deems appropriate and subject to Navios Holdings cash requirements for other purposes, compliance with the covenants under Navios Holdings' debt agreements and equity instruments, and other factors management deems relevant. Generally, Navios Holding's sources of funds may be from cash from operations, long-term borrowings and other debt or equity financings, proceeds from asset sales and proceeds from sale of its stake in its investments. We cannot assure you that we will be able to secure adequate financing or obtain additional funds on favorable terms, to meet our liquidity needs as our ability to secure adequate financing and obtain additional funds is partially dependent on market and industry factors. See "Working Capital Position" and "Long-Term Debt Obligations and Credit Arrangements" for further discussion of Navios Holdings' working capital position.

Adjusted EBITDA: EBITDA represents net (loss)/income attributable to Navios Holdings' common stockholders before interest and finance costs before depreciation and amortization and before income taxes. Adjusted EBITDA represents EBITDA before stock-based compensation. We use Adjusted EBITDA as a liquidity measure and reconcile Adjusted EBITDA to net cash provided by operating activities, the most comparable U.S. GAAP liquidity measure. Adjusted EBITDA is calculated as follows: net cash provided by operating activities adding back, when applicable and as the case may be, the effect of (i) net increase/(decrease) in operating assets, (ii) net (increase)/decrease in operating liabilities, (iii) net interest cost, (iv) deferred finance charges and gains/(losses) on bond and debt extinguishment, (v) provision/recovery for losses on accounts receivable, (vi) equity in affiliates, net of dividends received, (vii) payments for drydock and special survey costs, (viii) noncontrolling interest, (ix) gain/ (loss) on sale of assets/ subsidiaries, (x) unrealized (loss)/gain on derivatives, and (xi) loss on sale and reclassification to earnings of available for-sale securities and impairment charges. Navios Holdings believes that Adjusted EBITDA is a basis upon which liquidity can be assessed and represents useful information to investors regarding Navios Holdings' ability to service and/or incur indebtedness, pay capital expenditures, meet working capital requirements and pay dividends. Navios Holdings also believes that Adjusted EBITDA is used (i) by prospective and current lessors as well as potential lenders to evaluate potential transactions; (ii) to evaluate and price potential acquisition candidates; and (iii) by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

Adjusted EBITDA has limitations as an analytical tool, and therefore, should not be considered in isolation or as a substitute for the analysis of Navios Holdings' results as reported under U.S. GAAP. Some of these limitations are: (i) Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital needs; (ii) Adjusted EBITDA does not reflect the amounts necessary to service interest or principal payments on our debt and other financing arrangements; and (iii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future. Adjusted EBITDA does not reflect any cash requirements for such capital expenditures. Because of these limitations, among others, Adjusted EBITDA should not be considered as a principal indicator of Navios Holdings' performance. Furthermore, our calculation of Adjusted EBITDA may not be comparable to that reported by other companies due to differences in methods of calculation.

Long-Term Debt Obligations and Credit Arrangements

Secured Credit Facilities

As of September 30, 2017, the Company had secured credit facilities with various banks with a total outstanding balance of \$222.7 million. The purpose of the facilities was to finance the construction or acquisition of vessels or refinance existing indebtedness. All of the facilities are denominated in U.S. dollars and bear interest based on LIBOR plus spread ranging from 2.55% to 3.60% per annum. The facilities are repayable in either semi-annual or quarterly installments, followed by balloon payments with maturities, ranging from November 2018 to November 2022. See also the maturity table included below.

The facilities are secured by first priority mortgages on certain of Navios Holdings' vessels and other collateral.

The credit facilities contain a number of restrictive covenants that limit Navios Holdings and/or certain of its subsidiaries from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels securing such facilities; changing the flag, class, management or ownership of certain Navios Holdings' vessels; changing the commercial and technical management of certain Navios Holdings' vessels; selling or changing the ownership of certain Navios Holdings' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels. The credit facilities also require the vessels to comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. Additionally, the credit facilities require compliance with the covenants contained in the indentures governing the 2019 Notes (as defined below) and the 2022 Notes (as defined below). Among other events, it will be an event of default under the credit facilities if the financial covenants are not complied with or if Angeliki Frangou and her affiliates, together, own less than 20% of the outstanding share capital of Navios Holdings.

The majority of the Company's senior secured credit facilities require compliance with maintenance covenants, including (i) value-to-loan ratio covenants, based on either charter-adjusted valuations, or charter-free valuations, ranging from over 110% to 130%, (ii) minimum liquidity up to a maximum of \$30.0 million, and (iii) net total debt divided by total assets, as defined in each senior secured credit facility, ranging from a maximum of 75% to 80%. Certain covenants in our senior secured credit facilities have been waived for a specific period of time up to a maximum of five quarters (from the current balance sheet date) and/or amended to include (i) value-to-loan ratio covenants, based on either charter-adjusted valuations, or charter-free valuations, ranging from over 110% to 135%, and (ii) net total debt divided by total assets, as defined in each senior secured credit facility, to a maximum of 90%.

As of September 30, 2017, the Company was in compliance with all of the covenants under each of its credit facilities.

(together with the Company, the "2019 Co-Issuers") completed the sale of \$350.0 million of 8.125% Senior Notes due 2019 (the "2019 Notes"). During July, August and October 2016, the Company repurchased \$58.9 million of its 2019 Notes for a cash consideration of \$30.7 million resulting in a gain on bond extinguishment of \$27.7 million, net of deferred fees written-off.

The 2019 Notes are fully and unconditionally guaranteed, jointly and severally and on an unsecured senior basis, by all of the Company's subsidiaries, other than Navios Maritime Finance II (US) Inc., Navios Maritime Finance (US) Inc., Navios Logistics and its subsidiaries and Navios GP L.L.C. The subsidiary guarantees are "full and unconditional", except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2019 Notes. The 2019 Co-Issuers have the option to redeem the 2019 Notes in whole or in part, at par, plus accrued and unpaid interest, if any. In addition, upon the occurrence of certain change of control events, the holders of the 2019 Notes will have the right to require the 2019 Co-Issuers to repurchase some or all of the 2019 Notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The 2019 Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering in transactions with affiliates, merging or consolidating or selling all or substantially all of the 2019 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2019 Co-Issuers were in compliance with the covenants as of September 30, 2017.

