 - **Operating efficiencies and low cost structure**

MONACO- May 25, 2016 (GLOBE NEWSWIRE) — Navios Maritime Holdings Inc. (“Navios Holdings” or “the Company”) (NYSE: NM), a global, vertically integrated seaborne shipping and logistics company, today reported financial results for the first quarter ended March 31, 2016.

Angeliki Frangou, Chairman and Chief Executive Officer, stated, “Navios Holdings had a solid first quarter performance, earning \$45.4 million in EBITDA, an increase of 73% compared to the same period last year. Our balance sheet is strong, with \$156.6 million of cash as of March 31, 2016, and flexible, with about 83% of our total debt in bonds that have no loan to value maintenance requirement. We also worked hard to improve our liquidity through more than \$45 million of cost savings initiatives, and anticipate no longer having to fund working capital needs of our public affiliates in the future.”

Angeliki Frangou continued: “We are proud of our overall cost management. General and administrative expenses, on a per available day basis, makes us one of the lowest compared to our publicly listed shipping peers, particularly having reduced 2016 general and administrative expenses by an estimated 35% over 2015, on a run rate basis. Operating costs are 42% less than the industry average, excluding embedded fees that certain peers charge that we do not. Overall, we believe we have one of the leading cost containment programs in the industry.”

HIGHLIGHTS — RECENT DEVELOPMENTS

Cost Efficient Liquidity Management

Navios Holding actively monitors its cost exposure and cash flows having developed significant efficiencies from in-house capabilities and economies of scale for its controlled and managed fleet. The immediate benefits of these efforts to Navios Holdings cost structure were:

- \$14.9 million from the early settlement of charter claims in Q1 2016
- ~\$23.0 million estimated reduction of charter-in costs over the next 12 months
- ~\$7.0 million estimated annualized G&A reduction in 2016 run rate basis Q1 2016; 35% decrease compared to 2015
- Operating costs ~42% lower than industry average

Navios Holdings shares its economies of scale with its affiliates by offering management and commercial services at flat rates without charging additional fees or commissions for commercial management, sales or purchase transactions, originating any loan or otherwise. However, such significant cost benefits shared with affiliates should no longer require any working capital advances by Navios Holdings.

Time Charter Coverage

Navios Holdings controls a fleet of 61 vessels totaling 6.3 million dwt, of which 40 are owned and 21 are chartered-in under long-term charters (collectively, the "Core Fleet"). Navios Holdings currently operates 57 vessels (19 Capesize, 18 Panamax, 18 Ultra Handymax and two Handysize vessels) totaling 5.9 million dwt. The current average age of the operating fleet is 7.5 years. Additionally, Navios Holdings has four newbuilding charter-in vessels expected to be delivered at various dates beginning in the fourth quarter of 2016 until 2017.

As of May 4, 2016, Navios Holdings has chartered-out 81.4% and 34.1% of available days for the remaining nine months of 2016 and for 2017, respectively (including index-linked charters), which are expected to generate \$76.9 million and \$19.6 million in base revenue, respectively. The average daily charter-out base rate for the Core Fleet is \$9,599 and \$15,416 for the remaining nine months of 2016 and for 2017, respectively. The average daily charter-in rate for the active long-term charter-in vessels for the remaining nine months of 2016 is estimated at \$11,613.

The above figures do not include the fleet of Navios South American Logistics Inc. ("Navios Logistics") and vessels servicing contracts of affreightment.

Exhibit II provides certain details of the Core Fleet of Navios Holdings. It does not include the fleet of Navios Logistics.

Earnings Highlights

EBITDA is a non-U.S. GAAP financial measure and should not be used in isolation or as substitution for Navios Holdings' results calculated in accordance with U.S. GAAP.

See Exhibit I under the heading, "Disclosure of Non-GAAP Financial Measures," for a discussion of EBITDA of Navios Holdings (including Navios Logistics), and Navios Logistics (on a stand-alone basis), and a reconciliation of such measures to the most comparable measure calculated under U.S. GAAP.

First Quarter 2016 and 2015 Results (in thousands of U.S. dollars, except per share data and unless otherwise stated):

The first quarter 2016 and 2015 information presented below was derived from the unaudited condensed consolidated financial statements for the respective periods.