Ship Mortgage Notes

On November 29, 2013, Navios Holdings completed the sale of \$650.0 million of its 7.375% First Priority Ship Mortgage Notes due 2022 (the "2022 Notes"). The net proceeds of the offering of the 2022 Notes have been used: (i) to repay, in full, \$488.0 million of first priority ship mortgage notes due on November 1, 2017, issued by the Company and its wholly-owned subsidiary, Navios Maritime Finance (US) Inc. in November 2009 and July 2012; and (ii) to repay, in full, indebtedness relating to six vessels added as collateral under the 2022 Notes. The remainder has been used for general corporate purposes.

[Table of Contents](#)

The 2022 Notes are senior obligations of Navios Holdings and Navios Maritime Finance II (US) Inc. (the “2022 Co-Issuers”) and were originally secured by first priority ship mortgages on 23 dry bulk vessels owned by certain subsidiary guarantors and certain other associated property and contract rights. In June 2017, Navios Ionian and Navios Horizon were released from the 2022 Notes and replaced by the Navios Galileo which was secured by a first priority ship mortgage. The 2022 Notes are unregistered and fully and unconditionally guaranteed, jointly and severally by all of the Company’s direct and indirect subsidiaries that guarantee the 2019 Notes and Navios Maritime Finance II (US) Inc. The guarantees of the Company’s subsidiaries that own mortgaged vessels are senior secured guarantees and the guarantees of the Company’s subsidiaries that do not own mortgaged vessels are senior unsecured guarantees. In addition, the 2022 Co-Issuers have the option to redeem the 2022 Notes in whole or in part, at any time on or after January 15, 2017, at a fixed price of 105.531%, which price declines ratably until it reaches par in 2020.

Furthermore, upon occurrence of certain change of control events, the holders of the 2022 Notes may require the 2022 Co-Issuers to repurchase some or all of the notes at 101% of their face amount. The 2022 Notes contain covenants, which among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into certain transactions with affiliates, merging or consolidating or selling all or substantially all of the 2022 Co-Issuers’ properties and assets and creation or designation of restricted subsidiaries. The 2022 Co-Issuers were in compliance with the covenants as of September 30, 2017.

2022 Logistics Senior Notes

On April 22, 2014, Navios Logistics and its wholly-owned subsidiary Navios Logistics Finance (US) Inc. (“Logistics Finance” and, together with Navios Logistics, the “Logistics Co-Issuers”) completed the sale of \$375.0 million in aggregate principal amount of Senior Notes due on May 1, 2022 (the “2022 Logistics Senior Notes”) at a fixed rate of 7.25%. The net proceeds from the sale of the 2022 Logistics Senior Notes were partially used to redeem any and all of Navios Logistics then-outstanding 9.25% Senior Notes due 2019 and pay related transaction fees and expenses. The 2022 Logistics Senior Notes are unregistered and fully and unconditionally guaranteed, jointly and severally, by all of Navios Logistics’ direct and indirect subsidiaries except for Horamar do Brasil Navegação Ltda (“Horamar do Brasil”), Naviera Alto Parana S.A. (“Naviera Alto Parana”), and Terra Norte Group S.A. (“Terra Norte”), which do not guarantee the 2022 Senior Notes pursuant to certain exceptions under the indenture, and Logistics Finance, which is the co-issuer of the 2022 Logistics Senior Notes. The subsidiary guarantees are “full and unconditional”, except that the indenture provides for an individual subsidiary’s guarantee to be automatically released in certain customary circumstances, such as in connection with a sale or other disposition of all or substantially all of the assets of the subsidiary, in connection with the sale of a majority of the capital stock of the subsidiary, if the subsidiary is designated as an “unrestricted subsidiary” in accordance with the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2022 Logistics Senior Notes.

The Logistics Co-Issuers have the option to redeem the 2022 Logistics Senior Notes in whole or in part, at their option, at any time on or after May 1, 2017, at a fixed price of 105.438%, which price declines ratably until it reaches par in 2020. The indenture governing the 2022 Logistics Senior Notes contains covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends in excess of 6% per annum of the net proceeds received by or contributed to Navios Logistics in or from any public offering, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into transactions with affiliates, merging or consolidating or selling all or substantially all of Navios Logistics’ properties and assets and creation or designation of restricted subsidiaries.

Working Capital Position

On September 30, 2017, Navios Holdings' current assets totaled \$232.9 million, while current liabilities totaled \$228.3 million, resulting in a positive working capital position of \$4.6 million. Navios Holdings anticipates that cash on hand, borrowings and internally generated cash flows will be sufficient to fund the operations of the dry bulk vessel operations and the logistics business, including its present working capital requirements and payments of principal and interest relating to its indebtedness for the next 12 months through November 3, 2018.

Capital Expenditures

On February 11, 2014, Navios Logistics entered into an agreement, as amended on June 3, 2016, for the construction of three new pushboats with a purchase price of \$7.3 million for each pushboat. As of September 30, 2017, Navios Logistics had paid \$24.8 million, including capitalized interest, for the construction of the new pushboats which are expected to be delivered in the fourth quarter of 2017.

During the second quarter of 2017, Navios Logistics substantially completed the expansion of its dry port in Uruguay. As of September 30, 2017, Navios Logistics had paid \$156.8 million relating to the expansion of its dry port terminal in Uruguay, which included port terminals and other fixed assets and port terminal operating rights, including \$10.0 million interest capitalized during construction.

Dividend Policy

In November 2015, due to the prolonged weakness in the dry bulk industry, Navios Holdings announced that the Board of Directors decided to suspend the quarterly dividend to its common stockholders in order to conserve cash and improve its liquidity. In February 2016, in furtherance of its efforts to reduce its cash requirements, Navios Holdings announced the suspension of payment of quarterly dividends on its preferred stock, including the Series G and Series H, until market conditions improve. The Board of Directors and Navios Holdings' management believe such a decision is in the best long-term interests of the Company and its stakeholders. The Board of Directors will reassess the Company's distribution policy as the environment changes. The reinstatement, declaration and payment of any further dividend remains subject to the discretion of the Board of Directors and will depend on, among other things, market conditions, Navios Holdings' cash requirements after taking into account market opportunities, restrictions under its equity instruments, credit agreements, indentures and other debt obligations and such other factors as the Board of Directors may deem advisable.

Concentration of Credit Risk

Accounts receivable

Concentration of credit risk with respect to accounts receivable is limited due to the fact that Navios Holdings' customers are internationally dispersed and have a variety of end markets in which they sell, therefore, management believes that no additional credit risk beyond amounts provided for collection losses is inherent in Navios Holdings' trade receivables. For the nine month periods ended September 30, 2017, no customer accounted for more than 10% of the Company's revenue compared to two customers in the same period in 2016.

If one or more of our customers does not perform under one or more contracts with us and we are not able to find a replacement contract, or if a customer exercises certain rights to terminate the contract, we could suffer a loss of revenues that could materially adversely affect our business, financial condition and results of operations.

We could lose a customer or the benefits of a contract if, among other things:

- the customer fails to make payments because of its financial inability, the curtailment or cessation of its operations, its disagreements with us or otherwise;
- the customer terminates the contract because we fail to meet their contracted storage needs;
- the customer terminates the contract because we fail to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, there are serious deficiencies in the vessel or prolonged off-hire, default under the contract; or
- the customer terminates the contract because the vessel has been subject to seizure for more than a specified number of days.

See below, under "Off-Balance Sheet Arrangements", discussion about the dispute between the Navios Logistics and Vale International S.A. ("Vale"), relating to the service contract for the iron ore port facility in Nueva Palmira, Uruguay.

Cash deposits with financial institutions

Cash deposits in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Holdings does maintain cash deposits in excess of government-provided insurance limits. Navios Holdings also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Effects of Inflation

Navios Holdings does not consider inflation to be a significant risk to the cost of doing business in the foreseeable future. Inflation has a moderate impact on operating expenses, drydocking expenses and corporate overhead.

Off-Balance Sheet Arrangements

Charter hire payments to third parties for chartered-in vessels are treated as operating leases for accounting purposes.

Navios Holdings is also committed to making rental payments under operating leases for its office premises. Future minimum rental payments under Navios Holdings' non-cancelable operating leases are included in the contractual obligations schedule above. As of September 30, 2017, Navios Holdings was contingently liable for letters of guarantee and letters of credit amounting to \$0.6 million issued by various banks in favor of various organizations and the total amount was collateralized by cash deposits, which are included as a component of restricted cash.

In addition, the Company is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where the Company believes that a liability may be probable, and for which the amounts can be reasonably estimated, based upon facts known on the date the financial statements were prepared. Although the Company cannot predict with certainty the ultimate resolutions of these matters, in the opinion of management, the ultimate disposition of these matters is not expected to have a material adverse effect on the Company's financial position, results of operations or liquidity.

On October 7, 2016, a putative class action complaint was filed against the Company and six of its directors in the United States District Court for the Southern District of New York by a purported holder of Series G ADSs and Series H ADSs. The complaint asserts claims for breach of fiduciary duty and contract. The complaint sought, among other things, unspecified monetary damages, a declaration regarding certain of the Company's alleged obligations under the applicable certificates of designation, the restoration of certain alleged rights to non-tendering holders if the exchange offer that commenced on September 19, 2016 was consummated, and an award of plaintiff's costs. On November 28, 2016, plaintiff's counsel informed the Court that the litigation was moot in light of the failure of the consent solicitation (which did not attain the necessary support from the holders of Series G ADSs and Series H ADSs). On January 10, 2017, plaintiff's counsel submitted a motion for attorneys' fees to which the Company submitted an opposition brief on February 3, 2017, which requested that the Court deny the request for attorneys' fees in its entirety. Plaintiff's counsel's motion for attorney's fees was fully briefed on February 17, 2017. On September 26, 2017, the Court issued a decision denying plaintiff's application for an award of attorneys' fees and requiring that any party wishing to restore the case to the Court's active docket do so by October 10, 2017. No party requested that the case be restored to the active docket by the October 10, 2017 deadline. No appeal of the Court's denial of plaintiff's application for an award of attorneys' fees has been taken to date and the time to file an appeal has not yet expired.

On April 1, 2016, Navios Holdings was named as a defendant in a putative shareholder derivative lawsuit brought by two alleged shareholders of Navios Acquisition purportedly on behalf of nominal defendant, Navios Acquisition, in the United States District Court for the Southern District of New York, captioned Metropolitan Capital Advisors International Ltd., et al. v. Navios Maritime Holdings, Inc. et al., No. 1:16-cv-02437. The lawsuit challenged the March 9, 2016 loan agreement between Navios Holdings and Navios Acquisition pursuant to which Navios Acquisition agreed to provide a \$50.0 million credit facility (the "Revolver") to Navios Holdings.

On April 14, 2016, Navios Holdings and Navios Acquisition announced that the Revolver had been cancelled, and that no borrowings had been made under the Revolver. In June 2016, the parties reached an agreement resolving the plaintiffs' application for attorneys' fees and expenses which was approved by an order of the Court. The litigation was dismissed upon notice of the order being provided to Navios Acquisition's shareholders via the inclusion of the order as an attachment to a Navios Acquisition Form 6-K and the payment of \$0.8 million by Navios Acquisition in satisfaction of the plaintiffs' request for attorneys' fees and expenses. A copy of the order was provided as an exhibit to Navios Acquisition's Form 6-K filed with the Securities and Exchange Commission on June 9, 2016.