	Three Month Period Ended March 31, 2016	Three Month Period Ended March 31, 2015
	(unaudited)	(unaudited)
Revenue	\$ 101,487	\$ 118,280
Net Loss	\$ (7,465)	\$ (26,678)
EBITDA	\$ 45,424	\$ 26,241
Basic Loss per Share	\$ (0.11)	\$ (0.29)

Revenue from dry bulk vessel operations for the three months ended March 31, 2016 was \$46.3 million as compared to \$53.2 million for the same period during 2015. The decrease in dry bulk revenue was mainly attributable to a decrease in the time charter equivalent rate (“TCE”) per day by 2.6% to \$7,008 per day in the first quarter of 2016, as compared to \$7,196 per day in the same period of 2015. This decrease was partially mitigated by a net increase in available days of our fleet by 621 days.

Revenue from the logistics business was \$55.2 million for the three months ended March 31, 2016 as compared to \$65.1 million for the same period during 2015. The decrease was mainly attributable to a decrease of \$10.5 million in sales of products in the liquid terminal, due to lower volume and lower price of products sold, partially mitigated by higher revenue in the barge segment due to increased dry and liquid cargoes transported.

Net Loss of Navios Holdings for the three months ended March 31, 2016 was \$7.5 million as compared to \$26.7 million for the same period of 2015. The \$19.2 million decrease in Net Loss was mainly due to (i) an increase in EBITDA by \$19.2 million; (ii) a decrease in depreciation and amortization by \$1.4 million; and (iii) a decrease in interest expense and finance cost, net by \$0.2 million. This overall decrease was partially mitigated by (i) an increase in amortization for deferred drydock and special survey costs of \$0.4 million; (ii) an increase in income tax expense of \$1.1 million; and (iii) an increase in share-based compensation expense of \$0.1 million.

EBITDA of Navios Holdings for the three months ended March 31, 2016 increased by \$19.2 million to \$45.4 million as compared to \$26.2 million for the same period of 2015. The \$19.2 million increase in EBITDA was primarily due to (i) a \$23.5 million decrease in time charter, voyage and logistics business expenses; (ii) a \$1.1 million decrease in direct vessel expenses (excluding the amortization of deferred drydock and special survey costs); (iii) a \$13.6 million increase in other income, net; and (iv) a \$0.5 million decrease in general and administrative expenses (excluding share-based compensation expenses). This overall increase of \$38.7 million was partially mitigated by (i) a \$16.8 million decrease in revenue; (ii) a \$1.8 million increase in net income attributable to the noncontrolling interest; and (iii) a \$0.9 million decrease in equity in net earnings from affiliated companies.

EBITDA of Navios Logistics was \$21.1 million for the three month period ended March 31, 2016 as compared to \$15.6 million for the same period in 2015.

Fleet Summary Data:

The following table reflects certain key indicators indicative of the performance of the Navios Holdings' dry bulk operations (excluding the Navios Logistics fleet) and its fleet performance for the first quarter ended March 31, 2016 and 2015, respectively.

	Three Month Period Ended March 31, 2016 (Unaudited)	Three Month Period Ended March 31, 2015 (Unaudited)
Available Days (1)	5,960	5,339
Operating Days (2)	5,861	5,289
Fleet Utilization (3)	98.4%	99.1%
Equivalent Vessels (4)	65	59
TCE (5)	\$ 7,008	\$ 7,196

- (1) Available days for the fleet are total calendar days the vessels were in Navios Holdings' possession for the relevant period after subtracting off-hire days associated with major repairs, drydocking or special surveys. The shipping industry uses available days to measure the number of days in a relevant period during which vessels should be capable of generating revenues.
- (2) Operating days are the number of available days in the relevant period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a relevant period during which vessels actually generate revenues.
- (3) Fleet utilization is the percentage of time that Navios Holdings' vessels were available for generating revenue, and is determined by dividing the number of operating days during a relevant period by the number of available days during that period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels.
- (4) Equivalent Vessels is defined as the total available days during a relevant period divided by the number of days of this period.
- (5) TCE is defined as voyage and time charter revenues less voyage expenses during a relevant period divided by the number of available days during the period.