Navios Logistics had a dispute with Vale regarding the termination date of a COA contract, which was under arbitration proceedings in New York. Related to this arbitration, Navios Logistics issued a letter of credit amounting to \$2.9 million and the total amount was collateralized by a cash deposit, which was presented as restricted cash in the accompanying balance sheets. On February 10, 2017, the arbitration tribunal ruled in favor of Navios Logistics. Vale has been ordered to pay Navios Logistics \$21.5 million, compensating for all unpaid invoices, late payment of invoices, and legal fees incurred. The full amount was received in March 2017, and the collateralized cash amount of \$2.9 million was released.

On March 30, 2016, Navios Logistics received written notice from Vale stating that Vale will not be performing the service contract entered into between Corporacion Navios S.A. and Vale on September 27, 2013, relating to the iron ore port facility in Nueva Palmira, Uruguay. Navios Logistics initiated arbitration proceedings in London on June 10, 2016 pursuant to the dispute resolution provisions of the service contract. On December 20, 2016, a London arbitration tribunal ruled that the Vale port contract remains in full force and effect. If Vale were to further repudiate or renounce the contract, we may elect to terminate the contract and then would be entitled to damages calculated by reference to guaranteed volumes and agreed tariffs for the remaining period of the contract.

Navios Logistics issued a guarantee and indemnity letter that guarantees the performance by Petrolera San Antonio S.A. (a consolidated subsidiary) of all its obligations to Vitol S.A. up to \$12.0 million. This guarantee expires on March 1, 2018.

Pursuant to the Partners Omnibus Agreement, Navios Partners generally agreed not to acquire or own Panamax or Capesize dry bulk carriers under time charters of three or more years without the consent of an independent committee of Navios Partners. In addition, Navios Holdings has agreed to offer to Navios Partners the opportunity to purchase vessels from Navios Holdings when such vessels are fixed under time charters of three or more years.

Navios Holdings entered into an omnibus agreement with Navios Acquisition and Navios Partners (the "Acquisition Omnibus Agreement") in connection with the closing of Navios Acquisition's initial vessel acquisition, pursuant to which, among other things, Navios Holdings and Navios Partners agreed not to acquire, charter-in or own liquid shipment vessels, except for container vessels and vessels that are primarily employed in operations in South America, without the consent of an independent committee of Navios Acquisition. Under the Acquisition Omnibus Agreement, Navios Acquisition and its subsidiaries granted to Navios Holdings and Navios Partners a right of first offer on any proposed sale, transfer or other disposition of any of its dry bulk carriers and related charters owned or acquired by Navios Acquisition. Likewise, Navios Holdings and Navios Partners agreed to grant a similar right of first offer to Navios Acquisition for any liquid shipment vessels it might own. As of September 30, 2017, Navios Holdings had not exercised any part of that option.

Sale of vessels and sale of rights to Navios Partners: Upon the sale of vessels to Navios Partners, Navios Holdings recognizes the gain immediately in earnings only to the extent of the interest in Navios Partners owned by third parties and defers recognition of the gain to the extent of its own ownership interest in Navios Partners (the “deferred gain”). Subsequently, the deferred gain is amortized to income over the remaining useful life of the vessel. The recognition of the deferred gain is accelerated in the event that (i) the vessel is subsequently sold or otherwise disposed of by Navios Partners or (ii) the Company’s ownership interest in Navios Partners is reduced. In connection with the public offerings of common units by Navios Partners, a pro rata portion of the deferred gain is released to income upon dilution of the Company’s ownership interest in Navios Partners. As of September 30, 2017 and December 31, 2016, the unamortized deferred gain for all vessels and rights sold totaled \$10.4 million and \$11.8 million, respectively. For the three month periods ended September 30, 2017 and 2016, Navios Holdings recognized \$0.5 million and \$0.5 million, respectively, of the deferred gain in “Equity in net earnings of affiliated companies” and for the nine months ended September 30, 2017 and 2016, Navios Holdings recognized \$1.4 million and \$1.4 million, respectively, of the deferred gain in “Equity in net earnings of affiliated companies”.

In connection with this agreement, Navios Holdings entered into a registration rights agreement with Navios Partners pursuant to which Navios Partners provided Navios Holdings with certain rights relating to the registration of the common units. Navios Holdings has entered into additional share purchase agreements on December 30, 2016, March 3, 2017, March 23, 2017 and March 31, 2017 for the purchase up to a total of 1,313,399 general partnership interests.

This facility was provided for an arrangement fee of \$0.7 million, is available for up to five drawings and has a fixed interest rate of 8.75%, compounded semi-annually to be paid upon maturity on November 15, 2018. The Company evaluated this transaction in accordance with ASC 860, classifying it as a secured borrowing arrangement. At the date of this transaction, the Company recognized a long-term liability of \$33.5 million, including a premium of \$12.1 million which will be amortized through "Interest expense and finance cost, net" over the term of the loans, until 2023, and is included within "Long-term payables to affiliate companies". Navios Holdings may be required from Navios Partners, under certain conditions, to repurchase the loans after the third anniversary of the date of the transaction based on the then-outstanding balance of the loans. As of September 30, 2017, the balance payable to Navios Partners amounted to \$34.0 million, including the unamortized premium of \$10.9 million.

Quantitative and Qualitative Disclosures about Market Risks

Navios Holdings is exposed to certain risks related to interest rate, foreign currency and charter rate risks. To manage these risks, Navios Holdings may use interest rate swaps (for interest rate risk) and FFAs (for charter rate risk).

Interest Rate Risk

Debt Instruments — On September 30, 2017 and December 31, 2016, Navios Holdings had a total of \$1,663.5 million and \$1,675.4 million, respectively, of long-term indebtedness. The debt is U.S. dollar-denominated and bears interest at a floating rate, except for the 2019 Notes, the 2022 Notes, the 2022 Logistics Senior Notes, the Navios Acquisition Loan and one Navios Logistics' loan discussed in "Liquidity and Capital Resources" that bear interest at a fixed rate.

The interest on the loan facilities is at a floating rate and, therefore, changes in interest rates would affect their related interest expense. As of September 30, 2017, the outstanding amount of the Company's floating rate loan facilities was \$292.5 million. The interest rate on the 2019 Notes, the 2022 Notes, the 2022 Logistics Senior Notes, the Navios Acquisition Loan and one Navios Logistics' loan is fixed and, therefore, changes in interest rates affect their fair value, which as of September 30, 2017 was \$1,244.4 million, but do not affect their related interest expense. A change in the LIBOR rate of 100 basis points would change interest expense for the nine months ended September 30, 2017 by \$2.3 million.

For a detailed discussion of Navios Holdings' debt instruments refer to the section "Long-Term Debt Obligations and Credit Arrangements" included elsewhere in this document.

Foreign Currency Risk

Foreign Currency: In general, the shipping industry is a U.S. dollar dominated industry. Revenue is set mainly in U.S. dollars, and approximately 58.9% of Navios Holdings' expenses are also incurred in U.S. dollars. Certain of our expenses are paid in foreign currencies and a one percent change in the exchange rates of the various currencies at September 30, 2017 would change net income by approximately \$1.1 million for the nine months ended September 30, 2017.

Critical Accounting Policies

Navios Holdings' interim condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires Navios Holdings to make estimates in the application of its accounting policies based on the best assumptions, judgments and opinions of management. Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. All significant accounting policies are as described in the Company's Annual Report on Form 20-F for the year ended December 31, 2016.

Investments in Equity Securities

Navios Holdings evaluates its investments in Navios Acquisition, Navios Partners, Navios Containers, Navios Europe I and Navios Europe II for other-than-temporary impairment (“OTTI”) on a quarterly basis. Consideration is given to (i) the length of time and the extent to which the fair value has been less than the carrying value, (ii) the financial condition and near-term prospects of such companies, and (iii) the intent and ability of the Company to remain its investment in these companies for a period of time sufficient to allow for any anticipated recovery in fair value. As of September 30, 2017 management considers the decline in the market value of its investment in Navios Acquisition to be temporary. However, there is the potential for the future impairment charges relative to these equity securities if their respective fair values do not recover and our OTTI analysis indicates such write downs are necessary which may have a material adverse impact on our results of operations in the period recognized (see also Note 13 included elsewhere in this Report).

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) **Basis of presentation:** The accompanying interim condensed consolidated financial statements are unaudited, but, in the opinion of management, reflect all adjustments for a fair statement of Navios Holdings’ consolidated balance sheets, statements of comprehensive (loss)/income, statements of cash flows and statements of changes in equity for the periods presented. The results of operations for the interim periods are not necessarily indicative of results for the full year. The footnotes are condensed as permitted by the requirements for interim financial statements and accordingly, do not include information and disclosures required under United States generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. All such adjustments are deemed to be of a normal recurring nature. These interim financial statements should be read in conjunction with the Company’s consolidated financial statements and notes included in Navios Holdings’ Annual Report for the year ended December 31, 2016 filed on Form 20-F with the Securities and Exchange Commission (“SEC”).

The Company elected to early adopt the requirements of ASU 2017-01 “Business Combinations” effective beginning the second quarter ending June 30, 2017 and applied this guidance prospectively in the current period presented in the Company’s condensed consolidated financial information. The early adoption of this ASU did not have a material effect on the Company’s consolidated financial statements.

(b) **Principles of consolidation:** The accompanying interim condensed consolidated financial statements include the accounts of Navios Holdings, a Marshall Islands corporation, and its majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated in the consolidated statements.

Subsidiaries: Subsidiaries are those entities in which the Company has an interest of more than one half of the voting rights or otherwise has power to govern the financial and operating policies. The acquisition method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition. The excess of the cost of acquisition over the fair value of the net assets acquired and liabilities assumed is recorded as goodwill. All subsidiaries included in the consolidated financial statements are 100% owned, except for Navios Logistics, which is 63.8% owned.

Investments in Affiliates: Affiliates are entities over which the Company generally has between 20% and 50% of the voting rights, or over which the Company has significant influence, but it does not exercise control. Investments in these entities are accounted for under the equity method of accounting. Under this method the Company records an investment in the stock of an affiliate at cost, and adjusts the carrying amount for its share of the earnings or losses of the affiliate subsequent to the date of investment and reports the recognized earnings or losses in income. Dividends received from an affiliate reduce the carrying amount of the investment. The Company recognizes gains and losses in earnings for the issuance of shares by its affiliates, provided that the issuance of shares qualifies as a sale of shares. When the Company’s share of losses in an affiliate equals or exceeds its interest in the affiliate, the Company does not recognize further losses, unless the Company has incurred obligations or made payments on behalf of the affiliate.

Affiliates included in the financial statements accounted for under the equity method

In the consolidated financial statements of Navios Holdings, the following entities are included as affiliates and are accounted for under the equity method for such periods: (i) Navios Partners and its subsidiaries (ownership interest as of September 30, 2017 was 20.9%, which includes a 2.0% general partner interest); (ii) Navios Acquisition and its subsidiaries (economic interest as of September 30, 2017 was 46.2%); (iii) Acropolis Chartering and Shipping Inc. (“Acropolis”) (economic interest as of September 30, 2017 was 35.0%); (iv) Navios Europe I and its subsidiaries (economic interest as of September 30, 2017 was 47.5%); (v) Navios Europe II and its subsidiaries (economic interest as of September 30, 2017 was 47.5%); and (vi) Navios Containers and its subsidiaries (economic interest as of September 30, 2017 was 5.0%).

(c) *Recent Accounting Pronouncements:*

In May 2017, the Financial Accounting Standards Board (“FASB”) issued ASU 2017-09, “Compensation — Stock Compensation (Topic 718)”. This update provides clarity and reduces both diversity in practice and cost and complexity when applying the guidance in Topic 718 to a change to the terms or conditions of a share-based payment award. The amendments in this update affect any entity that changes the terms or conditions of a share-based payment award and are effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted, including adoption in any interim period, for public business entities for reporting periods for which financial statements have not yet been issued and all other entities for reporting periods for which financial statements have not yet been made available for issuance. The amendments in this Update should be applied prospectively to an award modified on or after the adoption date. The adoption of this new accounting standard is not expected to have material impact on the Company’s results of operations, financial position or cash flows.