Forward Looking Statements - Safe Harbor

This press release contains forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) concerning future events, including 2016 cash flow generation, future contracted revenues, opportunities to reinvest cash accretively in a fleet renewal program or otherwise, potential capital gains, our ability to take advantage of dislocation in the market, and Navios Holdings' growth strategy and measures to implement such strategy; including expected vessel acquisitions and entering into further time charters. Words such as "may," "expects," "intends," "plans," "believes," "anticipates," "hopes," "estimates," and variations of such words and similar expressions are intended to identify forward-looking statements. Such statements include comments regarding expected revenue and time charters. These forward-looking statements are based on the information available to, and the expectations and assumptions deemed reasonable by Navios Holdings at the time these statements were made. Although Navios Holdings believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. These statements involve known and unknown risks and are based upon a number of assumptions and estimates which are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of Navios Holdings. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to uncertainty relating to global trade, including prices of seaborne commodities and continuing issues related to seaborne volume and ton miles, our continued ability to enter into long-term time charters, our ability to maximize the use of our vessels, expected demand in the dry cargo shipping sector in general and the demand for our Panamax, Capesize and UltraHandymax vessels in particular, fluctuations in charter rates for dry cargo carriers vessels, the aging of our fleet and resultant increases in operations costs, the loss of any customer or charter or vessel, the financial condition of our customers, changes in the availability and costs of funding due to conditions in the bank market, capital markets and other factors, increases in costs and expenses, including but not limited to: crew wages, insurance, provisions, port expenses, lube oil, bunkers, repairs, maintenance, and general and administrative expenses, the expected cost of, and our ability to comply with, governmental regulations and maritime self-regulatory organization standards, as well as standard regulations imposed by our charterers applicable to our business, general domestic and international political conditions, competitive factors in the market in which Navios Holdings operates; risks associated with operations outside the United States; and other factors listed from time to time in Navios Holdings' filings with the Securities and Exchange Commission, including its Form 20-F's and Form 6-K's. Navios Holdings expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Navios Holdings' expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based. Navios Holdings makes no prediction or statement about the performance of its common stock.

Disclosure of Non-GAAP Financial Measures

EBITDA represents net (loss)/income attributable to Navios Holdings' common stockholders before interest and finance costs, before depreciation and amortization, before income taxes and before stock-based compensation, if any, unless otherwise stated. EBITDA is a "non-GAAP financial measure" and should not be considered substitute for net (loss)/income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with generally accepted accounting principles in the United States. Navios Holdings believes that EBITDA is a basis upon which liquidity can be assessed.

EBITDA is presented to provide additional information with respect to the ability of Navios Holdings to satisfy its respective obligations, including debt service, capital expenditures, working capital requirements and pay dividends. While EBITDA is frequently used as measure of operating results and the ability to meet debt service requirements, the definition of EBITDA used here may not be comparable to those used by other companies due to differences in methods of calculation.

Navios Logistics EBITDA is used to measure the company's operating performance.

The following tables provide a reconciliation of EBITDA of Navios Holdings (including Navios Logistics) and EBITDA of Navios Logistics on a stand-alone basis:

Navios Maritime Holdings Inc. Receives Continued Listing Standards Notice From NYSE

MONACO, June 13, 2016 (GLOBE NEWSWIRE) — Navios Maritime Holdings Inc. (“Navios Holdings” or the “Company”) (NYSE:NM) announced today that on June 7, 2016, the Company was notified by the New York Stock Exchange, Inc. (“NYSE”) that it is no longer in compliance with the NYSE’s continued listing standards because the average closing price of the Company’s common stock over a consecutive 30 trading-day period was less than \$1.00 per share. The NYSE’s notification has no impact on the Company’s business operations.

The Company will respond to the NYSE to confirm its intent to cure this deficiency within the prescribed timeframe set out in the NYSE’s Listed Company Manual. During this time, the Company’s common stock will continue to be listed and trade on the NYSE. The NYSE’s notification does not affect the Company’s Securities and Exchange Commission reporting requirements.