In March 2017, FASB issued ASU 2017-08, “Receivables — Nonrefundable Fees and Other Costs (Subtopic 310-20)”. This update amends the amortization period for certain purchased callable debt securities held at a premium and shortens the amortization period for the premium to the earliest call date. The amendments in this update affect all entities that hold investments in callable debt securities that have an amortized cost basis in excess of the amount that is repayable by the issuer at the earliest call date (that is, at a premium). For public business entities, the amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity should apply the amendments in this update on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. Additionally, in the period of adoption, an entity should provide disclosures about a change in accounting principle. The adoption of this new accounting standard is not expected to have material impact on the Company’s results of operations, financial position or cash flows.

In March 2017, FASB issued ASU 2017-07, “Compensation — Retirement Benefits (Topic 715)”. This update improves the presentation of net periodic pension cost and net periodic postretirement benefit cost and includes amendments to the Overview and Background Sections of the FASB Accounting Standards Codification. The amendments in this update apply to all employers that offer to their employees defined benefit pension plans, other postretirement benefit plans, or other types of benefits accounted for under Topic 715. The amendments in this update are effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. The adoption of this new accounting standard is not expected to have material impact on the Company’s results of operations, financial position or cash flows.

In February 2017, FASB issued ASU 2017-05, “Other Income — Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20)”. This update clarifies the scope of Subtopic 610-20 “Other Income — Gains and Losses from the Derecognition of Nonfinancial Assets” and provides guidance for partial sales of nonfinancial assets. Subtopic 610-20, which was issued in May 2014 as a part of ASU 2014-09, “Revenue from Contracts with Customers (Topic 606)”, provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. The amendments in ASU 2017-05 are effective at the same time as the amendments in ASU 2014-09. Therefore, for public entities, the amendments are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. The Company is currently assessing the impact that adopting this new accounting guidance will have on its consolidated financial statements.

In January 2017, FASB issued ASU 2017-04, “Intangibles-Goodwill and Other (Topic 350)”. This update addresses concern expressed about the cost and complexity of the goodwill impairment test and simplifies how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. The amendments in this ASU are required for public business entities and other entities that have goodwill reported in their financial statements and have not elected the private company alternative for the subsequent measurement of goodwill. The amendments are effective for public business entities that are SEC filers for fiscal years beginning after December 15, 2019. Early adoption is permitted for all entities. The Company is currently assessing the impact that adopting this new accounting guidance will have on its consolidated financial statements.

In January 2017, FASB issued ASU 2017-03, “Accounting Changes and Error Corrections (Topic 250) and Investments-Equity Method and Joint Ventures (Topic 323)”. The ASU amends the Codification for SEC staff announcements made at recent Emerging Issues Task Force (EITF) meetings. The SEC guidance that specifically relates to our consolidated financial statement was from the September 2016 meeting, where the SEC staff expressed their expectations about the extent of disclosures registrants should make about the effects of the new FASB guidance as well as any amendments issued prior to adoption, on revenue (ASU 2014-09), leases (ASU 2016-02) and credit losses on financial instruments (ASU 2016-13) in accordance with SAB Topic 11.M. Registrants are required to disclose the effect that recently issued accounting standards will have on their financial statements when adopted in a future

period. In cases where a registrant cannot reasonably estimate the impact of the adoption, then additional qualitative disclosures should be considered. The ASU incorporates these SEC staff views into ASC 250 and adds references to that guidance in the transition paragraphs of each of the three new standards. The adoption of this ASU did not have a material effect on the Company's consolidated financial statements.

In December 2016, FASB issued ASU 2016-20, "Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers". The amendments in this ASU affect narrow aspects of the guidance issued in ASU 2014-09, which is not yet effective, and are of a similar nature to the items typically addressed in the Technical Corrections and Improvements project. The effective date and transition requirements for the amendments are the same as the effective date and transition requirements for Topic 606 (and any other Topic amended by Update 2014-09). ASU 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date", defers the effective date of Update 2014-09 by one year, as noted below.

In November 2016, FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash". This update addresses the classification and presentation of changes in restricted cash on the statement of cash flows under Topic 230, Statement of Cash Flows. The amendments are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted for all entities. The Company is currently assessing the impact of ASU 2016-18 and do not anticipate a material impact on our financial position, results of operations or cash flows.

In August 2016, FASB issued ASU 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments". This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The amendments are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted for all entities. The Company is currently assessing the impact that adopting this new accounting guidance will have on its consolidated financial statements and footnotes disclosures.

In February 2016, FASB issued ASU 2016-02, "Leases (Topic 842)". ASU 2016-02 will apply to both capital (or finance) leases and operating leases. According to ASU 2016-02, lessees will be required to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. The Company is currently assessing the impact that adopting this new accounting guidance will have on its consolidated financial statements and footnotes disclosures.

In January 2016, FASB issued ASU 2016-01, "Financial Instruments — Overall (Subtopic 825-10) — Recognition and Measurement of Financial Assets and Financial Liabilities". The amendments in this ASU require an entity (i) to measure equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) at fair value with changes in fair value recognized in net income; (ii) to perform a qualitative assessment to identify impairment in equity investments without readily determinable fair values; (iii) to present separately in other comprehensive income the fair value of a liability resulting from a change in the instrument-specific credit risk; and (iv) to present separately financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet. The amendments also eliminate the requirement, for public business entities, to disclose the methods and significant assumptions used to estimate the fair value of financial instruments measured at amortized cost on the balance sheet and clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. For public business entities, ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently assessing the impact that adopting this new standard will have on its consolidated financial statements.

In May 2014, FASB issued ASU 2014-09, "Revenue from Contracts with Customers", clarifying the method used to determine the timing and requirements for revenue recognition on the statements of income. Under the new standard, an entity must identify the performance obligations in a contract, the transaction price and allocate the price to specific performance obligations to recognize the revenue when the obligation is completed. The amendments in this update also require disclosure of sufficient information to allow users to understand the nature, amount, timing and uncertainty of revenue and cash flow arising from contracts. The new accounting guidance was originally effective for interim and annual periods beginning after December 15, 2016. In August 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 for all entities by one year. The standard will be effective for public entities for annual reporting periods beginning after December 15, 2017 and interim periods therein. The Company is considering the business assumptions, processes, systems and controls to fully determine revenue recognition and disclosure under the new standard. The Company's initial assessment may change as the Company continues to review the new guidance.

Secured Credit Facilities

As of September 30, 2017, the Company had secured credit facilities with various banks with a total outstanding balance of \$222,657. The purpose of the facilities was to finance the construction or acquisition of vessels or refinance existing indebtedness. All of the facilities are denominated in U.S. dollars and bear interest based on LIBOR plus spread ranging from 2.55% to 3.60% per annum. The facilities are repayable in either semi-annual or quarterly installments, followed by balloon payments with maturities, ranging from November 2018 to November 2022. See also the maturity table included below.

The facilities are secured by first priority mortgages on certain of Navios Holdings' vessels and other collateral.

The credit facilities contain a number of restrictive covenants that limit Navios Holdings and/or certain of its subsidiaries from, among other things: incurring or guaranteeing indebtedness; entering into affiliate transactions; charging, pledging or encumbering the vessels securing such facilities; changing the flag, class, management or ownership of certain Navios Holdings' vessels; changing the commercial and technical management of certain Navios Holdings' vessels; selling or changing the ownership of certain Navios Holdings' vessels; and subordinating the obligations under the credit facilities to any general and administrative costs relating to the vessels. The credit facilities also require the vessels to comply with the ISM Code and ISPS Code and to maintain valid safety management certificates and documents of compliance at all times. Additionally, the credit facilities require compliance with the covenants contained in the indentures governing the 2019 Notes (as defined below) and the 2022 Notes (as defined below). Among other events, it will be an event of default under the credit facilities if the financial covenants are not complied with or if Angeliki Frangou and her affiliates, together, own less than 20% of the outstanding share capital of Navios Holdings.

The majority of the Company's senior secured credit facilities require compliance with maintenance covenants, including (i) value-to-loan ratio covenants, based on either charter-adjusted valuations, or charter-free valuations, ranging from over 110% to 130%, (ii) minimum liquidity up to a maximum of \$30,000, and (iii) net total debt divided by total assets, as defined in each senior secured credit facility, ranging from a maximum of 75% to 80%. Certain covenants in our senior secured credit facilities have been waived for a specific period of time up to a maximum of five quarters (from the current balance sheet date) and/or amended to include (i) value-to-loan ratio covenants, based on either charter-adjusted valuations, or charter-free valuations, ranging from over 110% to 135%, and (ii) net total debt divided by total assets, as defined in each senior secured credit facility, to a maximum of 90%.

As of September 30, 2017, the Company was in compliance with all of the covenants under each of its credit facilities.

The 2019 Notes are fully and unconditionally guaranteed, jointly and severally and on an unsecured senior basis, by all of the Company's subsidiaries, other than Navios Maritime Finance II (US) Inc., Navios Maritime Finance (US) Inc., Navios Logistics and its subsidiaries and Navios GP L.L.C. The subsidiary guarantees are "full and unconditional", except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as when a subsidiary is sold or all of the assets of the subsidiary are sold, the capital stock is sold, when the subsidiary is designated as an "unrestricted subsidiary" for purposes of the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2019 Notes. The 2019 Co-Issuers have the option to redeem the 2019 Notes in whole or in part, at par plus accrued and unpaid interest, if any. In addition, upon the occurrence of certain change of control events, the holders of the 2019 Notes will have the right to require the 2019 Co-Issuers to repurchase some or all of the 2019 Notes at 101% of their face amount, plus accrued and unpaid interest to the repurchase date.

The 2019 Notes contain covenants which, among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering in transactions with affiliates, merging or consolidating or selling all or substantially all of the 2019 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2019 Co-Issuers were in compliance with the covenants as of September 30, 2017.

Ship Mortgage Notes

On November 29, 2013, Navios Holdings completed the sale of \$650,000 of its 7.375% First Priority Ship Mortgage Notes due 2022 (the "2022 Notes"). The net proceeds of the offering of the 2022 Notes have been used: (i) to repay, in full, \$488,000 of first priority ship mortgage notes due on November 1, 2017, issued by the Company and its wholly-owned subsidiary, Navios Maritime Finance (US) Inc. in November 2009 and July 2012; and (ii) to repay, in full, indebtedness relating to six vessels added as collateral under the 2022 Notes. The remainder has been used for general corporate purposes.

The 2022 Notes are senior obligations of Navios Holdings and Navios Maritime Finance II (US) Inc. (the "2022 Co-Issuers") and were originally secured by first priority ship mortgages on 23 dry bulk vessels owned by certain subsidiary guarantors and certain other associated property and contract rights. In June 2017, Navios Ionian and Navios Horizon were released from the 2022 Notes and replaced by the Navios Galileo which was secured by a first priority ship mortgage. The 2022 Notes are unregistered and fully and unconditionally guaranteed, jointly and severally by all of the Company's direct and indirect subsidiaries that guarantee the 2019 Notes and Navios Maritime Finance II (US) Inc. The guarantees of the Company's subsidiaries that own mortgaged vessels are senior secured guarantees and the guarantees of the Company's subsidiaries that do not own mortgaged vessels are senior unsecured guarantees. In addition, the 2022 Co-Issuers have the option to redeem the 2022 Notes in whole or in part, at any time on or after January 15, 2017, at a fixed price of 105.531%, which price declines ratably until it reaches par in 2020.

Furthermore, upon occurrence of certain change of control events, the holders of the 2022 Notes may require the 2022 Co-Issuers to repurchase some or all of the notes at 101% of their face amount. The 2022 Notes contain covenants, which among other things, limit the incurrence of additional indebtedness, issuance of certain preferred stock, the payment of dividends, redemption or repurchase of capital stock or making restricted payments and investments, creation of certain liens, transfer or sale of assets, entering into certain transactions with affiliates, merging or consolidating or selling all or substantially all of the 2022 Co-Issuers' properties and assets and creation or designation of restricted subsidiaries. The 2022 Co-Issuers were in compliance with the covenants as of September 30, 2017.

("Logistics Finance" and together with Navios Logistics, the "Logistics Co-Issuers") completed the sale of \$375,000 in aggregate principal amount of Senior Notes due on May 1, 2022 (the "2022 Logistics Senior Notes"), at a fixed rate of 7.25%. The net proceeds from the sale of the 2022 Logistics Senior Notes were partially used to redeem any and all of Navios Logistics then-outstanding 9.25% Senior Notes due 2019 (the "2019 Logistics Senior Notes") and pay related transaction fees and expenses. The 2022 Logistics Senior Notes are unregistered and fully and unconditionally guaranteed, jointly and severally, by all of Navios Logistics' direct and indirect subsidiaries except for Horamar do Brasil Navegação Ltda ("Horamar do Brasil"), Naviera Alto Parana S.A. ("Naviera Alto Parana") and Terra Norte Group S.A. ("Terra Norte"), which do not guarantee the 2022 Senior Notes pursuant to certain exceptions under the indenture, and Logistics Finance, which is the co-issuer of the 2022 Logistics Senior Notes. The subsidiary guarantees are "full and unconditional," except that the indenture provides for an individual subsidiary's guarantee to be automatically released in certain customary circumstances, such as in connection with a sale or other disposition of all or substantially all of the assets of the subsidiary, in connection with the sale of a majority of the capital stock of the subsidiary, if the subsidiary is designated as an "unrestricted subsidiary" in accordance with the indenture, upon liquidation or dissolution of the subsidiary or upon legal or covenant defeasance or satisfaction and discharge of the 2022 Logistics Senior Notes.

As of September 30, 2017, all subsidiaries, including Logistics Finance, Horamar do Brasil, Naviera Alto Parana and Terra Norte are 100% owned. Logistics Finance, Horamar do Brasil, and Terra Norte do not have any independent assets or operations.

In addition, there are no significant restrictions on (i) the ability of the parent company, any issuer (or co-issuer) or any guarantor subsidiaries of the 2022 Logistics Senior Notes to obtain funds by dividend or loan from any of their subsidiaries or (ii) the ability of any subsidiaries to transfer funds to the issuer (or co-issuer) or any guarantor subsidiaries.

The 2022 Logistics Co-Issuers were in compliance with the covenants as of September 30, 2017.

NOTE 6: FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits and money market funds approximate their fair value because of the short maturity of these investments.

Restricted cash: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

Borrowings: The book value has been adjusted to reflect the net presentation of deferred financing costs. The outstanding balance of the floating rate loans continues to approximate its fair value, excluding the effect of any deferred finance costs. The 2019 Notes, the 2022 Notes, the 2022 Logistics Senior Notes, the Navios Acquisition Loan and one Navios Logistics' loan are fixed rate borrowings and their fair value was determined based on quoted market prices.

Capital leases: The capital leases are fixed rate obligations and their carrying amounts approximate their fair value.

Loan receivable from affiliate companies: The carrying amount of the floating rate loan approximates its fair value.

Loan payable to affiliate company: The carrying amount of the fixed rate loan approximates its fair value.

Long-term receivable from affiliate company: The carrying amount of the floating rate receivable approximates its fair value.

Long-term payable to affiliate companies: The carrying amount of the long-term payable approximates its fair value.

The estimated fair values of the Company's financial instruments are as follows:

NOTE 7: COMMITMENTS AND CONTINGENCIES

As of September 30, 2017, the Company was contingently liable for letters of guarantee and letters of credit amounting to \$590 (December 31, 2016: \$590) issued by various banks in favor of various organizations and the total amount was collateralized by cash deposits, which were included as a component of restricted cash.

Navios Logistics has issued a guarantee and indemnity letter that guarantees the performance by Petrolera San Antonio S.A. (a consolidated subsidiary) of all its obligations to Vitol S.A. up to \$12,000. This guarantee expires on March 1, 2018.

The Company is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where the Company believes that a liability may be probable, and for which the amounts can be reasonably estimated, based upon facts known on the date the financial statements were prepared. Although the Company cannot predict with certainty the ultimate resolutions of these matters, in the opinion of management, the ultimate disposition of these matters is not expected to have a material adverse effect on the Company's financial position, results of operations or liquidity.

Navios Logistics had a dispute with Vale International S.A. ("Vale") regarding the termination date of a COA contract, which was under arbitration proceedings in New York. Related to this arbitration, Navios Logistics issued a letter of credit amounting to \$2,900 and the total amount was collateralized by a cash deposit, which was presented as restricted cash in the accompanying balance sheets. On February 10, 2017, the arbitration tribunal ruled in favor of Navios Logistics. Vale has been ordered to pay Navios Logistics \$21,500, compensating for all unpaid invoices, late payment of invoices, and legal fees incurred. The full amount was received in March 2017, and the collateralized cash amount of \$2,900 was released.

On March 30, 2016, Navios Logistics received written notice from Vale stating that Vale will not be performing the service contract entered into between CNSA and Vale on September 27, 2013, relating to the iron ore port facility in Nueva Palmira, Uruguay. Navios Logistics initiated arbitration proceedings in London on June 10, 2016 pursuant to the dispute resolution provisions of the service contract. On December 20, 2016, a London arbitration tribunal ruled that the Vale port contract remains in full force and effect. If Vale were to further repudiate or renounce the contract, we may elect to terminate the contract and then would be entitled to damages calculated by reference to guaranteed volumes and agreed tariffs for the remaining period of the contract.

The Company, in the normal course of business, entered into contracts to time charter-in vessels for various periods through 2026.

The shares were valued at fair value upon the day of issuance. The shares received from KLC and STX were accounted for under the guidance for available-for-sale securities (the "AFS Securities").
